LB 1002

do. Somebody holler out a name and I will pick one of these other ones. Oh, hell, I don't have Bellwood. I mean some reasonable, I mean someplace that is on the map. I will get you this column back. My point is, as I say, these formulas that one year we tie to land and then we switch and switch and switch, they are wild and they are creating this wild thing. If you remember I tried to get this ADM passed a couple of years ago. Remember, I gave you the figures and I showed a student over here worth \$282. If he happens to be in Bellevue, why he is the most valuable student that ever hiked down the pike. You'd think they had gold for clothes there. But anyway, you get up to Neligh, the students get cheaper. Shoot! I think our Neligh students were only worth \$25, \$26, \$30 there for awhile. Now they looked the same as the Bellwood students. The girls are built, I can tell you, they are built just the same. The guys look just about the same, wear the same kind of pants, but as far as we are concerned down here, they are completely different animals. Neligh students, they are worth \$25, \$30. I think it is time when we are dealing with these amounts of money...

SENATOR CLARK: You have thirty seconds left.

SENATOR DeCAMP: ...seventy-five a hundred, whatever numbers, that we start using a system that everybody understands. ADM is understandable but it takes money to do it. I urge you to support the amendment and then be up front and support the money it takes to fund it.

SENATOR CLARK: Senator Hefner.

SENATOR HEFNER: Mr. Chairman, I call the question.

SENATOR CLARK: The question has been called for. Do I see five hands? I do. All those in favor of ceasing debate vote aye, all those opposed vote nay.

CLERK: Senator Clark voting aye.

SENATOR CLARK: Record the vote.

CLERK: 27 ayes, 1 nay, Mr. President, to cease debate.

SENATOR CLARK: Senator Kahle, do you wish to close?

SENATOR KAHLE: Mr. President and members, I think everything has been said. The issue has been debated many years before.
