LB 991

toys as they have been called. What you said shows more than anything else, the hypocrisy and uselessness of it all. Senator Nichol, I am with you about doing away with these businesses that entice our young people and make it seem that these terrible drugs are all right like the liquor industry which is supported by the Christian members of this Legislature. The newspapers and magazines which advertise liquor and glamorize it, the athletes praise it and make it all right and that is okay. The lobbyists take the senators over to liquor them up and they read in the paper how, when there was a bomb threat some of the Christian senators out on the lawn said, I think I am going over to the lobbyist's place to have a snort. This is the hypocrisy that the children see. Then you are going to stand up here and put on your holy clothes and tell them, I am passing this paraphernalia bill to save you. Save them from what? From parents they cannot talk to? From adults who will lie to them? Who will tell them that your drug is wrong because it is not legal but mine is all right because it is legal and pays a lot of money to a lot of people? What difference is the aspect of the Maffia that is involved in illegal liquor sales and the part that sells illegal drugs? It is all the same and the children see it. So we don't need to talk, Senator Kahle, about who is raising whose children and I probably get along with my ex-wife better than most of the married men in here get along with their wives. My wife doesn't have to tag along behind me to see what I am doing. If we are going to make comparisons about who is what, I would welcome it, run around here with Christian buttons on and then look at the votes. What good is all of this hypocrisy having the form of God in this but denying the power thereof? Senator Kremer, didn't the hypocrites used to run around with these little prayer boxes that the whole world could see and they would stand on the corners spouting their prayers and say, I am so religious and holy, but when time came to put up a life to back it up the life was not there? It should not be possible for lobbyists to have a budget to liquor up the Legislature. Then this same Legislature is going to protect the youth from drugs. This is preposterous. It is why I wouldn't think of joining my name to any of these religious cults. When time comes for us to make a change in the world we should have a philosophy, an ethical code of conduct to present to these young people and show them by example that this is the way to live. This is the way to keep your mind clear. This is the way to find the path to walk that is going to make you the kind of person you want to be and that we teach you you ought to be but we cannot do that. Instead we pass a bill that says, if you have a pipe of a certain configuration you can go to jail for that.
