

on it. I feel that this is just one of the examples of why government costs so much money. It is because we go around creating these kind of jobs so that the guy that is to perform the job, that started out by asking that the bill be introduced in the first place would have a soft spot so he wouldn't have to do the job. He could hire somebody else to do the job and let him go off wandering off doing these other things. For that reason I just made this motion for your consideration, you can do whatever you want to, but you know what the story is.

SPEAKER MARVEL: The motion is to bring the bill back for a specific amendment. All those in favor of returning the bill, Senator Keyes.

SENATOR KEYES: Just one comment on Glenn Goodrich. Glenn Goodrich don't happen to know exactly what is going on in his county. He is a little mistaken. They have an engineer and they have a surveyor right now. Glenn Goodrich, if you would just study it, you would understand that. Thank you.

SPEAKER MARVEL: The motion is the return of the bill for the specific amendment. Senator Newell.

SENATOR NEWELL: Mr. President, Senator Goodrich is not only inaccurate but he is confused. Senator Keyes point is well taken. The fact is right now we have an office called County Surveyor. If a county surveyor and you can be either a county surveyor or a county engineer and you are qualified to run for that office. But if you are elected then you have to hire the other person. If you are an engineer you have to hire a surveyor and if you are a surveyor you have to hire an engineer. Now all this bill does is it says you have to be an engineer when you run. With the Stoney amendment you have to be a civil engineer when you run and then you have to hire a county surveyor. It doesn't add any positions. I don't know what the politics are. If there are any politics involved in it, it is Glenn Goodrich's personal vendetta's as usual and it doesn't need to be returned.

SPEAKER MARVEL: The motion is to return the bill. Senator Goodrich, do you want to close on your motion?

SENATOR GOODRICH: Just one brief statement. Since it has been stated, at least I am being accused of being the one that is entered into the politics of the situation. I didn't introduce this bill. I was just responding to the improper introduction of a bill for an improper reason. Thank you.
