presented. We have, I believe, close to a dozen of those. If we move rapidly, we may be able to finish up this afternoon yet with the following rules changes but I think we should keep in mind that they are rather lengthy and of some controversy and so we do need to move quickly and work diligently on them because there are a number of them before us. So at this time I think dealing with the fourth division of the rules which is all the remaining rules other than those three we just discussed, I think the amendments that are up there now are in order to be presented. It was in sanskrit but to translate loosely for you it went something like this. "I had no respect for law
