SPEAKER MARVEL: Senator Goodrich.

SENATOR GOODRICH: Mr. President and members of the body,
would Senator Dworak come back to his mike, I need to
ask him a couple of questions. Would Senator Dworak yield
to a couple of questions, please. Now the reason I am
going to ask Senator Dworak a couple of questions is the
very fact that he has got it just backwards from what it
actually is in the bill, and I would like to remind you,
number one that this is not my bill, there is nothing
wrong with the bill, but it is not my bill. And since I
was challenged in the newspaper over the weekend here in
Lincoln, I will really state I am an electrical contractor,
I deal in this subject matter, but I am not...I don't have
any conflict of interest with this particular bill, so I
want to lay it out for you right quick. All right, Senator
Dworak, on page 6, you were saying, for example, that you
are trying to get to the meaning of Section 9 on page 7,
but in order to do that you go back to line 3 on page 6,
it says, "nothing in Section 81-571 to 81-5114 shall be
construed to", in other words nothing in this section shall
be construed to do what these various things are as are
listed here. Nothing in this legislation shall be con-
strued to require the registration of apprentice electri-
cians in municipalities which have a population of less
than 5,000 inhabitants.

SENATOR DWORAK: Thank you, Senator Goodrich, for pointing
that out to me. I have no opposition to the bill.

SENATOR GOODRICH: Thank you.

SENATOR CLARK PRESIDING

SENATOR CLARK: Senator Haberman.

SENATOR HABERMAN: Mr. President, fellow colleagues, may
Senator Rumery respond to a question, please. Senator
Rumery, does this mean in Imperial, Nebraska, population
of 1700 people, a young man is working for a electrician,
does this mean he has to get a license and be registered?

SENATOR RUMERY: No. No. You are not 5,000 population.

SENATOR HABERMAN: No, it says under 5,000.

SENATOR RUMERY: No, it exempts under 5,000.

SENATOR HABERMAN: It says under 5,000. Okay, I have no
questions with it then. Thank you, Senator Rumery.
