not going to be built for a variety of reasons, environmental costs, eminent domain and many other reasons. You start talking about building a project and immediately you have a whole group of people that rise up in arms to it. We all know that, but yet it is nice to stand up on the floor and make glowing speeches about how we need to store more water. But now when we are talking about an issue where we might be able to save some of that water in the State of Nebraska although it might not be in your area, it might not be in your basin, you might have to drive a couple hundred miles to go fish in it, suddenly you don't want to do that and you want to put language in the statutes that I assure you is going to prohibit it from happening. I suggest that reasonable people that are of conservative nature should agree with me to remove the language in lines 13 and 14.
