original agenda which was published last Friday. So I will move that we follow the Speaker's agenda as circulated last Friday.

PRESIDENT: I realize that is what you are doing, however, the way the Speaker has presented the agenda this morning and that is his prerogative and his privilege to adjust the agenda to meet circumstances as he sees them, since he has changed it, then the only way you can change it back is to make a motion to overrule that and go back to the original. Speaker Marvel, don't you agree that is the only way we can get this thing to a head and move along?

SPEAKER MARVEL: Well there have been some comments made and I know they are sincere but there has been no deal made. I learned that early in the game and I think those who are pushing for a change basically are sincere in the fact that they want A bills that have general fund implication, they want those put in a different category than the others. Maybe I could ask Senator Lamb a question and try to understand.

PRESIDENT: Senator Lamb, would you respond.

SPEAKER LAMB: Yes.

And it looks to me like it may be well down toward the very end of the session. I don't think the Legislature should have to do that sort of thing and as Senator Warner has indicated, other years we have not done that under the identical motion which Senator Warner made early in the session. So it is my belief that we should go ahead and read these bills as planned today and tomorrow.

SPEAKER MARVEL: If we don't, then what is the dilemma as far as you are concerned? Mr. President, in order to try
