

May 18, 1981

earlier in the day that we would start at eight o'clock in the morning and it might be that the Speaker would have a word with you.

SPEAKER MARVEL: In order to try to dig out enough hours so that we can complete the legislation which is yours, we need to constantly find some extra time. So with your cooperation we would propose to start tomorrow at eight o'clock and see if we can't get through a portion of the agenda and then be in a better position when the eighty-eighth day comes along. When the eighty-eighth day comes along and we have not taken advantage of time, then we are in deep trouble. So the motion is to adjourn until 8:00 A.M. tomorrow.

SENATOR NICHOL: All those in favor say aye, opposed nay. We are adjourned.
