LB 770, 684

have the protection, the accountability that comes with written contracts and written records.

SPEAKER MARVEL: You have 30 seconds.

SENATOR BEUTLER: So, therefore, I would ask you to look carefully at the committee's rationale. Is it really an acceptable rationale to say, there is a person in the office now who has taken 8 months to get a job done and has not gotten it done? Even if that person is getting it done, is it enough to say that there is no need for a law then to put into place basic business concepts to be applicable to the Treasurer's office? Another editorial from a paper back home said, "Nebraska's Legislators Make a Mistake". At the same time in one of my local papers back home, Mildred Jurgeson, the Welfare Director from Dakota County, said Nebraska's
