LB 909

put in this provision up to \$1,000 personal property being sold without having to utilize these kinds of costly and involved sale procedures, and we also added the emergency clause to the committee...rather to the bill. If you take a look at the proponents, we asked those proponents if they agreed with the proposals that the committee was talking about among themselves. They all agreed. To my knowledge, the committee amendments are agreed upon by all interested parties including the introducer. I move their adoption.

SENATOR CLARK: I would like to introduce Carson Rogers and daughter Regina from Ord, Nebraska, friends of Senator Wagner. Will you stand and be recognized please. Welcome to the Unicameral. The question before the House is the adoption of the committee amendments. All those in favor vote aye, opposed vote nay.

ASSISTANT CLERK: Senator Clark voting yes.

SENATOR CLARK: Record the vote.

ASSISTANT CLERK: 27 ayes, 0 nays on the motion to adopt the committee amendments, Mr. President.

SENATOR CLARK: The committee amendments are adopted. On the bill, Senator Goll.

SENATOR GOLL: Mr. Speaker, members of the Legislature, LB 909 notwithstanding its own merits has three aspects that should delight the Legislature. Number one, it has no fiscal impact. It doesn't cost any money. Number two, it is noncontroversial. Nobody is against it. And number three, number three, we are deleting a little portion of the statute and combining it all into one thing. So I would immediately following my presentation ask for your affirmative vote on LB 909, and what it does is amend two sections relating to the sale of public property in second class cities and villages. It establishes one clear, precise procedure for doing this. It also as Senator Landis explained in the amendment empowers these villages and second class cities to dispose of personal property through a regular procedure. They can do this by sealed bids. They can do it by public auction. Notices are published and posted and certain procedures must be followed according to the legislation. Once a sale is made, once it is consummated, it is final. We are in fact eliminating a controversial part of a statute which because of prior legislation established a conflict in the way these cities and villages could dispose of their real estate and personal property. I would, therefore, ask for your affirmative vote on LB 909. Thank you.
