

and implying that that is going to be that additional cost to the State of Nebraska, I don't see that in the fiscal notes. I see a \$1,000 cost is what Holly Jensen has estimated the cost will be to prepare these lists, such a small amount that they have indicated to me I don't really even need an A bill to accompany this. Secondly, he made reference to the national association supporting this measure and the local association not supporting it. Again a clarification, the National Bar Association House of Delegates, yes, they do support this. Also the Nebraska Bar Association which is the association containing all attorneys in the state supports this measure. It is true that the County Attorneys Association did come in and oppose that but that is an association made up of I would assume 93 of the 93 county attorneys in the State of Nebraskas. The Bar Association which contains all of the attorneys in the state is in support of this. Having addressed those two concerns, I would invite the members of the Legislature to support this measure. Thank you.
