

Journal.)

SPEAKER NICHOL: The motion fails. My important announcement...the bill is successful. Oh, yes, that's right, excuse me. The motion is successful. The bill is indefinitely postponed. The important announcement I have is that one of our members has reached an important milestone in his young life and it is his birthday today, Senator Vard Johnson. We'll not vote on how many more we wish you have, but he does have some sweeteners for us I understand at some time during the day and we hope it's good. Congratulations to you, Senator Vard. Senator Landis has a problem. I think he walked out on us but we'll get him back in. Mr. Clerk.

CLERK: Mr. President, Senator Landis would move to suspend Rule 3, Section 13 so as to permit the scheduling of LB 467, 471 and 499 for public hearing yet this week.

SPEAKER NICHOL: Senator Landis.

SENATOR LANDIS: Mr. Speaker, members of the Legislature, we turned in two pages of hearing notices for this week and only one was reproduced and made part of the record. Public notice was not given for these three bills; first, a bill about the membership of the State Racing Commission, secondly, about the fees for the State Fire Marshal's Office and, third, whether or not we should pay football players at the University of Nebraska. They are scheduled or were scheduled for this Thursday under notice that we gave the rest of the members of the committee and the body. We did not achieve adequate public notice. I intend to follow up a successful motion here with special press releases to the Omaha and the Lincoln papers and whatever normal course of action is done with respect to giving adequate notice to these issues. I would hope for the orderly conduct of the business of the committee that you permit us to suspend the rules and put these on for Thursday yet this week.

SPEAKER NICHOL: I assume that you wish to also, Senator Landis...Senator Landis, I assume that you also wish to notify the UPI and AP and so forth?

SENATOR LANDIS: I certainly do.

SPEAKER NICHOL: Okay. I thought you wanted to include
