

SENATOR HIGGINS: That was satisfactory. You answered my question. I concur with Senator Morehead. I think Senator Hefner had the best of intentions, but I want you to remember who was Miss America this year or last year rather. Remember that cute, sweet, wholesome thing that became Miss America? And then it came out she had posed naked, nude for Playboy Magazine, so we'll adopt this resolution and say, here's a wholesome, agricultural, cow-milking gal that's Miss Nebraska. And after that's done we find out, oh, my goodness, she posed naked for a porno movie and now she's the official hostess for Nebraska. I mean, do we know in the future who is going to be? Aren't we kind of letting the door open to ourselves to really be embarrassed? And my friend, Senator Labedz said she is running for Governor. Now does that mean that she can't be the hostess for the State of Nebraska, the official hostess? And then what about Jim "Joe Namath" Pappas here? Why not Mr. America? Is it fair that we have a Miss America? That's right, stand up, Joe. Is it fair? Is it right that we have a Miss America? This is a very prejudicial resolution, Senator. If we're going to do it, let's do it right. Let's get our Playgirl and our Playboy both up there on the facade of the Capitol. But I just can't vote for this resolution. I'm really sorry, Senator Hefner, because I know your intentions are of the best, but I would consider it an insult to every one of these good looking men in this Legislature like Senator Jerry Miller and Carson Rogers and Don Eret and Rex Haberman and skinny old Johnny DeCamp, if we didn't have a Mr. America or a Mr. Nebraska. So I'm going to oppose this resolution simply because in all sincerity I think we're getting a little ahead of ourselves and we really don't know who will be coming down the road, but I appreciate what...Senator Hefner's sincerity on it. Thank you.

PRESIDENT: Coming down the road from western Nebraska is Senator Scofield.

SENATOR SCOFIELD: Thank you, Mr. President and members, I, too, have to rise to oppose this resolution and I'm sorry, Senator Hefner, but that's just the way it is and I don't know if I can follow the two acts that I have to follow here. But when I read this resolution I had a thought that I thought that the best way that I could summarize my reaction to this whole thing was in verse and I'd like to
