

section that you were talking about on the stopping. What if the patrol is stopping them for, you know, the safety checks that they make periodically? Would that apply then or would that be eliminated?

SENATOR DECAMP: I guess I think that probably would apply and I guess I would be inclined to make it more clear. If you're going to go with the bill, this particular provision or this concept I want to make abundantly clear can only be in conjunction with some offense it is stopped for. Do you follow what I mean? In other words, you're stopped for some other offense for which a ticket is issued even and that's what I would like to do and maybe if her amendment does get adopted, then I think I'll probably come up with an attempt at least to clarify it even further and make it more certain because I think you're right. I think the point you raise is good.

SENATOR BEYER: Well, I'm just curious because they do make those and those are legitimate checks that are authorized to be made and so...

SENATOR DECAMP: Yeah. Truckers would know a lot more about them because they get stopped regularly on that. I just get stopped for speeding with some degree of regularity.

SENATOR BEYER: Well, put a block of wood under your gas pedal and you wouldn't have to worry about that. Okay, I just wanted that clear. Thank you.

SPEAKER NICHOL: Senator Sieck, please.

SENATOR SIECK: Mr. President, members of the body, I don't know whether I support this bill or not. I have an awful time to have someone tell me what to do and that's what we're doing. We're telling our people you've got to put your seat belts on. Are you going to tell people to take pills for certain things that is...if you get drunk and they make you sober, things like this? We're kind of getting carried away with this, but what really perturbs me is when the federal government says you do this or else and we constantly are faced with that. The federal government says we're going to have seat belts or not seat belts, but we're going to have air bags. Now I can understand that air bags is something we don't want and that's what puts me in a bind. And I don't know how we can send a message to tell
