

enforcement. There won't be the expense and the burden placed on the public. I hope you will bring this bill back. All that the amendment says is that the effective date will be at a time when the federal government said the effective date this legislation would have to be in place. Then if two-thirds of the population of this country are brought under the federal yoke by their cowardly legislators, then the Legislature here can repeal this bill and it never will have been a burden on the citizens. I hope that you will adopt this amendment. Then you are truly giving everybody something. You are giving the automobile manufacturers what they want. You are giving Lizzie what she wants. You are not giving me what I want but you are giving me what I am requesting for the people of the State of Nebraska and sometimes, Senator Jackie Smith, it is awfully lonely. That is what I offer you and I hope that you will accept it.

PRESIDENT: The Chair recognizes Senator DeCamp.

SENATOR DECAMP: Mr. President,...

PRESIDENT: Next Senator Goll after Senator DeCamp.

SENATOR DECAMP: I would like to ask Senator Morehead a question.

SENATOR MOREHEAD: Senator DeCamp.

SENATOR DECAMP: Senator Morehead, there is obviously a pile of amendments and various things. Is it your intention to have a vote on the bill today since it is sitting on Final Reading or not, and if not, why not? I mean if you could survive all the amendments and various things.

SENATOR MOREHEAD: Well, if I can survive all of the amendments, it is my understanding...I intend to survive all of the amendments, first of all.

SENATOR DECAMP: Well, sure.

SENATOR MOREHEAD: Naturally. It is my understanding it would have to go back to E & R engrossing for the adoption of these because the bill in its Final Reading has to be on the desk of every legislator for one day before it is voted upon.
