

providing me with the Select File amendments to 404 a little while ago, and I was hoping that a couple of the concerns that I had on General File were taken care of. But I cannot follow the Select File amendment, I guess. So you'll recall that one of my concerns was the matter of the certificate showing the date of the policy, and the description, and so forth, showing the vehicle is covered, unless the policy is issued to a person who is not the owner of the motor vehicle. I had some problems with that definition. Can you tell me, off hand, whether or not you do address or attempt to address that question in the amendment?

SENATOR CONWAY: The Select File amendments strike that particular phraseology.

SENATOR BARRETT: It strikes it?

SENATOR CONWAY: Right. That was picked up specifically from the area of the law that addresses financial responsibility. So it was all lifted up. So that has been struck.

SENATOR BARRETT: Excellent. My other concern, Senator Conway, was the matter of the insurance carrier covering the insured person not surcharging any auto coverage in the insured's current policy, or any subsequent renewal policy for any loss which was sustained. You will recall my concern at that time was whether or not we might be telling the insurance companies how to rate their policies. Is that addressed in the amendment?

SENATOR CONWAY: I believe that was still stated in there. That specific section was brought to me by other people of concern. I believe that is still in the law.

SENATOR BARRETT: Okay. Perhaps we could talk about that at some later time. You'll understand, on that basis alone, I will not support the Select File amendment. But I do thank you.

SENATOR BEUTLER: Senator Haberman.

SENATOR HABERMAN: Senator Conway, would you respond to some questions, please?

SENATOR CONWAY: Yes, Senator Haberman.
