

saw, as an attempt to repeal to the committee amendments, being accepted as germane by the way. It was used as an attempt to repeal one-half of LB 662. My amendment now attempts to the committee amendments, which, of course, are germane under the same standard as before, now attempts to repeal the organization portion of 662. Here are my reasons. Reorganization as contemplated in 662 is spread out over a five-year period, has a constitutional cloud clearly over it, and has all the elements and earmarks, all of them, of the Christian school controversy without a clear-cut resolution. If you want five years of what most of this body went through on that issue, you have got it guaranteed here times three. For this reason, since the precedent was set and the rules were made for using this bill as a vehicle for repealing selective portions of 662, I use it for the same opportunity to repeal those sections of 662 that I have difficulty with.

SPEAKER NICHOL: Senator Beutler, Senator Vard Johnson, Senator Chambers. Senator Vard Johnson.

SENATOR V. JOHNSON: Mr. Speaker, I would object to the amendment as a point of order. I do not believe this particular amendment is germane.

SPEAKER NICHOL: Senator DeCamp.

SENATOR DECAMP: Mr. President, Mr. President, LB 662 has two halves, one of them quite important, the other very garbled. The reorganization portion is the garbled portion. It was ruled germane awhile ago that a repeal to the committee amendments was appropriate and germane for repealing one-half. Certainly it is as equally appropriate, now it may not be any more germane than the man in the moon, you and I and everybody knows it. I simply ask the same rule be applied to me, identical situation as was applied an hour and a half ago. That is all. See you all thought I was a fool when I didn't object to the germaneness.

SPEAKER NICHOL: Well, we won't go into that. Senator Vard.

SENATOR V. JOHNSON: Mr. Speaker, Senator DeCamp is correct, LB 662 has two themes. Organization is one theme and finance is the other theme. LB 505 has one theme, finance. The last amendment was germane because the last amendment dealt with the finance side of 662 and LB 505 deals with
