that there has not been enough classes and students to subtract the entire amount in a year's time. There is normally a cash balance. We reduced the fee once, maybe we ought to do it again.

SENATOR SMITH: How much effort has been placed on trying to utilize that fund for the benefit of those people that are out there riding on their motorcycles.

SENATOR LANDIS: There has been some effort but there is no authorization in the language that began the program for promotion. One of the things that the motorcycle groups would be interested in seeing is an expansion of what they can spend the money for. One of the things they have asked for is the right to promote programs as well with this money.

SENATOR SMITH: Which sounds like that would be a very justifiable request. I guess that my concern is that these people have been required to pay this fee from my understanding of it. The money has not really been utilized for the purpose that it was set up to be used for. Then either it should be removed as a requirement or we should be doing something about...if we think it is so important that we should, you know, train people or to make them become aware of the program, utilize it in other ways so that that can happen. You know we have a bill that is right now in our committee, in Public Works Committee, no, Public Health and Welfare Committee, I think, anyway, Public Health and Welfare which deals with motorcycle safety and it is 524 and it deals totally and only with the requirement to wear a helmet. I have been saying all this time that it is important that we do things like education of people, motorcyclists and the general public, about motorcycle safety. I am wondering why we are not using this money if we have this overabundance of money in that account for that purpose, if it is such an important thing that we need legislation dealing with it, and I will pursue this. Thank you.

PRESIDENT: Senator Warner, do you wish time please?

SENATOR WARNER: Mr. President, I would again repeat, on the dollar side alone, currently the balance in that fund is \$184,000. The receipts anticipated next year is 91,000. The anticipated expenditure is 96,000. So even with the
