

should or shouldn't happen, whether the agency should exist or not exist. But I am saying on the basis of it has had its day in court, it is now time to lock the bill in a form, in a form that isn't going to change. That is what the motion essentially does, because it prevents you, unless you get the votes to unbracket it, it prevents you from taking the bill up for the Final Reading or any amendments until Tuesday. What is Tuesday? Tuesday is the last day or it is beyond the last day you can amend and it is the first day that it can be read on Final Reading legally. So, yes, that is what I am doing. I am trying to lock it in its present form and say, the body has decided no more amendments. We will wait till Tuesday and read the bill and vote on it one way or the other. Yes, that is what I am trying. I am trying to lock it in its present form. I admit it. I tell you that's what it is. Otherwise, I think your opportunity Monday to deal with the bills on Select File will be destroyed by all the time you will spend trying to amend this. So if you have anything on Select File that you care about, I would think it would be wise to vote for this because it means then this issue is settled, it's over, budget is done now, Monday we do Select File and other things you want. I think you should vote for it, but I know it is probably thin.
