

fashion laws that cut the same way across everybody in society who is going to be affected. So, for the favored classes who have a way to get to work, it's all right to say, drive just in the course of your employment. I think it is ridiculous and preposterous to say that if you can get to work, you can drive, but if you can't get there, tough luck. We're not concerned about people losing their jobs if they lose their driver's license. We're concerned about certain people not being inconvenienced and those certain people are the ones favored by practically every piece of legislation that comes not only out of this Legislature, but out of those throughout the country and even at the national level. So all I will be able to do is stand up here and point out the inconsistencies, the injustices and the unfairness of what the Legislature is doing, but I'll tell you what. Defeat this amendment and I promise you, Senator Hoagland, and those who have carefully compromised out this bill, I will badger and harry LB 626 to its death one way or another. There will be a lot of bills that show favoritism that I can't stop, but I'll bet you I can stop this one and I assure you that I'll do everything in my power to achieve that. In the meantime, I hope you will look at the justice of this amendment and the injustice of not adopting it. What sense does it make to say that you can drive if you can get to work, but if you have no way to get to work, you have somehow placed yourself outside the pale as far as this law is concerned. Grossly unjust. I hope you will adopt this amendment and since minds and senators have strayed, which I can understand, during the course of the discussion of this bill, I'm going to ask for a call of the house.
