

indiscreet. Haji has said, when love is forbidden, love is so sweet, love is so sweet. The way she is looking at me, I couldn't wait to say that on the side, I had to say it here in public. But now back to the subject at hand, which is to kill this dastardly bill. If it can't be killed, it ought to at least be modified and my motion is designed to modify it and I will read the amendment again in case you have forgotten what it is. These words would be added to the Hoagland-Beyer amendment. "A vehicle licensed to the State of Nebraska or any political subdivision". Now for those of you who are running for reelection, I want to have it called to your attention that this could very well be an issue in your campaign. How can you explain and justify to your constituents a vote that will allow those who drive vehicles for the state to receive a permit to continue driving after being convicted of driving while drunk? That would be a hard vote to justify. I don't know if I can get a majority of votes to do anything this morning, but I am going to try on this amendment. So those of you who have listened and, Senator Nichol, those who have not, I would like your vote on this amendment.

SENATOR MARSH: Did you request a call of the house?

SENATOR CHAMBERS: Not yet, because there may be others who want to comment on it and I haven't closed and I will give the opportunity to others who may want to address this burning issue.

SENATOR MARSH: There are no other lights, Senator Chambers.

SENATOR CHAMBERS: Then I must close. The amendment, despite the way it may have been presented, is serious, and the implications of it are serious and you should give serious consideration to this serious issue, whose implications are serious, and cast a serious vote. And I think that vote would have to be in the affirmative. I don't think anybody who could stand upon the floor, or would do it, and justify to the public allowing a permit to drive to be granted to those who have driven state vehicles, or the vehicles of any political subdivision. I expect Senator Hoagland and Beyer to support this amendment because they are the ones who started all of this in the first place and I am hoping that you will give me an affirmative vote. In case you don't accept this one, I have one or two others. And somebody may have decided to offer a motion to ensure
