

stick with this, we need senators involved. We need citizens involved. What we really need is a good study that is viewed as impartial and I think with the two bodies making those kinds of appointments there is a much better chance of actively involving both sectors in the study and also allowing for a balanced approach to this whole study. So I urge you to adopt the amendment. Thank you.

PRESIDENT: Okay, Senator Sieck, do you wish to speak on the Scofield amendment?

SENATOR SIECK: Yes. Mr. President and members of the body, I will support this although I feel that there might be too many senators on this committee. But I will accept it. We need a balance and I can assure the opposite side if something comes out of this that is completely negative, they are going to lose it. So I can see what the Exec Board does. It is a political move and I don't want it to be that. I want it to be fair and I want...if that is what it is going to be, I sure want you to do it. I just want to let you know that these things should be fair. And if isn't, then that is why I am going to support this committee because we have two sides then. Thank you.

PRESIDENT: Senator Pirsch, the Scofield amendment. Senator Nelson, the Scofield amendment. Do you want to speak on the Scofield amendment to the Landis amendment?

SENATOR NELSON: Originally my light was on to speak against the Pappas amendment, but the only thing that I have to say, I could probably support Senator Scofield, that I hope that this is a very fair committee, and if there are problems there, let's address the problems. And I will guarantee you that if I have any feeling whether I serve on the committee or I do not, and I think this holds for many of the members on the body, this must be fair. It must be an outstate, a hearing that is a fair and a very good and let's take the
