PRESIDENT: The   Chair   recognizes   the   Speaker,   Senator Nichol.

SPEAKER NICHOL: Mr. President, members   of the Legislature, if I could have your attention   15 seconds.   If I could have your attention just 15 seconds, please.   As you know, we've been hitting a log jam here for about the last week.   It has been bothering me, and it is starting to bother you, and for that I am grateful because when it starts to bother you then we'll do something about it.   But   what can be done, on many of these bills that are   controversial, you can get together with those   that are   causing you   problems and   work things out.   I know that some of you are doing that on some of your bills when you   know that they are   controversial.   I really urge you to continue   to do that so that we   can move along. I've been urged to have consent   calendar again, and that is on hold for the   time being.   But I know there   are a lot of smaller bills that are important   bills that we could easily handle this year if we'd put   our minds to trying to advance certain things that   we wish to have done.   I'm not pushing any particular   bill or   set of bills,   or anything of that nature.   But I do wish to get at   as many as we can for your sake this year.   So, with that in   mind, I urge you to speak your piece, if you w:.sh to do so, as concisely as you can do it so that   we can understand it.   I do not wish   to thwart debate, of   course, but I   think sometimes   we can cut   it a little bit shorter than we have in the past.   Thank you.

PRESIDENT: Thank   you,   Mr. Speaker.   We   now   proceed   to LR   335 for which there is a one-hour debate limit.

CLERK: Mr. President, 335 has   been   considered   on   two
