

the resolution. All those in favor vote aye, opposed nay. Have you all voted? Record, Mr. Clerk.

CLERK: 41 ayes, 0 nays, Mr. President, on adoption of the resolution.

SPEAKER NICHOL: The resolution is adopted and you are successful, Senator McFarland, on your first attempt. Okay, we will move on to resolution 358.

CLERK: Mr. President, 358 is a resolution offered by Senator Scofield, Higgins, and Morehead. It is found on page 1203 of the Journal.

SPEAKER NICHOL: Senator Scofield, please.

SENATOR SCOFIELD: Thank you, Mr. Speaker. I was pleased to pick up the newspaper here the other day and discover that one of my constituents, Amy Stephens, who is a freshman at the university from Alliance, was the highest rated freshman in the Big 8 and averaged 12.3 points per game, four rebounds per game, and four assists per game, and was named to the first team All-American freshman basketball team by the Women's Basketball News Service. As I read down the list, I also discovered that Senator Higgins and Senator Morehead also had a young woman from their districts that was also honored and I felt that it was appropriate that we should not only honor these young women but also the coach, Kelly Hill, and the University of Nebraska women's basketball team. I think it is certainly coincidental that all three of these young women have women senators and I think we are very proud of them although we are probably not anywhere near as athletic as they are. With that I would urge your support of the resolution.

SPEAKER NICHOL: Thank you. Senator Morehead, please.

SENATOR MOREHEAD: Mr. President, members of the body, I join Senator Scofield in honoring these fine women and their coach. Additionally it is a privilege for me because the young lady from my district I have had the privilege of watching grow up, as a little girl, participating then in the Clatonia-Wilber school system as an athlete, and now on to the university. So when you know these people personally, it makes it even more important, and I ask your support of this resolution. Oh, Angie Miller is her name,
