

what, we better put some penalties in there if you violate the licensure. Would you rule that ungermane? If we create a right at one level, wouldn't we talk about the responsibility at the other and wouldn't we be able to enforce that responsibility with an amendment? That is fair. Now you create this right but when it comes time to talk about the responsibility, all of a sudden that is not germane. I ask you if on any other issue you would do the same thing if you put a price tag for a license or some kind of benefit that you were given by government, if the Chair would rule that not germane, I don't think it would. Let's argue this question on its merits. Let's not hide behind the procedure. There may be darn good reasons for merit to vote no, but don't hide behind the procedure on this one. Step up to the batter's box and make your arguments and make your case. But this is a standard that we will all rue if we can only talk about rights and then be unfair...it's then not germane to try to assess responsibility with the following amendment. I ask for the overruling of the Chair.

SPEAKER NICHOL: The question is, shall the Chair be overruled? All those in favor vote aye, opposed nay. Have you all voted? I am anxious to call the vote. The question is, shall the Chair be overruled? Senator Landis.

SENATOR LANDIS: I think since it is a majority of those that are present, it is in my best interest...

SPEAKER NICHOL: It takes 21. Takes 21.

SENATOR LANDIS: Thank you. It is my best interests to ask for a call of the house.

SPEAKER NICHOL: Okay, the question...

SENATOR LANDIS: And I would ask that call in votes be permitted until we have a roll call.

SPEAKER NICHOL: Okay, the question is, shall the Chair be overruled, and the question is, shall the house go under call? All those in favor vote aye, opposed nay. Record, Mr. Clerk, please.

CLERK: 16 ayes, 0 nays to go under call.

SPEAKER NICHOL: The house is under call. Will you please
