

districts who choose not to accept these students.

SPEAKER NICHOL: One minute.

SENATOR MOREHEAD: And this happens in my district. They choose not to accept them because of many different reasons and then they don't get caught in the middle of the very thing that we are talking about. Now in Senator Lamb's district, like someone pointed out, they would certainly be deemed as a poor neighbor. They'll probably be deemed as a poor neighbor in charging like he has indicated by his chart, but nevertheless, the issue is this shift of 10 to \$17 million according to the way the formula is now and the way that is proposed. I stand here and support a retention of the formula the way it is now and I would urge the rest of you to, if you have questions if you haven't been following, to please ask questions to clarify it in your own mind.

SPEAKER NICHOL: Thank you. Senator DeCamp, now for your point of privilege.

SENATOR DECAMP: Okay, not a point of privilege, point of order, Mr. President.

SPEAKER NICHOL: Point of order.

SENATOR DECAMP: By no stretch of the imagination, is this amendment germane and I think the best proof of that is the statement from Senator Withem where he explained that his amendment I think goes in the opposite direction, repudiates or something like that were his words, the concept in the bill. So, it might be an appropriate measure for a bill and I think it certainly is, but it is not a germane amendment. With a suspension of the rules, of course, it could be offered and I would recommend that procedure be used rather than trying to say this is germane. The other point I would raise at this time to raise a red flag, if you would, is that if ever there was an example of something that contravened the Attorney General's Opinion on what the Legislature can do with respect to LB 662 which is on the ballot, it would be this. This attempts to straighten out some of the problems that are arising and are going to arise and mitigate certain perceived, again right or wrong, but perceived disasters that are out there and it attempts to solve those and they deal with the very heart and issue of
