SENATOR   WARNER: Mr. President and   members   of   the
Legislature, LB 1252 indicates capital construction. There
is very little in the way of capital construction. By and
large it is reaffirmation of projects previously authorized.
The largest single amount of new funds would be in relation
to the LB 309 Task Force for building deferred maintenance
which is a total of $3 million. The other amounts include
fire and safety requirements, both in DPI, state colleges,
university. There is some...and there is, I should mention,
authorization for the DAS to negotiate consideration of
purchase of a building on the north side of the State Office
Building utilizing some revolving funds that have been built
up as well as some one-time money available from interest
off of Social Security accounts and if those negotiations
are not completed by March 1st,   then the bill would
authorize continuation of some rental property with the
provision that again some fire and safety requirements for
that facility would be authorized for that.   The structure
would primarily be used for the TBS...TSB, I guess, the
State Transportation   Bureau, and   some other   related
facilities also would be suitable for housing of a second
mainline computer, a facility which is desirable to be able
to do and because of location it would be ideal. I move the
bill be advanced.

SENATOR MARSH: All those in favor of the advancement of
LB 1252 vote aye, opposed vote no. Have you all voted? The
Clerk will record.

CLERK: 26 ayes, 0 nays on the motion to advance 1252, Madam

SENATOR MARSH: The bill is advanced. We are ready for
LB 1253.

Appropriations Committee and signed by its members. (Read
title.)   Introduced on March 12,   referred directly to
General File, Madam President.

SENATOR MARSH: Senator Warner.

SENATOR WARNER: Mr. President, I move the bill be advanced.
The purpose of this bill is clarification so there would be
no misunderstanding. It merely reflects what, in fact, has
been the practice.   As you know, this is the last year for
