

heads yes.

SPEAKER NICHOL: Senator Lamb, the reason I am asking is on a constitutional issue, whether or not it would be constitutional so I need to know if this was in a matter of a bill this year before the Legislature?

SENATOR LAMB: Some of these people are saying there was another bill. I don't know if Senator Sieck wanted to respond to that. He is saying that there is another bill. I have not researched this at this point. Senator Nelson, did you have a comment?

SENATOR NELSON: I think I have heard of this before this session. It was probably last year...last year because these rules and regs seem to have been put out. But I will certainly have to support Senator Lamb, if I can get my one second in. He has a very good point there and it has really been disturbing but I believe it would have been last year. I won't say for sure.

SPEAKER NICHOL: Senator Lamb, I am going to rule that it is not germane at this point.

SENATOR LAMB: Thank you, Mr. President. There is some other bills that I will try to hook this on. Since now it has been considered during this session of the Legislature, I am sure it will be germane to another bill and I will not challenge your ruling at this time and I will withdraw the amendment.

SPEAKER NICHOL: All right, thank you.

CLERK: I have nothing further on the bill at this time.

SPEAKER NICHOL: Okay, now we are back to the bill. Senator Wesely.

SENATOR WESELY: I just move advancement of the bill, Mr. President.

SPEAKER NICHOL: Okay, Senator Marsh.

SENATOR MARSH: I was going to call the question.

SPEAKER NICHOL: Okay, do you call the question?

SENATOR MARSH: Yes.
