

SENATOR WARNER: I'd like to ask Senator Baack a question first if he'd yield.

SENATOR BAACK: Yes.

SENATOR WARNER: Senator Baack, do I understand, so it's clear in the record, that the word "storage" is solely limited to beets and is not intended to include anything other than beets?

SENATOR BAACK: Senator Warner, do you mean stockpile?

SENATOR WARNER: Stockpile, yes, I'm sorry, stockpile.

SENATOR BAACK: Yes, that is certainly my intent in the bill is that that would apply strictly to sugar beets and not to other crops.

SENATOR WARNER: So in the event as is the case with most special permits, rules and regulations would reflect that there would be no permit granted from stockpile to factory or to market except for beets. Is that correct?

SENATOR BAACK: As far as I am concerned, that is correct, yes.

SENATOR WARNER: Thank you. Well, Mr. President, I appreciate the problem of beets. My problem is that while that may have merit, you're sweeping in along with the merit bad provisions, that is policy, bad law, unneeded, serves no purpose other than to add deterioration, accelerated deterioration to the cost of maintaining...well, to roads that result in increasing cost for that maintenance which we already have objected to providing funds time and time again in recent days and it's beyond my comprehension. If we do not want to adequately fund, particularly rural roads, cities and county roads, that at the same time we want to pass laws that accelerates the deterioration of the same road, I can't understand that. There is no logic to it. I'd urge the bill be returned and let it wait till next year and take care of the beet problem then.

PRESIDENT: It is Senator Warner's motion to return LB 122 to Select File to strike the enacting clause. All those in favor vote aye, opposed vote nay. Please record your vote aye or nay on the motion to return the bill to Select File. Thirty seconds to record your vote. You have 10 seconds to record your vote on this motion. Have you all voted? Have you all voted? Senator
