

SPEAKER NICHOL: Okay. So you are moving to advance the bill from General File to Select File.

SENATOR DECAMP: Yes, and I think Senator Landis wants to speak on it, ask for three or four minutes of my time. I'll certainly give it to him.

SPEAKER NICHOL: Did you wish to speak on the advancement of the bill, Senator Landis?

SENATOR LANDIS: I would for just a very brief moment, Mr. Speaker. We oftentimes hear the admonition that government ought to parallel the practices of business more frequently. I don't know if you have the difficulty of taking back a faulty product to a business in the past, I have. It is quite common that they have people who are there at their complaint counters who accept the errors of the business and do two things, they make an apology and they make quick restitution. You get a good, healthy apology out of it, and you get a new mixer or whatever. They don't start claiming that third parties are at fault, or start blaming somebody. They don't take all the time in the world until they feel like their dignity is satisfied. They don't hand you back a different product. You don't turn in a Chevy for better service and get back a Schwinn bicycle after a week's time. I would suggest that the Legislature emulate business in this instance, move the bill from General File to Select File, and practice exactly what business practices, a quick, firm, heartfelt apology followed by quick restitution and better service. That is what this Special Session can do for the State of Nebraska. I would move for the advancement of the bill.

SPEAKER NICHOL: Are there any others who wish to speak on the advancement of the bill? If not, the question is, shall the bill be...oh, Senator Nelson.

SENATOR NELSON: Mr. Speaker, members of the Legislature, I have no objections to the advancement of the bill. I think Senator Haberman has answered my question. I had my light on some time ago and I passed at the time. What I wanted definitely clarified is in both LB 1 and LB 2 with interest. I certainly wanted to know exactly what that interest was. I believe I have the answer, \$1,800 a day. I did not want a half a million dollars unexpectedly coming up for interest.
