

friend Senator Vickers, whom I'm supporting on this matter, every time you have a call for the house I'll come down here and vote and I listen to the shenanigans while I'm upstairs because they have got that little box and I keep it on. But there are far more important significant that I am dealing with and I'll continue to deal with them. This is a show. Governor Kerrey is the ringmaster and he can crack a whip and make the rest of you sit down at these desks like you're incarcerated and chained, but he can't make me do that. Various senators have tried to have little meetings, arrive at a consensus on one point or the other. Senator Harris is trying to put disparate elements together to try to get a combination of 33 people willing to call another special session, each group hoping that they can muster enough votes to get their particular issue covered or considered and that is not going to happen. So again, Senator Schmit, I hate to say things like this because it makes people angry, but that has never stopped me from saying it anyway. As the descendant of a slave, watching the descendants of the slave master, and remember the slaves...my people were enslaved because we were genetically inferior and created by God to be slaves. As Aristotle said, I, as a slave am as inferior to the slave master as the physical body is to the mind and in the same way that the mind dictates to the body and uses the body for its purposes, I, as a slave am to be used for the purposes and pleasure of the slave master and now I'm watching these superior people...

SPEAKER NICHOL: One minute.

SENATOR CHAMBERS: ...in their legislative assembly. I have watched their Governor and I have to say that the whole thing is detrimental to the cause of white supremacy. It's going to be hard to keep telling my children that we are inferior when I can come back and show them what the best minds and the best politicians and state persons in this state have produced. So, Senator Vickers, I'm on the same call of the house and I'll come vote, but I didn't create this problem and I can't solve it. All I can do is issue warnings like I did during the regular session of what we're going to face and who listens? Nobody. But in the same way that people can vent their spleen about some of us not being in these chairs, participating in the circus, I'm going to say what I've got to say and I feel that's the only purpose of the special session for me to have a forum and a platform to get things into the record to show to young black people
