

cancer, and the medical profession says those that are addicted to it do get cancer,...

SPEAKER NICHOL: Time.

SENATOR HIGGINS: ...let's tax everything and let's go with Senator Marsh's proposal. Let's be number one in taxes in Nebraska. Thank you. I'm going to vote against that amendment, though.

SPEAKER NICHOL: Senator DeCamp, then Senator Marsh. Senator Marsh, Senator DeCamp doesn't...oh. Excuse me, Senator Marsh, he came in. Did you want to talk, Senator DeCamp?

SENATOR DECAMP: Question.

SPEAKER NICHOL: You call the question?

SENATOR DECAMP: Yes.

SPEAKER NICHOL: The question is, shall debate cease? Do I see five hands? I do. The question is, shall debate cease? All those in favor vote aye, opposed nay. We are voting to cease debate on the Chambers amendment to the Marsh amendment. Please vote. We are voting to cease debate on the Chambers amendment to the Marsh amendment. Record, Mr. Clerk, please.

CLERK: 25 ayes, 1 nay to cease debate, Mr. President.

SPEAKER NICHOL: Debate has ceased on the Chambers amendment to the amendment. Senator Chambers, would you like to close, please.

SENATOR CHAMBERS: Yes. Mr. Chairman and members of the Legislature, a major difference between caffeine, first of all, there has not been a solid link between caffeine and cancer. Two people had written something like that in a magazine article and all of the studies after that said that there was no link. Too much caffeine, may be 10 to 12 cups a day, can make you fidgety and jumpy, but they have not made a connection between cancer and caffeine. But if you want to tax all those things that have caffeine, I don't have any objection to that. Senator Higgins gave the case of her sister. Well, from the way she described it she has
