

SENATOR ABOUD: Is Senator Hefner around?

PRESIDENT: Senator Hefner, Senator Abboud would like to ask a question, I believe. We are on the motion to advance LB 6E to Enrollment and Review for Engrossment.

SENATOR ABOUD: Senator Hefner, would you respond to a question?

SENATOR HEFNER: Certainly.

SENATOR ABOUD: Is there...I know you're not in charge, you're Vice-Chairman of the committee, but is there a reason why we don't have the white sheet in our copy in the bill book, describing who testified for and against this? I know when the bill originally came up on General File I was assured that it would be placed in the bill book, but I don't have a copy and Senator Hartnett doesn't have one in his bill book next to mine.

SENATOR HEFNER: Senator Abboud, I see there isn't a white copy. No, I don't know why there isn't a white copy, but I'll certainly call down and find out and get you one.

PRESIDENT: Mr. Clerk.

CLERK: Senator, they are obviously...have not been placed in the bill books and that is my fault and I'll make sure you get a copy in just the next minute.

SENATOR ABOUD: Do you think...Senator Hefner, would you mind if we waited on voting on this bill until we see a copy, the white copy? I believe...I mean I requested it the last time on General File and it still isn't in here.

SENATOR HEFNER: Senator Abboud, no, I wouldn't mind if we waited. In fact, I think we should hold this bill up until we get the white copy. I wasn't here the other day when we were debating this bill.

PRESIDENT: White copies are forthcoming. The Chair would like to announce that we have some guests in the north balcony this morning, the delegation of 38 students at the University of Nebraska at Omaha with Mike West, Coordinator, and if they would stand please, we would like to welcome you
