

respective budgets. The reason for this adjustment was the same as outlined in the previous amendment. It would be consistent with that and I'd move its adoption.

SPEAKER NICHOL: Senator Schmit, please.

SENATOR SCHMIT: Mr. President and members of the body, it's unfortunate that most of us were not paying attention to Senator Warner's comments. I challenge any five members of this body to stand up and repeat just what he said. I don't think any of you know what is going on. Senator DeCamp up there raises his hand, that leaves four to go. The point I want to make is this. As I said earlier, I recognize a machine when I see it. I recognize a steamroller when it's got me down and it is going over my ankles and my knees and by backbone, but as long as I can speak I'm going to say something. I'm kind of a little bit inclined to ask some questions. I don't do this very often, about once every five years. I made a little list of people here who are voting for these cuts and some of them are not really going to have much of an explanation when they go back to their district and someone says, why did you do this for one segment of the budget and you totally ignored your own area? I'm not going to call your names out at this point in time, but if someone should ask me how did Senator So-and-So vote on the budget when the agricultural budget was limited, when the budget for natural resources was cut to the bone, when every other segment of the budget was cut, decimated, et cetera, I'm going to say, yes, I remember how that senator voted. He voted this way and the headline is going to be this long in your hometown paper. You're going to say, well, I voted for education. Hell, yes, we all do. We all vote for education. I'm going to tell you something else. We hear about this migration that is going to take place at the University of Nebraska if we don't do these things. I'd like to ask Senator Warner a question if he would answer, please. Senator Warner, what's the policy at the University of Nebraska relative to off campus employment for professors?

SENATOR WARNER: Off campus employment?

SENATOR SCHMIT: In addition to their regular salary.

SENATOR WARNER: Which campus?
