

19 to 20 for the calendar year 1985. With that understanding why I would withdraw my pending amendment, move to advance the bill with the understanding that unless I talk slowly and long enough that we will attach the amendment within the call and offer it now.

SPEAKER NICHOL: John, would you raise your point again, please.

SENATOR DECAMP: My point is, Mr. President, that this bill at this time is outside the call of the session, that if you...and I would argue that this falls...if you were going to rule it outside before the amended call, you have to rule it outside now, that under the Governor's theory and the theory that they are doing the expanded call, they are doing it and saying, well, we are going to expand the call, now we are going to introduce a new bill, have a new hearing. And it is my argument that if the expansion of the call is legal, which I question, but if it is legal then at least it has to follow the proper format which is a new bill, a public hearing, the proper order so that the public has notice under the Constitution of the rules of what the new call is and they have an opportunity to participate. You can't say because all these things occurred in the past they are retroactively now made good simply because the Governor changed that. And it is important to me to get in the record for a later court challenge, quite frankly, which bill is going to be ruled to be within or without, what procedure is going to be appropriate or not, and I contend this bill is outside the call of the session. As to whether a new bill that he is introducing would or would not be, of course, that is a separate issue. But I think this bill at this time and the procedures you want to go is outside the call.

SPEAKER NICHOL: Senator DeCamp and Senator Warner, would you please come to the podium so that we don't run this through twice, just run it through once. Thank you. We will be at ease for just a moment. (Microphone not activated)...your point again and we will have discussion on it. We just as well do that this afternoon...

SENATOR DECAMP: Okay.

SPEAKER NICHOL: ...and get the air cleared here as well as it can be cleared.
