

November 13, 1985

what I feel is the real purpose that this Legislature was called into session and properly called into session was to cut spending, and the other purpose, the other main purpose was to offer the cities and counties and school districts a tool to cut their property tax...aw, it doesn't matter.

SPEAKER NICHOL: Ladies and gentlemen, let's hold it down so that those of us that want to can hear the speakers. Thank you.

SENATOR DECAMP: So my sole purpose in doing this is to get this part of the session out of the way because I think that is appropriate at this time. We have done our work. We have debated and attempted to make changes and finally decided I think pretty much as a body that that is where we are.

SPEAKER NICHOL: Let me interrupt you, Senator DeCamp. We, the Clerk and I, made a mistake and we don't need to suspend the rules. We can go ahead and read the bills without suspending the rules since we met Friday, and at the time I talked to you last week, we were intending not to meet Friday. But we did meet Friday, and that takes care of the length of days that intervene so we will not need to suspend the rules, if that is okay with you.

SENATOR DECAMP: Ah, that is perfect. That is what I wanted to do yesterday. In fact, I think I could have now, correct?

SPEAKER NICHOL: Yes.

SENATOR DECAMP: Mr. Patrick, I was right, wasn't I?

SPEAKER NICHOL: Senator DeCamp, one time we are going to admit that you were right.

SENATOR DECAMP: I appreciate that.

SPEAKER NICHOL: And as far as I am concerned, I apologize for not thinking of that at the time.

SENATOR DECAMP: Oh, no, it worked out better this way.

SPEAKER NICHOL: Okay, we are friends again.
