23-1118. (1) Unless the county has adopted a retirement system pursuant to ~~section 23-2329~~ the County Employees Retirement Act, the county board of any county having a population of one hundred thousand inhabitants or more may, in its discretion and with the approval of the voters, provide retirement benefits for present and future employees of the county. The cost of such retirement benefits shall be funded in accordance with

sound actuarial principles with the necessary cost being treated in the county budget in the same way as any other operating expense. Each employee shall be required to contribute, or have contributed on his or her behalf, an amount at least equal to the county's contribution to the cost of any such retirement program as to service performed after the adoption of such retirement program, but the cost of any benefits based on prior service shall be borne solely by the county. Before the county board provides retirement benefits for the employees of the county, such question shall be submitted at a regular general or primary election held within the county, and in which election all persons eligible to vote for the county officials of the county shall be entitled to vote on such question, which shall be submitted in the following language: Shall the county board provide retirement benefits for present and future employees of the county? If such retirement benefits for present and future county employees are approved by the voters and authorized by the county board, then the funds of such retirement system, in excess of the amount required for current operations as determined by the county board, may be invested and reinvested in the class of securities and investments described in section 30-3209. ~~As used in~~ For purposes of this section, employees shall mean all persons or officers devoting more than twenty hours per week to employment by the county, all elected officers of the county, and such other persons or officers as are classified from time to time as permanent employees by the county board.

pursuant to section 414(h) of the United States Internal Revenue Code, these contributions shall not be included as gross income of the member until such time as they are distributed or made available. The county shall pay these member contributions from the same source of funds which is used in paying earnings to the member. The county shall pick up these contributions by a salary deduction either through a reduction in the cash salary of the member or a combination of a reduction in salary and offset against a future salary increase. Member contributions picked up shall be treated in the same manner and to the same extent as member contributions made prior to the date picked up.

(3) Whenever a sheriff or deputy sheriff, who has served a total of at least five years in a sheriff's department and has been a member of a retirement plan created pursuant to this section, dies or is disabled as a result of hypertension or heart or respiratory defect or disease, there shall be a rebuttable presumption that such death or disability resulted from accident or other cause while in the line of duty for purposes of the pension plan of such sheriff or deputy sheriff. AM0906

1. Insert the following new sections:

"Sec. 2. That section 2-4608, Revised Statutes Supplement, 1990, be amended to read as follows:

2-4608. (1) Except to the extent jurisdiction has been assumed by a municipality or county, the district may inspect or cause to be inspected any land within the district upon receipt of a written and signed complaint which alleges that soil erosion is occurring in excess of the applicable soil-loss limit. Complaints shall be filed on a form provided by the director. Complaints may be filed by any owner or operator of land being damaged by sediment, by any state agency or

political subdivision whose roads or other public facilities are being damaged by sediment, by any state agency or political subdivision with responsibility for water quality maintenance if it is alleged that the soil erosion complained of is adversely affecting water quality, or by a staff member or other agent of the district authorized by the board of directors to file such complaints. Inspections following receipt of a written and signed complaint may be made only after notice to the owner and, if appropriate, the operator of the land involved, and such person shall be given an opportunity to accompany the inspector.

(2) The owner, the operator if appropriate, and the district may agree to a plan and schedule for eliminating excessive erosion on and sedimentation from the land involved. Any such agreement may be enforced in district court in the same manner as an administrative order issued pursuant to the Erosion and Sediment Control Act. If no agreement is reached, the findings of the inspection shall be presented to the district board of directors and the owner and, if appropriate, the operator of the land shall be given a reasonable opportunity to be heard at a meeting of the board or, if requested, at a public hearing. If the district finds that the alleged sediment damage is occurring and that excess soil erosion is occurring on the land inspected, it shall issue an administrative order to the owner of record and, if appropriate, to the operator describing the land and stating as nearly as possible the extent to which the soil erosion exceeds the applicable soil-loss limit. When the complained-of erosion is the result of agricultural, horticultural, or silvicultural activities, the district shall direct the owner and, if appropriate, the operator to bring the land into conformance with the applicable soil-loss limit. When the complained-of erosion is the result of a nonagricultural land-disturbing activity, the district may authorize the owner and, if appropriate, the operator to either bring such land into conformance with the soil-loss limit or to prevent sediment resulting from excessive erosion from leaving such land.

(3) The district may specify, as applicable, alternative soil and water conservation practices or erosion or sediment control practices which the owner

and, if appropriate, the operator may use to comply with the administrative order. A copy of the administrative order shall be delivered by either personal service or certified or registered mail to each person to whom it is directed and shall:

(a) In the case of erosion occurring on the site of any nonagricultural land-disturbing activity, state ~~the~~ a reasonable time~~, which shall be not less than five days nor more than fifteen days~~ after service or mailing of the order, when the work necessary to establish or maintain erosion or sediment control practices shall be commenced and the time, not more than forty-five days after service or mailing of the order, when the work shall be satisfactorily completed;

(b) In all other cases, state the time, not more than six months after service or mailing of the order, the work needed to establish or maintain the necessary soil and water conservation practices or permanent erosion control practices shall be commenced and the time, not more than one year after the service or mailing of the order, the work shall be satisfactorily completed, unless the requirements of the order are superseded by section 2-4610; and

(c) State any reasonable requirements regarding the operation, utilization, and maintenance of the practices to be installed, constructed, or applied.

(4) Upon failure to comply with the order, the owner or, if appropriate, the operator shall be deemed in violation of the ~~Erosion and Sediment Control Act~~ act and subject to further actions as provided by ~~such~~ the act.

Sec. 3. That section 2-4610, Revised Statutes Supplement, 1990, be amended to read as follows:

2-4610. (1) Any person owning or operating private agricultural, horticultural, or silvicultural lands who has a farm unit conservation plan approved by the district and is implementing and maintaining the plan in strict compliance with a conservation agreement or any person whose normal agricultural, horticultural, and silvicultural practices are in conformance with the applicable soil-loss limit shall, for purposes of such land, be deemed to be in compliance with the requirements of the Erosion and Sediment Control Act and any approved erosion and sediment control program.

(2) If there is not available to any owner or operator at least ninety percent cost-sharing assistance for the installation of permanent soil and water conservation practices which are required in an approved farm unit conservation plan or are required to conform agricultural, horticultural, and silvicultural practices to the applicable soil-loss limit, any such owner or operator shall not be required to install such practices pursuant to the Erosion and Sediment Control Act until such cost-sharing assistance is made available, except that such owner or operator may agree to a cost-share rate of less than ninety percent. To be enforceable, any agreement providing for cost-sharing assistance at a rate of less than ninety percent shall include notice that the owner or operator may choose not to sign such agreement and that such choice will preserve the right to not less than ninety percent cost-sharing assistance before any permanent soil and water conservation practices can be required by the district. The owner or operator may be required to utilize temporary soil and water conservation practices in the interim to minimize soil erosion and sediment damage.

(3) In order to prevent excessive erosion and sediment from leaving the land due to any nonagricultural land-disturbing activity, cost-sharing assistance may be available from any district. Such assistance may be used for erosion or sediment control practices defined in section 2-4603.".

ATTORNEY GENERAL'S OPINION

Opinion No. 91020

DATE: March 22, 1991

SUBJECT: Appropriation of Funds for Reimbursement of Expenses Incurred in the Reburial of American Indian Remains Pursuant to Neb.Rev.Stat. § 12-1208 (1990 Cum.Supp.)

REQUESTED BY: Senator Scott Moore, Nebraska State Legislature

WRITTEN BY: Don Stenberg, Attorney General

Dale A. Comer, Assistant Attorney General

Neb.Rev.Stat. §§ 12-1201 et seq. (1990 Cum.Supp.) make up the Unmarked Human Burial Sites and Skeletal Remains Protection Act. Among other things, that legislation creates certain obligations for persons who discover human skeletal remains or burial goods associated with an unmarked human burial. It further provides for the disposition of those skeletal remains or burial goods including, in some instances, reburial of those materials. Neb.Rev.Stat. § 12-1208(3) (1990 Cum.Supp.) specifically provides, in pertinent part:

> If the {Nebraska State Historical} society finds that the discovered human skeletal remains or burial goods are of American Indian origin, it shall promptly notify in writing the Commission on Indian Affairs and any known relatives in the order listed in section 71-1339 or, if no relatives are known, any Indian tribes reasonably identified as tribally linked to such remains or goods in order to ascertain and follow the wishes of the relative or Indian tribe, if any, as to reburial or other disposition. Reburial by any such relative or Indian tribe shall be by and at the expense of such relative or Indian tribe.

(Emphasis added). From your correspondence, we understand that the Appropriations Committee of the Legislature is considering a request to provide state funds for the reimbursement of expenses incurred in the reburial of American Indian remains under the Act. You are concerned about the propriety of such an appropriation in light of the portion of § 12-1208(3) emphasized above.

Your specific questions are in several parts. First, you wish to know if the Legislature can make either a deficit appropriation or an appropriation for the upcoming biennium to a state agency which would be used directly by that agency itself or paid out to a political subdivision as directed by language in the appropriations bill, for the purpose of reimbursement of expenses incurred in the reburial of American Indian remains pursuant to § 12-1208(3). The expenses involved would have been billed to a relative or an Indian tribe as described in § 12-1208(3).

We do not believe that § 12-1208(3) would prevent such an appropriation. The language at issue in that section simply requires that the reburial of identifiable American Indian remains be "by and at the expense of" the relative or Indian tribe involved. It does not prevent a political subdivision from advancing the funds necessary for such a reburial so long as the monies expended are ultimately recouped from the relative or Indian tribe involved. It does not prevent an appropriation by the State to reimburse the political subdivision; again, so long as the funds expended are ultimately

repaid by the affected relative or Indian tribe. However, stating that an appropriation is possible here raises a broader question. Namely, under the present Unmarked Human Burial Sites and Skeletal Remains Protection Act, can any state agency actually reimburse such reburial costs even when the funds have been appropriated.

Under Nebraska law, it is clear that an administrative agency has no power or authority other than that specifically conferred by statute or by a construction of the statutes necessary to accomplish the plain purpose of the act. Nebraska Association of Public Employees, Game and Parks Chapter v. Game and Parks Commission, 220 Neb. 883, 374 N.W.2d 46 (1985); Application of Lincoln Electric System, 207 Neb. 289, 298 N.W.2d 366 (1980). Therefore, a state agency must have statutory authority to make payments of funds appropriated to reimburse the costs of reburial of American Indian remains.

We have also indicated on numerous occasions that appropriations bills must be restricted to making appropriations only and cannot enact substantive law. Opinion of the Attorney General No. 24, February 13, 1981; Opinion of the Attorney General No. 289, May 14, 1980; Report of the Attorney General, 1977-1978, No. 241 at 368 and No. 75 at 112; Report of the Attorney General, 1975-1976, No. 201 at 281. As we stated in our Opinion No. 75 in 1977, substantive language in an appropriations bill "has no legal or binding effect and may be ignored by the persons charged with the administration of the executive units of government to which the language refers." Report of the Attorney General, 1977-1978, No. 75 at 113. As a result, an appropriations bill appropriating funds for the reimbursement of costs associated with the reburial of American Indian remains cannot be used to actually create authority to make such payments. That authority must be created in the substantive legislation itself.

We can find no language in the Unmarked Human Burial Sites and Skeletal Remains Protection Act which would specifically authorize any state agency to reimburse expenditures incurred by a political subdivision to rebury identifiable American Indian remains when those costs were billed to the affected relative or Indian tribe. Nor can such authority be necessarily inferred from the language of the Act, particularly where the legislative history of those statutes clearly indicates that such costs are to be paid by the relative or Indian tribe seeking reburial. See, Government, Military and Veterans Affairs Committee Statement on LB 340, 90th Legislature, Second Session (1989). Consequently, while an appropriation of funds for such reimbursement might be possible, we do not believe that a state agency would have statutory authority to actually pay out the funds under the provisions of the pertinent statutes.

You also ask whether the Legislature may make an appropriation to a state agency for the upcoming biennium to reimburse expenses incurred by the agency or a political subdivision to erect a memorial related to a reburial under § 12-1208(3). For the reasons outlined above, we believe that such an appropriation might be proper but that no statutory authority exists for such a reimbursement.

Finally, you ask whether an appropriation might be made to a state agency for the upcoming biennium to reimburse expenses related to a reburial under § 12-1208(3) which were incurred directly by a relative or interested Indian tribe under that section. We believe that such an appropriation would be in direct contravention of that portion of § 12-1208(3) which provides that, "{r}eburial by such relative or Indian tribe shall be by and at the expense of such relative or Indian tribe."

Sincerely,
DON STENBERG
Attorney General

STANDING COMMITTEE REPORT
Education

LEGISLATIVE BILL 638. Placed on General File as amended.
Standing Committee amendment to LB 638:
AM0946

1. Strike the original sections and insert the following new sections:

"Section 1. This act shall be known and may be cited as the Children with Disabilities and Family Service System Act.

Sec. 2. The Legislature finds there are children with disabilities in Nebraska whose needs are so unique and demanding that very specialized educational programs and family support systems are necessary to address those needs.

The Legislature further recognizes that in accordance with sections 43-532 to 43-535 every effort should be made in Nebraska to provide programs that are family based and community based. Furthermore, Nebraska, in compliance with 20 U.S.C. 1400 to 1485 and the Special Education Act shall provide free and appropriate education in the least restrictive environment.

The Legislature finds that appropriate educational programs and family support systems needed by some have not always been available in Nebraska, and consequently children and youth from Nebraska have been placed out of their homes in programs in other states. Such programs are often extraordinarily expensive and result in children being hundreds or thousands of miles away from their families and home communities.

The Legislature finds that it is necessary to provide an array of services in order to meet the specialized needs of children with disabilities who are at risk for being placed out of their homes. Such an array may include, but is not limited to, intensive in-home therapy, specialized foster care, alternative home placement, and temporary and permanent residential care.

The Legislature recognizes that such services need to be comprehensive, addressing both the educational and family needs of the children. Such comprehensive services will require the coordination and collaboration of state agencies in partnership with regional and local service providers. While the State Department of Education is responsible for the

educational needs in compliance with Article VII, section 1, of the Constitution of Nebraska, other agencies will need to work in concert with the State Department of Education to provide necessary family support systems.

The Legislature, therefor, declares it is the responsibility of the state to make every effort to provide appropriate educational and family services for all its citizens within the state through a system based on the prudent management of resources. It is the intent of the Legislature to cause services to be arranged and configured so that out-of-state placement is seldom needed. It shall also be the public policy of this state to provide an array of comprehensive services for children with disabilities who may be at risk for out-of-home placement because of specialized educational and family needs. Through interagency coordination and collaboration, such services, to the greatest extent possible, shall be community based and provided in the most appropriate least restrictive environment.

Sec. 3. For purposes of the Children with Disabilities and Family Service System Act:

(1) Children with disabilities shall mean handicapped children as defined in section 79-3309 who are subject to section 79-3315 and who cannot be educated in their home communities or who are at risk of out-of-home placement;

(2) Department shall mean the State Department of Education; and

(3) State plan shall mean the annual plan of services prepared by the department pursuant to section 4 of this act.

Sec. 4. The department, in consultation with the Children with Disabilities and Family Service System Planning Team created in section 7 of this act, shall by January 1, 1992, prepare a state plan. The state plan shall be a plan of services for children with disabilities, which plan shall include:

(1) The number of children with disabilities to be served and a description of their needs;

(2) A detailed description of programs and services to be provided;

(3) A detailed description of programs and services needed with proposals for funding and

development;

(4) Recommendations for specific duties and responsibilities for state agencies;

(5) A process for dissemination of proposed standards and regulations which facilitates the active involvement of communities and families;

(6) Procedures for regular case reviews and program reviews by agency administrators;

(7) Reports of independent studies of the efficiency and effectiveness of programs provided and policies implemented;

(8) A variety of mechanisms for families and, when appropriate, for students to advise the administrators of the programs operated under the Children with Disabilities and Family Service System Act about program structures, expectations, outcomes, unmet needs, and issues specific to groups defined by economic status or by racial, cultural, or ethnic identity;

(9) An interagency decision process for the provision of appropriate educational and family support services for children at risk of out-of-home placement. Such a decision process shall assure that all options for community-based programs have been explored before out-of-community placements are made. It shall also assure that appropriate services are present in communities before children are placed in such communities; and

(10) A process for monitoring and reporting expenditures of state funds for all out-of-state placements shall be proposed by the planning team.

Sec. 5. The state plan prepared by the Department and Children with Disabilities and Family Service System Planning Team shall include an examination of existing state school resources and consideration of reorganization and restructuring of such resources to meet the needs of the children with disabilities at risk for out-of-home placement. By January 1, 1992, the team shall report to the Legislature all information required in section 4 of this act.

Sec. 6. The state plan prepared by the Department and Children with Disabilities and Family Service System Planning Team shall be responsive to the cultural needs of the hearing impaired and visually

impaired communities.

Sec. 7. There is hereby created the Children with Disabilities and Family Service System Planning Team.

(1) The team shall consist of no more than ten members appointed by the Governor representing educators, parents, service providers, the Department of Health, the Department of Public Institutions, the State Department of Education, and the Department of Social Services. Appointments to the planning team shall be made no later than June 30, 1991.

(2) The team shall assist the department in developing the state plan and shall consult with groups, entities, or individuals who may be affected by the proposed state plan.

(3) The team shall report the state plan to the Legislature by January 1, 1992. The team shall cease to exist on June 1, 1992. Prior to such date, the team shall make a recommendation to the department for continued community input.

Sec. 8. The department shall annually update the state plan. Each state plan and annual update shall be submitted to the Legislature by June 1 of each year beginning in 1992.

Sec. 9. A process for monitoring and reporting expenditures of state funds for all out-of-state placements shall be proposed by the Children with Disabilities and Family Service System Planning Team authorized in section 7 of this act. A coordinated monitoring and reporting process shall be adopted by the relevant state agencies no later than June 1, 1992.

Sec. 10. The State Department of Education, the Department of Health, the Department of Public Institutions, and the Department of Social Services shall adopt and promulgate rules and regulations to carry out the Children with Disabilities and Family Service System Act.

Sec. 11. Since an emergency exists, this act shall be in full force and take effect, from and after its passage and approval, according to law.".

ATTORNEY GENERAL'S OPINION

Opinion No. 91021

DATE: March 22, 1991

SUBJECT: Whether LB 143 as proposed would violate Art. VII Sec. 5 of the Nebraska Constitution because the fees collected would not be used to support schools.

REQUESTED BY: Senator Rod Johnson

WRITTEN BY: Don Stenberg, Attorney General
Marilyn B. Hutchinson,

Assistant Attorney General

LB 143 provides that as part of court costs a fee of $25.00 shall be assessed "{u}pon the conviction of any person for violation of the provisions of section 39-669.07 or of driving a motor vehicle while under the influence of alcoholic liquor or of any drug in violation of any city or village ordinance" and a fee of $3.00 shall be assessed "{w}hen a person has been convicted in any court in this state of any traffic offense." Such fees are to be remitted to the State Treasurer for deposit in the Emergency Medical Services System Fund to be created by the bill.

We have concluded that such a disposition of those fees would be unconstitutional as discussed below.

Art. VII sec. 5 of the Nebraska Constitution provides in part:

> {A}ll fines, penalties, and license money arising under the general laws of the state, . . . shall belong and be paid over to the counties respectively where the same may be levied or imposed, and all fines, penalties and license money arising under the rules, bylaws, or ordinances of cities, villages, precincts, or other municipal subdivision less than a county shall belong and be paid over to the same respectively. All such fines, penalties, and license money shall be appropriated exclusively to the use and support of the common schools in the respective subdivisions where the same may accrue, . . .

"Fines" and "penalties" which must go to the school fund as directed by that section of the constitution were defined in School District of the City of Omaha v. Adams, 147 Neb. 1060, 26 N.W.2d 24 (1947):

> We think that the provisions of the foregoing section of the Constitution infer that the word "penalties" as therein used, means exactions imposed in the enforcing of the criminal laws and police regulations of the state and its governmental subdivisions. The word "fine" is broad enough ordinarily to include all exactions imposed in a criminal proceeding. But the draftsmen of the Constitution specifically provided that it should have application to rules, by-laws, or ordinances of cities, villages, towns, precincts, or other municipal subdivisions less than a county, violations of which are generally considered as penalties recoverable in a civil suit, although having the general characteristics of a criminal proceeding. This clearly indicates an intent that fines and penalties assessed in criminal prosecutions are to come within the constitutional provision, plus such fines and penalties that are assessed under the rules, by-laws, or ordinances of cities, villages, towns, precincts, or other municipal subdivisions less than a

county, which are criminal in character but collectible by civil action.

Supra. at 1064, 1065. The rationale suggested for that disposition of fines and penalties was the general notion that money exacted as punishment for crimes should go to the school fund as a general deterrent to crime by supporting a better public school system. Id.

There are some limitations. It is not enough that the exaction be punitive to the wrongdoer; it must also not be compensatory to the government. Thus, in the Adams case, above, the fee was held not subject to Art. VII sec. 5 because it was compensatory as well as punitive. In School District of McCook v. City of McCook, 163 Neb. 817, 825, 81 N.W.2d 224 (1957), a fee was held subject to that section because it was only punitive, not compensatory.

In LB 143 the additional fees are characterized as court costs. "Court costs have never been treated as penalties for the violation of a law." DeCamp v. City of Lincoln, 202 Neb. 727, 732, 277 N.W.2d 83 (1979). Court costs are "something distinct from either fines or penalties;" they are "payable both in civil as well as criminal cases," "{s}ome of such costs are in partial recompense for the expenses of court operation, while others reimburse the party for expenses incurred," and they are uniform throughout the entire range of offenses. Id. at 731, 732, 735. Calling the fees court costs is not controlling if they are penalties disguised as court costs. Id. at 733 and School District of McCook, above, at 825.

Under LB 143 the court costs prescribed are not uniform throughout the entire range of covered offenses. They do not recompense the court for any expenses of operating the court or reimburse filing fees. Thus a court may well conclude that such fees, which are additions to existing court costs when a person is convicted of certain offenses, are actually additional penalties for those convicted of the covered offenses.

"License moneys" as used in Art. VII sec. 5 does not include fees collected for the issuance of a state license, but includes only those imposed by a county or some minor municipal corporation. See, State ex rel. Stevens v. Nickerson, 97 Neb. 837, 839, 151 N.W. 981 (1915), School District of Omaha v. Gass, 131 Neb. 312, 318, 267 N.W. 528 (1936), and Wilcox v. Havekost, 144 Neb. 562, 13 N.W.2d 889 (1944). Therefore, the moneys collected for a license imposed by the state may be directed to the state school fund. Id. Or they may be appropriated by the Legislature for some legal purpose other than maintenance of schools. Wilcox v. Havekost, above, at 566. We have found no similar exception for fines and penalties.

We have concluded that the additional fees which would be imposed by LB 143 are probably penalties and subject to Art. VII sec.

5. Thus the proposed disposition of those fees for a use other than for use of the common schools as provided by that section of the constitution is unconstitutional.

Sincerely yours,
DON STENBERG

AM0847

1. Strike the original sections and all amendments thereto and insert the following new sections:

"Section 1. No importer, manufacturer, or dealer licensed pursuant to 18 U.S.C. 923 shall sell or deliver any handgun to another person other than a licensed importer, manufacturer, dealer, or collector until he or she has:

(1) Obtained a completed consent form from the potential buyer or transferee, which form shall be established by the Nebraska State Patrol and provided by the licensed importer, manufacturer, or dealer. The form shall include only the name, date of birth, gender, race, and social security number or other identification number of such potential buyer or transferee;

(2) Inspected an identification containing a photograph of the potential buyer or transferee which appropriately and completely identifies such person;

(3) Requested by toll-free telephone call or other electromagnetic communication that the Nebraska State Patrol conduct a criminal history record check; and

(4) Received a unique approval number for such inquiry from the Nebraska State Patrol indicating the

date and number on the consent form.

Sec. 2. (1) Upon receipt of a request for a criminal history record check, the Nebraska State Patrol shall as soon as possible during the licensee's telephone call or by return telephone call:

(a) Review its criminal history records to determine if the potential buyer or transferee is prohibited from receipt or possession of a handgun pursuant to state or federal law; and

(b) Inform the licensee either (i) that its records demonstrate that the potential buyer or transferee is prohibited from receipt or possession of a handgun or (ii) provide the licensee with a unique approval number.

(2) In the event of electronic failure or similar emergency beyond the control of the Nebraska State Patrol, the patrol shall immediately notify a requesting licensee of the reason for and estimated length of such delay. In any event, no later than the end of the next business day the Nebraska State Patrol shall either (a) inform the licensee that its records demonstrate that the potential buyer of transferee is prohibited from receipt or possession of a handgun or (b) provide the licensee with a unique approval number. If the licensee is not informed by the end of the next business day that the potential buyer is prohibited from receipt or possession of a handgun, and regardless of whether the unique approval number has been received, the licensee may complete the sale or delivery and shall not be deemed to be in violation of this act with respect to such sale or delivery.

Sec. 3. (1) Any records which are created by the Nebraska State Patrol to conduct the criminal history check containing any of the information set forth in subdivision (1) of section 1 of this act pertaining to a potential buyer or transferee who is not prohibited from receipt or transfer of a handgun by reason of state or federal law shall be confidential and may not be disclosed by the patrol or any officer or employee thereof to any person. The Nebraska State Patrol shall destroy any such records as soon as possible after communicating the unique approval number and, in any event, such records shall be destroyed within forty-eight hours after the date of receipt of

(2) Notwithstanding the provisions of this section, the Nebraska State Patrol shall only maintain a log of dates of requests for criminal history record checks and unique approval numbers corresponding to such dates for not to exceed one year.

Sec. 4. The Nebraska State Patrol shall establish a toll-free telephone number which shall be operational seven days a week between 8 a.m. and 10 p.m. for purposes of responding to requests under section 1 of this act. Sec. 5. Any person who is denied the right to purchase or receive a handgun as a result of procedures established by this act may request amendment of the record pertaining to him or her by petitioning the Nebraska State Patrol. If the Nebraska State Patrol fails to amend the record within seven days, the person requesting the amendment may petition the district court of the county in which he or she resides for an order directing the patrol to amend the record. If the person proves by a preponderance of the evidence that the record should be amended, the court shall order the record be amended. If the record demonstrates that such person is not prohibited from receipt or possession of a handgun by state or federal law, the Nebraska State Patrol shall destroy any records it maintains which contain any information derived from the criminal history record check.

Sec. 6. The Nebraska State Patrol shall adopt

and promulgate rules and regulations to ensure the identity, confidentiality, and security of all records and data provided pursuant to this act.

(b) Failure of the Nebraska State Patrol to comply reasonably with the requirements of this act.

Sec. 8. Compliance with this act shall be a defense by the Nebraska State Patrol and the licensee transferring a handgun in any cause of action under the laws of this state for liability for damages arising from the importation or manufacture, or the subsequent sale or transfer, of any handgun which has been shipped or transported in interstate or foreign commerce to any person who has been convicted in any court of any crime punishable by a term of more than one year.

(1) Any handgun, including any firearm with a matchlock, flintlock, percussion cap, or similar type of ignition system, manufactured in or before 1898;

(3) Any firearm which is a curio or relic as defined by 27 C.F.R. 178.11.

Sec. 10. Any licensed importer, manufacturer, or dealer who knowingly and intentionally requests a criminal history record check from the Nebraska State

Patrol for any purpose other than compliance with this act or knowingly and intentionally disseminates any criminal history record information to any person other than the subject of such information shall be guilty of a Class I misdemeanor.

Sec. 11. Any person who, in connection with the purchase, transfer, or attempted purchase of a handgun pursuant to this act, knowingly and intentionally makes any materially false oral or written statement or knowingly and intentionally furnishes any false identification intended or likely to deceive the licensee shall be guilty of a Class I misdemeanor.

Sec. 12. Any licensed importer, manufacturer, or dealer who knowingly and intentionally sells or delivers a handgun in violation of this act shall be guilty of a Class I misdemeanor.

Sec. 13. Any person who knowingly and intentionally obtains a handgun for the purposes of transferring it to a person who is prohibited from receipt or possession of a handgun by state or federal law shall be guilty of a Class IV felony.

Sec. 14. The Nebraska State Patrol shall provide an annual report to the Judiciary Committee of the Legislature which includes the number of inquiries made pursuant to this act for the prior calendar year, the number of such inquiries resulting in a determination that the potential buyer or transferee was prohibited from receipt or possession of a handgun pursuant to state or federal law, the estimated costs of administering this act, the number of instances in which a person requested amendment of the record pertaining to such person pursuant to section 5 of this act, and the number of instances in which a district court issued an order directing the patrol to amend a record.

Sec. 15. Sections 4 and 6 of this act shall become operative on September 15, 1992. The other sections of this act shall become operative on January 1, 1993.".

AM1036

1. Strike the original sections and all amendments thereto and insert the following new sections:

"Section 1. (1) The Legislature further finds and declares that because of the permanent and profound consequences of unintended pregnancy among young women, it is essential that young women be fully informed as to all of their options in dealing with such a pregnancy. that they be encouraged to seek professional help and medical care at the earliest opportunity, and that barriers to such help and care be removed.

(2) The Legislature further finds that requirements of parental or judicial consent to such care and counseling have no effect because, in the majority of cases:

(a) The pregnant young woman voluntarily consults with one or both of her parents;

(b) The requirements do not foster communication if it does not already exist;

(c) The requirements serve to delay the pregnant young woman in seeking medical care, resulting in increased physical risk; and

(d) The requirements cause severe psychological trauma, particularly in dysfunctional families.

(3) The Legislature further finds that pregnant young women in some cases benefit from family involvement or from consultation with sympathetic adults or professional counseling in making voluntary decisions regarding an unintended pregnancy.

(4) Accordingly, the Legislature hereby finds and declares that, as a matter of public policy, pregnant young women should be informed of the option of voluntarily consulting with a parent or other adult with regard to an unintended pregnancy and, if such consultation is detrimental to their best interests or otherwise inappropriate, should have prompt access to professional counseling and guidance and appropriate

medical care.

Sec. 2. For purposes of this act:

(1) Counselor shall mean (a) licensed psychiatrist or psychologist, (b) certified professional counselor, (c) certified social worker, (d) certified marriage and family therapist, (e) certified guidance counselor, (f) ordained member of the clergy, (g) licensed registered nurse, (h) licensed practical nurse, (i) licensed nurse practitioner, or (j) licensed physicians assistant; and

(2) Minor shall mean a person who is less than sixteen years of age.

Sec. 3. Prior to the performance of an abortion upon a minor, a physician or counselor shall provide pregnancy information and counseling in accordance with this section in a manner and language that will be understood by the minor. The physician or counselor shall:

(1) Explain that the information is being given objectively and is not intended to coerce, persuade, or induce the minor to choose to have an abortion or to carry the pregnancy to term;

(2) Explain that the minor may withdraw a decision to have an abortion at any time before the abortion is performed or may reconsider a decision not to have an abortion at any time within the time period during which an abortion may legally be performed;

(3) Explain to the minor the alternative choices available for managing the pregnancy, including (a) carrying the pregnancy to term and keeping the child, (b) carrying the pregnancy to term and placing the child for adoption, placing the child with a relative, or obtaining voluntary foster care for the child, and (c) having an abortion;

(4) Explain that public and private agencies are available to assist the minor with whichever alternative listed in subdivision (3) of this section she chooses and that a list of the agencies and the services available from each will be provided if the minor requests;

(5) Explain that public and private agencies are available to provide birth control information and that a list of the agencies and the services available from each will be provided if the minor requests;

(6) Discuss the possibility of involving the minor's parents or guardian or other adult family members in the minor's decisionmaking concerning the pregnancy and whether the minor believes that involvement would be in the minor's best interests; and

(7) Provide adequate opportunity for the minor to ask any questions concerning the pregnancy, abortion, child care, and adoption and provide information the minor seeks or, if the physician or counselor can not provide the information, indicate where the minor can receive the information.

Sec. 4. After the physician or counselor provides the information and counseling to a minor as required by section 3 of this act, the physician or counselor shall have the minor sign and date a form stating that:

(1) The minor has received information on alternatives to abortion and that there are agencies that will provide assistance and that a list of the agencies and the services available from each will be provided if the minor requests;

(2) The minor has received an explanation that the minor may withdraw an abortion decision or reconsider a decision to carry a pregnancy to term;

(3) The alternatives available for managing the pregnancy have been explained to the minor;

(4) The minor has received an explanation about agencies available to provide birth control information and that a list of the agencies and the services available from each will be provided if the minor requests;

(5) The minor has discussed with the physician or counselor providing the information and counseling the possibility of involving the minor's parents or guardian or other adult family members in the minor's decisionmaking about the pregnancy;

(6) If applicable, the minor has determined that not involving the minor's parents or guardian or other adult family members is in the minor's best interests; and

(7) The minor has been given an adequate opportunity to ask questions.

Sec. 5. (1) The physician or counselor providing the information and counseling shall also sign

and date the form and shall include his or her business address and business telephone number. The physician or counselor shall keep a copy for such minor's medical record and shall give the form to the minor or, if the minor requests and if such physician or counselor is not the attending physician, transmit the form to the minor's attending physician. Such medical record shall be maintained as otherwise provided by law.

(2) The provision of pregnancy information and counseling by a physician or counselor which is evidenced in writing containing the information and statements provided in section 4 of this act and which is signed by the minor shall be presumed to be evidence of compliance with the requirements of this section.

Sec. 6. The requirements of sections 3 and 4 of this act shall not apply when, in the best medical judgment of the physician based on the facts of the case before him or her, a medical emergency exists that so complicates the pregnancy or the health, safety, or well-being of the minor as to require an immediate abortion. A physician who does not comply with the requirements of such sections by reason of this section shall state in the medical record of the abortion the medical indications on which his or her judgment was based.".

AM0847

1. Strike the original sections and all amendments thereto and insert the following new sections:

"Section 1. No importer, manufacturer, or dealer licensed pursuant to 18 U.S.C. 923 shall sell or deliver any handgun to another person other than a licensed importer, manufacturer, dealer, or collector until he or she has:

(1) Obtained a completed consent form from the potential buyer or transferee, which form shall be established by the Nebraska State Patrol and provided by the licensed importer, manufacturer, or dealer. The form shall include only the name, date of birth, gender, race, and social security number or other identification number of such potential buyer or transferee;

(2) Inspected an identification containing a photograph of the potential buyer or transferee which appropriately and completely identifies such person;

(3) Requested by toll-free telephone call or other electromagnetic communication that the Nebraska State Patrol conduct a criminal history record check; and

(4) Received a unique approval number for such inquiry from the Nebraska State Patrol indicating the date and number on the consent form.

Sec. 2. (1) Upon receipt of a request for a criminal history record check, the Nebraska State Patrol shall as soon as possible during the licensee's telephone call or by return telephone call:

(a) Review its criminal history records to determine if the potential buyer or transferee is prohibited from receipt or possession of a handgun pursuant to state or federal law; and

(b) Inform the licensee either (i) that its records demonstrate that the potential buyer or transferee is prohibited from receipt or possession of a handgun or (ii) provide the licensee with a unique approval number.

(2) In the event of electronic failure or similar emergency beyond the control of the Nebraska State Patrol, the patrol shall immediately notify a requesting licensee of the reason for and estimated length of such delay. In any event, no later than the end of the next business day the Nebraska State Patrol shall either (a) inform the licensee that its records demonstrate that the potential buyer of transferee is prohibited from receipt or possession of a handgun or (b) provide the licensee with a unique approval number. If the licensee is not informed by the end of the next business day that the potential buyer is prohibited from receipt or possession of a handgun, and regardless of whether the unique approval number has been received,

the licensee may complete the sale or delivery and shall not be deemed to be in violation of this act with respect to such sale or delivery.

Sec. 3. (1) Any records which are created by the Nebraska State Patrol to conduct the criminal history check containing any of the information set forth in subdivision (1) of section 1 of this act pertaining to a potential buyer or transferee who is not prohibited from receipt or transfer of a handgun by reason of state or federal law shall be confidential and may not be disclosed by the patrol or any officer or employee thereof to any person. The Nebraska State Patrol shall destroy any such records as soon as possible after communicating the unique approval number and, in any event, such records shall be destroyed within forty-eight hours after the date of receipt of the licensee's request.

(2) Notwithstanding the provisions of this section, the Nebraska State Patrol shall only maintain a log of dates of requests for criminal history record checks and unique approval numbers corresponding to such dates for not to exceed one year.

(3) Nothing in this section shall be construed to allow the state to maintain records containing the names of licensees who receive unique approval numbers or to maintain records of handgun transactions, including the names or other identification of licensees and potential buyers or transferees including persons not otherwise prohibited by law from the receipt or possession of handguns.

Sec. 4. The Nebraska State Patrol shall establish a toll-free telephone number which shall be operational seven days a week between 8 a.m. and 10 p.m. for purposes of responding to requests under section 1 of this act. The Nebraska State Patrol shall employ and train such personnel as is necessary to expeditiously administer the provisions of this act. The Nebraska State Patrol shall notify all licensed importers, manufacturers, and dealers in writing prior to January 1, 1993, that the procedures and toll-free telephone number described in this act will be operational on such date.

Sec. 5. Any person who is denied the right to purchase or receive a handgun as a result of procedures

established by this act may request amendment of the record pertaining to him or her by petitioning the Nebraska State Patrol. If the Nebraska State Patrol fails to amend the record within seven days, the person requesting the amendment may petition the district court of the county in which he or she resides for an order directing the patrol to amend the record. If the person proves by a preponderance of the evidence that the record should be amended, the court shall order the record be amended. If the record demonstrates that such person is not prohibited from receipt or possession of a handgun by state or federal law, the Nebraska State Patrol shall destroy any records it maintains which contain any information derived from the criminal history record check.

Sec. 6. The Nebraska State Patrol shall adopt and promulgate rules and regulations to ensure the identity, confidentiality, and security of all records and data provided pursuant to this act.

Sec. 7. A licensed importer, manufacturer, or dealer shall not be required to comply with the provisions of this act in the event of:

(1) Unavailability of telephone service at the licensed premises due to (a) the failure of the entity which provides telephone service in the state, region, or other geographical area in which the licensee is located to provide telephone service to the premises due to the location of such premises or (b) the interruption of telephone service by reason of hurricane, flood, natural disaster, other act of God, war, riot, or other bona fide emergency or reason beyond the control of the licensee; or

(b) Failure of the Nebraska State Patrol to comply reasonably with the requirements of this act.

Sec. 8. Compliance with this act shall be a defense by the Nebraska State Patrol and the licensee transferring a handgun in any cause of action under the laws of this state for liability for damages arising from the importation or manufacture, or the subsequent sale or transfer, of any handgun which has been shipped or transported in interstate or foreign commerce to any person who has been convicted in any court of any crime punishable by a term of more than one year.

Sec. 9. This act shall not apply to:

(1) Any handgun, including any firearm with a matchlock, flintlock, percussion cap, or similar type of ignition system, manufactured in or before 1898;

(2) Any replica of any firearm described in subdivision (1) of this section if such replica is not designed or redesigned to use rimfire or conventional centerfire fixed ammunition and uses rimfire or conventional centerfire fixed ammunition which is no longer manufactured in the United States and which is not readily available in the ordinary channels of commercial trade; and

(3) Any firearm which is a curio or relic as defined by 27 C.F.R. 178.11.

Sec. 10. Any licensed importer, manufacturer, or dealer who knowingly and intentionally requests a criminal history record check from the Nebraska State Patrol for any purpose other than compliance with this act or knowingly and intentionally disseminates any criminal history record information to any person other than the subject of such information shall be guilty of a Class I misdemeanor.

Sec. 11. Any person who, in connection with the purchase, transfer, or attempted purchase of a handgun pursuant to this act, knowingly and intentionally makes any materially false oral or written statement or knowingly and intentionally furnishes any false identification intended or likely to deceive the licensee shall be guilty of a Class I misdemeanor.

Sec. 12. Any licensed importer, manufacturer, or dealer who knowingly and intentionally sells or delivers a handgun in violation of this act shall be guilty of a Class I misdemeanor.

Sec. 13. Any person who knowingly and intentionally obtains a handgun for the purposes of transferring it to a person who is prohibited from receipt or possession of a handgun by state or federal law shall be guilty of a Class IV felony.

Sec. 14. The Nebraska State Patrol shall provide an annual report to the Judiciary Committee of the Legislature which includes the number of inquiries made pursuant to this act for the prior calendar year, the number of such inquiries resulting in a determination that the potential buyer or transferee was prohibited from receipt or possession of a handgun

pursuant to state or federal law, the estimated costs of administering this act, the number of instances in which a person requested amendment of the record pertaining to such person pursuant to section 5 of this act, and the number of instances in which a district court issued an order directing the patrol to amend a record.

Sec. 15. Sections 4 and 6 of this act shall become operative on September 15, 1992. The other sections of this act shall become operative on January 1, 1993.".

If, after allowing or disallowing a claim, the personal representative changes his or her decision concerning the claim, he or she shall notify the claimant. The personal representative may not change a disallowance of a claim after the time for the claimant to file a petition for allowance or to commence a proceeding on the claim has run and the claim has been barred. Upon the filing of the notice and petition the district court shall have jurisdiction over the proceedings on the claim. The district court may order such additional pleadings as are necessary. The district court shall adjudicate the claim in the manner provided in section 25-1104 as to actions for the recovery of money or of specific real or personal property.

(c) Upon the petition of the personal representative or of a claimant in a proceeding for the purpose, the court may allow in whole or in part any claim or claims filed with the clerk of the court in due time and not barred by subsection (a) of this section. Notice in this proceeding shall be given to the claimant, the personal representative, and those other persons interested in the estate as the court may direct

by order entered at the time the proceeding is commenced.

(d) A final judgment in a proceeding in any court against a personal representative to enforce a claim against a decedent's estate is an allowance of the claim.

(e) Unless otherwise provided in any final judgment in any court entered against the personal representative, allowed claims bear interest at the legal rate for the period commencing sixty days after the time for original presentation of the claim has expired unless based on a contract making a provision for interest, in which case they bear interest in accordance with that provision.".

1. Insert the following new sections:

"Sec. 25. For purposes of sections 25 to 31 of this act:

(1) Board of Regents shall mean the Board of Regents of the University of Nebraska;

(2) Medical center shall mean the University of Nebraska Medical Center;

(3) Student shall mean a person enrolled in or accepted for admission to a program of medical education to become a practicing physician; and

(4) Tuition shall not include fees, living expenses, clothing, books, or equipment which a student may be required to own or lease.

Sec. 26. (1) A medical education scholarship program at the medical center is hereby established. The Board of Regents shall maintain and administer the program.

(2) The Board of Regents shall waive the tuition charged to any student enrolled in or accepted for admission to the medical center who is selected for a medical education scholarship pursuant to section 28 of this act and who signs a contract with the Board of Regents pursuant to the conditions prescribed in section 29 of this act.

(3) It is the intent of the Legislature that no General Funds shall be expended for the medical education scholarship program. The medical center shall

seek private sources of financing or federal funding for scholarships authorized in this section.

Sec. 27. (1) Each academic year the Board of Regents, upon recommendation of the medical center or the Nebraska Rural Health Advisory Commission, may select up to six students in each junior and senior undergraduate class at the medical center to receive medical education scholarships. Not more than twelve such medical education scholarships shall be awarded. The award shall entitle the student to a tuition waiver for the remainder of his or her undergraduate medical education at the medical center unless the Board of Regents removes the scholarship pursuant to section 29 of this act or the student elects to forfeit the scholarship. Forfeiture or removal of the scholarship shall not remove the liability of the student for tuition previously waived pursuant to the contract required by section 28 of this act. If a scholarship is forfeited or removed, the Board of Regents may award such scholarship to another student in the same academic class as the student whose scholarship was forfeited or removed. Any student enrolled in or accepted for admission to the medical center may apply for a medical education scholarship.

(2) In selecting the scholarship winners, the Board of Regents shall consider:

(a) The student's interest in primary care, especially family practice;

(b) The likelihood that the student will serve an underserved area of the state;

(c) A satisfactory academic record of the student;

(d) An indication of support for the student from one or more communities in an underserved area of the state; and

(e) Other indicators of the possible success the student may have in completing his or her medical education and serving in one of the underserved areas of the state.

Sec. 28. Any student selected to receive a medical education scholarship shall sign a contract agreeing to:

(1) Complete the undergraduate and graduate medical education requirements to become a practicing

physician;

(2) Serve an area of the state, which was determined by the Nebraska Rural Health Advisory Commission to be medically underserved at the time the student signed the contract, within one year after the completion of his or her graduate medical education and maintain that service for a period of one year for each academic year the student received a medical education scholarship; and

(3) Pay interest on the amount of tuition waived at the rate specified in section 45-104.01, as such rate may from time to time be adjusted by the Legislature, to accrue from the time the scholarship is awarded, if the student does not complete the terms of the contract.

Sec. 29. The medical center shall annually review the performance of each scholarship recipient. The medical center may recommend to the Board of Regents that a scholarship be removed if it appears that the student will be unable to complete his or her medical education and serve an underserved area of the state.

Sec. 30. (1) If the Board of Regents determines that the recipient of a medical education scholarship has violated any of the provisions of section 28 of this act, he or she shall repay the amount of tuition waived and shall pay such damages as may be determined by any court in this state in which a civil action may be brought by the Board of Regents. If the student is required to repay tuition and interest, he or she shall do so no later than five years after the Board of Regents has determined a violation of the agreement has occurred. Any net repayment shall be credited to the appropriate fund of the medical center.

(2) The Board of Regents may forgive or defer all or part of the repayment required in this section if it determines that special circumstances exist due to the death or disability of the student or due to an extreme hardship which renders the student unable to complete his or her medical education or fulfill his or her service obligation.

Sec. 31. The Board of Regents shall administer and maintain records for the medical education scholarship program. The Board of Regents shall adopt and promulgate rules and regulations to

establish application procedures, collection procedures, notification procedures, award procedures, and any other criteria necessary to carry out the program.

Sec. 34. Since an emergency exists, this act shall be in full force and take effect, from and after its passage and approval, according to law.".

ATTORNEY GENERAL'S OPINION

Opinion No. 91024

DATE: April 2, 1991

SUBJECT: Constitutionality of Amendment of the Definition of Real Property for Tax Purposes under LB 1115 in Light of Natural Gas Pipeline Co. v. State Bd. of Equal., 237 Neb. 357, ___ N.W.2d ___ (1991).

REQUESTED BY: Senator W. Owen Elmer
Nebraska State Legislature

WRITTEN BY: Don Stenberg, Attorney General
L. Jay Bartel, Assistant Attorney General

You have requested us to reexamine our conclusions regarding the constitutionality of the amendment of the definition of real property for tax purposes under LB 1115 reached in Attorney General Opinion No. 90007, issued on February 14, 1990, in light of the recent Nebraska Supreme Court decision in Natural Gas Pipeline Co. v. State Bd. of Equal., 237 Neb. 357, ___ N.W.2d ___ (1991).

Generally, LB 1115 would alter the current system of property taxation by exempting all personal property other than motor vehicles, and by redefining the term "real property" in Neb.Rev.Stat. § 77-103 (Reissue 1990) (as amended by 1989 Neb. Laws, 1st Spec.

Sess., LB 1). The proposed redefinition of "real property" subject to taxation is contained in Section 24 of LB 1115, which provides, in pertinent part:

(1) Real property shall include both type A and type B real property.

(2) Type A real property shall mean all land, including land under water, and all mines, minerals in place, quarries, sand and gravel pits, mineral springs and wells, and oil and gas wells.

(3) Type B real property shall mean any improvement, upon or beneath type A real property, which remains, in the normal course of events, affixed upon or beneath such property for longer than twelve months. For purposes of this subsection, improvement shall mean any property that remains fixed and stationary by design in relation to the type A real property for twelve months or more, and affixed shall mean actually or constructively annexed or attached.

During a special session convened in November, 1989, the Legislature amended the definition of "real property" in §77-103 to include ". . . pipelines, railroad track structures, electrical and telecommunications poles, towers, lines, and all items actually annexed to such property, and any interest pertaining to the real property or real estate." 1989 Neb. Laws, 1st Special Session, LB 1.

We addressed at length the constitutionality of legislation amending the definition of real property in §77-103 in Attorney General Opinion No. 89071, dated November 13, 1989. In this opinion, we considered whether it was permissible for the Legislature to adopt a statutory definition of real property for tax purposes which differed from adherence to the common law standards which the Nebraska Supreme Court had found in Northern Natural Gas Co. v. State Board of Equalization and Assessment, 232 Neb. 806, 443 N.W.2d 249 (1989) {"Northern "} to be included in §77-103. Noting the general rule that "{i}t is competent for the Legislature to classify for purposes of legislation, if the classification rests on some reason of public policy, some substantial difference of situation or circumstance, that would naturally suggest the justice or expediency of diverse legislation with respect to the objects to be classified. . ." (Stahmer v. State, 192 Neb. 63, 68, 218 N.W.2d 893, 896 (1974)), we concluded the Legislature was not necessarily precluded from enacting legislation altering the definition of real property under §77-103, provided a reasonable basis could be articulated to justify any classification established by such redefinition. At the time of the issuance of our prior opinion discussing the constitutionality of Section 24 of LB 1115, we noted that no judicial determination had

been made as to the constitutionality of the amendment to § 77-103 made by LB 1. Attorney General Opinion No. 90007, at 2.

Subsequent to the issuance of our two prior opinions addressing the constitutionality of legislation altering the definition of "real property" for tax purposes, the Nebraska Supreme Court issued its opinion in Natural Gas Pipeline Co. v. State Bd. of Equal., 237 Neb. 357, ___ N.W.2d ___ (1991) {"NGPL"}, as well as opinions in several companion cases. You now ask us to revisit the question of the constitutionality of the proposed redefinition of "real property" for tax purposes under LB 1115 in light of the decision in NGPL.

In reversing and remanding the 1989 action of the State Board of Equalization and Assessment {"State Board"} with respect to the equalization of the personal property of centrally assessed taxpayers, the per curiam majority in NGPL held, in part, that the redefinition of "real property" accomplished under LB 1 could not be applied to determine the equalization claims before the State Board for the 1989 tax year. Specifically, the majority held that: (1) the subject matter of LB 1 was "irrelevant to the matter of equalization;" and (2) "the application of LB 1 for the 1989 tax year would result in the commutation of a tax, in violation of Neb. Const. art. VIII, § 4." Id. at 366, ___ N.W.2d at ___. Thus, the majority in NGPL did not deal with the constitutionality of LB 1 beyond making a determination that the bill could not be applied to tax year 1989. The per curiam majority did not reach any further question as to the constitutionality of LB 1.

In a separate concurring opinion, Judge Grant, joined by Judge Fahrnbruch, went further, expressing the view that LB 1 was "unconstitutional on its face." Id. at 377, ___ N.W.2d at ___ (Grant, and Fahrnbruch, J., concurring). Citing the court's prior decisions in State ex rel. Meyer v. Peters, 191 Neb. 330, 215 N.W.2d 520 (1974), and Moeller, McPherrin and Judd v. Smith, 127 Neb. 424, 255 N.W. 551 (1934), Judge Grant stated: "Although the Legislature has broad power to define property for tax purposes, its power to define is limited, since (1) the Legislature cannot abrogate or contradict an express constitutional definition and (2) the legislative definition must be reasonable and cannot be arbitrary or unfounded." 237 Neb. at 377, ___ N.W.2d at ___. Judge Grant determined the definition in LB 1 impermissibly nullified and circumvented the Legislature's authorization under Neb. Const. art. VIII, § 2, to classify and exempt personal property, finding "the Legislature has not 'classified' certain items of personal property, but has arbitrarily declared the personal property owned by an unfavored group of taxpayers to be 'fixtures,' which are presumedly taxable as real estate under our decision in Northern Natural Gas Co. v. State Bd. of Equal., 232 Neb. 806, 443

N.W.2d 249 (1989)." 237 Neb. at 379, ___ N.W.2d at ___. He continued by stating that, under LB 1, "the Legislature has attempted to define and designate as a 'fixture' that which is, in fact and in truth, personal property, and has gone beyond the bounds of its legitimate powers in doing so." Id. Judge Grant also concluded the classification set forth in LB 1 violated the prohibition against special legislation in Neb. Const. art. III, § 18, "because it is not based on any real and substantial difference between 'machinery and equipment used for business purposes or center pivot or other irrigation systems of a type used for agricultural or horticultural purposes' and machinery and equipment used for other purposes." Id.[1]

In another separate opinion, Judge Shanahan, concurring in part and dissenting in part, expressed his views concerning the reasonableness of the amendment to the definition of "real estate" under LB 1. Judge Shanahan, taking issue with the opinions expressed by Judge Grant as to the validity of LB 1, stated "the definition of 'real estate' in L.B. 1 and the exclusion of certain property from statutorily defined 'real estate'. . . have a rational basis and are, therefore, reasonable and are not arbitrary or unfounded." 237 Neb. at 392, ___ N.W.2d at ___ (Shanahan, J., concurring in part and dissenting in part). He further stated that, even if the business "machinery and equipment" provision of LB 1 were found to be unconstitutional, that provision was severable from the remainder of the bill. Id..

In summary, the following observations regarding the court's views as to the constitutionality of the Legislature's alteration of the definition of "real property" for tax purposes under LB 1 may be gleaned from the decision in NGPL: (1) A majority of the court has not expressed an opinion as to whether the redefinition of "real property" in § 77-103 accomplished by LB 1, which departs from the common law of fixtures for determining whether an item is real or personal property, is unconstitutional either on its face or as applied to tax years beyond 1990. Rather, the per curiam majority held only that the redefinition in LB 1 could not constitutionally be applied to the equalization claims for tax year 1989 pending before the court; (2) At least two members of the court (and possibly three) have expressed the opinion that the definition of "real property" in LB 1 is, in their view, unconstitutional on its face; and (3) One member of the court has stated it is his opinion that the amendment to the statutory definition of "real property" accomplished by LB 1 is constitutional, indicating the portion of the bill relating to business "machinery and equipment" may be unconstitutional but, nevertheless, severable so as to save the remainder of the bill.

In our previous opinions, we noted that several states have adopted statutory definitions of real property or real estate for tax purposes that include types of property, which, under the common law of fixtures, would likely constitute personalty, and that challenges to the constitutionality of such classifications have been rejected in other jurisdictions. Attorney General Opinion No. 89071, November 13, 1989, at 3; Attorney General Opinion No. 90007, February 14, 1990, at 2-3. Based on such authority, we previously stated it was not inherently unreasonable for the Legislature to classify property as real or personal for tax purposes in a manner which differed from the common law tests regarding fixtures, such as contained in LB 1 and Section 24 of LB 1115, provided the classifications established were reasonable.

We did note, however, that any attempt to reclassify real and personal property by definition could well be construed as creating an arbitrary and unreasonable classification contrary to the Nebraska Constitution. Specifically, with regard to LB 1115, we stated it was possible that an owner of property subject to taxation as " type B real property" under the bill could be able to successfully argue the taxation of such property was arbitrary and unreasonable when the same or similar property was, under the definition established by the bill, classified as personal property and, therefore, exempted from taxation. Attorney General Opinion No. 90007, February 14, 1990, at 3.

The recent per curiam opinion in NGPL does not, for the reasons stated previously, provide any definitive statement of the opinion of a majority of the court as to the Legislature's authority to classify property as real or personal for tax purposes. There is case law in Nebraska, however, relied upon by the members of the court concluding LB 1 was, in their view, unconstitutional, revealing that our court has consistently taken a very restrictive view as to the Legislature's ability to classify and define terms within the confines of the State Constitution in the area of property taxation.

In Moeller, McPherrin and Judd v. Smith, 127 Neb. 424, 255 N.W. 551 (1934) {"Moeller"}, the court held unconstitutional legislative action altering the taxation of tangible and intangible property accomplished by the enactment of a statute defining the term "tangible property" to include property which, by nature, was intangible. In particular, the court stated:

> May a legislature, under the guise of defining a word, do so with a definition which contravenes our Constitution, and which is not true or legal in fact? Class 2 of tangible property, as defined in House Roll No. 9, is intangible property as defined by the leading dictionaries.

* * *

Can the legislature define and designate as tangible that which is, in fact and in truth, intangible? It may be admitted that the legislature has power to define words used by it, but is this an unlimited power, or is it subject to a reasonable construction? Tangible is the direct opposite of intangible; and can the legislature, under the guise of calling it two separate classes of tangible property, include all intangible property under class 2 of tangible property? In our opinion, there is a limit to the legislature's power to nullify and circumvent constitutional provisions by putting an arbitrary, but improper and unfounded, definition upon a certain word.

The Constitution of Nebraska clearly provides for two kinds of personal property for purposes of taxation, and the legislature has abrogated one of these by the device of calling it a class under the other. The legislature could not directly blot out a provision of the Constitution; has it not, by House Roll No. 9, attempted to do it indirectly?

If the Constitution gives one definition of a legal term, and a statute another, it is the duty of a court to declare that the Constitution governs.

Id. at 433, 255 N.W. at 555-56.

Furthermore, in State ex rel. Meyer v. Peters, 191 Neb. 330, 215 N.W.2d 520 (1974) {"Peters"}, the court declared unconstitutional a statute exempting from property taxation household goods, "including major appliances either attached or detached to real property," and personal effects. The legislation was assertedly enacted pursuant to Article VIII, Section 2, of the Nebraska Constitution, which provided, in part: "Household goods and personal effects, as defined by law, may be exempted from taxation in whole or in part, as may be provided by general law. . . ." (Emphasis added). In holding the phrase "household goods and personal effects, as defined by law" in Article VIII, Section 2, referred to existing law at the time of adoption of the constitutional amendment in a descriptive and limiting manner, the court stated:

Any definitional powers given to the Legislature are prefixed and limited. The power to define household goods and personal effects necessarily is limited to those articles which ordinarily would be understood to be embraced within that term. Certainly, it cannot be interpreted to give the Legislature power to include air-conditioning systems, furnaces, automobiles, or real estate within the term "household goods and personal effects." Since there must be a limit to such powers, it is reasonable to find the common law concepts serve as guides.

* * *

> In any event, any power to define household goods must be limited for the term "household goods" to have any meaning whatever. It is obvious that the Legislature could not be allowed to define all property in the state as household goods and personal effects. To permit it to do so would allow it to negate other parts of the Constitution.

Id. at 334-35, 215 N.W.2d at 524-25.

While it is possible to try to distinguish the situations addressed in Moeller and Peters from the one presented herein, it is clear that certain members of our Supreme Court have taken a rather narrow view of the scope of the Legislature's power to classify and define property for tax purposes in this context. The concurring opinion of Judge Grant (joined by Judge Fahrnbruch), reflecting the view that the classifications set forth in LB 1 are unconstitutional, relies heavily on the court's prior decisions in Moeller and Peters. As noted previously, at least these two members of the court (and possibly a third member) are on record as expressing their opinion that LB 1 is unconstitutional. You should recognize that there are clear similarities between the constitutional infirmities articulated by these members of the court regarding LB 1, and the proposed amendment to the definition of "real property" under LB 1115.[2]

Five of the seven judges of the Nebraska Supreme Court must agree in order to hold a law unconstitutional. Neb. Const. art. V, § 2. It is reasonably certain that at least two judges would rule the definition of real property unconstitutional and at least one (Judge Shanahan) would likely rule the definition constitutional. Although we are of the opinion that Judge Shanahan's view is the more reasonable one, we do not know, and at this time cannot know, whether at least two of his colleagues will agree with that view.

Therefore, we cannot definitively answer the question you have raised. We, therefore, counsel caution but, at the same time, we cannot say that the definition would necessarily be ruled unconstitutional.

Finally, it is not apparent from your request whether you wish us to readdress the questions discussed in our prior opinion as to the constitutionality of certain other provisions of LB 1115. In this respect, we direct you to our earlier opinion as, upon review, we continue to adhere to the conclusions reached therein regarding the constitutionality of these provisions.

[1] In a separate concurrence, Judge Caporale stated "there may be much merit in what Judge Grant has written about L.B. 1." 237 Neb. at 381, ___ N.W.2d at ___ (Caporale, J., concurring).

[2] Furthermore, in considering the constitutionality of the exemption of property classified as "personal property" by virtue of the provisions of LB 1115, it should be noted that three members of the court indicated in a concurring opinion in NGPL that the exemption of all personal property may run afoul of the Constitution, in spite of the apparent authority granted to the Legislature under Neb. Const. art. VIII, § 2, to ". . . exempt all personal property from taxation." In this regard, Judges White and Fahrnbruch, joined by Judge Grant, stated "{u}nder our constitutional system, all property, except household goods and property owned by nonprofit educational, charitable, horticultural, or cemetery organizations, which property is used for those purposes, must be taxed, or no property may be taxed." 237 Neb. at 374, ___ N.W.2d ___ (White, and Fahrnbruch, J., concurring). In our opinion, it is unlikely that a constitutional majority of the court would accept this restrictive interpretation.

Very truly yours,
DON STENBERG

ATTORNEY GENERAL'S OPINION

Opinion No. 91026

DATE: April 4, 1991

SUBJECT: Constitutionality of LB 718 as Amended - Legislative Authorization of Parimutuel Wagering on the Results of Horseraces by Means of "Telephonic Wagering" or Through "Teleracing Facilities."

REQUESTED BY: Senators Arlene Nelson and Stan Schellpeper
Nebraska State Legislature

WRITTEN BY: Don Stenberg, Attorney General
L. Jay Bartel, Assistant Attorney General

You have each requested our opinion regarding the constitutionality of LB 718, as amended by Committee Amendment AM0425. In its original form, LB 718 proposed to authorize parimutuel wagering on the results of horseraces by "racetrack messenger services" approved and licensed by the Nebraska State Racing Commission. Under the Committee Amendments to the bill, the references to "racetrack messenger services" have been eliminated, and, generally, have been replaced by references to the allowance of "telephonic wagering" on the results of horseraces or the placing of wagers through "teleracing facilities." You have each asked us to consider whether LB 718, as amended, violates Neb. Const. art. III, § 24.

Article III, Section 24, of the Nebraska Constitution, which expressly limits the power of the Legislature to authorize various gambling activities, provides, in pertinent part:

> Nothing in this section shall be construed to prohibit the enactment of laws providing for the licensing and regulation of wagering on the results of horseraces, wherever run, either within or outside of the state, by the parimutuel method, when such wagering is conducted by licensees within a licensed racetrack enclosure,.... (Emphasis added).

In a prior opinion, we concluded that the restrictions on the Legislature's power in Article III, Section 24, did not preclude the Legislature from authorizing parimutuel wagering at licensed racetrack enclosures in the state via simulcast arrangements on the results of horseraces conducted at other licensed racetrack facilities in Nebraska. Attorney General Opinion No. 87041, March 31, 1987. We noted that the courts of New Jersey had grappled with the constitutionality of legislation authorizing wagering on the results of

horseraces conducted within the state under a "simulcast" system similar to that proposed to be established in Nebraska. Atlantic City Racing Ass'n v. Attorney General, 189 N.J. Super. 549, 461 A.2d 178, aff'd 198 N.J. Super. 247, 486 A.2d 1261 (1983), rev'd 98 N.J. 535, 489 A.2d 165 (1985).[1] Upon consideration of these cases, we determined that, under our state constitution, the Legislature's authority to permit parimutuel wagering on the results of horseraces "when such wagering is conducted by licensees within a licensed racetrack enclosure" was consistent with the wagering authorized under the simulcast legislation, as such wagers were, in fact, placed "within a licensed racetrack enclosure." In considering the constitutionality of the prior legislation authorizing "simulcast" arrangements of this nature, we were not required to deal with the specific issue raised by your current requests, to wit, whether the state constitution permits the Legislature to authorize parimutuel wagering on the results of horseracing by providing for "telephonic wagering" or the operation of "teleracing facilities" located outside the boundaries of licensed racetrack enclosures, such as proposed under LB 718 as amended.[2]

In State ex rel. Hunter v. The Araho, 137 Neb. 389, 289 N.W. 545 (1940), the Nebraska Supreme Court addressed the question of whether the 1934 amendment to Article III, Section 24 (and implementing legislation) which legalized parimutuel horserace betting permitted the operation of establishments accepting wagers on the results of horseraces when such establishments were located outside the enclosure of licensed racetracks. Rejecting the contention that the constitutional amendment, and the legislation adopted pursuant to the amendment, authorized such wagering, the court stated:

> {I}t must be evident that such wide-spread gambling upon horseraces was not within the scope of the amendment, adopted by the majority of the voters of Nebraska, to permit only pari-mutuel betting and gambling, or in the minds of the members of the legislature, who adopted section 2-1513, supra, but it only permitted a definite form, known as pari-mutuel horse race betting, and required that the same must be conducted under license duly issued by the state racing commission, and be conducted in strict accordance with the conditions and limitations as set out in said law, which requires that it be conducted by licensees within the race track enclosure at licensed horserace meetings.
>
> In our opinion, nothing in the amendment to the constitution of Nebraska, or in the laws passed to carry said change into effect, supports the contention of the defendants that the bars are now

> down on all forms of games of chance, betting, and gambling in connection with horse races of any kind, wherever held.

Id. at 396-97, 289 N.W. at 550 (Emphasis added).[3]

In our opinion, the authorization of "telephonic wagering" or the placing of wagers through "teleracing facilities" under the proposed bill, as amended, is contrary to both the letter and spirit of our fundamental law. "Telephonic wagering" is defined as "the placing of parimutuel wagers by telephone to a telephone deposit center at a licensed racetrack . . .." LB 718, as amended, § 6(5). "Teleracing facility" is defined as "an area occupied by a licensee for the purpose of conducting telewagering. . . ." LB 718, as amended, § 6(6). "Telewagering" is defined as "the placing of a wager through betting terminals linked to a licensed racetrack, which electronic link instantaneously transmits the wagering information to the parimutuel pool for acceptance and issues tickets as evidence of such wager." LB 718, as amended, § 6(7).

The Legislature's power to define terms is limited because the Legislature may not, under the guise of definition: (1) abrogate or contradict an express constitutional provision; or (2) establish a definition which is unreasonable or arbitrary. See Natural Gas Pipeline Co. v. State Bd. of Equal., 237 Neb. 357, 377, ___ N.W.2d. ___ (1991) (Grant J., concurring); State ex rel. Meyer v. Peters, 191 Neb. 330, 215 N.W.2d 520 (1974); Moeller, McPherrin & Judd v. Smith, 127 Neb. 424, 255 N.W. 551 (1934). The Legislature may not, under the guise of definition, nullify or circumvent a provision of the Nebraska Constitution.[4]

Section 2 of LB 718, as amended, provides, in part, that "{w}agers placed through licensed teleracing facilities or by approved telephonic wagering. . . shall be deemed to be wagers placed and accepted within the enclosure of any racetrack." (Emphasis added). Section 3 of the bill, as amended, would amend Neb.Rev.Stat. § 2-1216 (Reissue 1987) to provide, in part, that: "The parimutual (sic) system of wagering on the results of horseraces, when conducted within the racetrack enclosure at licensed horserace meetings or through teleracing facilities, shall not under any circumstances be held or construed to be unlawful, ..." (Emphasis added).

In light of the foregoing, while we determined it was permissible for the Legislature to authorize simulcast wagering on horseraces within the confines of a "licensed racetrack enclosure" under Neb. Const. art. III, § 24, we cannot conclude that it is permissible for the Legislature to enact legislation such as LB 718, as amended. Simply put, we believe it is apparent that any attempt to define the telephonic wagering authorized under the bill as the making of wagers "within licensed racetrack enclosures" is contrary to any common

understanding of such terms, and defies any reasonable interpretation of the plain language of the limits on parimutuel wagering imposed by the Constitution. The people have not authorized parimutuel wagering on the results of horseracing at any location other than "within a licensed racetrack enclosure." The Legislature cannot circumvent this provision by impermissibly defining wagering by telephone from locations outside a racetrack to be "deemed" to be wagering within the confines of a licensed racetrack enclosure. Authorization for this type of wagering must be obtained by amending the provisions of our Constitution.

We recognize there are cases from other jurisdictions holding, in a variety of contexts, that a "wager" or "bet" is contractual in nature, and requires both an offer and an acceptance in order to be created. See State ex rel. Reading v. Western Union Tel. Co., 336 Mich. 84, 57 N.W.2d 537 (1953) (telegraphing out-of-state of offers to bet on horseraces not subject to injunction as public nuisance for violating gambling laws, as bets did not occur until acceptance, which occurred outside the state); see also State ex rel. Turner v. Drake, 242 N.W.2d 707 (Iowa 1976) (individual's placing of and collecting bets on the results of horseraces at racetracks for others, without compensation, did not violate statute prohibiting the recording or registration of bets, as bet requires agreement between two parties to pay something of value upon the happening or unhappening of a specified contingent event); State v. Countdown, Inc., 319 S.2d 924 (La. 1975) (operation of messenger service which took money from customers to racetrack and placed bets did not constitute illegal "off-track" betting, as no bet or wager occurred until the purchase of parimutuel tickets at the racetrack). But see Hochberg v. New York City Off-Track Betting Corp., 74 Misc. 2d 471, 343 N.Y.S.2d 651 (N.Y. Sup. Ct. 1973), aff'd 43 A.D.2d 910, 352 N.Y.S.2d 1423 (N.Y. App. Div. 1974) (placing of wager at racetrack does not create a wagering contract or agreement between the bettor and the track).

Under such authority, it could be argued that the Legislature's definitions in LB 718, as amended, providing that wagers placed through "teleracing facilities" or by "telephonic wagering" are deemed to be placed and accepted "within a licensed racetrack enclosure," might satisfy the requirements of Article III, Section 24, if no wager may be said to exist until it is "accepted" when received at the racetrack. In view of the restrictive nature of the language of our state constitution, as well as our prior opinions concluding the constitutional requirement that parimutuel wagering on the results of horseraces be "conducted within a licensed racetrack enclosure" precluded the Legislature from enacting legislation authorizing "off-track" betting, we are compelled to conclude the provisions of

LB 718, as amended, would, if challenged, be found unconstitutional. While the Legislature possesses broad powers of definition, we do not believe our Nebraska courts would construe the constitution's authorization of wagering on the results of horseraces "when conducted by licensees within a licensed racetrack enclosure" to encompass the type of "off-track" activities contemplated under LB 718, as amended.

In sum, it is our opinion that, based on the language of Neb. Const. art. III, § 24, the provisions of LB 718, as amended, are unconstitutional.

[1] For a complete discussion of these cases, we refer you to our prior Opinion No. 87041.

[2] Subsequent to the issuance of our opinion and the Legislature's enactment of legislation approving "intrastate" simulcasting of this nature, the voters in 1988 approved an amendment to Neb. Const. art. III, §24, authorizing wagering on horseraces conducted outside of Nebraska. The authorization of "interstate" simulcast wagering of this nature does not affect our response to your requests concerning the constitutionality of legislation approving "telephonic wagering" or the operation of "teleracing facilities" located outside the boundaries of racetrack enclosures in the state.

[3] The constitutionality of legislation prohibiting the operation of off-track "messenger services" accepting wagers for delivery to racetracks has been upheld in several cases. Midwest Messenger Ass'n v. Spire, 223 Neb. 748, 393 N.W.2d 438 (1986); Pegasus of Omaha, Inc. v. State, 203 Neb. 755, 280 N.W.2d 64 (1979); Nebraska Messenger Services v. Thone, 478 F. Supp. 1036 (D.Neb. 1979). These decisions, while upholding the authority of the Legislature to prohibit messenger service activities of this nature, do not address the question of whether the Legislature may constitutionally permit the telephonic wagering or placing of wagers from off-track "teleracing facilities" locations provided for under LB 718, as amended.

[4] In two prior opinions, we concluded that the Legislature could not, consistent with Article III, Section 24, legislate to authorize "off-track" parimutuel wagering on the results of horseraces. Report of Attorney General 1973-74, Opinion No. 7, Feb. 7, 1973, and Opinion No. 14, Feb. 20, 1973. In each instance, we advised that, in our view, the Legislature was without authority to employ its definitional powers to "define" off-track wagering sites as being "a

part of the racetrack enclosure" for purposes of satisfying the requirements of Article III, Section 24. Id. at pp. 8, 20.

Very truly yours,
DON STENBERG

1. Strike the original sections and all amendments thereto and insert the following new sections:

"Section 1. The Legislature finds that there are rivers and streams in Nebraska which, with their immediate environments, possess outstandingly remarkable scenic, recreational, geologic, fish and wildlife, historic, cultural, or other similar values and which should be preserved and protected for the benefit and enjoyment of present and future generations. The Legislature further finds that the Nebraska Natural Resources Commission is the most appropriate agency for providing such protection and that current Nebraska law does not provide the commission with sufficient capability to provide such protection. Current statutory authority needs to be expanded and additional authority needs to be provided to allow the appropriate protective measures.

Sec. 2. (1) The Nebraska Natural Resources Commission may designate as a protected stream all or a portion of any river or stream which possesses one or more of the values recognized in section 1 of this act and for which the commission concludes that protection of those values is in the public interest. The

commission shall make such designation by adopting a resolution specifying the upper and lower ends of the reach or reaches so designated, the reasons and purposes for the designation, and the use restrictions within the protected stream corridor necessary to protect such river or stream.

(2) The designation and the use restrictions shall have the full force and effect of law until changed by the commission or the Legislature.

(3) After the resolution has been adopted, the counties in which all or a part of a protected stream corridor is located shall enforce the use restrictions specified in the resolution. Any city or village which has over zoning jurisdiction all or a part of a protected stream corridor shall, to the extent possible, enforce the use restrictions specified in the resolution.

(4) For purposes of this section, protected stream corridor shall mean all of the portion of the river or stream and all land within one-half mile of each side of the designated reach of the river or stream as measured from the ordinary high-water mark.

Sec. 3. The Nebraska Natural Resources Commission, on its own motion or upon the request of any county presented in the form of a duly adopted resolution by the county, shall investigate all or any portion of a river or stream to determine if it possesses one or more of the values recognized in section 1 of this act.

Prior to adopting a resolution designating a protected stream pursuant to section 2 of this act, the commission shall hold a public hearing. Public notice of the hearing shall be given at least once each week for two consecutive weeks prior to the hearing date in a newspaper of general circulation.

Sec. 4. That section 2-1507, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

2-1507. In addition to the duties and powers otherwise conferred by law upon the Nebraska Natural Resources Commission, it shall have the following duties and powers: (1) To offer such assistance as may be appropriate to the Water Management Board and to the supervisors or directors of any subdivision of

government with responsibilities in the area of natural resources conservation, development, and use in the carrying out of any of their powers and programs; (2) to keep the supervisors or directors of each such subdivision informed of the activities and experience of all other such subdivisions and to facilitate cooperation and an interchange of advice and experience between such subdivisions; (3) to coordinate the programs of such subdivisions so far as this may be done by advice and consultation; (4) to secure the cooperation and assistance of the United States and any of its agencies, and of agencies of this state, in the work of such subdivisions; (5) to disseminate information throughout the state concerning the activities and programs of such subdivisions; (6) to plan, develop, and promote the implementation of a comprehensive program of resource development, conservation, and utilization for the soil and water resources of this state in cooperation with other local, state, and federal agencies and organizations; (7) when necessary for the proper administration of the functions of the department, to rent or lease space outside the State Capitol; ~~and~~ (8) to assist such local governmental organizations as villages, towns, cities, counties, and natural resources districts in securing, planning, and developing information on flood plains to be used in developing regulations and ordinances on proper use of these flood plains; and (9) to carry out sections 1 to 3 of this act relating to protected streams.

Sec. 5. That original section 2-1507, Reissue Revised Statutes of Nebraska, 1943, is repealed.".

ATTORNEY GENERAL'S OPINION

Opinion No. 91027

DATE: April 11, 1991

SUBJECT: Constitutionality of Various Restitution Options for Commonwealth Depositors in Light of Haman v. Marsh

REQUESTED BY: Governor E. Benjamin Nelson, Senator Don Wesely, Senator David Landis, Senator DiAnna R. Schimek, Senator Chris Beutler, Senator LaVon Crosby, and Senator Jerome Warner

WRITTEN BY: Don Stenberg, Attorney General

This Opinion is in response to your correspondence of April 5, 1991, in which you requested our views as to the constitutionality of various options for the restitution of depositors who suffered losses as a result of the Commonwealth failure. You indicated that your proposals came about as a result of meetings and discussions of possible legislative options to provide restitution to Commonwealth, American Savings, and State Securities depositors following our state supreme court's decision in Haman v. Marsh, No. 90-474, March 29, 1991, which struck down LB 272A. Our responses to your various questions are set out below.

At the outset, we must note that we have no specific legislation in front of us. You have simply requested our Opinion concerning several "options" that generally describe various funding proposals for payment of depositors. As a result, our responses to your questions must necessarily also be general, based upon the broad concepts that you have presented to us.

We must also note that our responses below are based upon the court's decision in Haman. We have reviewed that opinion, and our conclusions regarding your proposals reflect our assessment of the supreme court's likely reaction to your various "options." We have asked for a rehearing in the Haman case. Should the court grant a rehearing, different conclusions may ultimately be warranted based upon any different opinion issued by the court in that case.

Your first suggested option is to amend the Crime Victims Reparation Act, Neb.Rev.Stat. §§ 81-1801 et seq., so as to allow for repayment of depositor claims. In our view there are a number of potential constitutional and other problems which would be encountered with this approach.

Initially, we note the statute of limitations under the Act which limits claims to those filed within 2 years of the alleged crime and also provides that notice of the crime must have been given to the police within 3 days of its occurrence. Neb.Rev.Stat. § 81-1821 (Reissue 1987). It appears that depositor claims would be barred by this

provision. Further, if the statute were amended to extend the limitations period and to apply the extended period retroactively to the depositors, this would likely violate the special legislation provisions of Article III, § 18 of the Nebraska Constitution. In Cox v. State, 134 Neb. 751, 279 N.W. 482 (1938), the Nebraska Supreme Court held that that constitutional provision prohibited the Legislature from enacting a law which extended a statute of limitations which had already run and waived the state's sovereign immunity so as to allow a particular individual to sue the state. Certainly if the statute of limitations were extended it would have to be extended for everyone with a potential claim under the Crime Victims Reparations Act - not just the Commonwealth, American Savings and State Securities depositors.

Similarly, this principle also applies to other provisions in the Act which otherwise would bar or limit depositor recovery. For example, § 81-1823 limits the amount of recovery to $10,000 per claimant per incident; and under §§ 81-1818 and 81-1819 payment is limited to losses incurred as the result of personal injury or death of the victim. Again, such provisions would all have to be changed for all potential claimants. Any attempt to limit the amendments so that only depositors in the three institutions are covered would probably run afoul of the special legislation prohibition in the Nebraska Constitution.

It is clear from the Haman decision that any legislation which, as a practical matter, provides state compensation to these depositors uniquely and without a general law which could realistically cover others within a reasonable classification would be struck down as unconstitutional "class legislation." Such legislation would also be deemed to create an unconstitutional "closed class" because it, in effect, limits the application of the law to a present condition with no room or opportunity for an increase in the numbers of the class by future growth or development.

Another problem with the first option is the fact that the real "victim" of the crimes you list is the financial institution itself - not depositors therein. As established in Weimer v. Amen, 235 Neb. 287, 455 N.W.2d 145 (1990), the institution - and hence, its receiver - owns all claims for wrongs done to the institution and to the depositors and creditors in common. Therefore, the receiver must assert these claims - not the individual depositors. However, as the court noted in Haman, the Commonwealth receiver did proceed with tort claims against the state and settled them for $8.5 million. In return, the receiver, with specific court approval, executed a release which released the state, its officers and employees from any and all claims or causes of action whatsoever arising out of the Commonwealth

debacle. This release is clearly broad enough to encompass claims under the Crime Victims Reparation Act and is binding on individual depositors and creditors of Commonwealth. Any legislative attempt to circumvent that release by making the state liable to individual depositors through retroactive changes in the Crime Victims Reparation Act would constitute the kind of special legislation condemned by the court in Haman and Cox v. State, supra. Likewise, because the successors to American Savings and State Securities did bring legal actions against the state which were ultimately dismissed, the depositors in those institutions are barred by those legal results from proceeding individually with claims against the state.

Also in connection with the first option, we are concerned by the basic legal principle that the Legislature cannot circumvent express provisions of the Constitution by doing indirectly what it cannot do directly. Banner County v. State Board of Equalization, 226 Neb. 236, 411 N.W.2d 35 (1987); Moeller, McPherrin & Judd v. Smith, 127 Neb. 424, 255 N.W. 551 (1934). Haman has made clear that the Legislature cannot simply appropriate sums to pay the depositors for their losses without violating the "special legislation" and "extending the credit of the state" prohibitions of the Nebraska Constitution. Attempting to achieve the exact same result by means of amending the Crime Victims Reparation Act such that funds would still end up being appropriated to reimburse these individuals for their losses as the result of acts which occurred more than 7 years ago might well be seen by the court as merely seeking to do indirectly what cannot be done directly under the Constitution.

Finally, we have serious concerns about attributing all or any particular portion of the depositor losses to crimes. Of course, the losses are ultimately all tied to the collapse of Commonwealth Savings Company. It is unclear, however, whether that collapse was caused by criminal activity or by mismanagement or by underlying economic conditions in the real estate market or by some combination of those three elements. Moreover, it would be extremely difficult, if not impossible, to trace any particular losses or portion of losses to any particular criminal activity. Such an allocation would be extremely complex from a fact point of view and, as a practical matter, we do not know how it could be done. On the other hand, the Legislature could not simply declare that all remaining losses are the result of criminal acts since such a legislative determination would not be based on any rational basis or any logical analysis. The courts would certainly not be bound by such a legislative declaration.

The second question which you have requested us to address concerns the constitutionality of legislation providing a state income

tax credit to depositors to "reimburse" them for losses resulting from the failure of Commonwealth, American Savings, and State Securities Savings. Your initial query in this regard concerns whether the establishment of a state income tax credit, available solely to depositors sustaining financial losses as a result of the failures of these three specific institutions, would be constitutional.

While the Legislature obviously possesses authority to classify and define in the area of income taxation, its power to legislate on this subject is necessarily limited by the provisions of the state and federal constitutions. In this regard, we believe the opinion in Haman reveals our supreme court would find unconstitutional an attempt to "reimburse" depositors of these specific financial institutions in this manner for losses suffered as the result of the failure of these entities.

In Haman, the court declared the provisions of LB 272A to be unconstitutional special legislation in violation of Neb. Const. art. III, § 18. Specifically, the court held the reimbursement provided to depositors in these institutions under the Act violated the constitutional prohibition against special legislation because the classification created was unreasonable and arbitrary, and because the Act created an impermissible "closed" classification. Haman, slip op. at 16-18; 20-21. The court further found LB 272A accomplished an unconstitutional extension of the credit of the state in aid of a private corporation, the NDIGC, by requiring the state to act as the "surety or guarantor of another's debts," contrary to Neb. Const. art. XIII, § 3. Haman, slip op. at 21-27.

The same constitutional infirmities would exist if legislative action were taken to establish a state income tax credit to provide "reimbursement" to depositors of these three institutions. There is no reason to believe the court would alter its opinion as to the "reasonableness" of such a classification in this context, and, in any event, the "closed" nature of such a classification seems self-evident. Thus, we believe the court would reject any attempted legislation of this nature as violative of Article III, § 18, irrespective of its views as to the effect of the prohibition in Art. XIII, § 3.

Alternatively, you ask whether it would be permissible for the Legislature to provide a state income tax credit to reimburse depositors for any losses resulting from the failure of any "financial institution subject to state regulation."

In the event the Legislature were to enact legislation of a general nature, providing for a credit against state income tax liability based on losses suffered by depositors due to the failure of any financial institution regulated by the state, we believe the prohibition against special legislation contained in Article III, Section 18, would not apply. It appears reasonable for the Legislature to provide an income

tax credit to a class consisting of all depositors incurring unrecovered losses as a result of the failure of any state regulated financial institution, and that such would not create an impermissible "closed" classification. Based on the decision in Haman, however, there is some risk that our supreme court may not accept such a classification as reasonable, or that the court may find legislation of this type creates an unconstitutional "closed" classification if it is not "reasonably probable" that others beyond the depositors in the three institutions previously mentioned may benefit from such legislation. We believe it is possible for the Legislature to structure legislation of this nature which may avoid these constitutional concerns.

With regard to the question of whether the establishment of a state income tax credit may run afoul of the prohibition against extending the credit of the state in Article XIII, Section 3, relied upon, in part, by the court in Haman in striking down LB 272A, it is our view that legislation could be enacted which would not contravene this restriction. A distinction should be drawn in this context between a "nonrefundable" credit and a "refundable" credit. In our view, the allowance of a "nonrefundable" credit (available only to offset actual tax liability) should not be construed to violate Article XIII, Section 3, as the "credit of the state" is not being given or loaned in any manner by the provision of an income tax credit of this nature. In Haman, the court noted, "{t}he state's credit is inherently the power to levy taxes and involves the obligation of the general fund." Haman, slip op. at 23. An income tax credit simply does not involve an "obligation of the general fund" in the sense contemplated by Article XIII, Section 3.

If the Legislature were to establish a "refundable" credit (available irrespective of actual tax liability), we believe a different result may apply. In this context, a depositor receiving a refund based on a credit which eliminated any state income tax liability would necessarily be receiving a payment of state funds by virtue of the credit. As noted previously, the court has consistently held the Legislature cannot circumvent an express provision of the Constitution by doing indirectly what it cannot do directly. Banner County v. State Board of Equal., supra; Moeller, McPherrin & Judd v. Smith, supra. The court may find legislation requiring the expenditure of state funds by payment of refunds to depositors in this manner to be an indirect attempt to permit the obligation of state funds in contravention of Article XIII, Section 3, based on the analysis applied by the court in Haman.

Option Three, your final proposal for providing state funds to depositors, involves amending our state Constitution in an attempt to circumvent some of the constitutional difficulties raised by the

Haman case. Specifically, you propose a change in Legislative Resolution 24CA, the proposed state constitutional amendment creating a state lottery, which would authorize the Legislature to reimburse the depositors out of lottery fees or proceeds notwithstanding any other provisions of the state Constitution.

The Haman decision rejected LB 272A on the basis of Article III, Section 18, of our state Constitution, which prohibits special legislation and closed legislative classifications, and on the basis of Article XIII, Section 3, which prohibits extending the state's credit to a private corporation. If the Nebraska Constitution were to be specifically amended so as to suspend those constitutional prohibitions with respect to payments to depositors, such payments could be paid without constitutional difficulty under those sections. As a result, we believe that such an amendment to our state Constitution could apply retroactively and could be limited to this class of citizens. In effect, the state constitutional barriers cited in Haman limiting such provisions would not apply.

We would observe, with respect to Option Three, that it might be possible to argue that such a repayment plan would violate the due process provisions of the federal Constitution. However, such an argument would be based upon antiquated notions of substantive due process, and we do not believe that it would prevail.

In sum, we believe that the proposals outlined in your Option One would run into the same constitutional objections as did LB 272A in the Haman case. On the other hand, broadly defined legislation based on Option Two as discussed above or a constitutional amendment in the form proposed by Option Three could avoid the constitutional infirmities described in Haman. As we noted initially, our conclusions in this Opinion are based upon your general proposals. If we are asked to review specific legislation, we will be in a better position to analyze the constitutionality of a particular repayment plan.

Sincerely yours,
(Signed) DON STENBERG

RESOLUTION

LEGISLATIVE RESOLUTION 69. Introduced by Conway, 17.

WHEREAS, funding shortages have caused continuous erosion of health care services for veterans throughout the 1980's; and

WHEREAS, these funding shortages have forced administrators of Veterans' Administration medical centers to reduce their staff and services in order to lower costs; and

WHEREAS, in 1986, the Veterans' Administration implemented additional cost saving measures by categorizing veterans according to their assets in order to calculate their ability to pay for services; and

WHEREAS, each year since 1986 the eligibility rules have become more restrictive and there is a growing concern that the next cost saving step will be to deny treatment to veterans who are in lower income brackets; and

WHEREAS, should our veterans who have low incomes and modest assets be prevented from receiving treatment at Veterans' Administration medical centers, they will be forced to apply for medicaid; and

WHEREAS, recent studies have shown that states are now paying a combined annual total approaching thirty billion dollars in medicaid costs, and the State of Nebraska medicaid expenditures have increased from one hundred seventy-nine million dollars in 1986 to two hundred sixty-one million dollars in 1989; and

WHEREAS, veterans have had only limited success in getting Congress to appropriate money needed to insure quality health care for veterans.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SECOND LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Legislature hereby petitions the Congress of the United States to appropriate the funds necessary to adequately staff and equip Veterans' Administration medical centers to insure quality health care for the veterans of this country.

2. That copies of this resolution be sent to the Speaker of the United States House of Representatives, the President of the United States Senate, and to the members of the Nebraska congressional delegation, with the request that it be entered into the Congressional Record.

Laid over.

ATTORNEY GENERAL'S OPINION

Opinion No. 91029

DATE: April 16, 1991

SUBJECT: Constitutionality of LB 585, a Proposal to Add Requirements for Conducting the Initiative Process

REQUESTED BY: Senator Loran Schmit,

Nebraska State Legislature

WRITTEN BY: Don Stenberg, Attorney General
Dale A. Comer, Assistant Attorney General

LB 585 is a bill which would add requirements to the procedures involving the initiative process in Nebraska. Specifically, Section 1 of the bill would require the sponsor of record of an initiative which has been placed on the general election ballot to hold one hearing in each congressional district in the state prior to the general election. The sponsor would present the initiative at those hearings and receive public comments in support of or in opposition to the measure. Those hearings would be transcribed at the State's expense. Section 2 of LB 585 would require the sponsor of record of an initiative to submit the initiative petition to the Attorney General for review prior to filing it with the Secretary of State. The Attorney General would review the petition for possible ambiguity, confusing or misleading language, for conflicts with other laws, and other technical irregularities. The Attorney General would then issue a written opinion detailing his or her findings, and the Attorney General could make recommendations for change. The sponsors of record could amend the petition in conformance with the Attorney General's suggestions, although such an amendment would not be required.

You are concerned with the constitutionality of LB 585, and you have posed several questions for our review. We believe that the bulk of the bill is constitutional, and our analysis of your questions is set out below.

You first ask whether, under LB 585, the Legislature is trying to take over the initiative process "in violation of U.S. Supreme Court decisions on the subject." Although you have cited no specific cases to us, we assume that you refer to Meyer v. Grant, 486 U.S. 414 (1988).[1] That case dealt with the constitutionality of forbidding paid circulators for initiative measures. We do not believe that either the mandated hearing or the submission to the Attorney General envisioned by LB 585 is impermissible under Meyer.

In the Meyer case, the Supreme Court considered the constitutionality of a Colorado statute which contained an absolute ban on the compensation of petition circulators. The Court indicated that circulation of a petition involves core political speech which is protected by the First Amendment. The Court went on to state that the refusal to permit the sponsors of the petition to pay petition circulators impinged on political expression in two ways:

> First, it limits the number of voices who will convey appellees' message and the hours they can speak and, therefore, limits the

size of the audience they can reach. Second, it makes it less likely that appellees will garner the number of signatures necessary to place the matter on the ballot, thus limiting their ability to make the matter the focus of statewide discussion.

Meyer v. Grant, 486 U.S. at 422, 423. The Court held the Colorado statute unconstitutional.

In our view, neither the mandated hearing under LB 585 nor the review of initiative petitions by the Attorney General impinges upon free political expression. The hearing procedures under the bill would actually appear to increase the size of the audience that petition circulators could reach. The review by the Attorney General does not impact in any way on the contacts between petition circulators or sponsors and members of the public. Therefore, we believe that those aspects of the bill would be acceptable under Meyer.

We assume that your next question involves the propriety of the proposed regulation of the initiative process by LB 585 under our state Constitution. In other words, does the bill impermissibly burden the initiative process or impermissibly involve the Legislature in that process under pertinent state constitutional provisions. We believe that the main operative portions of LB 585 are constitutional.

Article III, Section 4, of the Nebraska Constitution provides, in pertinent part, "{t}he provisions with respect to the initiative and referendum shall be self-executing, but legislation may be enacted to facilitate their operation." This constitutional provision means that the Legislature can enact reasonable statutes to prevent fraud or to render intelligible the purpose of a proposed law or constitutional amendment. State v. Swanson, 138 Neb. 597, 294 N.W. 200 (1940). Any statute which tends to ensure a fair, intelligent, and impartial result on the part of the electorate can be said to facilitate the exercise of the initiative power. Id. Legislation which would hamper, unnecessarily obstruct, or impede the initiative process, on the other hand, would be unconstitutional. State ex rel. Ayres v. Amsberry, 104 Neb. 273, 177 N.W. 179 (1920).

It appears to us that the mandated hearings and petition review by the Attorney General under LB 585 would help disseminate information on initiative petitions. Those procedures would further help to make the purpose of the proposed initiative more understandable. On this basis, we believe that the mandated hearings and petition review would help render intelligible the purpose of the proposed law or constitutional amendment. As a result, they would facilitate the initiative process, and they would be constitutional under Article III, Section 4, of the Nebraska Constitution.

We should note that Section 1, subsection (2) of LB 585 appears to require that petition sponsors must publish notice of the initiative

hearings at their own expense. To the extent that requiring this expenditure might impede the initiative process, this provision could be unconstitutional.[2] This problem could be alleviated if the State were to pay publication costs in the same manner as transcription costs under LB 585.

Your final question involves a separation of powers problem. You are concerned that the language in subsection (3) of Section 1 of LB 585 stating that courts "shall" declare an initiative invalid if it does not meet the requirements of LB 585 would constitute an invasion of the powers of the judicial branch of government.

There is a presumption that the Legislature does not intend to do unconstitutional acts or to pass a law in an unconstitutional manner, and, where to construe a statute as mandatory would make it unconstitutional, such a construction will not be placed on the statute. Reed v. Wellman, 110 Neb. 166, 193 N.W. 261 (1923). Under such circumstances, "shall" will be construed as permissive rather than mandatory to avoid an unconstitutional result. Id.

In the present instance, we believe that courts would construe the apparent mandatory language of subsection (3) of Section 1 of LB 585 as permissive to the extent that it might otherwise be an unconstitutional violation of the separation of powers doctrine.[3] Consequently, this language would not create a constitutional problem for LB 585 under Article II, Section 1, of the Nebraska Constitution. On the other hand, we should note that we do have some concern regarding the constitutional validity of those portions of LB 585 which would allow a court to invalidate a petition after it was enacted by the people purely on the basis of a failure to comply with certain technical procedural requirements established by the Legislature.

[1] The reasoning and holding in Meyer were also adopted by the Nebraska Supreme Court in State v. Radcliffe, 228 Neb. 868, 424 N.W.2d 608 (1988).

[2] It also might present a problem under the Meyer case with respect to First Amendment concerns.

[3] This same rule would apply to apparent mandatory language directed at discretionary functions of executive agencies.

Sincerely,
DON STENBERG

"Sec. 24. That section 79-3415, Revised Statutes Supplement, 1990, be amended to read as follows:

79-3415. ~~Except as provided in section 79-3403,~~ (1) For school years 1990-91 and 1991-92, the State Department of Education shall pay the option school district the statewide average per pupil cost for the preceding year, as determined by the department, or the option school district's per pupil cost for the preceding year as reported in the district's approved annual ~~finance~~ financial report, whichever is less, in two approximately equal payments on or before January 30 and on or before June 30, for expenses incurred during the current school year for each option student, including option students who are handicapped. (2) For school years 1992-93 and thereafter, the provisions of the Tax Equity and Educational Opportunities Support Act shall apply to the enrollment option program as provided

in this subsection. For purposes of the ~~School Foundation and Equalization Act and any successor state aid program~~ Tax Equity and Educational Opportunities Support Act, ~~(1)~~ (a) option students shall not be counted as formula students by the resident school district and shall be counted by the option school district~~, (2) the option school district's computation of insured financial support rate pursuant to section 79-1336 or similar computation pursuant to any successor state aid program for any option student shall be equal to the revenue received from the state pursuant to this section,~~ and ~~(3)~~ (b) the option school district shall include the funds received pursuant to this section in the calculation of other actual receipts as required by ~~subdivisions (1) through (9) of~~ section ~~79-1338 or similar calculation pursuant to any successor state aid program~~ 79-3811.

If an option student relocates in a different school district during the school year, the department shall prorate the amount remitted to the option school district pursuant to this section according to the proportionate amount of time the student was enrolled in the option school district.

If sufficient funds are not appropriated to fully fund the provisions of this section, the department shall make a proportionate reduction in each payment made pursuant to this section.

Sec. 26. That section 79-3806, Revised Statutes Supplement, 1990, be amended to read as follows:

79-3806. (1) Except as provided in subsections (2) through (6) ~~and (3)~~ of this section, each district shall receive ~~state~~ equalization aid in the amount that the total formula need of each such district, as determined pursuant to subsection (4) of this section and sections 79-3805 and 79-3807, exceeds its total formula resources as determined pursuant to subsection (4) of this section and sections 79-3808 to 79-3811. ~~The department shall annually compute state aid entitlements and notify all districts of such state aid entitlements within fifteen working days following the adjournment sine die of the regular session of the Legislature.~~

(2) A district shall not receive state aid for

each of the school years 1990-91, 1991-92, and 1992-93 which is less than one hundred percent of the amount of aid received pursuant to the School Foundation and Equalization Act for school year 1989-90, except that this subsection shall not apply to the nonresident high school tuition fund of each county for calculation of state aid to be paid in school year 1991-92 and each school year thereafter.

(3) No district shall receive ~~state~~ equalization aid in an amount ~~which~~ such that total state aid received would result in such district having a general fund tax levy of less than sixty percent of the local effort rate as computed pursuant to section 79-3808. The calculation shall be based on valuation, state aid, and levy data from the current school year and, for the calculation of state aid in school year 1991-92 and each school year thereafter, shall also take into consideration the amounts of nonresident high school tuition certified by the department pursuant to section 79-4,102 for the current school year and for the school year in which such state aid is to be paid.

(4) For school districts in affiliated school systems as defined in section 79-101.01, equalization aid shall be computed as follows:

(a) For affiliated Class I districts, the total formula need and total formula resources shall be allocated to each affiliated school system based upon the proportion of such Class I district's adjusted valuation contained in each system with which it is affiliated;

(b) For the high school district and each Class I district or portion thereof allocated pursuant to subdivision (a) of this subsection, the total formula resources shall be subtracted from the total formula need, except that the difference shall never be less than zero;

(c) Each district's total formula need, total formula resources, and difference calculated pursuant to subdivision (b) of this subsection shall be added to arrive at system formula need, system formula resources, and system total difference;

(d) System equalization aid shall equal the amount by which the system formula need exceeds system formula resources; and

(e) Each district's share of the system equalization aid shall be calculated by dividing the district's difference calculated pursuant to subdivision (b) of this subsection by the system total difference and multiplying the result by the system equalization aid.

(5) Beginning with school year 1994-95, a district which does not generate equalization aid pursuant to subsection (1) of this section and in which were actually enrolled in the most recently available complete data year option students as defined in section 79-3402 shall receive additional state aid for each such student in an amount equal to the statewide weighted average state aid per student. Such weighted average state aid per student shall be calculated by dividing the total state aid funds appropriated to the School District Income Tax Fund and the Tax Equity and Educational Opportunities Fund by the statewide total formula students, with each grade group adjusted to reflect the weights specified in subsection (2) of section 79-3805.

(6) For school years 1992-93 and 1993-94, a district which does not generate equalization aid pursuant to subsection (1) of this section and in which were actually enrolled in the most recently available complete data year option students as defined in section 79-3402 shall receive additional state aid as follows: The number of such option students, by grade group, shall be multiplied by the district's tiered cost per student for each grade group and the results summed for all grade groups in the district. The district shall receive additional state aid equal to the amount by which this calculation exceeds the district's actual receipts pursuant to section 79-3415 in the most recently available complete data year.".

Each district's general fund operating expenditures for each grade group shall be calculated by dividing that grade group's weighted average daily membership by the total weighted average daily membership in the district and multiplying the result by the district's total general fund operating expenditures.

(3) Each district with general fund operating expenditures in grades one through six, including full-day kindergarten, shall be placed into a tier based on the following schedule.

Tier	Tier midpoint	Average daily membership range	
1	50.50	.01 -	101.00

(b) For districts with average daily memberships for grades one through six, including full-day kindergarten, which are greater than the midpoint of tier 7 for such grades, the tiered cost per student for such grades shall equal the average general fund operating expenditures per student for tier 7; and

(7) The tiered cost per student for kindergarten shall be calculated by multiplying each district's tiered cost per student for grades one through six, including full-day kindergarten, by five-tenths.

(8) The tiered cost per student for grades seven and eight shall be calculated as follows: For Class II, Class III, Class IV, and Class V districts, the tiered cost per student shall be the calculated mean of the district's tiered cost per student for grades one through six, including full-day kindergarten, and for grades nine through twelve; for Class I districts, the tiered cost per student shall be the district's tiered

cost per student for grades one through six, including full-day kindergarten, multiplied by one and two-tenths; and for Class VI districts providing instruction in grades seven and eight as authorized by section 79-1109, the tiered cost per student shall be the district's tiered cost per student for grades nine through twelve multiplied by one and two-tenths and the result divided by one and four-tenths.

ATTORNEY GENERAL'S OPINION

Opinion No. 91031

DATE: April 19, 1991

SUBJECT: State Election Board, Amendment #0868 to LB 579

REQUESTED BY: Senator Jerome Warner
25th Legislative District

WRITTEN BY: Don Stenberg, Attorney General
Linda L. Willard, Assistant Attorney General

You have inquired whether Amendment #0868 to LB 579 (1) unconstitutionally restricts the Governor's appointment of certain members of the Election Board or (2) unconstitutionally infringes on the duties given the Secretary of State in Article III, §§ 2 and 3 of the Constitution of the State of Nebraska. It is our opinion that LB 579, as amended, is constitutionally suspect in its restriction on the Governor's appointment and unconstitutionally infringes on the duties given the Secretary of State in the State Constitution. Amendment #0868 provides in part:

(1) The State Election Board is hereby created. The board shall be composed of nine members, including the Secretary of State. The Governor shall appoint the members in the following manner:
(a) One member at large who shall be designated as the chairperson;
(b) Two members from a list of at least five individuals submitted by the state chairperson of the Democratic Party;
(c) Two members from a list of at least five individuals submitted by the state chairperson of the Republican Party; and
(d) One election commissioner or county clerk from each congressional district, and no more than two of such appointees shall be from the same political party.

Article IV, § 10 of the Constitution of the State of Nebraska grants to the Governor the power to make appointments to state offices, and provides in pertinent part:

The Governor shall appoint with the approval of a majority of the Legislature, all persons whose offices are established by the Constitution, or which may be created by law, and whose appointment or election is not otherwise by law or herein provided for; and no such person shall be appointed or elected by the Legislature. . . ."

In Wittler v. Baumgartner, 180 Neb. 446, 457-458, 144 N.W.2d 62, 70 (1966), overruled on other grounds, State ex rel. Douglas v. Nebraska Mortgage Finance Fund, 204 Neb. 445, 283 N.W. 12 (1979), the Nebraska Supreme Court held unconstitutional a manner of selecting directors of a public power district. The court said:

It is contended that the Act is in violation of the Constitution in that the Act constitutes an encroachment by the Legislature upon the exclusive prerogatives of the Governor in violation of the distribution of powers section of the Constitution. Art. II, sec. 1, Constitution of Nebraska. This contention is based on the limitations imposed on the Governor in the appointment of directors to the grid system board of directors on the establishment of the grid system. The pertinent part of section 6 of the Act provides: "In the first instance the directors of the grid system shall be appointed by the Governor from among the directors of member districts whose management it assumes under the provisions of this act; . . ."

Under the Constitution of Nebraska the supreme executive power is vested in the Governor. . . . The Constitution further provides that the Governor, with the advice and consent of the Legislature shall appoint all officers whose offices are established by the Constitution, or which may be created by law, and that no

such officer shall be appointed or elected by the Legislature. Art. IV, sec. 10, Constitution of Nebraska. . . .

In the Wittler case the Governor's selection was restricted in certain districts to a single individual. The court went on to hold that:

> . . . The right of the Legislature to prescribe reasonable qualifications of one to be appointed to office is not disputed. But the Legislature is prohibited by constitutional provision from appointing officers whose offices are created by law, either directly or indirectly. The provisions of the Act which limit the appointment of grid system directors by the Governor to a certain unnamed individual or to a limited few, is an encroachment by the Legislature upon the powers of the Governor and is void as violative of Article IV, section 10, of the Constitution of Nebraska." (Emphasis added.)

180 Neb. at 460, 144 N.W.2d at 71.

Thus, the language in Amendment #0868 restricting the Governor's appointment of two of the members from a list of at least five submitted by the state chairperson of the Democratic Party and an additional two members from a list of at least five individuals submitted by the state chairperson of the Republican Party raises a question as to the constitutionality of this method of selecting members of the State Election Board. While we cannot say with certainty that this method is per se unconstitutional, limiting the Governor's selection to two members from a group of five submitted by the chairperson of a state political party is, at least, constitutionally suspect. This opinion is in accord with several prior opinions by this office. Most recently opinions Numbered 90026 and 87045 reached the same conclusion on similar issues.

You next ask whether the duties given to the State Election Board unconstitutionally infringe on the duties of the Secretary of State. Article III, § 2 of the Constitution of the State of Nebraska, as it relates to the Secretary of State, provides,

> In all cases the registered voters signing such petition shall be so distributed as to include five per cent of the registered voters each of two-fifths of the counties of the state, and when thus signed, the petition shall be filed with the Secretary of State who shall submit the measure thus proposed to the electors of the state. . .

Article III, § 3 similarly provides:

> Petitions invoking the referendums shall be signed by not less than five percent of the registered voters of the state, distributed as required for initiative petitions, and filed in the office of the Secretary of State . . .
>
> When the referendum is thus invoked, the Secretary of State shall refer the same to the electors for approval or rejection . . .

Amendment #0868 does not effect Neb.Rev.Stat. § 32-704.02 (1990 Cum Supp.) which requires filing of initiative and referendum petitions with the Secretary of State. It does significantly amend § 32-704 (1990 Cum. Supp.) by replacing the Secretary of State with the State Election Board as in § 32-704(5) where the Board instead of the Secretary of State would determine if constitutional and statutory requirements have been met and, subsequently place the petition on the general election ballot.

The Constitution explicitly states that the petitions are to be submitted to the Secretary of State and that he/she, in turn, is to submit the petition to the electors. Implied in the Constitution is the duty of the Secretary of State to see that all petitions "thus signed" or "thus invoked" meet the requirements set out in the Constitution. Generally,

> {T}he duty of the secretary of state to file a petition received from the proper official or person properly prepared and when all the statutory requirements have been fulfilled, is mandatory. His action must be based on the face of the petition as it is received in his office, it being his duty to ascertain whether it complies with the required form . . .

82 CJS Statutes § 129.

The Constitution does not spell out the precise duties of the Secretary of State as far as assuring that petitions meet the requirements of the Constitution. However, in State v. Babcock, 19 Neb. 230, 239, 27 N.W. 98, 102 (1886) the Nebraska Supreme Court stated "This rule seems to be fairly deducible from the authorities: that if the constitutional provision either directly or by implication imposes a duty upon an officer or officers no legislation is necessary to require the performance of such duty..."

Inherent in the duties of the Secretary of State is the duty to accept initiative and referendum petitions, to determine if they meet the statutory requirements and, if statutory requirements have been met, to present the petition to the electors of the state. These are duties which the people of the state have vested in the elected position of Secretary of State and these duties may not be taken from the Secretary of State except by constitutional amendment. Nor may the Legislature seek to have the State Election Board perform these in addition to Secretary of State. In State ex rel. State Railway Commission v. Ramsey, 151 Neb. 333, 37 N.W.2d 502 (1949) the Nebraska Supreme Court held that the Legislature had no power to divest the State Railway Commission of its constitutional jurisdiction by transferring it to another body or jurisdiction.

Similarly, in Ex parte Corliss, 114 N.W. 962 (N. Dak. 1907), the North Dakota Supreme Court held that the Legislature could not

vest powers of the State Attorney and Sheriff in an enforcement commission. In the Corliss case, the court distinguished between offices which were set out in the constitution and those which were created by the Legislature. The court determined that the Legislature could abolish those offices which it had created by creating other offices to take their place but the constitutional offices could only be altered through constitutional amendment.

> A constitution being the paramount law of the state, designed to separate the powers of government and to define their extent and limit their exercise by the several departments, as well as to secure and protect private rights, no other instrument is of equal significance. It has been very properly defined to be a legislative act of the people themselves in their sovereign capacity; and when the people have declared by it that certain powers shall be possessed and duties performed by a particular officer or department, their exercise and discharge by any other officer or department are forbidden by unnecessary and unavoidable implication. Every positive delegation of power to one officer or department implies a negation of its exercise by any other officer, department, or person. If it did not, the whole constitutional fabric might be undermined and destroyed. This result could be as effectively accomplished by the creation of new officers and departments exercising the same power and jurisdiction as by the direct and formal abrogation of those now existing. And, although the exercise of this power by the Legislature is no where expressly prohibited, nevertheless they cannot do so. . . .

Ex parte Corliss, 114 N.W. at 969-971 quoting from State v. Hastings, 10 Wis. 525 (which held unconstitutional an act providing for the appointment and prescribing the duties of a State Comptroller, upon the ground that this official would have some of the same duties as were vested in the Secretary of State).

> The act, taken altogether, looks like a studied effort to attain indirectly what it was evident to the framers could not be accomplished directly. . . .the functions of that officer cannot in whole or in part, be transferred to, or be exercised concurrently or otherwise by, any other person or officer. It falls directly within the rule that the express mention of one thing implies the exclusion of another. Expressio unius est exclusio alterius. This rule applies as forcibly to the construction of written constitutions as to other instruments. . . .

Id. at 969.

> It seems too obvious for discussion that the framers of the Constitution, in providing for the election of these officers by the people, thereby reserved unto themselves the right to have the

> inherent functions theretofore pertaining to said offices discharged only by persons elected as therein provided. Naming of these officers amounted to an implied restriction upon legislative authority to create other and appointive offices for the discharge of such functions. If this is not true, then of what avail are the provisions of the Constitution above referred to? These constitutional offices can be stripped of a portion of the inherent functions thereof, they can be stripped of all such functions, and the same can be vested in newly created appointive officers, and the will of the framers of the Constitution thereby thwarted. The fact that these appointive officers might or would discharge the duties better than the officers provided for in the Constitution is not material. If these latter officers fail to discharge their duties. and it is desirable to provide for other officers to perform such duties, the remedy is with the people. They may amend the Constitution or, through the power delegated to the legislative assembly, provide for their removal of office which has been done.
>

Id. at 964.

The Constitution of the State of Nebraska is clear that all initiative or referendum petitions are to be filed with the Secretary of State. When said petitions are filed according to the Constitution, and the Secretary of State has determined that they are in conformance with the requirements set out in the Constitution, then it is the duty of the Secretary of State to present these issues to the electors. The people of the State of Nebraska have determined that the Secretary of State shall have the duty of accepting the filing of the petition, and presenting it to the electors. The Legislature may not abrogate the duties of the Secretary of State by giving constitutionally prescribed duties to another elected official or, as with the proposed State Election Board, to an appointive body for which the people do not vote.

Based on the above discussion, it is our determination that any attempt by the Legislature to give the State Election Board the duty to place initiative or referendum petitions on the ballot is clearly unconstitutional. Such action on the part of the Legislature would unconstitutionally infringe on the duties of the Secretary of State as set out in Article III, §§ 2 and 3 of the Constitution of the State of Nebraska. It is less clear whether vesting the Election Board with the power to determine the validity and sufficiency of petition signatures would be unconstitutional but it is our determination that such action would be, at least, constitutionally suspect.

Please be advised that this opinion addresses only the questions you have asked regarding the constitutionality of Amendment 0868.

We have not attempted to make a comprehensive review of the constitutionality of the entire amendment.

Very truly yours,
DON STENBERG

79-701. (1) A Class II school district shall be created whenever a Class I school district determines by a majority vote of the electors to establish a high school.

(2) The members of the school board serving when it is decided to establish a high school shall continue in office until the first Tuesday in June following the next statewide primary election at which election a six-member board shall be elected. The three receiving the highest number of votes shall be elected for terms of four years, and the three receiving the next highest number of votes shall be elected for terms of two years.

(3) If a Class II school district, by a vote of fifty-five percent of the legal voters voting at an annual or special meeting, decides to discontinue the high school and close the same, the school district shall thereupon become a Class I school district on the date designated by such voters. At such meeting a

No new Class I school district shall establish a six-member board unless the school district contains a minimum of one hundred fifty children who are five through twenty years of age. ~~pursuant to section 79-601.~~ The school board of the existing Class II school district shall remain in office until the effective date for the formation of the new Class I school district.

All officers so elected shall hold their offices until successors are elected and qualified. After such change becomes effective, the school district and its officers shall have the powers and be governed by the provisions of law applicable to Class I school districts.

If the new school board is to consist of six members, such members shall be elected after school district electors have voted to change from a Class II school district to a Class I school district. This subsection shall not apply to any school district located on an Indian reservation and substantially or totally financed by the federal government.

(5) If for three consecutive years the average

daily membership of an existing Class II school district is less than twenty-five pupils in grades nine through twelve or if for one year an existing Class II school district contracts with a neighboring school district or districts to provide educational services for all of its pupils in grades nine through twelve, such school district shall, except as provided in subsection (6) of this section, become a Class I school district through the order of the county superintendent if the high school is within fifteen miles on a reasonably improved highway of another high school. ~~A~~ When calculating average daily membership for purposes of this subsection: (a) A resident school district as defined in section 79-3402 shall not count students attending an option school district as defined in section 79-3402; (b) ~~and~~ a Class II school district shall not count foreign exchange students; and (c) a school district shall count all students attending one or more classes in such district pursuant to a cooperative agreement between such district and the district in which such students reside. ~~when calculating average daily membership for purposes of this subsection.~~ This subsection shall not apply to any school district located on an Indian reservation and substantially or totally financed by the federal government.

Such contract may continue for a period not to exceed three years. At the end of such three-year period the school district may resume educational services for grades nine through twelve if the average daily membership in grades nine through twelve for such school district has reached at least fifty students, except that a Class II school district may contract pursuant to this subsection for a period of only one year and at the end of such one-year period the school district may resume educational services for grades nine through twelve if the average daily membership in grades nine through twelve for such school district has reached at least fifty students. 81-1578. Sections 81-1578 to 81-15,116 and section 2 of this act shall be known and may be cited as the Low-Level Radioactive Waste Disposal Act.

Sec. 2. (1) It is the intent of the Legislature that for purposes of the Low-Level Radioactive Waste Disposal Act, the county within which a proposed site for a facility is located shall be the area used to determine community support for the facility pursuant to subsection (3) of section 81-1579.

(2) To ensure that the citizens residing in the county in which the proposed site is located are actively and voluntarily involved in the siting process, the developer shall, prior to licensure of a facility, provide written notification to the Governor, Legislature, department, and county board of

commissioners or supervisors of the county in which the proposed site is located and publish a prominent notice in at least one newspaper with general circulation in the county identifying the proposed site.

(3) At least thirty days but not more than ninety days after the county board receives the required notice, a special election shall be held in the county for the purpose of determining whether a facility should be built on the proposed site. The special election shall be called by the count board, and the date for such election shall be publicly announced within thirty days after the public identification of the site prescribed in subsection (2) of this section. If the date chosen for the special election is less than thirty days before a general or primary election, the special election shall be held on the same date as the general or primary election. If more than one site is proposed within a county, a separate ballot shall be used for each site and the ballot questions shall distinguish specifically between the sites. The county clerk of the county shall have the necessary ballots printed and distributed to the designated polling places.

UNANIMOUS CONSENT - Print in Journal

Mr. Schmit asked unanimous consent to print the following amendment to LB 850 in the Journal. No objections. So ordered.

AM1424

1. Insert the following new sections:

"Sec. 4. The Legislature finds that the tort claim against the Department of Banking and Finance filed on January 25, 1991, pursuant to the State Tort Claims Act documents theft, waste of assets, and violations of fiduciary duty by the state through receivership employees and that the actions documented give rise to liability of the state under the act. The Legislature further finds that the state is clearly liable for acknowledged thefts and embezzlements, is probably liable in many instances involving waste and the handling of property, and is possibly liable in instances involving insider transactions. Therefor, the Legislature, pursuant to section 81-8,211, as amended by this legislative bill, hereby approves $30,000,000 of such tort claim.

There is hereby appropriated $30,000,000 from the General Fund for FY1991-92 to the Department of Banking and Finance, for the payment of the tort claim.

Sec. 7. That section 81-8,211, Revised Statutes Supplement, 1990, be amended to read as follows:

81-8,211. Authority is hereby conferred upon the State Claims Board, acting on behalf of the State of Nebraska, to consider, ascertain, adjust, compromise, settle, determine, and allow any tort claim, except that any tort claim of five million dollars or more shall be considered, ascertained, adjusted, compromised, settled, determined, and allowed directly by the Legislature after filing with the Risk Manager. If any tort claim is compromised, settled, or allowed in an amount of more than five thousand dollars, the unanimous approval of all members of the State Claims Board shall be required and such claims also shall be submitted for approval by the district court for Lancaster County. When approval of the district court is required, the Attorney General shall make application for such approval and shall file with the application a complete record of the action of the State Claims Board on such claim. The claimant may

join in such application, and if the claimant does so, the court may proceed to act on the application without further notice to either party. If the claimant does not join in the application, the court shall require actual notice to all parties before acting on the application. The court may deny the application for any legal and sufficient reason or may direct the State Claims Board to conduct further hearings on any material issues. The fees of the clerk of the district court for filing, docketing, and indexing such application shall be five dollars.

Sec. 8. That original section 81-8,211, Revised Statutes Supplement, 1990, is repealed.".

2. On page 9, lines 20, 21, and 24; and page 10, lines 7 and 14, before "this" insert "sections 1 to 6 of".

3. Insert underscoring in the original sections.

4. Renumber the remaining sections accordingly.

Mr. Schmit withdrew his pending amendment, AM1424, found in the Journal on page 1790.

AM1447

1. Insert the following new sections:

"Sec. 4. The Legislature finds that the tort claim against the Department of Banking and Finance filed on January 25, 1991, pursuant to the State Tort Claims Act documents theft, waste of assets, and violations of fiduciary duty by the state through receivership employees and that the actions documented give rise to liability of the state under the act. The Legislature further finds that the state is clearly liable for acknowledged thefts and embezzlements, is probably liable in many instances involving waste and the handling of property, and is possibly liable in instances involving insider transactions. Therefor, the Legislature, pursuant to section 81-8,211, as amended by this legislative bill, hereby approves $30,000,000 of such tort claim.

There is hereby appropriated $30,000,000 from the General Fund for FY1991-92 to the Department of Banking and Finance, for the payment of the tort claim.

Sec. 7. That section 81-8,211, Revised Statutes Supplement, 1990, be amended to read as follows:

81-8,211. Authority is hereby conferred upon the State Claims Board, acting on behalf of the State of Nebraska, to consider, ascertain, adjust, compromise, settle, determine, and allow any tort claim, except that any tort claim of five million dollars or more shall be considered, ascertained, adjusted, compromised, settled, determined, and allowed directly by the Legislature after filing with the Risk Manager, and the State Claims Board shall have no authority regarding such claims. The Legislature may utilize any legislative procedure or the procedures of the State Claims Board for considering any such tort claim. If any tort claim for less than five million dollars is compromised, settled, or allowed in an amount of more than five thousand dollars, the unanimous approval of all members of the State Claims Board shall be required ~~and such~~ for the claim. All

claims, including tort claims of five million dollars or more, ~~also~~ shall be submitted for approval by the district court for Lancaster County. When approval of the district court is required, the Attorney General shall make application for such approval and shall file with the application a complete record of the action of the State Claims Board on such claim. The claimant may join in such application, and if the claimant does so, the court may proceed to act on the application without further notice to either party. If the claimant does not join in the application, the court shall require actual notice to all parties before acting on the application. The court may deny the application for any legal and sufficient reason or may direct the State Claims Board to conduct further hearings on any material issues. The fees of the clerk of the district court for filing, docketing, and indexing such application shall be five dollars.

Sec. 8. That section 81-8,213, Revised Statutes Supplement, 1990, be amended to read as follows:

81-8,213. No suit shall be permitted under the State Tort Claims Act unless the State Claims Board, or the Legislature for claims of five million dollars or more, has made final disposition of the claim, except that if the board does not make final disposition of a claim within six months after the claim is made in writing to the board or if the Legislature does not make final disposition of the claim during the next regular session following the filing of the claim, the claimant may, by notice in writing, withdraw the claim from consideration ~~of the board~~ and begin suit under such act.

Sec. 9. That original sections 81-8,211 and 81-8,213, Revised Statutes Supplement, 1990, are repealed.".

2. On page 9, lines 20, 21, and 24; and page 10, lines 7 and 14, before "this" insert "sections 1 to 6 of".

77-112. (1) Except as provided in ~~subsection~~ subsections (2) and (3) of this section, actual value of property for purposes of taxation shall mean the market value of property in the ordinary course of trade. Actual value may be determined using professionally accepted mass appraisal techniques, including, but not limited to:

WHEREAS, the development and elaboration of the Legislature's statutory framework for waterways, water resources, and their use and development in Nebraska is an ongoing process in which the Legislature continually reviews and revises the basic statutory provisions and in this First Session of the Ninety-second Legislature, the following legislation has been the subject of consideration:

(2) The Legislature has adopted and the Governor has signed LB 277 which allows an application to be made for a permit to appropriate water from a storage reservoir or an intentional underground water storage facility for the instream use of water for recreation or fish and wildlife so long as the appropriation does not prejudice any prior right for beneficial use;

(3) The following bills have been advanced to General File by the Natural Resources Committee and will be considered by the full Legislature:

(a) LB 308 which recognizes that a hydrogeologic relationship exists between surface water and ground water, and calls for a careful balancing of surface water and ground water rights;

(b) LB 212 which mandates that the Nebraska Natural Resources Commission conduct a study and present findings to the Legislature by July 1, 1992, regarding conjunctive use and integrated management of surface water and ground water in the state, with an emphasis on providing information on surface water use and its

effect on ground water and the effect on the relationship of ground water use on the base flow of streams;

(c) LB 49 which would allow the Department of Water resources to protect water introduced into a stream from a nonreservoir source to its point of use or throughout a designated reach where flows are required; and

ATTORNEY GENERAL'S OPINION

Opinion No. 91034

DATE: May 1, 1991

SUBJECT: LB 72--New "Community Consent" Requirement for Licensing Low-Level Radioactive Waste Regional Facility

REQUESTED BY: Senator Chris Beutler,
Nebraska State Legislature

WRITTEN BY: Don Stenberg, Attorney General
Linda L. Willard, Assistant Attorney General

You have inquired regarding the legality of LB 72 which would impose a new form of community consent as a prerequisite for licensing of a low-level radioactive waste facility. You ask whether the new form of community consent is consistent with the State's obligations under the statutes of the State of Nebraska, the Constitutions of the State and United States, and the Central Interstate Low-Level Radioactive Waste Compact. You have also inquired whether any legal liability would be created for the State if LB 72 is passed and results in a negative vote by the "local community."

Your letter indicates no specific statutes which you wish this office to address directly. Therefore, we have limited our statutory review to the Nebraska Low-Level Radioactive Waste Act, Neb.Rev.Stat. §§ 81-1578 et seq. (Reissue 1987 and 1990 Cum.Supp.). Section 81-1759(3) (1990 Cum.Supp.) states in relevant part:

> It is the intent of the Legislature that potential host communities be actively and voluntarily involved in the siting process. To the extent possible, consistent with the highest level of protection for the health and safety of the citizens of the state and protection of the environment, the developer shall make every effort to locate the facility where community support is evident.

This part of the statute was enacted in 1988 as part of LB 1092. LB 1092 originally contained a provision requiring community consent prior to construction of a facility. After considerable debate, the requirement for community consent was amended as reflected above. We find no conflict between the requirement for community consent in LB 72 and the State's obligations under the Low-Level Radioactive Waste Act.

The Central Interstate Low-Level Radioactive Waste Compact was passed by the Legislature in 1983 and was subsequently ratified by the United States Congress. As indicated in the attachments to your question, the members of the Compact Commission passed a resolution in December, 1987, adopting ten conditions, including community consent, as generic conditions that would apply in the event of any state selection as a host state. Dr. Norm Thorson, on behalf of the State of Nebraska, presented the ten conditions to the

Commission. In discussing the concept of community consent, Dr. Thorson stated:

> We feel that the precise mechanism that would be used to determine when you had community consent is a matter which is properly left to the host state, whichever state that might be.
>
> I think it is necessary that there be some finality in the process; that a point in time be set when a community must indicate whether they're willing to be considered or not, and that then becomes their decision. You obviously can't have a situation where people are opting in and opting out of the process.

(Minutes of December 8, 1987, Compact Commission meeting, p. 64).

At the beginning of the siting process US Ecology sought letters of interest from communities and counties throughout the state who were interested in hosting the facility. In line with Neb.Rev.Stat. § 81-1579(3), a letter of interest would "not constitute a commitment to host the facility" but merely focus the developer's efforts on those regions of the state "willing to objectively consider the project" (US Ecology Press Release, March 15, 1988).

As a result of this request, US Ecology received letters of interest from numerous cities and counties throughout the state, including letters from the Boyd County Board of Supervisors and the communities of Butte and Lynch. Approximately eight days prior to selection of a preferred site, the Boyd County Supervisors withdrew their "invitation" to US Ecology.

We have reviewed the Compact and the above history and find no conflict between LB 72 and the Central Interstate Low-Level Radioactive Waste Compact. Additionally, since the Compact Commission passed a resolution requiring community consent, it would appear that the Commission supported the concept of community consent.

In Lenstrom v. Thone, 209 Neb. 783, 789, 311 N.W.2d 884, 888 (1981), the Nebraska Supreme Court stated:

> Certain fundamental constitutional principles must guide, and always have guided, us when the constitutional bounds of legislative power are questioned. The first principle is the Legislature has plenary legislative authority limited only by the state and federal Constitutions. . . . The Nebraska Constitution is not a grant but, rather, a restriction on legislative power, and the Legislature may legislate on any subject not inhibited by the Constitution. . . . Unless restricted by some provision of the state or federal Constitution, the Legislature may enact laws and appropriate funds for the accomplishment of any public purpose. (Citations omitted.)

With this principle in mind, we have reviewed LB 72 as it relates to the restrictions set out in the state and federal Constitutions. As stated previously, the Compact Commission passed a resolution in December, 1988 calling for community consent prior to siting of a facility and leaving the definition of community consent to the host state. In January, 1988, when the developer entered into his contract with the Compact Commission, the resolution regarding community consent had already been passed by the Compact Commission. The developer was well aware that the Compact Commission required community consent and that the host state could determine how community consent would be defined. Arguably, LB 72 does not alter the contract but merely provides the host state's definition of community consent pursuant to the resolution passed by the Compact Commission.

Additionally, in City of El Paso v. Simmons, 379 U.S. 497, 506 (1965), the United States Supreme Court stated:

> For it is not every modification of a contractual promise that impairs the obligation of contract under federal law, any more than it is every alteration of existing remedies that violates the Contract Clause. (Citations omitted.) * * *
>
> The decisions "put it beyond question that the prohibition is not an absolute one and is not to be read with literal exactness like a mathematical formula," as Chief Justice Hughes said in Home Building & Loan Assn. v. Blaisdell, 290 U.S. 398, 428, 54 S.Ct. 231, 236. The Blaisdell opinion, which amounted to a comprehensive restatement of the principles underlying the application of the Contract Clause, makes it quite clear that "{n}ot only is the constitutional provision qualified by the measure of control which the state retains over remedial processes, but the state also continues to possess authority to safeguard the vital interests of its people. It does not matter that legislation appropriate to that end 'has the result of modifying or abrogating contracts already in effect.' Stephenson v. Binford, 287 U.S. 251, 276, 53 S.Ct. 181, 189, 77 L.Ed. 288. Not only are existing laws read into contracts in order to fix obligations as between the parties, but the reservation of essential attributes of sovereign power is also read into contracts as a postulate of the legal order. * * * This principle of harmonizing the constitutional prohibition with the necessary residuum of state power has had progressive recognition in the decisions of this Court." 290 U.S., at 434-435, 54 S.Ct., at 238-239. Moreover, the "economic interests of the state may justify the exercise of its continuing and dominant protective power notwithstanding interference with contracts." Id., at 437, 54 S.Ct., at 239. The State has the "sovereign right * * to

protect the * * * general welfare of the people * * *. Once we are in this domain of the reserve power of a State we must respect the 'wide discretion on the part of the legislature in determining what is and what is not necessary.'" East New York Savings Bank v. Hahn, 326 U.S. 230, 232-233, 66 S.Ct. 69,71. As Mr. Justice Johnson said in Ogden v. Saunders, "{i}t is the motive, the policy, the object, that must characterize the legislative act, to affect it with the imputation of violating the obligation of contracts." 12 Wheat 213, 291, 6 L.Ed. 606.

The passage of LB 72 may well have no affect on the contract between the Compact Commission and the developers since it provides for a timely vote to determine community consent. If the vote reflects that there is no community consent, the current contract contains clauses that provide for amendment of the work plan to carry out the intent of the parties if future events demand changes. The contract also contains a termination clause that should the Compact states, local government of the host state, or federal government prevent or make it impossible for the developer or the Compact to perform its duties or obligations under the contract that the contract can be terminated.

While we are concerned with the timeliness of LB 72 in relation to the contract, it is our determination that community consent was in the contemplation of the parties at the time they entered into the contract and that the state's inherent powers to protect the general welfare of the people justify the requirement of community consent. Therefore, we determine that LB 72 does not violate the Constitution of the United States or the State of Nebraska.

In response to your question regarding the affect of failure to obtain community consent under LB 72, we refer you to our earlier Opinion No. 89045, a copy of which is attached hereto.

Sincerely,
DON STENBERG

(b) The director shall (i) investigate the subject of noxious weeds, (ii) require information and reports from any control authority as to the presence of noxious weeds and other information relative to noxious weeds and the control thereof in localities where such control authority has jurisdiction, (iii) cooperate with control authorities in carrying out other laws administered by him or her, (iv) cooperate with agencies of federal and state governments and other persons in carrying out his or her duties under the Noxious Weed Control Act, (v) with the consent of the Governor, conduct investigations outside this state to protect the interest of the agricultural industry of this state from noxious weeds not generally distributed therein, (vi) with the consent of the federal agency involved, control noxious weeds on federal lands within this state, with reimbursement, when deemed by the director to be necessary to an effective weed control program, (vii) advise and confer as to the extent of noxious weed infestations and the methods determined best suited to the control thereof, (viii) call and attend meetings and conferences dealing with the subject of noxious weeds, (ix) disseminate information and conduct educational campaigns with respect to control of noxious weeds, (x) procure materials and equipment and employ personnel necessary to carry out the director's duties and responsibilities, and (xi) perform such other acts as may be necessary or appropriate to the administration of the act.

(c) When ~~determined by~~ the director determines that a control authority has substantively failed to carry out its duties and responsibilities as a control authority or has substantively failed to implement a county weed control program, ~~the director~~ he or she shall instruct the control authority regarding the measures necessary to fulfill such duties and responsibilities. The director shall establish a reasonable date by which the control authority shall fulfill such duties and responsibilities. If the control authority fails or refuses to comply with instructions by such date, the Attorney General shall file

an action as provided by law against the control authority for such failure or refusal.

(2)(a) Each control authority shall carry out the duties and responsibilities vested in it under the act with respect to land under its jurisdiction in accordance with rules and regulations adopted and promulgated by the director. Such duties shall include the establishment of a coordinated program for control of noxious weeds within the county.

(b) A control authority may cooperate with any person in carrying out its duties and responsibilities under the act.

(3)(a) Each county board shall employ one or more weed control superintendents. Each such superintendent shall, as a condition precedent to employment, be certified in writing by the federal Environmental Protection Agency as a commercial applicator under the Federal Insecticide, Fungicide, and Rodenticide Act. Each superintendent shall be bonded for such sum as the county board shall prescribe. The same person may be a weed control superintendent for more than one county. Such employment may be for such tenure and at such rates of compensation and reimbursement for travel expenses as the county board may prescribe. Such superintendent shall be reimbursed for mileage at a rate equal to or greater than the rate provided in section 23-1112.

(b) Under the direction of the control authority, it shall be the duty of every weed control superintendent to examine all land under the jurisdiction of the control authority for the purpose of determining whether the Noxious Weed Control Act and the rules and regulations adopted and promulgated by the director have been complied with. The weed control superintendent shall: (i) Compile such data on infested areas and controlled areas and such other reports as the director or the control authority may require; (ii) consult and advise upon matters pertaining to the best and most practical methods of noxious weed control and render assistance and direction for the most effective control; (iii) investigate or aid in the investigation and prosecution of any violation of the act; and (iv) perform such other duties as required by the control authority in the performance of its duties. Weed control superintendents shall cooperate and assist one another to the extent practicable and shall supervise the carrying out of the coordinated control program within the county.

(c) In cases involving counties in which municipalities have ordinances for weed control, the control authority may enter into agreements with municipal authorities for the enforcement of local weed ordinances and may follow collection procedures established by such ordinances. All money received shall be deposited in the weed control authority fund.".

ATTORNEY GENERAL'S OPINIONS

Opinion No. 91035

DATE: May 2, 1991

SUBJECT: LB 818 - Amendments to Neb.Rev.Stat. §§28-1317 and 1318 relating to offenses of unlawful and mass picketing.

REQUESTED BY: Senator Bernice Labedz

WRITTEN BY: Don Stenberg, Attorney General
Steve Grasz, Deputy Attorney General

You have requested an opinion on the constitutionality of LB 818, a proposal to change provisions relating to the offenses of unlawful and mass picketing. You have specifically expressed concern that LB 818 may violate the right of free speech and may be unconstitutionally vague.

Section one of LB 818 ("the bill"), as amended by AMO 302, amends Neb.Rev.Stat. §§28-1317 and 1318 by expanding the coverage of the unlawful and mass picketing laws from labor and employment situations to also prohibit picketing which interferes with a person's entry and exit of premises for any lawful purpose. Section two of the bill eliminates distance and spacing requirements previously held to violate the United States Constitution. See United Food and Commercial Workers, International Union v. IBP, Inc., 857 F.2d 422 (8th Cir. 1988); Committee Statement on LB 818.

Whereas this office may be called upon to defend the constitutionality of existing legislation, as was the case with this same statute in IBP, this opinion is necessarily limited to those provisions of the bill which expand the scope of activity constituting the offenses of unlawful and mass picketing. This opinion does not apply to labor and employment situations under the existing statutory language. Since the existing statute regulates "private issue" (i.e. labor related) picketing, while the bill provides for regulation of "public issue"

picketing as well, the constitutional analysis necessarily differs somewhat as between the existing and proposed language in any event. See Medrano v. Allee, 347 F.Supp. 605, 623 (S.D. Tex. 1972) ("{P}eaceful 'public issue' picketing is protected under the first amendment as 'symbolic speech' so long as it is in a location generally open to the public.") (Decision vacated in light of repeal of three statutes in question and remanded for determination whether prosecutions were actually pending under the remaining two statutes, 416 U.S. 802 (1974)). LB 818 regulates "public issue" picketing since it expands the coverage of §§28-1317 and 1318 to restrict political and religious expression on matters of public interest, in addition to the existing restrictions on organized picketing related to labor disputes.

LB 818 Is Unconstitutionally Vague and Overbroad

Section one of the bill prohibits "unlawful picketing." Section two of the bill creates the offense of Mass picketing and defines "Mass picketing" as "any form of picketing which constitutes an obstacle to the free ingress and egress to and from the premises being picketed, any other premises, or the public roads, streets, or highways, either by obstructing by their persons or by placing of vehicles or other physical obstructions." The bill, however, does not define "picketing" or "unlawful picketing". As we have noted previously, "the word picket is a word of 'vague contours' (citation omitted), and . . . the term may include a wide range of action." Opinion of the Attorney General, February 14, 1950.

Vagueness

A fundamental requirement of a statute is that it not be vague and uncertain. See Neeman v. Nebraska Natural Resources Commission, 191 Neb. 672, 217 N.W.2d 166 (1974). The void for vagueness doctrine is based on the due process requirements contained in the Fifth and Fourteenth Amendments to the federal constitution, and contained in Article I, section 3 of our Nebraska Constitution. U.S. v. Articles of Drug, 825 F.2d 1238 (8th Cir. 1987); In Interest of D.L.H., 198 Neb. 444, 253 N.W.2d 283 (1977). In order to pass constitutional muster, a statute must be sufficiently specific so that persons of ordinary intelligence must not have to guess at its meaning, and the statute must contain ascertainable standards by which it may be applied. Id.

The constitutional requirement of reasonable certainty in statutory language is satisfied by the use of ordinary terms which find adequate interpretation in common usage and understanding. Fulmer v. Jensen, 221 Neb. 582, 379 N.W.2d 736 (1986). Statutes are sufficiently definite when they use language which is commonly grasped. In Re Interest of Metteer, 203 Neb. 515, 279 N.W.2d 374 (1979). In State ex rel. Douglas v. Herrington, 206 Neb. 516, 294

N.W.2d 330 (1980), the court said that the established test for vagueness in a statute is whether it either forbids or requires the doing of an act in terms so vague that men of common intelligence must necessarily guess at its meaning and differ as to its application. See also State v. Hamilton, 215 Neb. 694, 340 N.W.2d 397 (1983).

The dividing line between what is lawful and unlawful cannot be left to conjecture, and a citizen cannot be held to answer to charges based upon penal statutes whose mandates are so uncertain that they will reasonably admit of different constructions. A penal statute must express the crime and the elements constituting it so clearly that an ordinary person can intelligently choose in advance what course is lawful for him to pursue. Id. See also State, Dept. of Roads v. Mayhew Products Corp., 211 Neb. 300, 304-05, 318 N.W.2d 280 (1982).

The constitutional prohibition against undue vagueness does not invalidate every statute which a reviewing court might believe could have been drafted which greater precision; all that due process requires is that a statute give sufficient warning that men may conform their conduct so as to avoid that which is forbidden. State v. Robinson, 202 Neb. 210, 274 N.W.2d 553 (1979), cert. denied, 444 U.S. 865.

In applying the due process test to LB 818, we must determine whether "picketing" is a term of common understanding such that persons of ordinary intelligence would not have to guess at its meaning in terms of complying with the prohibitions in the bill. Bridgeford v. U-Haul Co., 195 Neb. 308, 238 N.W.2d 443 (1976).[1]

Webster's New Collegiate Dictionary (1974) defines "picket" as "a person posted by a labor organization at a place of work affected by a strike; also; a person posted for a demonstration or protest." The latter portion of the above definition is relevant to non-labor "public issue" picketing.

Considering "picketing" in the context of LB 818 it appears that persons of ordinary intelligence could differ concerning the meaning of the word. Further, without a more precise definition, we fail to find an ascertainable standard for the application of the act. This indefiniteness is constitutionally impermissible. Under the bill, it is unclear whether "unlawful picketing" (a criminal offense) encompasses only individuals parading in front of a "premises" with signs and shouting "threats", or whether the bill also covers a wide range of other activity. Are individuals who pray near a civil rights demonstration site "picketing"? Are Nebraska citizens guilty of unlawful "picketing" if they "conspire with others" at their house of worship to "induce or influence" persons not to enter certain premises by means of "intercepting" such persons on their way "from or to his

or her home" or by "picketing or patrolling . . . any street, alley, road, highway, or other place where such person may be. . . ."? These are not far fetched hypothetical situations, but are real situations to which the bill could apply and, perhaps, is intended to apply.

Under section two of the bill any person who shall legally "picket" is required to "visibly display on his or her person a sign showing the name of the protesting organization he or she represents." This sign "shall be uppercase lettering of not less than two and one-half inches in height."

This provision may be permissible as to labor-related picketing under the current statute. However, its application under the bill to public issue picketing is abhorrent to the Constitutions of the United States and Nebraska. This provision is unconstitutionally vague for the reasons set forth above. Also, under the common definition of "picketing" the bill would apparently require, for example, a person peacefully praying near a civil rights demonstration site to wear a sign showing the name of his protesting organization; perhaps the name of his or her church. Article I, §4 of the Constitution of Nebraska guarantees religious liberty to all Nebraskans and prohibits "any interference with the rights of conscience." Requiring civil rights demonstrators or other public issue picketers to wear identification signs wherever they "legally picket" brings visions of oppression. A court would likely find such a requirement violates Article I, §4, as well as the First Amendment.

Overbreadth

To the extent section two prohibits "mass picketing" which constitutes any character of obstruction to free ingress and egress, rather than only unreasonable obstructions, it is constitutionally suspect as being overbroad. As the court stated in Medrano v. Allee, "This is not the precise and narrowly drawn statute contemplated by the Supreme Court. It commands the {removal of} . . . any mode of free expression which presents any character of obstruction and this is impermissible." Medrano v. Allee, 347 F.Supp. at 625. See also Nash v. Chandler, 848 F.2d 567, 569 (5th Cir. 1988) (Section of Texas picketing law prohibiting "any character of obstacle to the free ingress to and egress from any entrance to any premises being picketed . . . " is "unconstitutionally broad and cannot stand.")

LB 818 Violates the Constitutional Guarantee of Free Speech

Article I, §5 of the Constitution of the State of Nebraska provides, "Every person may freely speak . . . on all subjects. . . ." Similarly, the first amendment to the Constitution of the United States, as applied to the states through the fourteenth amendment, provides:

"Congress shall make no law . . . abridging the freedom of speech. . . ."

As the United States Supreme Court stated in Boos v. Barry, 485 U.S. 312, 108 S.Ct. 1157, 99 L.Ed.2d 333 (1988),

> {T}he First Amendment reflects a 'profound national commitment' to the principle that 'debate on public issues should be uninhibited, robust, and wide-open.' (citation omitted), and {we} have consistently commented on the central importance of protecting speech on public issues . . . This has led us to scrutinize carefully any restrictions on public issue picketing.

Id. at 343 (emphasis added). Where such picketing occurs on public streets and sidewalks, "the government's ability to restrict expressive activity 'is very limited.' " Id. (quoting United States v. Grace, 461 U.S. at 177).

Analysis of the bill must take into account that some "picketing is not pure speech, because it involves conduct and need not include spoken words." Pursley v. City of Fayettville, Ark., 820 F.2d 951, 954 (8th Cir. 1987). "Nevertheless, there is no doubt that as a general matter peaceful picketing and leafletting are expressive activities involving 'speech' protected by the First Amendment." Id. Further, some provisions of the bill attempt to punish "pure speech", or speech without any accompanying conduct.

The Threatening Language Clause

Section one of the bill creates a Class III misdemeanor for anyone who commits the offense of unlawful picketing by "interfering" with any person in the exercise of his or her lawful right to enter and exit a premises for any lawful purpose by using "threatening language" in such person's presence of hearing for the purpose of influencing such person not to enter or exit the premises. Section one similarly creates this offense for anyone who engages in "menacing, threatening, coercing, intimidating, or frightening in any manner" such person for the above purpose. This section also prohibits picketing the place of residence of such person or any street, alley, road, highway, or other place such person may be for such purpose.

Whereas section one creates a criminal offense for speech protected by the First Amendment, it must be narrowly tailored to serve a significant governmental interest. United Food & Commercial Workers International v. IBP, Inc., 857 F.2d at 433 Pursley, 820 F.2d at 955. We conclude that LB 818, section one, fails this test. "Because the First Amendment freedoms need breathing space to survive, government may regulate in the area only with narrow specificity." Id. at 956 (quoting NAACP v. Button, 371 U.S. 415, 433 (1963)). See also Northeast Women's Center, Inc. v. McMonagle, 670 F.Supp. 1300, 1308 (E.D.Pa. 1987) ("The fact that the defendants' speech was

intended to persuade patients to forgo their abortions or employees to leave their employment at an abortion-providing clinic does not, in itself, corrupt the speech nor diminish its protection under the Constitution.").

Assuming that protecting lawful ingress and egress to a premises is a significant government interest, a court would likely find there are less restrictive means available of addressing this interest than by outlawing otherwise protected speech aimed at persuading or influencing a person not to enter such premises.

The bill does not define "threatening language" nor "menacing, threatening, coercing, intimidating, or frightening." Only if such terms were defined or judicially construed as including only unprotected speech, such as obscene language and fighting words, could this portion of the bill pass constitutional challenge. United Food & Commercial International v. IBP, Inc., 857 F.2d at 435; Howard Gault Co. v. Texas Rural Legal Aid, Inc., 848 F.2d 544, 561 (5th Cir. 1988) (limiting Texas picketing statute containing similar language to apply only to fighting words). However, as the bill is now written, using the usual or ordinary definitions of the above terms, these provisions of the bill are clearly unconstitutional.

As the Supreme Court has stated, "in public debate our citizens must tolerate insulting and even outrageous speech in order to provide "adequate 'breathing space' for the freedoms protected by the First Amendment." " Boos v. Barry, 99 L.Ed.2d at 345.

> The Fourteenth Amendment does not permit a State to make criminal the peaceful expression of unpopular views. "{A} function of free speech under our system of government is to invite dispute. It may indeed best serve its high purpose when it induces a condition of unrest, creates dissatisfaction with conditions as they are, or even stirs people to anger. Speech is often provocative and challenging. It may strike at prejudices and preconceptions and have profound unsettling effects as it presses for acceptance of an idea. . . ."

Edwards v. South Carolina, 372 U.S. 229, 83 S.Ct. 680, 9 L.Ed.2d 697, 703 (1963) (quoting Terminiello v. Chicago, 337 U.S. 1, 4 (1949)).

The prohibition of "threatening language" and "menacing, threatening, coercing, intimidating and frightening" is unconstitutionally overbroad. "The existence of such a statute, which readily lends itself to harsh and discriminatory enforcement by local prosecuting officials, against particular groups deemed to merit their displeasure, results in a continuous and pervasive restraint on all freedom of discussion that might reasonably be regarded as within its purview." Thornhill v. State of Alabama, 310 U.S. 88, 97-98 (1939)

(invalidating Alabama picketing statute). See also Gooding v. Wilson, 405 U.S. 518, 92 S.Ct. 1103, 31 L.Ed.2d 405, 413 (1972) ("{P}ersons whose expression is constitutionally protected may well refrain from exercising their rights for fear of criminal sanctions provided by a statute susceptible of application to protected expression.").

The bill is not narrowly drawn to punish only unprotected speech and is susceptible of application to protected expression. Id. at 414. Thus, these provisions of the bill are unconstitutional. See Members of City Council of City of Los Angeles v. Taxpayers For Vincent, 466 U.S. 789, 801 (1984).[2]

[1] We again note that our review of LB 818 applies only to the proposed amendments to §§28-1317 and 1318. "Picketing" under the current statute may be quite clear in terms of organized labor disputes (private issue picketing), but may be subject to different constitutional analysis in the context of public issue picketing.

[2] The language in LB 818 is similar to that addressed by the court in Nash v. State of Texas, 632 F.Supp. 951, 973 (E.D. Tex. 1986) (holding the "intimidating language provision" of the Texas mass picketing statute to be overbroad and unconstitutionally vague.) The court in Nash noted that a violation of the picketing statute occurred "even when a person seeks only by language to interfere with, hinder, obstruct, or intimidate another in any of the activities to which the statute refers." Id. at 973. The court also noted, "Speech does not lose its protected character, simply because it may embarrass others or coerce them into action." Id. at 974 (quoting NAACP v. Claiborne Hardware, 458 U.S. 886, 102 S.Ct. 3409, 3424 (1982)). Here, as in Nash, "a statute is deemed unconstitutionally overbroad, if it abstracts protected as well as unprotected speech." Id. at 975. The court specifically addressed the terms "threatening," "intimidate" and "interferes with" and held that a statute punishing such language is overbroad. Likewise, the terms "threaten," "interfere with," "hinder," "obstruct," and "intimidate" were held to be unconstitutionally vague as proscribed under the picketing statute in the context of speech. "As presently drawn, the statute manifestly could have a chilling effect on those who are unclear regarding what is unlawful, and these individuals, on that account, well might restrict "their conduct to that which is unquestionably safe." Id. at 980 (quoting Baggett v. Bullitt, 377 U.S. 360, 372 (1964)).

On appeal the court found the statute was "subject to a narrowing construction" by the Texas state courts such that it could withstand

an overbreadth challenge. Nash v. Chandler, 848 F.2d 567, 569 (5th Cir. 1988) (limiting application of the statute to fighting words only).

Opinion No. 91036

DATE: May 6, 1991

SUBJECT: Amendment to LR 24CA Which Would Require the Proceeds of a State Lottery to be Used to Repay Depositors of Failed Industrial Savings Institutions

REQUESTED BY: Senator Chris Beutler,
Nebraska State Legislature

WRITTEN BY: Don Stenberg, Attorney General
Dale A. Comer, Assistant Attorney General

Legislative Resolution 24CA is a proposed constitutional amendment which, if passed by the voters of Nebraska, would establish a lottery to be operated and regulated by the state. You have proposed an amendment to LR 24CA which is apparently intended to allow reimbursement of the losses of certain depositors of failed industrial institutions out of state lottery proceeds. You have asked us whether the amendment in question "will result in the depositors of failed industrial banks, including Commonwealth, American Savings, and State Securities, being paid in full should the people approve this proposition." You have also asked us for drafting suggestions. Our opinion on the issue you have raised is set out below.

The amendment to LR 24CA at issue provides that proceeds of a state lottery shall be appropriated by the Legislature:

(b) For payments to depositors of industrial loan and investment companies for any certificate of indebtedness or any other evidence of indebtedness of an industrial loan and investment company

which was unpaid when an industrial loan and investment company that filed bankruptcy pursuant to Chapter 11 of the United States Bankruptcy Code after November 1, 1983, filed bankruptcy or when an industrial loan and investment company in receivership entered receivership, until such time as all such indebtedness is paid;

The amendment also provides that the proceeds of a lottery shall be used for repayment of depositors "notwithstanding any other provision of this Constitution to the contrary."

In our Opinion No. 91027, dated April 11, 1991, we considered several proposals for reimbursement of the depositors of failed industrial savings institutions in light of our supreme court's decision in Haman v. Marsh, 237 Neb. 699, ____ N.W.2d ____ (1991). One such proposal was an amendment to LR 24CA which would authorize the Legislature to reimburse the depositors out of state lottery fees or proceeds notwithstanding any other provisions of the Nebraska Constitution. We concluded that such a constitutional amendment would be sufficient to circumvent the constitutional difficulties noted in Haman. For the reasons detailed in our Opinion No. 91027, we believe that your current proposal would similarly avoid the constitutional problems discussed in that case.

While we believe that your proposed amendment to LR 24CA would avoid the constitutional difficulties set out in Haman, we would also make several comments concerning the language you have proposed.

First of all, you ask if your amendment would be sufficient to ensure that depositors are "paid in full should the people approve this proposition." We are not entirely sure what you mean by "paid in full." For example, some individuals have taken the position that depositors of the institutions in question are entitled to interest on the monies deposited and lost over the period of time from the failure of the institutions. If your reference to "payment in full" includes interest, you may wish to state that specifically in the proposed constitutional language.

Your method for designating the depositors who will receive lottery proceeds is greatly dependent on facts. For example, in your draft, the only institutions covered by the proposed constitutional amendment are those industrial loan and investment companies which filed bankruptcy pursuant to Chapter 11 of the United States Bankruptcy Code after November 1, 1983, or which entered receivership. We are concerned that some depositors might inadvertently be omitted because their institution is somehow left out of the ones described. Is there some way to designate the institutions involved more broadly without being so fact specific? In that regard,

you should draft the language describing the institutions covered in such a way that changes in the status of any institution between passage of the constitutional amendment and full payment to depositors or changes in status in any other way do not result in excluding that institution from those covered.

In a similar fashion, we are concerned that your references to "certificate of indebtedness" or "other evidence of indebtedness" might not be broad enough to cover all the types of accounts held by the depositors in the various failed institutions. Is there some way to broaden that language so that all forms of accounts are clearly covered?

We also believe that your proposed language could be read to require payments of the total sums deposited by depositors irrespective of any monies they may have received subsequently from the state or from the receiver. We assume that you wish depositors to receive only the unpaid portion of their original investment which was lost. If so, you may wish to alter the amendment language to clearly require a setoff.

Finally, we would suggest that your proposed language requiring expenditure of lottery funds for repayment of depositors "notwithstanding any other provision of this Constitution to the contrary" may not be entirely clear since there are no other constitutional provisions which contain language specifically referencing either such a repayment or a lottery. Perhaps it might be better to provide that the proceeds of the lottery will be used for the purposes of subdivision (3)(b) notwithstanding any other provision of the Constitution "which might otherwise prevent payments to depositors as described in said subdivision."

Sincerely yours,
DON STENBERG

requirements of section 79-12,114 that final action must be taken by the school board on or before May 15 of each year and that a hearing must be held within thirty days of the date of the request for a hearing shall not apply.

Sec. 63. The parties to the hearing or their representatives may agree to select any person qualified under section 65 of this act as the hearing officer. If the parties cannot agree on the selection of a hearing officer within seven days of the filing of the request for a hearing, the secretary of the school board shall immediately request a list of hearing officers from the State Department of Education. Sec. 64. Any person selected as a hearing officer pursuant to section 63 of this act shall be an attorney admitted to practice in Nebraska and shall be knowledgeable in the rules of civil procedure and evidence applicable to the district courts.

Sec. 65. The hearing officer selected pursuant to section 63 of this act shall conduct the hearing, hear evidence, and make recommended findings of fact and conclusions of law. The hearing shall be held in private if the employee so requests, otherwise the hearing shall be conducted in public. Within thirty days following the hearing, the hearing officer shall transmit to the school board the original or a certified copy of the record of the hearing, including the recommended findings of fact and conclusions of law. The record certified and filed by the hearing officer shall be the record upon which the board shall make its decision and no additional evidence shall be heard by

the board. The board shall give each party an opportunity for oral argument prior to making its decision. In making its decision, the board shall give weight to the findings of fact of the hearing officer, but shall not be bound by them. The board shall make its decision within twenty days of receipt of the record from the hearing officer. UNANIMOUS CONSENT - Print in Journal

Mr. Conway, Chairman of the Government, Military and Veterans Affairs Committee, asked unanimous consent to print the following in the Journal. No objections. So ordered.

The Government, Military and Veterans Affairs Committee has recently adopted Substantive and Procedural Guidelines pertaining to the redistricting of Nebraska.

PROCEDURAL GUIDELINES
1991 REDISTRICTING

Submitted by the Committee on Government, Military & Veterans' Affairs

The following procedural guidelines have been developed to guide the Legislature during the 1991 redistricting process:

1. The Committee on Government, Military & Veterans' Affairs shall develop, introduce and conduct public hearings on seven separate bills that will contain redistricting proposals for: the United States House of Representatives, the Nebraska Legislature, the Nebraska Supreme Court, the Public Service Commission, the Board of Regents, the State Board of Education and the Coordinating Commission for Postsecondary Education. If individual senators wish to introduce redistricting plans, they are encouraged to do so by way of offering them as amendments to the Government Committee bills.

2. All plans submitted for consideration by the Government Committee must be sponsored by an individual senator or senators.

3. The Government Committee will accept for consideration from individual senators only those plans which have been created on or converted to the Legislature's computerized redistricting system (the GIS system).

4. The Legislature will provide computer staff to operate the GIS system. The GIS computer staff will be under the sole jurisdiction of the Government Committee. This temporary reassignment of personnel shall continue until the completion of the redistricting process. The GIS computer staff and equipment shall be located in offices adjoining the office of the Chairperson of the Government Committee.

5. The Government Committee will be responsible for developing an equitable plan for allocating computer and computer staff time among individual senators and the Government Committee.

6. The Government Committee shall determine the point at which Government Committee maps will be available for distribution.

7. Any plan generated on the GIS computer shall be confidential unless the chief sponsor of each plan shall authorize its release in writing.

8. No public hearing shall be held on any redistricting bill until after the PL 94-171 population data are released by the United States Bureau of the Census.

9. The Government Committee shall do everything possible to encourage the participation of members of the public in the redistricting process. However, the precise nature and extent of that participation shall be subject to regulation by the Committee, and may be limited in a reasonable manner based on factors such as time constraints.

10. The Government Committee shall seek especially to involve members of minority groups in the redistricting process.

11. The Government Committee shall be authorized to establish, by a majority vote of the members of the committee, any policies and procedures not inconsistent with these guidelines that will facilitate the redistricting process.

12. Census population data shall be available to members of the public through the Nebraska State Data Center. The Government Committee may establish procedures under which committee and computer staff members may also disseminate population data to the public, time permitting.

SUBSTANTIVE GUIDELINES
1991 REDISTRICTING
Submitted by the Committee on Government, Military & Veterans' Affairs

The following minimum criteria are set forth to guide the Nebraska Legislature during the 1991 redistricting process. They are designed to help ensure that the plans developed are constitutionally acceptable.

1. All redistricting by the Nebraska Legislature in 1991 shall be based on population figures gathered by the United States Bureau of the Census during the 1990 Decennial Census.

2. District boundaries established by the Legislature during the 1991 redistricting process shall be based on census geography.

3. District boundary lines shall follow county lines whenever practicable, and shall define districts that are compact and contiguous, except that should adherence to any of the foregoing requirements cause a redistricting plan, or any aspect thereof, to be in violation of standards set forth by the United States Supreme Court in interpreting the United States Constitution, such requirement may be waived to the extent necessary to bring the plan or aspect of the plan into compliance with Supreme Court standards.

4. Insofar as possible, and within the context of the Supreme Court standards described in Guideline #3, above, district boundary lines shall define districts that are easily identifiable and understandable to voters, and that reflect unity of character or socio-economic interest.

5. District boundaries shall not be established with the intention of protecting or defeating any incumbent, or with the intention of discriminating against any political party that is legally recognized by the State of Nebraska and qualified to nominate candidates for public office at the time the redistricting plan in question is adopted by the Legislature.

6. The general goal of the redistricting process shall be the creation of districts that are substantially equal in population. The specific criteria under which redistricting plans shall be judged with regard to the issue of population equality are described below.

7. Any proposed redistricting plan that has as a consequence the dilution of the voting impact of any minority population shall not be considered.

8. The following criteria shall be specifically applicable to the public bodies for which the Legislature will create new district boundaries in 1991:

UNITED STATES HOUSE OF REPRESENTATIVES

1. Three single member districts.

2. Population among districts shall be as nearly equal as practicable, that is, with an overall range* of deviation approaching 0%. No plan

will be considered which results in an overall range of deviation in excess of 1%, or a relative deviation** in excess of +/-.5% from the ideal district population.

3. Any deviation from mathematical equality of population must be necessary to the achievement of a "legitimate state objective" or objectives as that concept has been articulated by the United States Supreme Court. To the extent that such objectives are relied on, they shall be applied consistently, and shall include, but not be limited to, the creation of compact districts, the preservation of municipal boundaries, and the preservation of the cores of prior districts. Whenever there is presented to the Legislature more than one plan that will substantially vindicate the above objectives, preference shall be given to the plan that provides the greatest degree of population equality.

LEGISLATURE

1. Forty-nine single member districts.

2. The goal of equality of population from district to district shall guide the Legislature in establishing legislative district boundaries, although minor deviations in population shall be permitted. No plan shall be considered which results in an overall range of deviation in excess of 4%, or a relative deviation in excess of +/- 2% from the ideal district population.

3. Any deviation in excess of the above must be justifiable as necessary for the realization of a "rational state policy".

SOURCE: Nebraska Constitution, Art. VII, Sec. 14

*Overall range is a figure arrived at as follows: First, determine what the "ideal" district population is by dividing the total population base (the population of the state) by the number of districts that need to be created. Once district boundaries are drawn, one can determine the "overall range" by adding together the amounts by which the most populous and the least populous districts deviate from the "ideal" (disregarding the "+" or "-" signs); then dividing that figure by the "ideal" district population figure. For example, if the "ideal" district population is 100,000, the largest district has a population of 102,000, and the smallest district has a population of 99,000, then the overall range is 2,000 plus 1,000 divided by 100,000 or 3%.

**Relative deviation is a figure that is arrived at by subtracting the "ideal" district population from the population of the district in question, then dividing that figure by the "ideal" population. Therefore, if the "ideal" population is 100,000, and a given district's population is 98,000, the relative deviation is -2%.

ATTORNEY GENERAL'S OPINION

Opinion No. 91037

DATE: May 8, 1991

SUBJECT: Constitutionality of Postsecondary Education Award Program Act

REQUESTED BY: Senator Douglas A. Kristensen

WRITTEN BY: Don Stenberg, Attorney General
Steve Grasz, Deputy Attorney General

You have requested an opinion as to the constitutionality of LB 647, the Postsecondary Education Award Program Act (the "Act"). Specifically, you have expressed concern regarding the constitutionality of the Act under Article III, section 18 and Article VII, section 11 of the Constitution of the State of Nebraska.

For the reasons set forth below, we conclude the Postsecondary Education Award Program Act does not violate the Constitutions of Nebraska or the United States.

The Act

The Postsecondary Education Award Program Act authorizes scholarships to be made directly to eligible students demonstrating substantial financial need, under the administration of the Coordinating Commission for Postsecondary Education. The Act is to be funded from cigarette tax revenue.

Section twelve of the Act provides: "The . . . Act shall provide for awards made directly to eligible students demonstrating substantial financial need and shall be administered by the commission in conjunction with eligible postsecondary educational institutions." (Emphasis added.)

Section 13 provides: "An award may be given to an eligible student for attendance at an eligible postsecondary educational institution if: (1) The award is made directly to the eligible student rather than to the . . . institution."

Section 14(1) provides that any unused funds are to be remitted to the commission by the student.

For purposes of the Act, "Eligible postsecondary educational institution" is defined in section six as:

> independent, not-for-profit institutions (1) Located in Nebraska; (2) Primarily engaged in instruction of students; (3) Satisfying the provisions of Nebraska law relating to the approval, licensure, and accreditation of colleges and universities; and (4) Offering courses and programs of instruction to regularly enrolled undergraduate students who reside in Nebraska and have received high school diplomas or their equivalent.

Section 13(6) provides that an award may not be given to an otherwise eligible student if the student is "pursing a course of study which is pervasively sectarian and creditable toward a theological or divinity degree. . . ."

Article III, Section 18

Article III, section 18 of the Constitution of Nebraska prohibits the Legislature from passing special laws granting "to any corporation, association or individual any special or exclusive privileges. . . ."

Although the Nebraska Supreme Court once held that statute similar to the Act violated Article III, §18, see State ex rel. Rogers v. Swanson, 192 Neb. 125, 219 N.W.2d 726 (1974), more recent decisions do not support this view. See State ex rel. Bouc v. School Dist. of City of Lincoln, 211 Neb. 731, 320 N.W.2d 472 (1982).

A test for determining compliance with Article III, §18 was set out by the Nebraska Supreme Court as follows:

> The Legislature may make a reasonable classification of persons, corporations, and property for purposes of legislation concerning them, but the classification must rest upon real differences of situation and circumstances surrounding the members of the class relative to the subject of legislation which render appropriate its enactment.

United Community Services v. The Omaha Nat. Bank, 162 Neb. 786, 77 N.W.2d 576 (1956). Applying this test to the present facts, it is clear the Act utilizes a reasonable classification based on real differences of situation and circumstances surrounding the members of the class.

> While the statute in question establishes a class of students limited to those attending private colleges, the statute in no way discriminates against the class of students attending state colleges and universities. Any student attending a state institution of higher learning automatically receives state aid at least equal to the amount a student may receive under the tuition grant program.

State ex rel. Rogers v. Swanson, 192 Neb. at 143 (Clinton, J. and McCown, J.J., dissenting) (quoting Americans United for Separation of Church and State v. Bubb, 379 F.Supp. at 885). See State ex rel. Bouc v. School Dist. of City of Lincoln, 211 Neb. at 737, 741 (1982) (rejecting contention that statute providing transportation to private school students violated Article III, §18).

As the Court stated in Bubb, "Admittedly two classes of college students exist, but both are treated similarly and thus the Statute creates no discrimination between the two classes." Americans United for Separation of Church and State v. Bubb, 379 F.Supp 872, 885 (D.Kan. 1974). Thus, the Act does not violate Article III, section 18.

Article VII, Section 11

Article VII, section 11 of the Constitution of the State of Nebraska prohibits the appropriation of public funds "to any school or institution of learning not owned or exclusively controlled by the state or a political subdivision thereof; . . ." (Emphasis added).

The Act does not provide for appropriation of funds to any school or institution. The Act authorizes scholarship awards directly to eligible students. This distinction is constitutionally significant.

The question of whether the Act violates Article VII, Section 11 is controlled by a series of Nebraska Supreme Court decisions subsequent to Rogers v. Swanson.

In Lenstrom v. Thone, 209 Neb. 783, 311 N.W.2d 884 (1981), the Nebraska Supreme Court upheld the constitutionality of the Scholarship Award Program. This statute is very similar to the present Act, but covers students attending both public and private educational institutions. The court expressly rejected the contention that the statute violated Article VII, §11. Id. at 788. Article VII, §11 prohibits appropriations to a nonpublic school. It does not prohibit such aid to individual students attending nonpublic schools. See Cunningham v. Lutjeharms, 231 Neb. 756, 759, 437 N.W.2d 806 (1989) (textbooks for children in private schools); State ex rel. Creighton University v. Smith, 217 Neb. 682, 353 N.W.2d 267 (1984); State ex rel. Bouc v. School Dist. of City of Lincoln, 211 Neb. 731, 320 N.W.2d 472 (1982) (bus transportation for children in private schools).

Since the Act does not authorize appropriations to private schools, it does not violate Article VII, §11.

The Establishment Clause

Although not specifically addressed in your opinion request, an analysis of the Act under the Establishment Clause of the First Amendment is also appropriate. A review of the decisions in this area leads to the conclusion the Act does not violate the Establishment Clause.

In Americans United for Separation of Church and State v. Bubb, 379 F.Supp. 872 (D.Kan. 1974), the court upheld a Kansas program called Tuition Grants for Private Institutions which provides for tuition grants to qualified students enrolled at private Kansas colleges and universities. Under the Kansas law (as under the Act) "only those students choosing an independent college . . . are eligible to receive tuition grants under the statute." Id. at 875. Also, under the Kansas statute (as under the Act) the tuition grants are paid to the student by the accredited independent institution. Id. at 876. In other words, the private school acts as a conduit for distributing the scholarship funds to the students. Based on the similarity of the Act to the Kansas statute, as well as the underlying constitutional principles, we conclude the Act does not violate the Establishment Clause.[1] See Americans United for Separation of Church and State v. Blanton, 433 F.Supp. 97 (M.D.Tenn. 1977), aff'd, 434 U.S. 803 (upholding Tennessee's Student Assistance Program). See also

d'Errico v. Lesmeister, 570 F.Supp. 158 (D.N.D. 1983); Smith v. Board of Governors of University of North Carolina, 429 F.Supp. 871 (W.D.N.C. 1977), aff'd, 434 U.S. 803 (North Carolina program providing tuition grants "to private colleges in the state, including those with church relations"); 1978 Report of the Attorney General 232 at page 355 (concluding LB 743, the scholarship loan program which was the subject of Lenstrom v. Thone did not violate the Establishment Clause.)

[1] While it is clear the Act would survive an Establishment Clause challenge, it is less clear what analysis would be applied by a court. It is likely a court would find, as stated in Bubb that:

> It is time to paint with a broad brush and hold that a tuition grant to permit study at a religiously oriented college is not fostering religion. It is merely giving a grown man or woman the right to study secular and/or sectarian ideas as the individual sees fit. Only by such a policy will we have both academic and religious freedom.

Bubb, 379 F.Supp. at 896 (Brown, Chief District Judge, concurring). This result is especially likely in light of Witters v. Washington Dept. of Serv. for the Blind, 474 U.S. 481, 106 S.Ct. 748 (1986). In Witters, the United States Supreme Court (Justice Marshall writing for the majority) held the State of Washington could extend assistance to a student studying at a Christian college and seeking to become a pastor, missionary, or youth director, without violating the Establishment Clause.

It is significant that a majority of the Justices (in concurring opinions) indicated that they would apparently go even further than the holding of the majority opinion, but that it was unnecessary to do so in this case. Id. at 753-55. Three concurring justices sharply criticized the Washington Supreme Court, stating, "Under the Washington Supreme Court's approach, the government could never provide aid of any sort to one who would use it for religious purposes, no matter what the characteristics of the challenged program. This Court has never taken such an approach." Id. at 754 (Powell, J.; Burger, C.J.; Rehnquist, J., concurring).

Furthermore, under the majority opinion in Witters, it is clear a state may make education grants to students pursing religious studies and degrees. Id. at 751. See also Phan v. Commonwealth of Virginia, 806 F.2d 516, 522 n.9 (4th Cir. 1986). Thus, it is unnecessary, under the constitution, to include the restrictions contained in Section 13(6) of the Act. Although there appears to be no clear consensus at this time, section 13(6) may be subject to constitutional challenge on Equal Protection or Free Exercise grounds. A review of decisions in this area indicates confusion on the

part of some courts and legislatures. Some courts apply the same "pervasively sectarian" analysis to statutes authorizing aid to individuals as they do to statutes authorizing aid to religious institutions. It is clear under Witters this is not appropriate when the aid in question is to individuals. Similarly, it appears some statutes, such as the Act, contain restrictions on the use of aid which would be necessary for programs distributing aid directly to religious institutions, but unnecessary where the aid goes to the individual. See Witters, 106 S.Ct. at 751.

Sincerely yours,
DON STENBERG

(Amendments to AM1653)

1. Insert the following new sections:

"Sec. 86. That section 77-4105, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

77-4105. (1) A taxpayer who has signed an agreement under section 77-4104 may elect to determine taxable income for purposes of the Nebraska income tax using the sales factor only. The election may be made for the year during which the application was filed and for each year thereafter through the eighth year after the end of the entitlement period. The election shall be made for the year of the election by computing taxable income using the sales factor only on the tax return.

~~(2) A taxpayer who has signed an agreement under section 77-4104 shall receive the incentive provided in this subsection if the agreement contains one or more projects which together will result in the investment in qualified property of at least ten million dollars and the hiring of at least one hundred new employees. Such ten-million-dollar investment and hiring of at least one hundred new employees shall be considered a required level of investment and employment for this subsection and for the recapture of personal property tax only.~~

~~The following property used in connection with such project or projects and acquired by the taxpayer, whether by lease or purchase, after the date the application was filed shall constitute separate classes of personal property:~~

~~(a) Turbine-powered aircraft, including turboprop, turbojet, and turbofan aircraft, except when any such aircraft is used for fundraising for or for the transportation of an elected official;~~

~~(b) Mainframe business computers used for business information processing which require environmental controls of temperature and power and which are capable of simultaneously supporting more than one transaction and more than one user plus peripheral components which require environmental controls of temperature and power connected to such computers. Computer peripheral components shall be limited to additional memory units, tape drives, disk drives, power supplies, cooling units, and communication controllers; and~~

~~(c) Personal property which is business equipment located in a single project if (i) the business equipment is involved directly in the manufacture or processing of agricultural products, (ii) the investment in the single project exceeds ten million dollars, and (iii) the use, value, and proper classification of the business equipment has been certified by the Tax Commissioner.~~

~~Such property shall be exempt from the tax on personal property from the first January 1 following the date of acquisition for property in subdivision (2)(a) of this section, or from the first January 1 following the end of the year during which the required levels~~

~~were exceeded for property in subdivisions (2)(b) and (2)(c) of this section, through the sixteenth December 31 after the filing of the application.~~

~~(3)~~ (2) When the taxpayer has met the required levels of employment and investment contained in the agreement, the taxpayer shall also be entitled to the following incentives:

(a) A refund of all sales and use taxes paid under the Nebraska Revenue Act of 1967 and the Local Option Revenue Act from the date of the application through the meeting of the required levels of employment and investment for all purchases, including rentals, of:

(i) Qualified property used as a part of the project;

(ii) Property, excluding motor vehicles, based in this state and used in both this state and another state in connection with the project except when any such property is to be used for fundraising for or for the transportation of an elected official;

(iii) Tangible personal property by the owner of the improvement to real estate that is incorporated into real estate as a part of a project; and

(iv) Tangible personal property by a contractor or repairperson after appointment as a purchasing agent of the owner of the improvement to real estate. The refund shall be based on fifty percent of the contract price, excluding any land, as the cost of materials subject to the sales and use tax; and

(b) A refund of the sales and use taxes paid under the Nebraska Revenue Act of 1967 and the Local Option Revenue Act on the types of purchases, including rentals, listed in subdivision (a) of this subsection for such taxes paid during each year of the entitlement period in which the taxpayer is at or above the required levels of employment and investment.

~~(4)~~ (3) Any taxpayer who qualifies for the incentives contained in subsections (1) and ~~(3)~~ (2) of this section and who has added at least thirty new employees at the project shall also be entitled to:

(a) A credit equal to five percent of the amount by which the total compensation paid during the year to employees who are either Nebraska employees or base-year employees while employed at the project exceeds the average compensation paid at the project

multiplied by the number of equivalent base-year employees.

For the computation of such credit, average compensation shall mean the total compensation paid at the project divided by the total number of equivalent employees at the project; and

(b) A credit equal to ten percent of the investment made in qualified property at the project.

The credits prescribed in subdivisions (a) and (b) of this subsection shall be allowable for compensation paid and investments made during each year of the entitlement period that the taxpayer is at or above the required levels of employment and investment.

The credit prescribed in subdivision (b) of this subsection shall also be allowable during the first year of the entitlement period for investment in qualified property at the project after the date of the application and before the required levels of employment and investment were met.

Sec. 87. That section 77-4107, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

77-4107. (1) If the taxpayer fails either to meet the required levels of employment or investment for the applicable project by the end of the sixth year after the end of the year the application was submitted for such project or to utilize such project in a qualified business at employment and investment levels at or above those required in the agreement for the entire entitlement period, all or a portion of the incentives set forth in the Employment and Investment Growth Act shall be recaptured or disallowed.

(2) The recapture or disallowance shall be as follows:

(a) In the case of a taxpayer who failed to meet the required levels within the required time period, all reduction in the personal property tax because of the Employment and Investment Growth Act shall be recaptured and any reduction in the corporate income tax arising solely because of an election under subsection (1) of section 77-4105 shall be deemed an underpayment of the income tax for the year in which the election was exercised and shall be immediately due and payable; and

(b) In the case of a taxpayer who has failed to maintain the project at the required levels of employment and investment for the entire entitlement period, any reduction in the personal property tax, any refunds in tax allowed under subdivision ~~(3)~~ (2)(a) of section 77-4105, and any refunds or reduction in tax allowed because of the use of a credit allowed under subsection ~~(4)~~ (3) of section 77-4105 shall be partially recaptured from either the taxpayer or the owner of the improvement to real estate and any carryovers of credits shall be partially disallowed. One-seventh of the refunds, one-seventh of the reduction in personal property tax, and one-seventh of the credits used shall be recaptured and one-seventh of the remaining carryovers and the last remaining year of personal property tax exemption shall be disallowed for each year the taxpayer did not maintain such project at or above the required levels of employment or investment.

(3) Any refunds or reduction in tax due, to the extent required to be recaptured, shall be deemed to be an underpayment of the tax and shall be immediately due and payable.

When tax benefits were received in more than one year, the tax benefits received in the most recent year shall be recovered first and then the benefits received in earlier years up to the extent of the required recapture.

(4) Any personal property tax that would have been due except for the exemption allowed under the Employment and Investment Growth Act, to the extent it becomes due under this section, shall be considered an underpayment of such tax and shall be immediately due and payable to the county or counties in which the property was located when exempted. All amounts received by a county under this section shall be allocated to each taxing unit levying taxes on tangible personal property in the county in the same proportion that the levy on tangible personal property of such taxing unit bears to the total levy of all of such taxing units.

(5) Notwithstanding any other limitations contained in the laws of this state, collections of any taxes deemed to be underpayments by this section shall be allowed for a period of ten years after the signing

of the agreement or three years after the end of the entitlement period, whichever is later.

(6) Any amounts due under this section shall be recaptured notwithstanding other allowable credits and shall not be subsequently refunded under any provision of the Employment and Investment Growth Act unless the recapture was in error.

(7) The recapture required by this section shall not occur if the failure to maintain the required levels of employment or investment was caused by an act of God or national emergency.".

2. On page 69, strike lines 15 through 18 and show the old matter as stricken.

3. On page 145, line 5, after the second comma insert "86, 87,"; in line 20 strike "section 77-2701" and insert "sections 77-2701, 77-4105, and 77-4107"; and in line 21 strike "is" and insert "are".

4. Renumber the remaining sections and correct internal references accordingly.

81-15,101. (1) Each application for a license shall be in writing and shall state such information as the department may determine to be necessary to decide the technical and financial qualifications or any other qualifications of the applicant deemed reasonable and necessary to protect the public health and environment with an adequate margin of safety. The applicant shall also describe the funding arrangements such applicant will make to provide for custodial care. The department may at any time after the filing of the application and before the expiration of the license require further written statements and may make such inspections as the department may deem necessary in order to determine whether the license should be modified, suspended, or revoked. All applications and statements shall be signed by the applicant or licensee.

(2) No license issued under the Low-Level Radioactive Waste Disposal Act shall be assigned or in any manner disposed of unless the department, after securing full information, finds that the transfer is in accordance with the act and gives its consent in

At the conclusion of the review, the department shall issue a report of its findings, including its conclusions regarding the adequacy of such person to fulfill the provisions of the application or license and all laws, rules, and regulations. Before such a site is leased for other use, the department shall require and assure that the radioactive waste history of the site be recorded in the permanent land records of

All radioactive material accepted for disposal at a radioactive waste disposal site shall become the property of the state, except that remedial cleanup costs which become necessary during the period of custodial care shall be assessed first to the facility operator, then proportionately against the generators of the radioactive waste.

(3) If a Class II school district, by a vote of fifty-five percent of the legal voters voting at an annual or special meeting, decides to discontinue the high school and close the same, the school district shall thereupon become a Class I school district on the date designated by such voters. At such meeting a decision shall be made as to when the new school board shall be elected and whether the board shall consist of three members or six members. (Amendments to AM1772)

1. Insert the following new sections:

"Sec. 74. That section 77-4105, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

77-4105. (1) A taxpayer who has signed an agreement under section 77-4104 may elect to determine taxable income for purposes of the Nebraska income tax using the sales factor only. The election may be made for the year during which the application was filed and for each year thereafter through the eighth year after the end of the entitlement period. The election shall be made for the year of the election by computing taxable income using the sales factor only on the tax return.

~~(2) A taxpayer who has signed an agreement under section 77-4104 shall receive the incentive provided in this subsection if the agreement contains one or more projects which together will result in the investment in qualified property of at least ten million dollars and the hiring of at least one hundred new employees. Such ten-million-dollar investment and hiring of at least one hundred new employees shall be considered a required level of investment and employment for this subsection and for the recapture of personal property tax only.~~

~~The following property used in connection with such project or projects and acquired by the taxpayer, whether by lease or purchase, after the date the application was filed shall constitute separate classes of personal property:~~

~~(a) Turbine-powered aircraft, including turboprop, turbojet, and turbofan aircraft, except when any such aircraft is used for fundraising for or for the transportation of an elected official;~~

~~(b) Mainframe business computers used for business information processing which require environmental controls of temperature and power and which are capable of simultaneously supporting more than one transaction and more than one user plus peripheral~~

~~components which require environmental controls of temperature and power connected to such computers. Computer peripheral components shall be limited to additional memory units, tape drives, disk drives, power supplies, cooling units, and communication controllers; and~~

~~(c) Personal property which is business equipment located in a single project if (i) the business equipment is involved directly in the manufacture or processing of agricultural products, (ii) the investment in the single project exceeds ten million dollars, and (iii) the use, value, and proper classification of the business equipment has been certified by the Tax Commissioner.~~

~~Such property shall be exempt from the tax on personal property from the first January 1 following the date of acquisition for property in subdivision (2)(a) of this section, or from the first January 1 following the end of the year during which the required levels were exceeded for property in subdivisions (2)(b) and (2)(c) of this section, through the sixteenth December 31 after the filing of the application.~~

~~(3)~~ (2) When the taxpayer has met the required levels of employment and investment contained in the agreement, the taxpayer shall also be entitled to the following incentives:

(a) A refund of all sales and use taxes paid under the Nebraska Revenue Act of 1967 and the Local Option Revenue Act from the date of the application through the meeting of the required levels of employment and investment for all purchases, including rentals, of:

(i) Qualified property used as a part of the project;

(ii) Property, excluding motor vehicles, based in this state and used in both this state and another state in connection with the project except when any such property is to be used for fundraising for or for the transportation of an elected official;

(iii) Tangible personal property by the owner of the improvement to real estate that is incorporated into real estate as a part of a project; and

(iv) Tangible personal property by a contractor or repairperson after appointment as a purchasing agent of the owner of the improvement to real

estate. The refund shall be based on fifty percent of the contract price, excluding any land, as the cost of materials subject to the sales and use tax; and

(b) A refund of the sales and use taxes paid under the Nebraska Revenue Act of 1967 and the Local Option Revenue Act on the types of purchases, including rentals, listed in subdivision (a) of this subsection for such taxes paid during each year of the entitlement period in which the taxpayer is at or above the required levels of employment and investment.

~~(4)~~ (3) Any taxpayer who qualifies for the incentives contained in subsections (1) and ~~(3)~~ (2) of this section and who has added at least thirty new employees at the project shall also be entitled to:

(a) A credit equal to five percent of the amount by which the total compensation paid during the year to employees who are either Nebraska employees or base-year employees while employed at the project exceeds the average compensation paid at the project multiplied by the number of equivalent base-year employees.

For the computation of such credit, average compensation shall mean the total compensation paid at the project divided by the total number of equivalent employees at the project; and

(b) A credit equal to ten percent of the investment made in qualified property at the project.

The credits prescribed in subdivisions (a) and (b) of this subsection shall be allowable for compensation paid and investments made during each year of the entitlement period that the taxpayer is at or above the required levels of employment and investment.

The credit prescribed in subdivision (b) of this subsection shall also be allowable during the first year of the entitlement period for investment in qualified property at the project after the date of the application and before the required levels of employment and investment were met.

Sec. 75. That section 77-4107, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

77-4107. (1) If the taxpayer fails either to meet the required levels of employment or investment for the applicable project by the end of the sixth year

after the end of the year the application was submitted for such project or to utilize such project in a qualified business at employment and investment levels at or above those required in the agreement for the entire entitlement period, all or a portion of the incentives set forth in the Employment and Investment Growth Act shall be recaptured or disallowed.

(2) The recapture or disallowance shall be as follows:

(a) In the case of a taxpayer who failed to meet the required levels within the required time period, all reduction in the personal property tax because of the Employment and Investment Growth Act shall be recaptured and any reduction in the corporate income tax arising solely because of an election under subsection (1) of section 77-4105 shall be deemed an underpayment of the income tax for the year in which the election was exercised and shall be immediately due and payable; and

(b) In the case of a taxpayer who has failed to maintain the project at the required levels of employment and investment for the entire entitlement period, any reduction in the personal property tax, any refunds in tax allowed under subdivision ~~(3)~~ (2)(a) of section 77-4105, and any refunds or reduction in tax allowed because of the use of a credit allowed under subsection ~~(4)~~ (3) of section 77-4105 shall be partially recaptured from either the taxpayer or the owner of the improvement to real estate and any carryovers of credits shall be partially disallowed. One-seventh of the refunds, one-seventh of the reduction in personal property tax, and one-seventh of the credits used shall be recaptured and one-seventh of the remaining carryovers and the last remaining year of personal property tax exemption shall be disallowed for each year the taxpayer did not maintain such project at or above the required levels of employment or investment.

(3) Any refunds or reduction in tax due, to the extent required to be recaptured, shall be deemed to be an underpayment of the tax and shall be immediately due and payable.

When tax benefits were received in more than one year, the tax benefits received in the most recent year shall be recovered first and then the benefits

received in earlier years up to the extent of the required recapture.

(4) Any personal property tax that would have been due except for the exemption allowed under the Employment and Investment Growth Act, to the extent it becomes due under this section, shall be considered an underpayment of such tax and shall be immediately due and payable to the county or counties in which the property was located when exempted. All amounts received by a county under this section shall be allocated to each taxing unit levying taxes on tangible personal property in the county in the same proportion that the levy on tangible personal property of such taxing unit bears to the total levy of all of such taxing units.

(5) Notwithstanding any other limitations contained in the laws of this state, collections of any taxes deemed to be underpayments by this section shall be allowed for a period of ten years after the signing of the agreement or three years after the end of the entitlement period, whichever is later.

(6) Any amounts due under this section shall be recaptured notwithstanding other allowable credits and shall not be subsequently refunded under any provision of the Employment and Investment Growth Act unless the recapture was in error.

(7) The recapture required by this section shall not occur if the failure to maintain the required levels of employment or investment was caused by an act of God or national emergency.".

2. On page 69, strike lines 18 through 21 and show the old matter as stricken; and in line 22 strike "(8)" and insert "(7)".

3. On page 145, line 15, after the second comma insert "74, 75,".

ATTORNEY GENERAL'S OPINION

Opinion No. 91038

DATE: May 14, 1991

SUBJECT: Amendment 1279 to LB 577; The Permit Process for Engaging in Sampling With Respect to Smokeless Tobacco Products

REQUESTED BY: Senator Merton L. Dierks, Nebraska State Legislature

WRITTEN BY: Don Stenberg, Attorney General
Dale A. Comer, Assistant Attorney General

LB 577 is an act which pertains to smokeless tobacco products and which would regulate the distribution of free smokeless tobacco samples, a process otherwise referred to in the bill as "engaging in sampling." Among other things, the bill provides that smokeless tobacco samples can only be distributed at certain locations, and that smokeless tobacco products cannot be given to minors. The bill also provides for enforcement by the Attorney General through suits for civil penalties and injunctive relief.

AM 1279, which can be found at p. 1883 of the current Legislative Journal, would amend LB 577 in several respects. AM 1279 would require an individual to obtain a permit from the Nebraska Secretary of State before engaging in sampling. That permit would be good for one year, and persons engaging in sampling would be required to

have a permit in their possession while participating in that task. Section 8 of AM 1279 specifically provides that:

> If two or more judgments are entered against any manufacturer of smokeless tobacco products, its employees, or its sole agents for a violation of section 2, 3, 4, or 5 of this act, the Attorney General shall notify the Secretary of State that such judgments have been entered. Upon receipt of such notice, the Secretary of State shall revoke the permit issued to such manufacturer. Upon the request of such manufacturer, the Secretary of State shall issue a new permit under section 5 of this act if the judgments are overturned on appeal. If the judgments are not overturned on appeal, the Secretary of State may not issue a new permit to such manufacturer until one year has elapsed from the date when the Secretary of State received notice of the entry of the initial judgments against the manufacturer.

You have several concerns with the language of Section 8 of AM 1279 which apparently prompted your Opinion request. Our responses to the questions which you have raised are discussed below.

You first reference that portion of Section 8 which calls for revocation of a sampling permit in the event that two or more judgments are entered against a manufacturer, and you ask, "{a}m I to understand by this language that this is the sole circumstance under which a permit could be revoked?"

Obviously, we cannot speak to the intent of the drafters or sponsors of this legislative language, and questions concerning the intended meaning of that language might better be addressed to them. On the other hand, statutory language, in the absence of anything indicating to the contrary, is to be given its plain and ordinary meaning. State v. Quandt, 234 Neb. 402, 451 N.W.2d 272 (1990). Section 8 provides for the revocation of a permit when the Secretary of State is notified that two judgments have been entered against a particular defendant. Since that is the only event which triggers the revocation process under the express language of Section 8, we assume that it is, indeed, the "sole circumstance under which a permit could be revoked." However, we would note that the judgments referenced in Section 8 could be obtained as a result of a number of different violations of the act.

You next ask whether the provisions of Section 8 would bring about a result where a manufacturer having two judgments against it for violations of the act and another manufacturer having twenty judgments against it would have the same period of suspension.

Again, we can only look at the language of Section 8 with a view towards its plain and ordinary meaning. On that basis, it appears to us that once a manufacturer has two judgments entered against it for

violations of the act, there is a one year suspension of the permit for engaging in sampling. This same result would obtain whether there are two judgments or twenty judgments against the particular manufacturer.

Finally, you state that you find the parameters set for the Secretary of State in Section 8 to be "rather confusing." You request an analysis of their standing within the due process clauses of the United States and Nebraska Constitutions.

We assume that your final question involves the "void for vagueness doctrine." That concept is based on the due process guarantees of the Fifth and Fourteenth Amendments to the federal Constitution and Article I, Section 3, of our Nebraska Constitution. U.S. v. Articles of Drug, 825 F.2d 1238 (8th Cir. 1987); State v. A. H., 198 Neb. 444, 253 N.W.2d 283 (1987). In order to pass constitutional muster, a statute must be sufficiently specific so that persons of ordinary intelligence must not have to guess at its meaning, and the statute must contain ascertainable standards by which it may be applied. State v. A. H., supra. The void for vagueness doctrine does apply to civil statutes. Id. Even though this is the case, greater vagueness is generally tolerated in civil statutes than in criminal statutes. U.S. v. Articles of Drug, supra. A statute which is otherwise valid will not be held void for vagueness unless it is so deficient in its terms as to render it impossible to enforce. Neeman v. Nebraska Natural Resources Commission, 191 Neb. 672, 217 N.W.2d 166 (1974). The constitutional requirement of reasonable certainty in statutory language is satisfied by the use of ordinary terms which find adequate interpretation in common usage and understanding. Fulmer v. Jensen, 221 Neb. 582, 379 N.W.2d 736 (1986).

In our view, the provisions of Section 8 generally use ordinary terms which find adequate interpretation in common usage and understanding. Consequently, we do not believe that Section 8 is sufficiently vague so as to involve a violation of due process. However, if you believe that Section 8 is confusing and unclear, you may wish to introduce further amendatory language to deal with the interpretation problems which you perceive.

Sincerely yours,
DON STENBERG

Re: Constitutionality of 2-part Amendment to LB850 - The State Claims Bill which Amendment would Bypass the State Claims Board and State Courts and Appropriate $30 Million Dollars for Payment to Commonwealth Depositors and Amend the State Tort Claims Act to Authorize Such Bypass

LB850 is scheduled for final reading today. We have concluded that the proposed amendment to LB850 is unconstitutional for several reasons including most specifically the fact that it would appropriate funds and provide substantive changes in State law in the

same bill. Our full formal opinion on these issues will follow in a few days.

LEGISLATIVE BILL 627. Placed on General File as amended. (Standing Committee amendment printed separately from the Journal and on file in the Bill Room - Room 1102 - AM1776.)

(Signed) Tim Hall, Chairperson

RESOLUTIONS

LEGISLATIVE RESOLUTION 93. Introduced by Dierks, 40; Crosby, 29; Nelson, 35.

PURPOSE: The purpose of this resolution is to encourage the Legislature to further pursue the regulation of pet production in Nebraska. While pet production has a reputable and respectable sector which provides healthy and well-mannered pets for Nebraskans and many other people nationwide, the industry is also wrought with "puppy mills" and other poorly-run operations which damage the industry's image and place reputable producers at a financial disadvantage.

Legislative Bill 282, Ninety-second Legislature, First Session, 1991, was introduced this year as a vehicle for discussing the issue of pet

producer regulation. An interim study is sought at this time in order to obtain more public input before pursuing further debate on the bill.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SECOND LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Agriculture Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 94. Introduced by Nelson, 35.

PURPOSE: Contamination of drinking water in private wells affects the marketability of real estate in Nebraska because lenders cannot obtain federal mortgage insurance. The Federal government has recently adopted regulations allowing mortgage insurance coverage to be provided if point of entry water treatment devises are installed, subject to state or local health department review and approval. The purpose of this resolution is to study authorizing state or local health departments to provide the necessary review and approval of point of entry water treatment while assuring the protection of public health and safety.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SECOND LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 95. Introduced by Nelson, 35; Crosby, 29.

PURPOSE: The purpose of this resolution is to study the concept and feasibility of a cost-of-living adjustment for members of the

school employees retirement system. Periodically, legislative action is necessary to keep the system current with the needs of the members of the system. With a prudent use of wisely invested funds it may be possible to create a medium for responding to inflationary periods by using a portion of the investment income to fund a cost-of-living adjustment and relieve the Legislature from the necessity of constant statutory action. The study will examine the concept of a cost-of-living adjustment, the funding of such an adjustment, the feasibility of such action, cost, accountability, and administration, and any other such issues as may be brought before the committee.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SECOND LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Nebraska Retirement Systems Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

Each district's general fund operating expenditures for each grade group shall be calculated by dividing that grade group's weighted average daily membership by the total weighted average daily membership in the district and multiplying the result by the district's total general fund operating expenditures.

(b) For districts with average daily memberships for grades one through six, including full-day kindergarten, which are greater than the midpoint of tier 7 for such grades, the tiered cost per student for such grades shall equal the average general fund operating expenditures per student for tier 7; and

(9) The tiered cost per student for nonresident high school tuition funds shall be the average general fund operating expenditures per student for grades nine through twelve for all districts included in subsection (4) of this section.

(10) In districts where more than seventy-five percent of the students enrolled reside on Indian land, as defined under regulations of the United States Department of Education in effect on July 10, 1990, promulgated pursuant to Public Law 81-874, the tiered cost per student for each grade level, as calculated pursuant to subsections (5) through (8) of this section, shall be increased by a factor of twenty-five percent.".

RESOLUTIONS

LEGISLATIVE RESOLUTION 96. Introduced by Business and Labor Committee: Coordsen, 32, Chairperson; Chambers, 11; Elmer, 38; Hefner, 19; Morrissey, 1; Schellpeper, 18; Schimek, 27.

PURPOSE: The purpose of this study is to examine the Nebraska workers' compensation system to see if any modifications are needed. This study will focus on four areas of the Nebraska Workers' Compensation Act: (1) Employee choice of physician; (2) attorney's fees and costs; (3) vocational rehabilitation; and (4) indemnity or wage-loss payments.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SECOND LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Business and Labor Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 97. Introduced by Business and Labor Committee: Coordsen, 32, Chairperson; Chambers, 11; Elmer, 38; Hefner, 19; Morrissey, 1; Schellpeper, 18; Schimek, 27.

PURPOSE: The purpose of this study is to examine if a different court structure is needed in the Nebraska Workers' Compensation Court.

Legislative Bill 360, Ninety-second Legislature, First Session, 1991, was introduced by the Business and Labor Committee. This bill would have eliminated the first hearing with one judge and the rehearing with a three judge panel. In its place, there would be a one judge hearing of record. Currently, the first hearing is not of record, only the rehearing is of record.

Since the last judge was added to the Nebraska Workers' Compensation Court, initial filings and rehearings have increased significantly. There are some legitimate reasons for this increase, but there have been allegations of abuses of the present system.

There is a five-month to six-month wait for the first hearing and over a two-month wait for a rehearing. Additionally, there are over five hundred cases that cannot be set for a first hearing because of the backlog of rehearings.

The choice seems to be between adding more workers' compensation judges or having a longer waiting time for injured workers. This study will examine if there are other alternatives that may address the problem and offer long-term solutions to the workers' compensation court system structure than simply adding more judges.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SECOND LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Business and Labor Committee and the Education Committee of the Legislature shall be designated to conduct a joint interim study to carry out the purposes of this resolution.

2. That the committees shall upon the conclusion of their study make a report of their findings, together with their recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SECOND LEGISLATURE OF NEBRASKA, FIRST SESSION:

RESOLUTIONS

LEGISLATIVE RESOLUTION 107. Introduced by Smith, 33.

PURPOSE: The Omnibus Budget Reconciliation Act of 1987 permitted states to apply for medicaid waivers which provided for medicaid reimbursement for certain home and community-based health and social services for medicaid eligibles who, but for these services, would not receive medicaid-funded institutional care. Nebraska has three waivers serving approximately 1264 adults and children. A recent independent assessment of Nebraska's home-based and community-based services waiver found that the average total daily cost of a client in a nursing facility is $34.74 compared to a total daily cost of $23.50 for safe, appropriate care for a waiver client.

Because of the overall medicaid cost avoidance demonstrated with the use of waiver services compared to institutionalization (where costs have increased 6.7 percent over FY 1990-91 even with a waiver), it appears Nebraska might benefit by expanding its use of medicaid waivers. The largest single item in the medicaid budget is nursing home care at $130 million in FY1991-92. Clients could be offered a choice of in-home services as opposed to institutional care when appropriate and General Fund needs could be lessened in a cost containment effort.

The purpose of this resolution is to examine the scope and effectiveness of current medicaid waivers, the feasibility of expanding them, and any factors inhibiting full utilization of present or future waivers. The study will also determine what other waivers are available for the aged as well as for adults and children with disabilities and examine both the need for such waivers in Nebraska and the advisability of applying for additional waivers.

In looking at feasibility the study will include, but not be limited to:

(1) The need for waiver services, including both the potential number of clients and the types of services;

(2) The availability of service providers to supply appropriate care;

(3) The most efficient way to implement a waiver;

(4) Factors that inhibit the application for and utilization of waivers;

(5) The cost to the state in implementing a waiver to determine if total state cost for waivers is less than non-waiver costs of providing appropriate care; and

(6) State-funded services currently provided to the aged as well as adults and children with disabilities to determine the most cost-effective methods of maximizing federal funding sources.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SECOND LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 108. Introduced by R. Johnson, 34.

PURPOSE: To study whether and under what conditions Nebraska should assume administration of the Federal Insecticide, Fungicide, and Rodenticide Act. Questions shall relate to, but not be limited to, designation of the state lead agency, administrative and enforcement duties of the lead agency, program funding, personnel requirements, and relationship of the Federal Insecticide, Fungicide, and Rodenticide Act to other Environmental Protection Agency proposals concerning endangered species, groundwater protection, farm worker protection, and pesticide residue standards.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SECOND LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Agriculture Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

ATTORNEY GENERAL'S OPINIONS

Opinion No. 91040

DATE: May 16, 1991

SUBJECT: Amendments to LB 579; State Election Board

REQUESTED BY: Senator Elroy M. Hefner,

Nebraska State Legislature

WRITTEN BY: Don Stenberg, Attorney General
Linda L. Willard, Assistant Attorney General

You have requested that this office review LB 579, as amended, to determine if the bill is now constitutional. The bill, as amended and presented to this office for review, consists of 225 pages. Your question does not narrow the constitutional review to a specific section of the Constitution nor does it limit the review to either the State or Federal Constitution. Because of the nature of the bill and the timing of your request, we have limited our review to those issues discussed in our earlier Opinion (No. 91031) (attached hereto) and those portions of the Nebraska Constitution addressing the duties of the Secretary of State. Specifically, Article III, Sections 2 and 3, and Article IV, Section 4.

The amendments to LB 579 have not altered the list of candidate members submitted by the political parties to the Governor for selection. Therefore, we reiterate our earlier Opinion that this method of restricting the Governor's selection is constitutionally suspect under Article IV, Section 10, of the Constitution of the State of Nebraska.

It appears that none of the amendments to LB 579 have altered the language of the bill as it relates to Neb.Rev.Stat. § 32-704 (reissue 1988). Therefore, our concerns in regard to this section as it relates to Article III, Sections 2 and 3, of the Constitution of the State of Nebraska, as expressed in Opinion No. 91031, remain unchanged.

We were not previously asked to review the bill in regard to Article IV, Section 4. The Office of Secretary of State had certain common law duties at the time of its adoption in Nebraska, including maintenance of the State's records. Most duties pertaining to elections, other than the canvass, apparently were adopted by statute in 1891 (Chapter 15, Consolidated Statutes of Nebraska, 1891). Any attempt to legislatively remove, restrict, or transfer common law duties of the Secretary of State embodied in Article IV, Sections 1 and 4, would be void as an encroachment on the executive powers of that office. State v. State Board of Equalization and Assessment, 123 Neb. 259, 243 N.W. 264 (1932); Ex parte Corliss, 114 N.W. 962 (N.D. 1907). That portion of LB 579, as amended, which addresses Neb.Rev.Stat. § 32-4,101 and those related to the Secretary's receipt of ballots are not in conflict with the constitutional duties of the Secretary of State. However, Neb.Rev.Stat. § 32-4,104, as amended by LB 579, would be an unconstitutional restriction on the common law duties of the Secretary of State relative to the canvassing of votes.

As stated above, our constitutional review of this bill is limited due to time limitations.[1] If you have questions regarding specific portions of LB 579 or specific constitutional provisions, we would be willing to address those questions.

[1] Time has not permitted us to undertake an analysis of whether LB 579 creates an executive state office which would require a two-thirds majority vote for passage. See Neb. Const. art. IV, § 27. See also Sommerville v. Johnson, 149 Neb. 167, 30 N.W.2d 577 (1948); Mekota v. State Board of Equalization and Assessment, 146 Neb. 370, 19 N.W.2d 633 (1945).

DON STENBERG

Opinion No. 91041

DATE: May 17, 1991

SUBJECT: Whether a "Surcharge" Imposed on Depreciation Claimed as a Deduction for Income Tax Purposes Violates the Prohibition in Neb. Const. Art. VIII, Section 1A Against the State "Levying a Property Tax for State Purposes."

REQUESTED BY: Senator W. Owen Elmer
Nebraska State Legislature

WRITTEN BY: Don Stenberg, Attorney General
L. Jay Bartel, Assistant Attorney General

You have requested our opinion as to whether the imposition of a "surcharge" on depreciation claimed as a deduction from gross income for federal income tax purposes (which, correspondingly, would result in a reduction in taxable income for purposes of determining Nebraska income tax liability) would violate the prohibition in Neb. Const. art. VIII, § 1A, against the state "levying

a property tax for state purposes." The "surcharge" would apparently be collected by the state, and would be computed on the basis of a percentage of the deduction for cost recovery allowable under I.R.C. §§ 167 and 168 on property used in a trade or business held for the production of income, except that financial institutions taxed under Neb.Rev.Stat. § 77-3802 (reissue 1990) would be assessed a charge on the reduction in net financial income for cost recovery on property used in a trade or business or property held for the production of income comparable to amounts allowable under I.R.C. §§ 167 and 168. Therefore, the issue raised by your request is whether a "surcharge" imposed on this basis is a "property tax" levied for "state purposes" within the prohibition in Article VIII, Section 1A. In analyzing this issue, the fundamental inquiry must be whether the "surcharge" in question is in the nature of a "property tax" within the meaning of this constitutional provision.

> "{T}he character or nature of a particular tax must be determined by its operation, practical results and incidents, and by the substance and natural and legal effect of the language employed in the statute or law imposing it. Such factors should be relied upon, rather than the name given the tax by the Legislature."

71 Am.Jur.2d State and Local Taxation, § 22 (1973) (footnotes omitted); see also 84 C.J.S. Taxation, § 3b. (1954).

With respect to property taxes, the following general characteristics have been recognized:

> Taxes on property are taxes assessed on all property or on all property of a certain class located within a certain territory on a specified date in proportion to its value, or in accordance with some other reasonable method of apportionment, the obligation of which is absolute and unavoidable and is not based upon any voluntary action of the person assessed. A property tax is measured by the amount of property owned by the taxpayer on a given day, and not by the total amount owned by him during the year.
>
> * * *
>
> If the tax is computed upon a valuation of property, and assessed by assessors either where it is situated or at the owner's domicil {sic}, although privileges may be included in the valuation, it is considered a property tax.

71 Am.Jur.2d State and Local Taxation, supra, at §§ 24 and 26 (footnotes omitted).

In contrast, impositions characterized as "excise taxes" have generally been identified as follows:

> In its modern sense an excise tax is any tax which does not fall within the classification of a poll or property tax, and which embraces every form of burden not laid directly upon persons or property. The obligation to pay an excise tax is based upon the voluntary action of the person taxed in performing the act, enjoying the privilege, or engaging in the occupation which is the subject of the excise, and the element of absolute and unavoidable demand is lacking.
>
> * * *
>
> If a tax is imposed directly by the Legislature without assessment, and its sum is measured by the amount of business done or the extent to which the privileges have been enjoyed or exercised by the taxpayer, irrespective of the nature or value of the taxpayer's assets, it is regarded as an excise.
>
> * * *
>
> If a tax is in its nature an excise, it does not become a property tax because it is proportioned in amount to the value of the property used in connection with the occupation, privilege, or act which is taxed.

71 Am.Jur.2d State and Local Taxation, supra, §§ 25 and 28 (footnotes omitted).

In State v. Galyen, 221 Neb. 497, 378 N.W.2d 182 (1985), the Nebraska Supreme Court addressed the distinction between a "property" tax and an "excise" tax. In Galyen, the court addressed, inter alia, the questions of whether a fee of twenty-five cents per head of cattle sold in Nebraska was a property tax or an excise tax, and, if an excise tax, whether the tax was subject to the uniformity and proportionality requirements of Neb. Const. art. VIII, § 1. In assessing the nature of the tax as a "property" tax or an "excise" tax, the court noted the following definitions of these terms:

> Black's Law Dictionary (5th Ed. 1979) at 506 defines an excise tax as 'A tax imposed on the performance of an act. . . . Tax laid on manufacture, sale, or consumption of commodities. . . .' On the other hand, Black's Law Dictionary, supra, at 1097, defines a property tax as 'A tax levied on both real and personal property; the amount of the tax being dependent on the value of the property, generally expressed as a uniform rate per thousand of valuation.'

221 Neb. at 500, 378 N.W.2d at 185.

Citing its prior decision in Licking v. Hayes Lumber Co., 146 Neb. 240, 19 N.W.2d 148 (1945) (holding a tax imposed as an annual charge upon the right to continue corporate existence was not a property tax, although computed on the basis of the amount of capital stock), as well as other decisions holding a tax imposed on the

doing of an act were excise taxes and not property taxes, the court in Galyen held the tax at issue was an excise tax and not a property tax. 221 Neb. at 500-502, 378 N.W.2d at 185-86. The court further held that, as the tax did not constitute a property tax, the principle of uniformity in Article VIII, Section 1, did not apply. Id. at 502-503, 378 N.W.2d at 186-87.

In addition, while our Supreme Court has not engaged in an extended discussion of the meaning of the term "ad valorem" taxation (which, of course, is the basis associated with property taxation), the court in State ex rel. Meyer v. Story, 173 Neb. 741, 744, 114 N.W.2d 769, 772 (1962), stated: "The phrase 'ad valorem' means literally 'according to the value,' and is used in taxation to designate an assessment of taxes against property at a certain rate upon its value." (citations omitted). See also Report of Attorney General 1979-80, Opinion No. 47, p.73 (discussing meaning of the term "ad valorem" taxation).

Against this background, we must attempt to characterize the nature of the depreciation "surcharge" at issue. In this regard, we note that a "surcharge," in this context, is defined as the imposition of "an additional tax, impost, or cost." Black's Law Dictionary 1292 (6th ed. 1990). The term apparently is generally used to refer to a "surtax," which is defined as "{a}n additional tax on what has already been taxed." Black's Law Dictionary, supra, at 1296. Various states have, consistent with this definition, imposed "surtaxes" or "surcharges" in addition to taxes normally imposed under their income tax laws. See, e.g., Conn. Gen. Stat. Ann. § 12-214(b) (Cum. Supp. 1991); Ill. Rev. Stat. Ch. 120, § 2-201(d) (Supp. 1990); Kan. Stat. Ann. § 79-32,110(c) (2) (1989); Mont. Code Ann. § 15-31-121 (1989); N.Y. Tax Law §§ 209-A and 290-A (McKinney Cum. Supp. 1991).

The proposed "surcharge" on depreciation, in contrast to these exactions, is not imposed on the basis of an additional charge computed on income or tax liability; rather the charge is imposed on an amount which represents a deduction from the basis utilized to determine income tax liability. We have been unable to find any statutory provisions imposing an exaction of this nature, or any caselaw addressing the characterization of a tax of this type.

In spite of this dearth of authority, we must attempt to address the question of the nature of the proposed tax at issue. In attempting to categorize a "surcharge" on depreciation, we believe it is appropriate to analyze the basis upon which the deduction for depreciation is allowed for income purposes and its relationship (or lack thereof) to the value of property to determine if this exaction is, in fact, a "property tax" within the meaning of Article VIII, Section 1A.

> {A}s a matter of accounting theory, depreciation is simply an accounting device intended to allocate the cost of using an asset to the periods in which that use contributes to revenue by approximating the gradual diminution in value of the asset over time due to age, wear and tear, and obsolescence.

Hawkins v. Commissioner, 713 F.2d 347, 351 (8th Cir. 1983); see also Massey Motors, Inc. v. United States, 364 U.S. 92 (1960); Hertz Corp. v. United States, 364 U.S. 122 (1960). See generally H. Sellin, Attorney's Handbook of Accounting, § 5.08 (Rev. 1988).

The distinction between "actual value" for property tax purposes, and "value" determined by reference to the "value" of property for federal income tax purposes, was directly addressed by the Nebraska Supreme Court in State ex rel. Meyer v. NcNeil, 185 Neb. 586, 177 N.W.2d 596 (1970). McNeil involved the issue of whether a legislative act declaring that the values of agricultural income producing machinery and equipment used by any business required to report taxable income under the Internal Revenue Code be used by county assessors for property tax purposes violated Neb. Const. art. VIII, § 1. In determining this method of valuing property for tax purposes violated the State Constitution, the court specifically noted the fact that the "value" of such property for income tax purposes bore no relation to the "actual value" determination required to comply with Article VIII, Section 1. In this regard, the court stated:

> {T}he Internal Revenue Code does not purport to determine the value of agricultural income-producing machinery and equipment. Its purpose is to fix an equitable rate of depreciation of personal property used in a trade or business over the estimated useful life of the property rather than have it fall in a single year period. Its purpose is not to fix the actual value of the property at any given time, but to amortize depreciation during its life in determining net annual income. The revenue act therefore does not purport to determine actual value of farm machinery and equipment at any given time and is wholly unrelated to actual value for taxation purposes required by the law of this state.

Id. at 589, 177 N.W.2d at 599 (emphasis added).

Therefore, in our opinion, the Legislature may impose a tax computed on the amount of depreciation claimed for income tax purposes without violating Article VIII, Section 1A, at least so long as the tax imposed does not exceed the state income tax benefit resulting from the depreciation deduction. The proposed "surcharge" does not fit within the conventional definition of an "ad valorem" property tax, which is the type of exaction the state is prohibited from imposing under Article VIII, §1A. In actuality, as the court noted in McNeil, the amount of depreciation claimed as a deducation for

income tax purposes in a given year does not necessarily bear any relationship to the value of the property depreciated. To the extent that an element of "value" can be said to be encompassed in the concept of depreciation, in the sense that the allowance of a deduction for income tax purposes for depreciation is based, in part, on recognition of the loss in value of an asset over time, we believe this would not render the proposed "surcharge" on depreciation an impermissible "property tax" imposed in violation of Article VIII, §1A. The relationship between any such "value" element in the depreciation concept, and the determination of the "actual value" of property for tax purposes, is too unrelated and tenuous to permit the conclusion that a surcharge on depreciation would be found unconstitutional on this basis.

Furthermore, there is no requirement that the state, for purposes of calculating state income tax liability, allow any deduction for depreciation such as is permitted under federal tax law. The imposition of a charge of this nature would, in effect, simply reduce any benefit received by taxpayers electing to claim such a deduction. To the extent the allowance of a deduction for depreciation expense for state income tax purposes is a matter of legislative grace, it would seem anomalous to conclude that the imposition of a tax having the effect of reducing the benefit of such a deduction would not be constitutionally permissible.

We would be remiss, however, if we did not counsel that our conclusion is by no means certain. Our supreme court has repeatedly admonished that the Legislature may not circumvent the Constitution by attempting to do indirectly that which it may not accomplish directly. Haman v. Marsh, 237 Neb. 699, _____ N.W.2d _____ (1991); Banner County v. State Bd. of Equal., 226 Neb. 236, 411 N.W.2d 35 (1987). It is not inconceivable that the court would view legislation of this nature to be, in substance and effect, an "indirect" attempt by the state to impose a tax on the "value" of property prohibited by Article VIII, Section 1A. While, for the reasons previously articulated, we believe the tax in question is defensible against constitutional attack on this basis, there is no assurance that our supreme court would not view the tax as an indirect means for the state to impose a "property tax," in contravention of Article VIII, Section 1A.

With this concern in mind, we would recommend that rather than a tax surcharge on depreciation (which has some appearance of being a property tax), the Legislature could better reach the same objective by simply disallowing a percentage of depreciation expense as a deduction from income for state income tax purposes. Mechanically this might be accomplished by adding a portion of depreciation

claimed for federal income tax purposes to taxable income for state income tax purposes.

A law written in this manner would, in our opinion, avoid the various Nebraska Constitutional provisions related to property taxes because the tax would clearly be a tax on income.

This is not a recommendation that income taxes should be increased. That is a decision which the Legislature and the Governor must make.

However, if the Governor and the Legislature wish to increase income taxes in a manner related to depreciation, a method that directly denies a portion of the depreciation deduction is much more clearly constitutional than is a surcharge on depreciation.

Very truly yours,
DON STENBERG

(Signed) Gerald Conway, Chairperson

PRESENTED TO THE GOVERNOR

Presented to the Governor on May 20, 1991, at 10:15 a.m., were the following bills: 836 and 836A.

(Signed) Pam Moravec, Enrolling Clerk

RESOLUTIONS

LEGISLATIVE RESOLUTION 112. Introduced by Robak, 22; Hillman, 48.

PURPOSE: One of the major problems that farm implement businesses suffer in our state is unfair competition from out-of-state retailers who attract Nebraska buyers under the pretense that no sales or use tax will be collected. The purpose of this resolution is to address the following questions:

1. Are there other industries in our state which suffer the same type of unfair competition?
2. How much sales and use tax revenue are we losing under our current system of enforcement of sections 77-2702 to 77-2713?
3. How effective overall is the current system of enforcing our state's sales and use tax on out-of-state sales?
4. What type of corrective legislation, if any, is needed?

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SECOND LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 113. Introduced by Robak, 22; Hillman, 48.

PURPOSE: There have been concerns expressed recently by citizens over state policy on restricted drivers' licenses. Who is able to obtain such licenses and what purposes the licenses serve are just two of the concerns related to this issue. This resolution seeks to have the following questions addressed:

1. How effective is existing state policy with regard to restricted drivers' licenses?

2. How feasible would it be for the state to expand its policy of issuing restricted drivers' licenses?

3. How feasible would it be for the State of Nebraska to adopt an "extreme inconvenience" statute with regard to restricted drivers' licenses?

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SECOND LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations. to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 114. Introduced by Robinson, 16; Moore, 24; Lynch, 13; Bernard-Stevens, 42; L. Johnson, 15.

PURPOSE: The State of Nebraska makes extensive use of computers, printers, facsimile machines, copy machines, and other types of office equipment in conducting its day-to-day business. The purchase, utilization, maintenance, and repair of office equipment costs the state a great deal of money each year. The purpose of this resolution is to examine methods to reduce the high cost of the use and upkeep of office equipment by the State of Nebraska.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SECOND LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 115. Introduced by Chizek, 31.

PURPOSE: The purpose of this resolution is to study the distribution of judicial resources in Nebraska as the Legislature desires to provide fair and equitable judicial resources to all the

The study shall include, but not be limited to, district courts and county courts.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SECOND LEGISLATURE OF NEBRASKA, FIRST SESSION:

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 116. Introduced by Hefner, 19.

PURPOSE: The states of Iowa and Minnesota have adopted legislation requiring confiscation of license plates of drivers ticketed for DWI offenses. This study should review the DWI laws of those two states and the desirability of enacting similar statutes in Nebraska as deterrents to driving while under the influence of alcohol or drugs.

PURPOSE: The purpose of this study is to review the desirability of placing limits on the number of consecutive terms in office for elected officials at the national, state, and local levels. The study should include a review of any limits of terms in office in other states

that exist as well as the legal and constitutional issues which arise in enacting such limits.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SECOND LEGISLATURE OF NEBRASKA, FIRST SESSION:

LEGISLATIVE RESOLUTION 129. Introduced by Hillman, 48; Wickersham, 49.

PURPOSE: Nebraska's tourist industry represents this state's third largest provider of jobs and enterprise opportunities. This industry affords Nebraska critically needed economic diversification. While other Nebraska industries may have limited potential for growth, the tourist industry offers a unique opportunity for economic expansion. Finally, while development opportunities may be limited in many rural areas of Nebraska, the tourist industry extends significant avenues for rural economic development.

Nebraska has established a substantial and sophisticated tourism education and promotion program. This program does an excellent job in drawing tourists to Nebraska's existing attractions. However, Nebraska's program to support the identification and establishment of economically viable new and expanded tourist attractions is limited when compared to programs in other states.

The purpose of this study is to develop specific recommendations on how the State of Nebraska and its tourist industry can more directly support the identification and development of tourist attractions. Nebraska is rich in history, natural environment, geology, wildlife, and recreational opportunities. Each potential asset represents a development opportunity which could result in greater tourism, longer visitation by tourists, and the generation of tourist related businesses. Combined, these outcomes would result in greater economic activity and opportunity for Nebraska.

This study shall work with Nebraska's tourism industry, the Travel and Tourism Division of the Department of Economic Development, the Travel and Tourism Division Advisory Committee, the Nebraska Rural Development Commission, and other parties interested in tourism development.

This study shall include, but not be limited to, the following activities:

(1) Assess opportunities for tourist attraction development across Nebraska;

(2) Assess Nebraska's current private and public sector resources available to support attraction development;

(3) Assess how selected other states support attraction development; and

(4) Develop specific recommendations on how Nebraska can foster economically viable attraction development.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SECOND LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

(2) Determine the circumstances contributing to the statewide teen pregnancy data;

(3) Examine the services offered for pregnant teenagers statewide and compare these services to those offered in the two counties.

(a) Community willingness; and

(b) Availability of resources; and

(6) If applicable, recommend legislation needed to enhance teenage pregnancy assistance.

The study shall include, but not be limited to, the following issues: (1) Contractual agreements; (2) costs; (3) liability; (4) proprietary interests; (5) constitutionality; (6) accountability; (7) security; (8) statutory authority; (9) dependence; and (10) community impact.

COMMUNICATION

May 13, 1991

Mr. Patrick J. O'Donnell
Clerk of the Legislature
Room 2018

State Capitol Bldg.
Lincoln, NE 68509

Dear Mr. O'Donnell:

Pursuant to the Provisions of Section 85-408, R.R.S. of Nebraska, 1943, approval is hereby requested for the expenditure of not to exceed $371,700 from the Replacement Fund created by the Resolution establishing an issue of revenue bonds of the Board of Regents of the University of Nebraska (the "University") dated as of December 1, 1964 (the "Resolution"). The following is submitted in connection with such request.

1. Obligation of the University. The University issued its Fees and Facilities Revenue Bonds under the Resolution of 1964 and 1966 to refund then outstanding bonds and construct additional dormitories and other revenue-producing facilities. The Resolution provides that all Facilities (which include all dormitories, food service units, the Student Union and Health Center) will be operated in an efficient, sound and economical manner and the University will maintain, preserve and keep the Facilities in good repair, working order and condition and will from time to time promptly make necessary and proper repairs, renewals, replacements, additions, extensions and betterments thereto so that at all times the business carried on in connection therewith shall be properly and advantageously conducted (Section 6.2 of the Resolution). The Resolution also requires that the University comply with all state laws. This is a contract with the bondholders.
2. Proposed Expenditure of Replacement Fund. In order to fulfill the obligations to keep the Facilities in good repair and operating condition, it is necessary that the following renovations, replacements and additional equipment be made to the Facilities.

Renewals, Replacements and Equipment	
University Housing	$171,700
Nebraska Unions	120,000
Health Center	30,000
GRAND TOTAL	$371,700

The Board of Regents authorized these expenditures from the Bond Replacement Fund at their May 10, 1991 meeting. The fund currently has a balance (including accrual) in excess of $371,700.

3. Request. In order to meet its obligations as described above and in the interests of making timely renovations and additions so that business operations can be carried out more advantageously, the University requests that the Legislature approve the expenditure of up to $371,700 from the Replacement Fund for the purposes set forth above.

Respectfully submitted,
(Signed) James B. Milliken
Corporation Secretary

WHEREAS, those seventy-five years of age or older are likely to be frail and vulnerable and without family caregivers; and

WHEREAS, the Legislature states in the Nebraska Community Aging Services Act that older individuals of Nebraska are entitled to the same opportunities as others in personal choice and management of their own lives; and

WHEREAS, many older Nebraskans have court-appointed guardians; and

WHEREAS, the standard for appointment of a guardian is clear and convincing evidence that the appointment is necessary or desirable as a means of providing continued care or supervision; and

WHEREAS, advanced age can be the sole determination of incapacity; and

WHEREAS, words of guardians have little protection under the law, have no court-appointed advocates, have hearings before judges only, and must bear the cost of their appeals and all court and attorney fees.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SECOND LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study of the laws of guardianship in Nebraska and consider the following:

(1) Counsel for proposed wards;

(2) Standards of proof of incapacity;

(3) Court review of least restrictive alternatives available to the proposed ward;

(4) The extent of the duties and powers of guardians; and

(5) Potential reform in the appellate process.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 142. Introduced by Rogers, 41.

PURPOSE: The purpose of this resolution is to study potential sources of funding for the establishment of a random fuels quality testing program within the Department of Agriculture. The study shall examine evidence gathered during past pilot testing programs and shall determine costs of a random fuels quality testing program based on ASTM standards used in analysis of petroleum products, including all motor fuels sold in the state.

The Agriculture Committee shall solicit the input of the Department of Agriculture, the Chemical Engineering Department of the University of Nebraska, the Nebraska Gasohol Committee, the Motor Fuels Tax Task Force, and other interested parties.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SECOND LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Agriculture Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 143. Introduced by Hartnett, 45.

PURPOSE: Legislative Bill 514, Ninety-second Legislature, First Session, 1991, was introduced on behalf of various groups within the pharmacy industry of Nebraska to permit them to make use of supportive pharmacy personnel by expanding to them the same authority currently provided in statutes for hospital pharmacies. The bill would have provided some additional definitions and safeguards on the use of such personnel to guarantee the health and safety of the consuming public as well as certain counseling requirements.

During the course of the session, and both before and after the legislative hearing, a task force, including representatives from many different pharmacy groups and various regulatory bodies, met and worked on proposed amendments to the original bill to address concerns raised. The efforts of that group have led to a final draft of the bill which has not as yet been presented to the Health and Human Services Committee of the Legislature.

This study would propose the formal presentation of the final draft to the Health and Human Services Committee of the Legislature for

discussion so that any remaining issues and concerns, including the need to review the matter through the "407" process, could be addressed and resolved before the start of the next legislative session.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SECOND LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 144. Introduced by Hartnett, 45.

PURPOSE: Volunteer firefighters and rescue personnel serve a major public safety function in Nebraska. Their service area includes a vast majority of the geographic area of the state. Their activity, at minimal cost to the taxpayers, has saved many lives and innumerable dollars in property damage.

The sole statewide link between volunteer fire and rescue departments across the state is the Fire Service and Safety Training Program. The Fire Service provides coordination and training for these organizations at a very small dollar cost to the state.

Nevertheless, the Fire Service is the true "orphan child" of state government. Over the course of years it has been an independent division, a part of the State Fire Marshal's office, and is currently a part of the State Department of Education. Proposals have been made to make the Fire Service part of the University of Nebraska or part of the state college system. This year LB 508 was introduced to make it an independent state agency.

While there is general agreement that the Fire Service does not belong in the State Department of Education (a proposition to which the department itself agrees), there is no consensus on what should be done to give it a permanent and stable position in the system of state government.

This study would undertake to determine what position and status within state government should be accorded to the Fire Service to insure its continued existence and viability and to insure a stable and appropriate level of state funding so that it might continue to provide the high level of service and assistance to the volunteer fire and rescue organizations that it has over the past few years.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SECOND LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Government, Military and Veterans Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 145. Introduced by Natural Resources Committee: R. Johnson, 34, Chairperson; Beutler, 28; Elmer, 38; Hartnett, 45; Horgan, 4; Lamb, 43; Morrissey, 1; Schmit, 23.

WHEREAS, the Legislature finds that ground water is one of the state's most valuable natural resources; and

WHEREAS, an adequate supply of ground water is essential to the general welfare of the citizens of this state; and

WHEREAS, Nebraska statutes state that conservation and beneficial use of ground water are essential to the future well-being of the state; and

WHEREAS, complete information as to the occurrence and use of ground water in the state is essential to the development of a sound ground water policy; and

WHEREAS, the Legislature finds that stream flows are maintained, in varying degrees, by seepage from ground water reservoirs and that ground water recharge is maintained, in varying degrees, by stream flows; and

WHEREAS, the Legislature recognizes an ever-growing need to establish a state policy regarding water development relating to the effect of surface water use on ground water and the effect of ground water use on the base flow of the natural streams within the state; and

WHEREAS, the Legislature finds that it is a proper and necessary function of state government to develop the statutory framework for the recognition of conjunctive use and integrated management of the ground water and surface water of the state; and

WHEREAS, the need for various municipal water utilities to find new sources of water has led them to acquire land, often at some distance from their territorial boundaries, which has resulted in concern by affected counties and other political subdivisions about the impact on their tax bases, and there is a need to determine

appropriate legislative strategies for avoiding such a result while meeting municipal water demands.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SECOND LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Chairperson of the Natural Resources Committee of the Legislature with the assistance of committee members and staff shall designate and oversee a task force broadly representing Nebraska water interests, including representatives from surface water and ground water irrigators, municipal water users, industrial water users, natural resources districts, and the Game and Parks Commission.

2. That the task force shall develop by January 1, 1992, a legislative proposal which incorporates conjunctive use and integrated management of surface water and ground water considering all relevant factors relating to the rights and needs of landowners, irrigators, the environment, municipal water users, industrial water users, and the general public.

3. That the proposal shall identify and develop an appropriate state role in facilitating and regulating conjunctive use and integrated management of the ground water and surface water in this state.

4. That the proposal shall identify possible solutions to local concerns about tax base loss due to land purchases for municipal water use.

5. That the chairperson of the committee may request assistance from state departments and state agencies, the University of Nebraska, the natural resources districts, and the general public as necessary to develop the proposal.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 146. Introduced by R. Johnson, 34.

PURPOSE: The purpose of this resolution is to examine the need for additional statutory authority to require investigation and remediation of contaminated sites. The purpose is also to examine the need and potential sources for a dedicated fund to be used by the state at contaminated sites for such things as: Emergency actions; replacement of contaminated water supplies; long-term remediation; and a state match for federal sites.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SECOND LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Natural Resources Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the Natural Resources Committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 147. Introduced by Warner, 25; Hall, 7.

PURPOSE: As a result of the March 1991 decision of the Nebraska Supreme Court in Natural Gas Pipeline Co. v. State Board of Equalization, the Governor has appointed a task force to consider changes in Nebraska's tax laws.

The purpose of this resolution is to gather, prepare, and study material to be used as a basis for developing tax policy changes suggested by the Governor's task force, known as the Revenue Revitalization and Restructuring Committee, in preparation for a possible special legislative session in 1991 or the regular legislative session in 1992. The study should be directed toward providing results which would be useful to a concept of analyzing the impact of taxes on different economic sectors in the state and the impacts of any policy changes in taxes. The study shall include, but not be restricted to, the following:

(1) Compiling an accurate and dependable set of indicators that show the role each sector plays in Nebraska's economy and each sector's tax burden. The purpose is to develop an appropriate share for each economic sector's responsibility for state and local taxes.

(2) The amount of taxes, fees, and other governmental costs imposed on each economic sector, including those individuals employed in each industry.

(3) If possible, an estimate of those state and local taxes, fees, etc., which are exported or offset by provisions of state and federal tax codes.

The study should also be updated periodically and serve as a basis to review other future proposed tax policy changes.

The committee shall develop a list of names of people to assist in the design or work plan for such a proposal. The Department of Revenue and the Department of Labor shall cooperate and participate in the collection of data for the study. The Legislative Fiscal Office, the Legislative Research Division, legislative staff from the Legislature's Revenue Committee, and legislative staff of senators

appointed to the task force shall assist in the study as requested by the committee. The study shall be conducted in cooperation with the Governor's task force.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SECOND LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Executive Board of the Legislative Council appoint a committee to oversee the study which shall consist of the legislative members of the Governor's Revenue Revitalization and Restructuring Committee and be chaired by the chair of the Revenue Committee.

2. That the committee may, with the approval of the Executive Board of the Legislative Council, enter into a contract with an independent entity to conduct such study.

3. That in conducting the study, the entity and the committee may use the Legislative Fiscal Office, the Legislative Research Division, legislative staff from the Revenue Committee of the Legislature, and legislative staff of senators appointed to the task force.

4. That the study shall be conducted in conjunction with the Governor's task force.

5. That the committee complete the study and report the findings of the study to the Legislature and the Governor by September 1991 so that the material in the study may be used by the Governor's task force and in any 1991 special legislative session called to deal with the property tax issue or the regular legislative session in 1992.

6. The Legislature shall appropriate no more than $50,000 to the Legislative Council for FY1991-92 for purposes of carrying out this study.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 148. Introduced by Withem, 14; Robinson, 16; Lynch, 13; Moore, 24; Chizek, 31.

PURPOSE: The purpose of this study is to examine the workload of University of Nebraska faculty within the context of current role and mission assignments and to develop a faculty activity analysis of the University of Nebraska. In order to maximize the resources allocated for the University system it is necessary for the Legislature to periodically assess the application of such resources. The purpose of this study is to develop an intercampus and intracampus analysis of faculty workloads and related issues in order to address the efficient utilization of human resources at the University of Nebraska.

This study shall include, but not be limited to: (1) The balance between instruction, research, and public service at each campus; (2) faculty workloads; (3) utilization of full-time and part-time faculty; (4) class size; (5) use of graduate assistants to carry out teaching and research functions; (6) travel reimbursement policies for faculty; (7) accountability for faculty income derived from sources separate, but related to, his or her University position; and (8) the communications effectiveness of teaching faculty whose native language is not English.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SECOND LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Education and Appropriations Committees of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committees shall upon the conclusion of their study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 149. Introduced by Withem, 14; Coordsen, 32.

PURPOSE: This study will examine the relationship and potential conflict between statutory budget limitations and property tax limitations and the Commission of Industrial Relations orders mandating greater increases than allowed under such lids.

The Tax Equity and Educational Opportunities Support Act, generally known as LB 1059, mandated budget limitations for school districts and property tax limitations on other political subdivisions. Under existing law, the Commission of Industrial Relations may order school districts or other political subdivisions to pay teachers and other personnel wages, including fringe benefits, comparable to other similar school districts or political subdivisions. Such an order may necessitate expenditures or property taxes higher than allowed by statutory limitations. This has the potential to cause problems for school districts, political subdivisions, employees, and constituents thereof.

The goal of this study is to propose alternative methods to better integrate the provisions and timing of the statutory budget and property tax limitations and the provisions of the Industrial Relations Act.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SECOND LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Business and Labor and Education Committees of the Legislature shall be designated to conduct a joint interim study to carry out the purposes of this resolution.

2. That the committees shall upon the conclusion of their study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 150. Introduced by Withem, 14.

PURPOSE: The purpose of this study is to examine the role and mission of the Professional Practices Commission. Recent changes in procedures for investigation and prosecution of complaints against certificated school teachers and administrators (LB 575, 1989) have called into question the future role of the commission in this area.

With the ultimate goal of insuring the education, safety, and protection of children who are entrusted to the state certificated personnel of the public schools, the certification and discipline of teachers and school administrators has been subject to different approaches by the states, including:

(1) Certification and discipline consolidated within the State Department of Education;

(2) Certification and discipline consolidated in a state agency independent of the State Department of Education;

(3) Certification issuance entrusted to the State Department of Education and discipline entrusted to a separate state entity, such as a commission, or the Attorney General's office; and

(4) Certification or discipline entrusted to a private, professionally controlled association or entity.

The study shall examine the various options for teacher and administrator certification and discipline and make recommendations as to an appropriate role for the Professional Practices Commission.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SECOND LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Education Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 151. Introduced by Withem, 14.

PURPOSE: The State of Nebraska is truly a member of the world community. During the recent Gulf War our citizens participated in this encounter. Our citizens have been exposed to cultures much different than our own. This diversity of customs, beliefs, and ethnic differences highlight the requirement for more understanding and appreciation of our global status.

As we strive to participate in the worldwide economy we become more and more aware of the need to have our youth more fully mindful of the global nature of our surroundings.

Although our state was settled by a multitude of different ethnic groups, primarily of European stock, subsequent generations have lost a great deal of plurality and diversity of language and custom in the need to build a new nation. This background of assimilation and conformity has been the pattern of education for our youth. While this was desirable and proper, our needs have changed. As our students begin their employment and further education they must compete for jobs and recognition in an economy that is increasingly global in nature. There is an obligation to present to children varied educational opportunities in studies with a worldwide view.

In Nebraska, the Global Education Center at the University of Nebraska at Omaha and the Office of International Affairs at the University of Nebraska-Lincoln have begun work with a coalition of educators in higher education, as well as elementary and secondary school educators to develop materials and programs to assist our schools in their endeavor to nurture future generations in global education and assist our school systems in developing a more culturally sensitive, appreciative, and perceptive student. In the advancement of this strategy, the Global Education Center and similar programs at other centers of higher education are to be utilized to fulfill the purpose of this resolution.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SECOND LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Education Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall analyze the need for state support of the coalition efforts to provide technical assistance to school districts in developing Global Education curriculum and programs.

3. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 152. Introduced by R. Johnson, 34.

PURPOSE: The purpose of this resolution is to examine the issue of surplus capacity in electric lines having a rating of less than thirty-four thousand five hundred volts for the purpose of wheeling electric power and energy to any distribution power agency.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SECOND LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Natural Resources Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 153. Introduced by Schimek, 27; Landis, 46; Labedz, 5; Smith, 33; Schmit, 23; Nelson, 35; Rasmussen, 20; Baack, 47; Warner, 25; Horgan, 4; Coordsen, 32; Chizek, 31; Ashford, 6; Hartnett, 45.

PURPOSE: The purpose of this resolution is to reauthorize the LR 367 Committee of 1990 to continue the study on child abuse and neglect. The committee shall recommence the investigation into the response and resulting actions of various agencies who deliver services to abused and neglected children and their families. The study shall include an analysis of treatment programs for both victims and perpetrators of child abuse and neglect or the lack of such treatment of the perpetrators of the crime as well as the victims.

Because Nebraska currently has no mechanism to systemically review the deaths of children, the LR 367 Committee shall study a sampling of the deaths of children in Nebraska. It shall determine if

a permanent Death Review Committeé is needed to ascertain if a child's death appears to be the result of child abuse or neglect, poverty, or maltreatment or if the child's death is accidental. The permanent Death Review Committee could also determine if further investigation is necessary, if preventative measures were or could have been taken, and if charges should be filed on behalf of the child. The LR 367 Committee shall analyze other states' Death Review Committees, what professionals serve on those committees, and how those committees are organized.

The LR 367 Committee may ask for assistance in the study from representatives of the following:

(1) Nebraska County Judges Association;
(2) Nebraska County Attorney's Association;
(3) County Sheriff's Association;
(4) Nebraska Medical Association;
(5) Children's Hospital, Omaha, Nebraska;
(6) Nebraska Pediatrician's Association;
(7) Office of the Governor;
(8) Attorney General's Special Prosecution Division;
(9) Department of Social Services;
(10) State Department of Education;
(11) Department of Correctional Services;
(12) State Court Administrator's Office;
(13) Foster Care Review Board;
(14) Ombudsman's Office;
(15) Boys Town;
(16) Voices for Children; and
(17) Nebraska PTA.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SECOND LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Executive Board of the Legislature reappoint the members who served on the LR 367 Committee during 1990 and fill any vacancies that have occurred.

2. That the select committee shall consider obtaining the services of one or more persons or firms with nationally recognized expertise in the field of child abuse to aid in carrying out the purposes of this resolution.

3. That the study shall include, but not be limited in its findings, to (a) recommendations for changes in statutory law, (b) recommendations for improvements of current treatment programs for victims and perpetrators, (c) recommendations on the establishment of a permanent Death Review Committee, and (d)

estimates of the potential costs of such changes that would be proposed.

4. That, since one of the primary purposes of this study is to directly assist in fostering the administration of sections 28-710 to 28-727 dealing with child abuse and neglect, the records dealing with child abuse collected under such sections shall be made available to the select committee and its staff subject to strict confidentiality. No records or any part of such records shall be made available to persons outside of the committee or its staff. Records shall be used for data collection purposes only.

5. That the select committee shall, prior to December 1, 1991, make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE BILL 618. Placed on General File as amended.
Standing Committee amendment to LB 618:
AM1898

BILL ON FIRST READING

The following bill was read for the first time by title:

LEGISLATIVE BILL 627A. Introduced by Warner, 25.

A BILL FOR AN ACT relating to appropriations; to appropriate funds to aid in carrying out the provisions of Legislative Bill 627, Ninety-second Legislature, First Session, 1991; to provide for certain fund transfers; to reduce appropriations; and to declare an emergency.

RESOLUTIONS

LEGISLATIVE RESOLUTION 154. Introduced by Urban Affairs Committee: Hartnett, 45, Chairperson; R. Johnson, 34; Labedz, 5; Rasmussen, 20; Schimek, 27; Smith, 33; Will, 8.

PURPOSE: Of the several standing committees in the Legislature, the Urban Affairs Committee of the Legislature has perhaps the broadest and most diverse subject matter jurisdiction. The committee traditionally has been referenced bills the subject matter of which extends from cemeteries to natural gas to museums. Bills quite often arise from specific problems in specific municipalities in a manner which does not lend itself to early identification or classification as would be the case with issues within the jurisdiction of other committees.

Recognizing this fact, the Urban Affairs Committee of the Legislature has, in the prior two interim periods, undertaken interim studies aimed at identifying specific problems prior to the next legislative session to permit more careful review of legislative

solutions before the session begins and time is not available for the type of analysis the problems deserve.

A study of the effectiveness of the first such resolution (LR 95 from 1989) done in the 1990 interim (LR 321) demonstrated that there was a significant increase in the efficiency of the Urban Affairs Committee of the Legislature in the 1990 session to process legislation and get it to the full legislature early enough to permit full consideration and passage.

The purpose of this study would be to repeat the process undertaken under LR 95 in the 1989 interim and provide a forum during the interim period for municipalities and their representatives, as well as other interested parties, to present issues which would be the subject of future legislation or to solicit their reaction to proposals which have been presented to the committee for future consideration. The subjects available for committee consideration would extend to any matter relevant to the Urban Affairs Committee's subject matter jurisdiction. It would be the goal of this study to streamline the legislative process and permit expedited review of urban-oriented legislation presented to the committee under this study in the 1992 legislative session.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SECOND LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 155. Introduced by Urban Affairs Committee: Hartnett, 45, Chairperson; R. Johnson, 34; Labedz, 5; Rasmussen, 20; Schimek, 27; Smith, 33; Will, 8.

PURPOSE: One of the most important and difficult problems facing Nebraska's cities and villages is the issue of development around the fringes of such cities and villages. It is a complex of many problems including planning and zoning, the formation of SIDs, the financing of community improvements, annexation or lack of annexation, extraterritorial jurisdiction, the political rights of residents living outside of the city but subject to its decisions on many basic matters,

and the appropriate standards for determining when a group of individuals may form their own city or village.

Over the past five sessions many pieces of legislation dealing with these issues have been introduced and referred to the Urban Affairs Committee for consideration. Resolution of concerns has been difficult and generally the issues have been considered in isolation, with solutions proposed, and often rejected, on a piecemeal basis.

The Urban Affairs Committee has determined during its consideration of several bills in this session that it would be appropriate to try and address these matters as part of a broader solution aimed at balancing the rights of all parties involved within the context of responsible development practice and good public policy.

Under this study, the Urban Affairs Committee would undertake to work with Nebraska municipalities, members of the broader development community, and interested citizens in addressing the issues of municipal expansion, planning and zoning authority, and community development to craft legislation aimed at comprehensively establishing a workable Nebraska plan on municipal growth and governance of expanding fringe areas.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SECOND LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 156. Introduced by Urban Affairs Committee: Hartnett, 45, Chairperson; R. Johnson, 34; Labedz, 5; Rasmussen, 20; Schimek, 27; Smith, 33; Will, 8.

PURPOSE: The application for natural gas rate increases in several eastern Nebraska cities and villages has raised some new issues about the rate regulation process and renewed interest in the potential municipalization of private natural gas utilities. The Municipal Natural Gas Regulation Act, sections 19-4601 to 19-4623, or Laws 1987, LB 663, sections 1 to 23 was crafted by the Urban Affairs Committee of the Legislature and adopted by the full Legislature in

1987, and is the principal statutory framework in Nebraska for the regulation of natural gas rates charged to municipal consumers.

In keeping with its role as the legislative committee having principal concern for natural gas regulation by municipalities, the Urban Affairs Committee of the Legislature would, through this study, propose to provide a forum for the discussion of issues related to the current rate increase activity, other issues involved in natural gas rate regulation, and the Municipal Natural Gas Regulation Act that might be presented to the committee. The committee would review recent activity under the Municipal Natural Gas Regulation Act, determine whether changes are appropriate in order to address matters of concern to municipalities and private corporations providing natural gas service to Nebraska consumers as well as to private citizens with concern about the natural gas service they are receiving.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SECOND LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 157. Introduced by Urban Affairs Committee: Hartnett, 45, Chairperson; R. Johnson, 34; Labedz, 5; Rasmussen, 20; Schimek, 27; Smith, 33; Will, 8.

PURPOSE: With increasing pressure on the budgets of Nebraska's cities and villages, both in terms of the difficulty of raising needed revenue and in the face of statutory budget restrictions, it is important to identify new methods and possible strategies for a more cost-effective means of providing municipal services.

Cities in many parts of the country have found that the privatization of various municipal activities has improved levels of service and reduced the ultimate cost of those services to residents. In addition, privatization has increased local business investment, provided new jobs, and served as an important form of economic development.

This study would propose that the Urban Affairs Committee investigate the various services and activities of Nebraska's cities and

villages, determine which of them might feasibly and economically be undertaken by private enterprise, determine what sort of legal arrangements for the provision of those services would be most beneficial, draft appropriate legislation to implement the findings of the committee for introduction in the next legislative session, and provide the Legislature with a basic review of how other states have dealt with the issue of privatization to provide a factual basis for legislative action.

Because of the unique nature of municipally owned and operated natural gas and electric utilities in Nebraska and the special character of Nebraska as a public power state, this study will not undertake to address or to deal with the potential privatization of any municipal gas or electric utilities.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SECOND LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Urban Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

LEGISLATIVE BILL 843. Mr. Wesely offered the following amendment:

AM1987

1. On page 61, after line 5, insert the following new paragraph:

"It is the intent of the Legislature that the Department of Social Services shall operate a school on the Nebraska Center for Children and Youth campus unless and until the Director of Social Services demonstrates evidence to the Legislature that the following provisions have been met:

(a) That the closing of Whitehall School will not result in higher costs on an annual basis beginning in FY1991-92 to the State of Nebraska than the savings that will be realized if the school is closed;

(b) That local school districts can meet the needs of the children served at the Whitehall School during the 1990-91 school year;

(c) That services currently provided by the Family Resource Center at the Nebraska Center for Children and Youth will not be affected;

(d) That the use of the building currently housing the school will be available for use by the Lincoln Public Schools; and

(e) That no out-of-state placements will result from the closing of Whitehall School.".

Messrs. R. Johnson, Rogers, and Robinson asked unanimous consent to be excused until they return. No objections. So ordered.

RESOLUTIONS

LEGISLATIVE RESOLUTION 170. Introduced by Pirsch, 10.

PURPOSE: The purpose of this resolution is to study the effect of state regulation of travel agencies on the travel business and upon the Office of the Secretary of State with whom travel agencies would be required to register under the provisions of LB 109.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SECOND LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 171. Introduced by Pirsch, 10.

PURPOSE: The purpose of this study is to examine (1) the effect of sole source "No Substitutes Will Be Considered" restrictions in the public bidding process upon Nebraska-based manufacturers and (2) the effect of the exemption of services from the competitive bidding process upon Nebraska-based service providers.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SECOND LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 172. Introduced by Pirsch, 10.

PURPOSE: The purpose of this resolution is to examine the possible development of a Taxpayers Bill of Rights for Nebraska. In 1991, the Nebraska Supreme Court has rendered decisions which call into question Nebraska's system of taxing personal and real property. While the ultimate legislative solutions to these decisions involve all

revenue sources, including income tax, Nebraska citizens have had their confidence and trust shaken.

This study shall examine any Taxpayer Bill of Rights proposed or adopted by other states or the federal government and determine whether a Taxpayers Bill of Rights is necessary to protect all Nebraskans from unfair state tax policies and restore the public's confidence in government.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SECOND LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 173. Introduced by Wesely, 26.

PURPOSE: The purpose of this resolution is to examine the impact of the Employment and Investment Growth Act on Nebraska's economy. Four years after the passage of the act an authoritative cost-benefit analysis of the act's impact on the state needs to be done. This study would analyze, relative to the incentives provided: The amount of investment actually made for capital expansion; the number of jobs retained because of the investment; the number of new jobs created by the investment; the wage levels of these jobs; the number of companies that were actually recruited to the state because of the act and their accompanying economic impact; and the amount and effect of sales tax refunds on municipalities. This study would also evaluate the statewide costs of the program relative to the extended payback period necessary to recoup the state's investment through lost tax revenue. The capital gains tax breaks and other provisions of the act should be studied as well to determine what elements of this legislation are working and what changes may be in order.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SECOND LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Revenue Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 174. Introduced by Wesely, 26.

PURPOSE: The purpose of this resolution is to examine Nebraska's current and projected energy needs and to explore creating a comprehensive statewide energy plan. The Bush Administration has recently unveiled a national energy plan to anticipate the nation's long-term needs. A similar plan for Nebraska which considers not only future consumption, but improved conservation techniques and alternative energy sources, such as solar collection and wind generation, could help enable Nebraska to maintain efficient, affordable, and adequate energy resources well into the next century. The study should also evaluate state government's past and present role in energy programs and policymaking, what current energy programs have been effective, and what new energy programs are needed.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SECOND LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 175. Introduced by Wesely, 26.

PURPOSE: The purpose of this resolution is to examine additional financing mechanisms that can provide investment capital for start-up entrepreneurs and established small businesses in Nebraska. Currently, ninety-seven percent of the businesses in the state employ fewer than one hundred employees. There is however a shortage of investment capital available for businesses of this size, either in the form of equity investment or direct lower than market-rate interest loans. Financing tools such as venture capital investment credits and linked deposits should be studied to determine how state government can best play a role to fill this capital gap.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SECOND LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Banking, Commerce and Insurance Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 176. Introduced by Wesely, 26.

PURPOSE: The purpose of this resolution is to study the issuance of dealer plates for motor vehicles. Annually, over one thousand four hundred licensed motor vehicle dealers in the state use eleven thousand two hundred ninety-six passenger car dealer plates, two hundred twenty motorcycle dealer plates, and three hundred forty-five trailer dealer plates. The issue of dealer plates should be examined to determine if the fees for these dealer plates and the privileges associated with their use need revision.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SECOND LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 177. Introduced by Wesely, 26.

PURPOSE: The purpose of this resolution is to explore the possibility of the State of Nebraska extending liability protection for individuals who volunteer their services for the public good. Currently, it is possible for a volunteer to become legally liable if someone is injured as a result of the volunteer's actions. President Bush has proposed the Model State Volunteer Service Act for adoption by the states as a means to balance both the victim's right to seek redress and the individual's right to volunteer without fear

of litigation. This model act should be studied to see if it is needed in Nebraska.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SECOND LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Judiciary Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 178. Introduced by Wesely, 26.

PURPOSE: The purpose of this resolution is to explore the creation of a tax incentive program to encourage the purchase of recycled products. There is presently a need to increase the economic incentive for producers and consumers to choose recycled products over products which are not recycled. Levying a tax on the purchase of virgin paper and other products which are not recycled would encourage the use of recycled products, expand the market for recycled products, and generate new revenue to promote recycling in the state. Purchases of recycled products would be exempt from the tax. The study should examine the types of products that could be subject to the tax, the appropriate levy system, and the means by which such taxes could be assessed and collected.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SECOND LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 179. Introduced by Wesely, 26.

PURPOSE: The purpose of this resolution is to examine the status of Fairview, the eighty-nine-year-old country estate of Lincoln's favorite son and three-time presidential candidate William Jennings

Bryan. Expansions of the Bryan Hospital facility have gradually encroached on the Fairview structure and the statue of Bryan which stands on the grounds of this historic home. A study updating the Legislature on Fairview's situation should consider the structure's current maintenance and long-term prospects with regard to preservation and setting. The study should also examine the possibility of returning the Bryan statue to its former location on the State Capitol grounds or another suitable location in the State Capitol for public display.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SECOND LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Government, Military and Veterans Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 180. Introduced by Wesely, 26.

PURPOSE: The State of Nebraska needs to evaluate and develop economic development policies and programs on an ongoing and comprehensive basis to assist businesses and communities throughout the state. Economic development programs and initiatives need to be studied in areas including, but not limited to, (1) the formation of private venture capital in Nebraska, (2) the authorization for the Nebraska Investment Council to invest in venture capital, (3) assistance to new and existing small businesses in Nebraska, (4) community development programs and assistance, (5) investment in research and development, and (6) the development of a comprehensive foreign trade assistance program.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SECOND LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 181. Introduced by Wesely, 26.

PURPOSE: The purpose of this resolution is to consider possible alternative names for the Department of Environmental Control and the Department of Public Institutions to better reflect their missions and responsibilities.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SECOND LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 182. Introduced by Wesely, 26; Cudaback, 36.

PURPOSE: The purpose of this study is to examine the need for regulation of housing contractors in Nebraska and whether LB 725 currently being held by the Health and Human Services Committee should be enacted into law.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SECOND LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 183. Introduced by Rasmussen, 20; Crosby, 29.

PURPOSE: The purpose of this resolution is to study the use of multidisciplinary teams to address the issues related to child abuse and neglect in Nebraska. The Legislature recognizes that while there are a number of agencies, organizations, and professionals who work

in the area of child abuse and neglect, they often function independent of one another. This study would evaluate the potential efficiency and effectiveness of a multidisciplinary approach to child abuse and neglect issues. This study proposes to examine the following aspects of multidisciplinary child abuse and neglect teams:

(1) The need for cooperation and collaboration;
(2) Organizational structure within communities;
(3) The composition of teams;
(4) Roles and responsibilities of team members;
(5) Funding needs;
(6) Recommended strategies of operation; and
(7) Relationship of such teams to existing local child abuse prevention councils and the Nebraska Child Abuse Prevention Fund Board.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SECOND LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 184. Introduced by L. Johnson, 15.

PURPOSE: The purpose of this resolution is to examine the adequacy of existing Nebraska inheritance tax laws. The study shall focus on the reporting and probating of intangible assets such as certificates of deposit, joint tenancy accounts, bonds, stocks, insurance contracts, etc., to determine whether Nebraska inheritance tax is commonly avoided with regard to such assets.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SECOND LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Government, Military and Veterans Affairs Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution. The committee shall solicit the input of affected state agencies, county attorneys, and other interested organizations and persons the committee deems necessary and proper to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations. to the Legislative Council or Legislature.

Referred to the Executive Board.

LEGISLATIVE RESOLUTION 185. Introduced by R. Johnson, 34.

The resolution shall also examine current authority regarding appropriate protective measures.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SECOND LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Natural Resources Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

A Resolution to propose an amendment to the Constitution of Nebraska by amending Article VIII, sections 1, 2, and 4.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SECOND LEGISLATURE OF NEBRASKA, FIRST SESSION:

Section 1. That at a special election on August 6, 1991, there shall be submitted to the electors of the State of Nebraska for approval the following amendment to the Constitution of Nebraska by amending Article VIII, sections 1, 2, and 4, which is hereby proposed by the Legislature:

CVIII-1 "~~The necessary revenue of the state and its governmental subdivisions shall be raised by taxation in such manner as the Legislature may direct. Taxes shall be levied by valuation uniformly and proportionately upon all tangible property and franchises, except that: (1) The Legislature may provide for a different method of taxing motor vehicles and may also establish a separate class of motor vehicles consisting of those owned and held for resale by motor vehicle dealers which shall be taxed in the manner and to the extent provided by the Legislature and may also establish a separate class for trucks, trailers, semitrailers, truck-tractors, or combinations thereof, consisting of those owned by residents and nonresidents of this state, and operating in interstate commerce, and may provide reciprocal and proportionate taxation of such vehicles; PROVIDED, that such tax proceeds from motor vehicles taxed in each county shall be allocated to the state, counties, townships, cities, villages, and school districts of such county in the same proportion that the levy of each bears to the total levy of the county on personal tangible property; and (2) the Legislature may provide that agricultural land and horticultural land, as defined by the Legislature, shall constitute a separate and distinct class of property for purposes of taxation and may provide for a different method of taxing agricultural land and horticultural land which results in values that are not uniform and proportionate with all other tangible property and franchises but which results in values that are uniform and proportionate upon all property within the class of agricultural land and horticultural land. The Legislature may enact laws to provide that the value of land actively devoted to agricultural or horticultural use shall for property tax purposes be that value which such land has for agricultural or horticultural use without regard to any value which such land might have for other purposes or uses and may prescribe standards and methods for the determination of the value of real or other tangible property at uniform and proportionate values. Taxes uniform as to class of property or the ownership or use thereof may be levied by valuation or otherwise upon classes of intangible property as the Legislature may determine, and such intangible property held in trust or otherwise for the purpose of funding pension, profit-sharing, or~~

~~other employee benefit plans as defined by the Legislature may be declared exempt from taxation. Taxes other than property taxes may be authorized by law. Existing revenue laws shall continue in effect until changed by the Legislature. The Legislature may provide that livestock shall constitute a separate and distinct class of property for purposes of taxation and may further provide for reciprocal and proportionate taxation of livestock located in this state for only part of a year.~~

The necessary revenue of the state and its governmental subdivisions shall be raised by taxation in such manner as the Legislature may direct. Taxes shall be levied by valuation uniformly and proportionately upon all real property and franchises except as set forth in this article. The Legislature may provide that agricultural land and horticultural land, as defined by the Legislature, shall constitute a separate and distinct class of property for purposes of taxation and may provide for a different method of taxing agricultural land and horticultural land which results in values that are not uniform and proportionate with all other real property and franchises but which results in values that are uniform and proportionate upon all property within the class of agricultural land and horticultural land. The Legislature may enact laws to provide that the value of land actively devoted to agricultural or horticultural use shall for real property tax purposes be that value which such land has for agricultural or horticultural use without regard to any value which such land might have for other purposes or uses and may prescribe standards and methods for the determination of the value of such land at uniform and proportionate values.

Tangible personal property, unless exempt or otherwise provided for by the Constitution, shall be subject to tax in whole or in part by valuation or otherwise in such manner as the Legislature may direct. The Legislature may provide for a different method of taxing motor vehicles and may also establish a separate class of motor vehicles consisting of those owned and held for resale by motor vehicle dealers which shall be taxed in the manner and to the extent provided by the Legislature and may also establish a separate class for trucks, trailers, semitrailers, truck-tractors, or combinations thereof, consisting of those owned by residents and nonresidents of this state, and operating in interstate commerce, and may provide reciprocal and proportionate taxation of such vehicles; PROVIDED, that such tax proceeds from motor vehicles taxed in each county shall be allocated to the counties, townships, cities, villages, and school districts of such county in the same proportion that the levy of each bears to the total levy of the county on personal tangible property.

Taxes uniform as to class of property or the ownership or use thereof may be levied by valuation or otherwise upon classes of intangible property as the Legislature may determine, and such intangible property held in trust or otherwise for the purpose of funding pension, profit-sharing, or other employee benefit plans as defined by the Legislature may be declared exempt from taxation.

Taxes other than property taxes may be authorized by law. Existing revenue laws shall continue in effect until changed by the Legislature.

The Legislature may provide that livestock shall constitute a separate and distinct class of property for purposes of taxation and may further provide for reciprocal and proportionate taxation of livestock located in this state for only part of a year."

CVIII-2 "The property of the state and its governmental subdivisions shall be exempt from taxation. The Legislature by general law may exempt from taxation property owned by and used exclusively for agricultural and horticultural societies, and property owned and used exclusively for educational, religious, charitable, or cemetery purposes, when such property is not owned or used for financial gain or profit to either the owner or user. ~~Household~~ Inventory, household goods, and personal effects, as defined by law, ~~may be exempted~~ shall be exempt from property taxation. ~~in whole or in part, as may be provided by general law, and the Legislature may prescribe a formula for the determination of value of household goods and personal effects.~~ The Legislature by general law may provide that the increased value of land by reason of shade or ornamental trees planted along the highway shall not be taken into account in the assessment of such land. The Legislature by general law and upon any terms, conditions, and restrictions it prescribes, may provide that the increased value of real property resulting from improvements designed primarily for energy conservation may be exempt from taxation. The value of a home substantially contributed by ~~the Veterans' Administration of~~ the United States Department of Veterans Affairs for a paraplegic veteran or multiple amputee shall be exempt from taxation during the life of such veteran or until the death or remarriage of his ~~widow or her remarriage~~ or her surviving spouse. The Legislature may exempt from an intangible property tax life insurance and life insurance annuity contracts and any payment connected therewith and any right to pension or retirement payments. The Legislature may classify personal property in such manner as it sees fit, and may exempt any of such classes, or ~~may~~ exempt all personal property from property taxation. No property shall be exempt from taxation except as provided in the Constitution. The Legislature may by

general law provide that a portion of the value of any residence actually occupied as a homestead by any classification of owners as determined by the Legislature shall be exempt from taxation."

CVIII-4 "Except as to tax and assessment charges against real property remaining delinquent and unpaid for a period of fifteen years or longer, the Legislature shall have no power to release or discharge any county, city, township, town, or district whatever, or the inhabitants thereof, or any corporation, or the property therein, from their or its proportionate share of taxes to be levied for state purposes, or due any municipal corporation, nor shall commutation for such taxes be authorized in any form whatever; PROVIDED, that the Legislature may provide by law for the payment or cancellation of taxes or assessments against real estate remaining unpaid against real estate owned or acquired by the state or its governmental subdivisions. The release or discharge prohibited by this section shall not be construed or deemed to prevent the exemption or nonuniform taxation, as provided by the Constitution, of classes of property.".

Sec. 2. That the proposed amendment shall be submitted to the electors in the manner prescribed by the Constitution of Nebraska, Article XVI, section 1. The proposition for the submission of the proposed amendment shall be placed upon the ballot in the following form:

"A constitutional amendment to authorize the Legislature to provide for the taxation of certain tangible personal property in such manner as the Legislature may direct, to exempt inventory, household goods, and personal effects from property taxation, and to harmonize with other constitutional provisions with respect to the exemption or nonuniform taxation of classes of property.

For

Against".

Sec. 3. That the proposed amendment, if adopted, shall be in force and take effect immediately upon the completion of the canvass of the votes, at which time it shall be the duty of the Governor to proclaim it as a part of the Constitution of Nebraska.

Referred to the Reference Committee.

LEGISLATIVE RESOLUTION 187. Introduced by Withem, 14; Lynch, 13.

PURPOSE: The purpose of this study is to investigate the efficiency of operations of the public school system of the State of Nebraska. The administrative and instructional efficiency of the public schools was brought into question by the legislatively mandated Syracuse Tax

Study in 1989, the recent study of school financing commissioned by the Greater Omaha Area Chamber of Commerce, and the Lynch amendment to LB 719. Other studies, such as Class Dismissed, a study commissioned by the Nebraska Rural Community Schools Association, have suggested that administrative and instructional cost inefficiencies are not peculiar to small schools. The study should examine the accuracy and relevancy of these different studies in terms of the current structure and characteristics of Nebraska public schools.

Legislatively, the issue of cost efficiency of public schools has focused almost exclusively on school district reorganization (LB 662 - 1985, LB 940 - 1988, and LB 259 - 1990). Efficiency incentives were not included in the school financing formula recently adopted in LB 1059. LB 1059 placed all schools in enrollment tiers based on the assumption that school size was the primary determinant of school costs. The study shall examine a number of variables which relate to school cost efficiencies including, but not limited to:

(1) School district size;
(2) School district geography;
(3) School district demographic and socioeconomic factors;
(4) State accreditation requirements; and
(5) Other state and federal aid programs.

Finally, the study shall consider a number of methods, incentives, cooperative programs, cooperative programs including incentives, and mandatory standards to encourage and promote improvements in public school efficiencies.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-FIRST LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That a committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

Referred to the Executive Board.

ATTORNEY GENERAL'S OPINIONS

Opinion No. 91042

DATE: May 20, 1991

SUBJECT: Constitutionality of Two-Part Amendment to LB 850, the State Claims Bill, Which Amendment Would Bypass the State Claims

Board and State Courts and Appropriate $30,000,000 for Payment to Commonwealth Depositors and Amend the State Tort Claims Act to Authorize Such Bypass.

REQUESTED BY: Senator George Coordsen
District No. 32

WRITTEN BY: Don Stenberg, Attorney General
John R. Thompson, Deputy Attorney General

Amendment 1447 to LB 850 is in two parts. The first would appropriate $30,000,000.00 for the payment of the tort claim filed January 25, 1991, by representatives of the Commonwealth depositors without action by the State Claims Board or the state court system as required by the State Tort Claims Act. The second part proposes to amend the State Tort Claims Act to permit bypassing the Board and courts. You have raised several questions concerning the constitutionality of Amendment 1447.

Your first question is whether the appropriation of $30,000,000.00 would be constitutionally permissible in view of the recent decision in Haman v. Marsh, 237 Neb. 669, ____ N.W.2d ____ (1991). We believe that to the extent such an appropriation exceeds any actual tort liability of the state it would be subject to the same constitutional infirmities as found in Haman. We should point out that no valid appropriation may be made until appropriate authorizing legislation has been adopted.

Your next two questions relate to germaneness of the two subjects in the amendment, the appropriation of money and substantive changes in the State Tort Claims Act. We believe there are serious constitutional problems in this regard. Article III, section 14, of the Nebraska Constitution provides:

". . .No bill shall contain more than one subject, and the same shall be clearly expressed in the title. . . ."

It appears that the inclusion of substantive changes to the State Tort Claims Act in the same bill which appropriates money for the payment of claims violates the above provision and would probably be unconstitutional. This conclusion is consistent with prior opinions of this office where we have consistently indicated that substantive language may not be placed in a legislative bill together with appropriations language. See Opinion No. 214 dated March 26, 1976 and Opinion No. 81 dated April 23, 1981.

Your next question relates to the proposed amendment to the State Tort Claims Act which provides for direct action by the Legislature

on claims in excess of $5,000,000.00 without any prior review by the State Claims Board and the state courts. You ask whether the classification would be reasonable and constitutionally permissible. Our answer to this must necessarily be somewhat less precise. While we believe a plausible argument can be made that the classification is arbitrary and unreasonable, the courts generally give some deference to the policy findings of the Legislature. Under the present structure of the State Tort Claims Act, claims of $5,000.00 or less may be approved by the State Claims Board with no other review or oversight. Claims over $5,000.00 must be approved by the Lancaster County District Court as well as the Board. All claims exceeding $50,000.00 must also be reviewed by the Legislature and appropriation made before payment. In other words, additional review and oversight is required for each class of claims as they get larger in amount.

Under the proposed amendment that scheme would not be followed. In fact, the review by the Board and courts would be eliminated for the class of claims involving the most money. While this on its face seems somewhat odd, it can perhaps be justified on the basis that claims of this magnitude will be carefully reviewed by the Legislature while for smaller claims, the Legislature will generally rely on the decision of the State Claims Board and the courts.

Finally, you question whether the amendment may violate the separation of powers provision of the Nebraska Constitution, Article II, section 1. Under Article IV, section 1, the Attorney General is an executive officer. The Attorney General is vested with broad common law and statutory powers, including the power to initiate and defend actions, to make decisions regarding strategy, and to negotiate and enter into settlements. See State v. State Board of Equalization and Assessment, 123 Neb. 259, 242 N.W. 609 (1932), cited with approval in State v. Douglas, 217 Neb. 199, 349 N.W.2d 870 (1984); and Neb.Rev.Stat. § 84-202 (Reissue 1987) and Neb.Rev.Stat. § 81-8,218 (1990 Cum.Supp.).

Also, Neb.Rev.Stat. § 81-8,218 specifically provides that the Attorney General is authorized to compromise or settle any suits brought under the State Tort Claims Act with the approval of the court in which the suit is pending.

Under the proposed legislation, the Legislature would, in effect, be substituted for the State Claims Board. This mechanism allows for settlement of claims by the State prior to the commencement of litigation and hence does not conflict with the authority of the Attorney General. The power to appropriate funds is, of course, a legislative power. Moreover, the proposed legislation still requires judicial approval of the settlement. Considering all of these points,

we are of the opinion that Nebraska Constitution, Article II, Section 1 and Article IV, Section 1 are not violated by the proposed legislation.

Opinion No. 91043

DATED: May 20, 1991

SUBJECT: Constitutionality of Two-Part Amendment to LB 850, the State Claims Bill, Which Amendment Would Bypass the State Claims Board and State Courts and Appropriate $30,000,000 for Payment to Commonwealth Depositors and Amend the State Tort Claims Act to Authorize Such Bypass.

REQUESTED BY: Senator Loran Schmit
District No. 23

WRITTEN BY: Don Stenberg, Attorney General
John R. Thompson, Deputy Attorney General

In your May 2, 1991, letter to this office you requested our opinion with respect to four questions.

You first asked whether the Legislature, when it disagrees with the conclusion of the State Claims Board, must nevertheless approve a claim in the same amount as approved by the Board itself. Tort Claim No. 91-310 which is the subject of your request seeks millions of dollars on behalf of Commonwealth depositors. Under the current State Tort Claims Act any claim in excess of $5,000.00 must be approved by the Lancaster County District Court pursuant to Neb.Rev.Stat. § 81-8,211. After approval or disapproval by the district court any payment in excess of $50,000.00 must be withheld until that award or judgment has been reviewed by the Legislature and specific appropriation made therefor pursuant to Neb.Rev.Stat.

§ 81-8,224. It does not appear that the State Tort Claims Act contemplates that any amount in excess of that approved by the Board and the court will be appropriated by the Legislature. Neb.Rev.Stat. § 81-8,224 appears to contemplate only that the Legislature may withhold payment of any amount in excess of the $50,000.00 until it has reviewed the matter and made appropriation therefor.

You next asked whether the Legislature may approve a claim that the State Claims Board has disapproved. The answer to this would appear to the same as for your first question. In other words, under the State Tort Claims Act the claim must first go to the State Claims Board and, if sufficient in size, must then go to the Lancaster County District Court for review and approval or disapproval. The Legislature's authority in this regard is to either approve or disapprove the amount awarded by the Board and the court. It does not appear that any authority is retained by the Legislature to enlarge upon that amount.

Your third and fourth questions relate to the constitutionality of Amendment 1447 to LB 850. In that regard, we attach a copy of the opinion rendered this date to Senator Coordsen covering the same subject matter. We believe that opinion answers both of your remaining questions.

Very truly yours,

ATTORNEY GENERAL'S OPINION

Opinion No. 91044

DATE: May 20, 1991

SUBJECT: AM 1444 to LB 795; Constitutionality of Proposed Statutory Provisions Which Would Allow a City to Use Lottery Proceeds for Acquisition, Purchase, and Maintenance of a Professional Baseball Organization

REQUESTED BY: Senator Jacklyn J. Smith
Nebraska State Legislature

WRITTEN BY: Don Stenberg, Attorney General
Dale A. Comer, Assistant Attorney General

LB 795 would amend the existing Nebraska County and City Lottery Act in various respects. AM 1444 to that bill would, in turn, amend LB 795 to provide that a city of the metropolitan class which conducts a local option lottery has authority to use a portion of the lottery proceeds "for the acquisition, purchase and maintenance of a professional baseball organization." You are concerned with the constitutionality of that amendment in light of Article III, Section 24 of the Nebraska Constitution, and that concern prompted your Opinion request to this office. We believe that the amendment in question is constitutional under our State Constitution.

Article III, Section 24 of our State Constitution provides, in pertinent part:

> The Legislature shall not authorize any game of chance, nor any lottery, or gift enterprise when the consideration for a chance to participate involves the payment of money for the purchase of property, services, or a chance or admission ticket or requires an expenditure of substantial effort or time, except that it may authorize and regulate other lotteries, raffles, and gift enterprises which are intended solely as business promotions or the proceeds

> of which are to be used solely for charitable or community betterment purposes without profit to the promoter of such lotteries, raffles, or gift enterprises.

You first ask whether the use of lottery proceeds for the acquisition, purchase, and maintenance of a professional baseball franchise is within a reasonable interpretation of "community betterment" as required by Article III, Section 24.

The portion of Article III, Section 24 which pertains to lotteries for community betterment purposes was added to our State Constitution in 1968. State v. City Betterment Corporation, 197 Neb. 575, 250 N.W.2d 601 (1977). There are no cases from the Nebraska Supreme Court which interpret "community betterment" as it is used in Article III, Section 24 of the Nebraska Constitution. Moreover, as we noted in Opinion of the Attorney General No. 52, March 17, 1983, a review of the legislative history of both the constitutional amendment and its enacting legislation does not assist in defining "community betterment purposes." However, it is clear that the "words and terms of a constitutional provision are to be interpreted and understood in their most natural and obvious meaning." State v. City Betterment Corporation, supra, 197 Neb. at 582, 583, 250 N.W.2d at 605. Therefore, as we did in our Opinion in 1983, we must analyze the phrase "community betterment" in its natural and obvious sense.

In Opinion of the Attorney General No. 52, March 17, 1983, we stated:

> Websters Third New International Dictionary, Unabridged Edition, 1967 defines "betterment" as the making or becoming better: improvement as: an improvement of an estate that makes it better and more valuable than mere repairs would do, an improvement that does more than restore to a former good condition, the replacement in accounting of an existing asset with one of greater cost or superior value. That same volume variously defines "community" including the following: A body of individuals organized into a unit or manifesting unusual awareness of some unifying trait: a state or commonwealth.

As a result, "community betterment" involves improvement of a body of individuals such as a city or county that makes that governmental unit better or more valuable than before.

We believe that the acquisition, purchase, and maintenance of a professional baseball organization would fit within that broad definition of community betterment. The presence of a professional baseball team in a community could lead to the improvement of that community in a number of ways. For instance, major employers might be attracted to the community because of the increased

recreational possibilities, or commerce within the community might be enhanced because individuals attending games would shop or spend time there. Consequently, we believe that the acquisition, purchase, and maintenance of a professional baseball franchise would fit under the broad parameters of Article III, Section 24 of the Nebraska Constitution.

You also ask whether the use of lottery proceeds, as proposed in AM 1444, would fall within the term "community betterment" as that term is defined by Neb.Rev.Stat. § 9-604 (Reissue 1987). We believe that this question, in effect, asks us to interpret an existing statute which we cannot do for the reasons stated in our Opinion No. 157 to Senator Beutler, dated December 20, 1985. However, we would note that, if the Nebraska County and City Lottery Act is amended as contemplated by AM 1444, then use of the proceeds of a lottery for the purposes proposed in that amendment would be permissible under the Act even if such a use did not fit under the definition of community betterment set out in Neb.Rev.Stat. § 9-604.

DON STENBERG

ATTORNEY GENERAL'S OPINION

Opinion No. 91045

DATE: May 22, 1991

SUBJECT: LB 840 - Constitutionality of Including Various Local Government Revenues Within the Term "Local Sources of Revenue" Under the Local Option Municipal Economic Development Act.

REQUESTED BY: Senator Lowell C. Johnson
Nebraska State Legislature

WRITTEN BY: Don Stenberg, Attorney General
L. Jay Bartel, Assistant Attorney General

You have requested our opinion regarding the constitutionality of including two specific sources of revenues of cities and villages within the term "local sources of revenue" under LB 840, the "Local Option Municipal Economic Development Act." Generally, LB 840 constitutes the enabling legislation to permit cities and villages in Nebraska to exercise the authority granted by Constitutional Amendment 3 in November, 1990, which authorizes cities and villages to appropriate funds derived from local sources of revenue

for economic or industrial development projects or programs, subject to approval by a majority of the registered voters of the city or village voting upon the question. The constitutional amendment (contained in Neb. Const. art. XIII, § 2), provides the term "local sources of revenue shall mean funds raised from general taxes levied by the city or village and shall not include any funds received by the city or village which are derived from state or federal sources." (emphasis added). Your specific question concerns whether either rent or rents paid for the use and benefit of municipal utilities under Neb.Rev.Stat. § 16-682 (Reissue 1987), or payments in lieu of taxes by public power or irrigation districts made pursuant to Neb. Const. art. VIII, § 11, and Neb.Rev.Stat. §§ 70-651.01 to 70-651.05 (Reissue 1990), constitute "general taxes levied" by a city or village within the meaning of the term "local sources of revenue" as defined under Neb. Const. art. XIII, § 2.

The general rule regarding the characterization of a tax as a "general" tax, as opposed to a "special" tax, is stated in 71 Am. Jur. 2d State and Local Taxation § 21 (1973) as follows:

> Taxes, particularly property taxes, are occasionally classified as general or special. This classification is made most commonly with respect to the distinction between the imposition known as a 'special assessment' and the customary annual tax imposed upon all property within the taxing district to provide revenue for the usual and ordinary day-to-day expenses of the government, the term 'special tax' sometimes being used as synonymous with the term 'special assessment.' With respect to general taxes, the government renders no return of special benefit to any property, but only secures to the citizen the general benefit which results from protection to his person and property and the promotion of various schemes which have for their object the welfare of all; on the other hand, special assessments or special taxes proceed upon the theory that when a local improvement enhances the value of neighboring property that property should pay the improvement.

Similarly, the distinction between "general" and "special" taxes is explained in 84 C.J.S. Taxation § 3a. (1954) as follows:

> 'General' taxes are those imposed throughout the state or some civil division thereof for the purpose of raising revenue for the support of the government and for general purposes, and which are levied on the ground of general public benefits, while 'special' taxes are those which are levied for a special or local purpose for the benefit of a part only of the body politic.

In Farnham v. City of Lincoln, 75 Neb. 502, 106 N.W. 666 (1906), the Nebraska Supreme Court recognized the difference between

"general" and "special" taxes or assessments. In this respect, the court in Farnham stated:

> Special assessments are a peculiar species of taxation, standing apart from the general burdens imposed for state and municipal purposes, and governed by principles that do not apply generally. The general levy of taxes is understood to exact contributions in return for the general benefits of government, and it promises nothing to the persons taxed, beyond what may be anticipated from an administration of the laws for individual protection and the general public good. Special assessments, on the other hand, are made upon the assumption that a portion of the community is to be specially and peculiarly benefited, in the enhancement of the value of property peculiarly situated as regards a contemplated expenditure of public funds; and, in addition to the general levy, they demand that special contributions, in consideration of the special benefit, shall be made by the persons receiving it.

Id. at 506-507, 106 N.W. at 668.

Again, discussing the term "general" taxes, the court in Schulz v. Dixon County, 134 Neb. 549, 556, 279 N.W. 179, 183 (1938), stated:

> Taxes proper, or general taxes, it has been said, 'proceed upon the theory that the existence of government is a necessity; that it cannot continue without means to pay its expenses; that for those means it has the right to compel all citizens and property within its limits to contribute; and that for such contribution it renders no return of special benefit to any property, but only secures to the citizen that general benefit which results from protection to his person and property, and the promotion of those various schemes which have for their object the welfare of all.'

Based on the foregoing, it is our opinion that neither of the impositions referred to in your request properly fit within the phrase "general taxes levied" by a city or village in Article XIII, Section 2, for purposes of determining the "local sources of revenue" which may be utilized by cities and villages to fund economic or industrial programs or projects. As to rents paid for the use and benefit of municipal utilities under Neb.Rev.Stat. § 16-682 (Reissue 1987), the charges imposed are directly related to a specific benefit received by the property owner or resident, as opposed to an exaction for the benefit of the public in general. Indeed, the statute specifically provides that delinquent water rentals remaining unpaid for three months may be assessed against the real estate as a "special assessment." We do not believe these impositions may be characterized as "general taxes levied" by a city or village within the meaning of Article XIII, Section 2.

As to the payments in lieu of taxes made by public power or irrigation districts pursuant to Neb. Const. art. VIII, § 11, and Neb.Rev.Stat. §§ 70-651.01 to 70-651.05 (Reissue 1990), it is our opinion that these payments also do not fall within the term "general taxes levied" as used in Article XIII, Section 2. The precise language employed in Article XIII, Section 2, limits the term "local sources of revenue" to "general taxes levied by the city or village." Payments in lieu of taxes made by public power or irrigation districts do not constitute revenues from any "tax" levied by a city or village; rather, these payments are simply required by Nebraska constitutional and statutory provisions which compel these entities to make payments to local government bodies "in lieu of" other taxes. Therefore, we believe in lieu of tax payments received by cities or villages from public power or irrigation districts do not fit under the term "general taxes levied" by cities or villages in Article XIII, Section 2.

Very truly yours,
DON STENBERG

ATTORNEY GENERAL'S OPINION

Opinion No. 91046

DATE: May 21, 1991

SUBJECT: LB 829 - Constitutionality of Amendment Exempting From Property Taxation Certain Personal Property of Transportation Common Carriers.

REQUESTED BY: Senator Jerome Warner
Nebraska State Legislature

WRITTEN BY: Don Stenberg, Attorney General
L. Jay Bartel, Assistant Attorney General

You have requested our opinion regarding the constitutionality of a proposed amendment to LB 829 which would provide an exemption from property taxation for certain "personal property of transportation common carriers - railroad rolling stock, motor carriers and airplanes." Your question is whether the establishment of an exemption of this type would cure the constitutional defects found by the court in declaring unconstitutional the exemption of railroad rolling stock under LB 7 in Natural Gas Pipeline Co. v. State Bd. of Equal., 237 Neb. 357, 466 N.W.2d 461 (1991) ("NGPL").

In NGPL, the per curiam majority held, in part, that the exemption of railroad rolling stock established under LB 7 (1989 Neb. Laws, Spec. Sess.) created an unreasonable classification in violation of the prohibition against special legislation in Neb. Const. art. III, § 18, and violated the uniformity clause of Neb. Const. art. VIII, § 1. 237 Neb. at 371, 466 N.W.2d at 470. The court quoted the following language from State ex rel. Cone v. Bauman, 120 Neb. 77, 82-83, 231 N.W. 693, 695 (1930), setting forth the standards to be applied in judging the reasonableness of a legislative classification:

> The rule is well established that the legislature may, for the purpose of legislating, classify persons, places, objects or subjects, but such classification must rest upon some difference in situation or circumstance which, in reason, calls for distinctive legislation

for the class. The class must have a substantial quality or attribute which requires legislation appropriate or necessary for those in the class which would be inappropriate or unnecessary for those without the class.

237 Neb. at 370, 466 N.W.2d at 470.

Applying these principles to the railroad rolling stock exemption created by LB 7, the court stated:

The Legislature's exemption of railroad rolling stock is not based on any real distinction between railroads and other common carriers. If 'size' and 'weight,' mentioned in the Legislature's stated justification for the classification, refer to things which are large and heavy and the 'restrictions or conditions' means that speed is not required, then the expressed legislative justification could just as easily refer to trucks and trucking companies as to railroads. On the other hand, if one thinks in terms of things which are small and light and must be moved quickly, the expressed justification could just as easily refer to airlines and airline companies.

The Legislature's stated justification is illusory. We fail to see any real and substantial difference between personal property used for income production by one type of business and the same type of income-producing personal property used by another type of business.

The Legislature's effort to exempt railroads is not based on a reasonable classification and violates both the proportionality and special legislation requirements of the Nebraska Constitution. There is no reasonable basis for treating railroads differently from other common carriers; therefore, the distinction, as a classification and basis for an exemption from personal property tax, reflected in L.B. 7, results from special legislation prohibited by Neb. Const. art. III, § 18, and violates the uniformity clause of Neb. Const. art. VIII, § 1.

237 Neb. at 371, 466 N.W.2d at 470.

The apparent theory underlying your proposal is that the basis for the court's finding that the exemption of railroad rolling stock under LB 7 was unconstitutional was the court's determination that the classification was unreasonable because it was not "based on any real distinction between railroads and other common carriers." 237 Neb. at 371, 466 N.W. at 470. This interpretation would view the court's declaration that LB 7 was constitutionally prohibited special legislation to be limited to a finding, in effect, that the "class" of railroad rolling stock was unreasonable solely because it was too narrowly drawn due to the non-inclusion of personal property of other common carriers. Your proposed amendment would seek to cure this defect by creating a class of exempt personal property under

the authority vested in the Legislature under Neb. Const. art. VIII, § 2, consisting of personal property of transportation common carriers, specifically, railroad rolling stock, trucks and airplanes.

In our opinion, this proposed "solution" may well rest on an unduly narrow interpretation of the decision in NGPL. First, while it is true the court referred to the absence of any real distinction between railroad rolling stock and trucks and airplanes in striking down the classification in LB 7, it did so in the specific context of discussing how the Legislature's stated justification for the exemption (contained in subsection (3) of LB 7, § 1) was not based on any substantial difference to support the disparate tax treatment of such property. Thus, while the court focused on the expressed justification for the exemption stated in the bill in striking down the rolling stock exemption, it is not at all clear that the court would view exempting all personal property of transportation common carriers as creating a "reasonable" classification for purposes of Neb. Const. art. VIII, § 2. In this regard, we note that, in addition to its discussion of the absence of any justification to differentiate the property of railroads and other common carriers in the manner attempted under LB 7, the court further stated: "We fail to see any real and substantial difference between personal property used for income production by one type of business and the same type of income-producing personal property used by another type of business." 237 Neb. at 371, 466 N.W.2d at 470. This passage may indicate the court views the natural classification requiring uniformity of treatment for property tax purposes as consisting of some broader class of "personal property used for income production," as opposed to your proposal to establish a class of exempt property limited to certain transportation property used by common carriers.[1]

Furthermore, it should be noted that at least three members of the court joined in a concurring opinion in NGPL which reflected the view that the exemption of railroad rolling stock under LB 7 violated Article III, Section 18, for the reason that this exemption, when considered in connection with the extensive exemptions already provided for other commercial and industrial personal property, merely created "even greater discriminatory treatment against that commercial and industrial property which is not exempted." 237 Neb. at 374, 466 N.W.2d at 472 (White and Fahrnbruch, J. J., concurring). The concurrence further stated:

> When property, regardless of whether it is real or tangible personal property, is classified so that it provides exemption from taxation to all but a small amount of property, the classification and exemption may well be unreasonable and arbitrary and may

fall within the prohibition of Neb. Const. art. III, § 18, which is this state's 'equal protection clause.'

Id. at 375, 466 N.W.2d at 472 (White and Fahrnbruch, J. J., concurring); See also 237 Neb. at 376-77, 466 N.W.2d at 473 (Grant, J. concurring) (joining in concurring opinion of White and Fahrnbruch, J. J.); and 237 Neb. at 381-82, 466 N.W.2d at 476 (Caporale, J., concurring) (stating "there may be merit in much of what the majority has declared with respect to L.B. 7, and perhaps too in much of what Judges White and Fahrnbruch have expressed in that regard, ...").

While the opinions expressed by these members of the court in their concurrences in NGPL are not precedent, and do not represent the holding of a majority of the court, it is nevertheless significant to note that at least three (and possibly four) judges have clearly indicated that, in their view, the invalidity of the exemption for railroad rolling stock under LB 7 extended beyond a mere failure to include such property in a broader class of "personal property of transportation common carriers." Rather, these judges indicated their belief that the classification of property in a manner providing exemption from taxation "to all but a small amount of property" may violate Article III, Section 18. 237 Neb. at 375, 466 N.W.2d at 472 (White and Fahrnbruch, J. J., concurring). In the event that five members of the court were to adhere to this view, it is evident that an attempt to establish as a class of exempt personal property certain property used by transportation common carriers (including railroad rolling stock, trucks, and airplanes), in addition to the various other classifications of exempt personal property currently provided under Nebraska law, would not withstand constitutional scrutiny under Article III, Section 18 and would also likely be viewed as violating the uniformity requirement of Article VIII, Section 1. It is impossible to tell, of course, if five members would adopt this interpretation if squarely faced with this issue.[2]

In sum, while it is possible to narrowly construe the court's basis for declaring the exemption of railroad rolling stock under LB 7 to be unconstitutional special legislation in violation of Neb. Const. art. III, § 18 (and the uniformity clause of Neb. Const. art. VIII, § 1) as being limited to a determination that it was impermissible to establish a class of exempt personal property of this type without including other common carrier personal property, we believe serious questions exist as to the propriety of adopting this limited interpretation. In our view, it is not at all clear that the court would accept as reasonable a classification exempting some personal property used for the production of income (consisting of the types of transportation common carrier personal property previously identified) while other

income-producing personal property remained subject to taxation, at least where the amount of personal property taxed represented a small part of the total amount of personal property of this nature available for taxation.

In light of the views expressed by various members of the court in NGPL relating to this issue, and the nature of the per curiam majority's discussion of LB 7, we cannot provide a definitive answer to the question you have raised. We urge caution, however, in that legislative action taken on the assumption this "narrow" interpretation of the court's basis for declaring LB 7 unconstitutional is correct, such as enactment of your proposed amendment to expand the class of exempt personal property to include other common carrier transportation personal property, would undoubtedly expose substantial future property taxes to risk in the event such action is subsequently declared unconstitutional.

[1] While your amendment seems to contemplate establishing a class exempting "personal property of transportation common carriers," it appears the class would be limited to railroad rolling stock, trucks, and airplanes, as opposed to all personal property owned by railroads, truck companies or air carriers.

[2] Five of the seven judges of the Nebraska Supreme Court must agree to hold a law unconstitutional. Neb. Const. art. V, §2.

Very truly yours,

AM2102

(Amendments to AM1909)

1. Strike sections 9 to 22 and insert the following new sections:

"Sec. 9. No importer, manufacturer, or dealer licensed pursuant to 18 U.S.C. 923 shall sell or deliver any handgun to another person other than a licensed importer, manufacturer, dealer, or collector until he or she has:

(1)(a) Inspected a valid certificate issued to such person pursuant to sections 1 to 7 of this act; and

(b) Inspected a valid identification containing a photograph of such person which appropriately and completely identifies such person; or

(2)(a) Obtained a completed consent form from the potential buyer or transferee, which form shall be established by the Nebraska State Patrol and provided by the licensed importer, manufacturer, or dealer. The form shall include only the name, date of birth, gender, race, and social security number or other identification number of such potential buyer or transferee;

(b) Inspected a valid identification containing a photograph of the potential buyer or transferee which appropriately and completely identifies such person;

(c) Requested by toll-free telephone call or other electromagnetic communication that the Nebraska State Patrol conduct a criminal history record check; and

(d) Received a unique approval number for such inquiry from the Nebraska State Patrol indicating the date and number on the consent form.

Sec. 10. (1) Upon receipt of a request for a criminal history record check, the Nebraska State Patrol shall as soon as possible during the licensee's telephone call or by return telephone call:

(a) Review its criminal history records to determine if the potential buyer or transferee is prohibited from receipt or possession of a handgun pursuant to state or federal law; and

(b) Inform the licensee either (i) that its records demonstrate that the potential buyer or transferee is prohibited from receipt or possession of a handgun or (ii) provide the licensee with a unique

approval number.

(2) In the event of electronic failure or similar emergency beyond the control of the Nebraska State Patrol, the patrol shall immediately notify a requesting licensee of the reason for and estimated length of such delay. In any event, no later than the end of the next business day the Nebraska State Patrol shall either (a) inform the licensee that its records demonstrate that the potential buyer or transferee is prohibited from receipt or possession of a handgun or (b) provide the licensee with a unique approval number. If the licensee is not informed by the end of the next business day that the potential buyer is prohibited from receipt or possession of a handgun, and regardless of whether the unique approval number has been received, the licensee may complete the sale or delivery and shall not be deemed to be in violation of sections 9 to 22 of this act with respect to such sale or delivery.

(3) A fee of three dollars shall be charged for each request of a criminal history record check required pursuant to section 9 of this act, which amount shall be transmitted monthly to the Nebraska State Patrol. Such amount shall be for the purpose of covering the costs of the criminal history record check.

Sec. 11. (1) Any records which are created by the Nebraska State Patrol to conduct the criminal history check containing any of the information set forth in subdivision (1) of section 9 of this act pertaining to a potential buyer or transferee who is not prohibited from receipt or transfer of a handgun by reason of state or federal law shall be confidential and may not be disclosed by the patrol or any officer or employee thereof to any person. The Nebraska State Patrol shall destroy any such records as soon as possible after communicating the unique approval number and, in any event, such records shall be destroyed within forty-eight hours after the date of receipt of the licensee's request.

(2) Notwithstanding the provisions of this section, the Nebraska State Patrol shall only maintain a log of dates of requests for criminal history record checks and unique approval numbers corresponding to such dates for not to exceed one year.

(3) Nothing in this section shall be construed

to allow the state to maintain records containing the names of licensees who receive unique approval numbers or to maintain records of handgun transactions, including the names or other identification of licensees and potential buyers or transferees including persons not otherwise prohibited by law from the receipt or possession of handguns.

Sec. 12. The Nebraska State Patrol shall establish a toll-free telephone number which shall be operational seven days a week between 8 a.m. and 10 p.m. for purposes of responding to requests under section 9 of this act. The Nebraska State Patrol shall employ and train such personnel as is necessary to expeditiously administer the provisions of sections 9 to 22 of this act.

Sec. 13. Any person who is denied the right to purchase or receive a handgun as a result of procedures established by sections 9 to 22 of this act may request amendment of the record pertaining to him or her by petitioning the Nebraska State Patrol. If the Nebraska State Patrol fails to amend the record within seven days, the person requesting the amendment may petition the county court of the county in which he or she resides for an order directing the patrol to amend the record. If the person proves by a preponderance of the evidence that the record should be amended, the court shall order the record be amended. If the record demonstrates that such person is not prohibited from receipt or possession of a handgun by state or federal law, the Nebraska State Patrol shall destroy any records it maintains which contain any information derived from the criminal history record check.

Sec. 14. The Nebraska State Patrol shall adopt and promulgate rules and regulations to ensure the identity, confidentiality, and security of all records and data provided pursuant to sections 9 to 22 of this act.

Sec. 15. A licensed importer, manufacturer, or dealer shall not be required to comply with the provisions of subdivision (2) of section 9 and sections 10 to 22 of this act in the event of:

(1) Unavailability of telephone service at the licensed premises due to (a) the failure of the entity which provides telephone service in the state, region,

or other geographical area in which the licensee is located to provide telephone service to the premises due to the location of such premises or (b) the interruption of telephone service by reason of hurricane, flood, natural disaster, other act of God, war, riot, or other bona fide emergency or reason beyond the control of the licensee; or

(b) Failure of the Nebraska State Patrol to comply reasonably with the requirements of sections 9 to 22 of this act.

Sec. 16. Compliance with sections 9 to 22 of this act shall be a defense by the Nebraska State Patrol and the licensee transferring a handgun in any cause of action under the laws of this state for liability for damages arising from the importation or manufacture, or the subsequent sale or transfer, of any handgun which has been shipped or transported in interstate or foreign commerce to any person who has been convicted in any court of any crime punishable by a term of more than one year.

Sec. 17. Sections 9 to 22 of this act shall not apply to any transfer involving an antique handgun.

Sec. 18. Any licensed importer, manufacturer, or dealer who knowingly and intentionally requests a criminal history record check from the Nebraska State Patrol for any purpose other than compliance with sections 9 to 22 of this act or knowingly and intentionally disseminates any criminal history record information to any person other than the subject of such information shall be guilty of a Class I misdemeanor.

Sec. 19. Any person who, in connection with the purchase, transfer, or attempted purchase of a handgun pursuant to sections 9 to 22 of this act, knowingly and intentionally makes any materially false oral or written statement or knowingly and intentionally furnishes any false identification intended or likely to deceive the licensee shall be guilty of a Class IV felony.

Sec. 20. Any licensed importer, manufacturer, or dealer who knowingly and intentionally sells or delivers a handgun in violation of this act shall be guilty of a Class IV felony.

Sec. 21. For purposes of this act, any person who knowingly and intentionally obtains a handgun for

the purposes of transferring it to a person who is prohibited from receipt or possession of a handgun by state or federal law shall be guilty of a Class IV felony.

Sec. 22. The Nebraska State Patrol shall provide an annual report to the Judiciary Committee of the Legislature which includes the number of inquiries made pursuant to sections 9 to 22 of this act for the prior calendar year, the number of such inquiries resulting in a determination that the potential buyer or transferee was prohibited from receipt or possession of a handgun pursuant to state or federal law, the estimated costs of administering such sections, the number of instances in which a person requested amendment of the record pertaining to such person pursuant to section 13 of this act, and the number of instances in which a district court issued an order directing the patrol to amend a record.".

ATTORNEY GENERAL'S OPINION

Opinion No. 91047

DATE: May 24, 1991

SUBJECT: Constitutionality of Legislature Act Providing Tax Credits to Producers of Certain Ethanol and Ethanol Coproduct Fuels (LB 754).

REQUESTED BY: Senator Loran Schmit
Nebraska State Legislature

WRITTEN BY: Don Stenberg, Attorney General
Steve Grasz, Deputy Attorney General

You have requested an Attorney General's opinion as to the constitutionality of Legislative Bill 754, an act relating to ethanol fuel. Specifically, you have expressed concern that provisions of LB 754 as amended, together with proposed amendments, would result in a constitutionally impermissible closed class.

LB 754 (the "Bill") provides, among other things, for certain tax credits to be given for each gallon of ethanol or ethanol coproduct produced at a Nebraska plant and to sellers of such Nebraska-produced products. It is our understanding, as stated in your opinion request, only one Nebraska plant currently qualifies for the credits provided for in the Bill. Thus, we must analyze the Bill under article III, §18 of the Constitution of the State of Nebraska.

Article III, §18 provides "The Legislature shall not pass local or special laws in any of the following cases, that is to say: . . . Granting to any corporation, association, or individual any special or exclusive privileges, immunity, or franchise whatever. . . ." Neb.Const. art. III, §18.

A thorough statement of the operation of article III, §18 was set forth recently by the Nebraska Supreme Court in Haman v. Marsh, 237 Neb. 699, 467 N.W.2d 836 (1991).

> By definition, a legislative act is general, and not special, if it operates alike on all persons of a class or on persons who are brought within the relations and circumstances provided for and if the classification so adopted by the Legislature has a basis in reason and is not purely arbitrary. {Citation omitted}. A legislative act that applies only to particular individuals or things of a class is special legislation. {Citation omitted}. General laws embrace the whole or a subject, with their subject matter of common interest to the whole state. Uniformity is required in order to prevent granting to any person, or class of persons, the privileges or immunities which do not belong to all persons. See 2 N. Singer, Statutes and Statutory Construction §40.07 (4th ed. 1986). It is because the legislative process lacks the safegrounds of due process and the tradition of impartiality which restrain the courts from using their powers to dispense special favors that such constitutional prohibitions against special legislation were enacted. {Citation omitted}.

> A legislative act can violate Neb. Const. art. III, §18, as special legislation in one of two ways: (1) by creating a totally arbitrary and unreasonable method of classification, or (2) by creating a permanently closed class. See City of Scottsbluff v. Tiemann, 185 Neb. 256, 175 N.W.2d 74 (1970).

Id. at 709.

Unreasonable Classification

> The term "class legislation" is a characterization of legislation in contravention of Neb. Const. art. III, 18. State ex rel. Taylor v. Hall, 129 Neb. 669, 262 N.W. 835 (1935). It is that which makes improper discrimination by conferring privileges on a class arbitrarily selected from a large number of persons standing in the same relation to the privileges, without reasonable distinction or substantial difference. 16B C.J.S. Constitutional Law §682 (1985).

Id. at 710.

The applicable test for determining the constitutionality of legislative classifications has been set out succinctly by prior case law.

> "A legislative classification, in order to be valid, must be based upon some reason of public policy, some substantial difference of situation or circumstances, that would naturally suggest the justice or expediency of diverse legislation with respect to objects to be classified. Classifications for the purpose of legislation must be real and not illusive; they cannot be based on distinctions without a substantial difference. . . ." . . . "Classification is proper if the special class has some reasonable distinction from other subjects of like general character, which distinction bears some reasonable relation to the legitimate objectives and purposes of the legislation. The question is always whether the things or persons classified by the act form by themselves a proper and legitimate class with reference to the purpose of the act."

Id. at 711 (quoting State ex rel. Douglas v. Marsh, 207 Neb. 598, 609, 300 N.W.2d 181, 187 (1980)).

We find no unreasonable classification problem with the Bill. The class of beneficiaries is based upon a "reason of public policy" and substantial differences in circumstances. See State ex rel. Douglas v. Thone, 204 Neb. 836, 286 N.W.2d 249 (1979). In Thone, the court held a statute which authorized a plan for the development of alcohol plants and facilities in Nebraska did not violate Article III, §18. The court expressly stated the activity authorized (promotion of the use of gasohol) constituted a public purpose. Id. at 842.

Closed Class

The Nebraska Supreme Court, in Haman, also discussed what constitutes a closed class under article III, §18.

"The rule appears to be settled by an almost unbroken line of decisions that a classification which limits the application of the law to a present condition, and leaves no room or opportunity for an increase in the numbers of the class by future growth or development, is special, and a violation of the clause of the constitution above quoted. . . ." City of Scottsbluff v. Tiemann, 185 Neb. 256, 262, 175 N.W.2d 74, 79 (1970) (quoting State v. Kelso, 92 Neb. 628, 139 N.W. 226 (1912)).

LB 754, on its face, does not restrict the class of beneficiaries of the credits to the existing ethanol plant. Rather, the Bill applies to all qualifying fuels "produced in Nebraska." Thus, on its face, the Bill does not violate article III, §18. However, as the Nebraska Supreme Court stated in Haman.

In determining whether a class is closed, this court is not limited to the face of the legislation, but may consider the act's application. See, Axberg v. City of Lincoln, 141 Neb. 55, 2 N.W.2d 613 (1942); Gossman v. State Employees Retirement System, 177 Neb. 326, 129 N.W.2d 97 (1964). In deciding whether a statute legitimately classifies, the court must consider the actual probability that others will come under the act's operation. If the prospect is merely theoretical, and not probable, the act is special legislation. The conditions of entry into the class must not only be possible, but reasonably probable of attainment. Republic Inv. Fund I v. Town of Surprise, 166 Ariz. 143, 800 P.2d 1251 (1990).

Haman, 237 Neb. at 717-718.

Proposed amendment 1472 (AM 1472) to LB 754 would amend Neb.Rev.Stat. §66-1320 to provide that "No new investment may be made or letters of commitment given to an applicant that has not received approval of its final application by April 1, 1991." Section 66-1320 relates to applications for grants or loans under the Ethanol Authority and Development Act to facilitate the construction, acquisition, or expansion of ethanol facilities.

Clearly, nothing in LB 754 prohibits other interested individuals, associations or corporations from entering the ethanol business and receiving the benefits of the credits provided by the Bill. Indeed, a second ethanol plant is reportedly in progress. The possibility of new plants exists with or without continued funding of grants or loans for construction of new plants under §66-1320. Nonetheless, if the Bill is amended so as to cut off such funding for additional plants, a court could find, upon examination of evidence regarding the feasibility of entering the ethanol fuel business without such assistance, that the Bill creates a closed class in light of the improbability of any person or entity benefiting from the bill other than the existing plant or plants.

Consequently, it is our opinion the bill, if amended so as to effectively provide credits only to one or two ethanol plants while substantially reducing the probability of additional future beneficiaries, would be constitutionally suspect under article III, §18.

Sincerely yours,
DON STENBERG
Attorney General

"Sec. 13. That section 77-1736.04, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

77-1736.04. (1) If a court of competent jurisdiction by final nonappealable order determines that any property tax or penalty, or any part thereof, is unconstitutional for any reason other than the valuation or equalization of the property, the tax or penalty shall be refunded to the person paying the tax or penalty in accordance with section 14 of this act without the necessity of filing a claim therefor.

A person seeking a refund based upon the improper valuation or equalization of the property for any reason shall have properly protested and appealed such valuation or equalization in the manner provided by law.

(2) When the tax or penalty declared

unconstitutional is applicable either throughout the state or in a political subdivision beyond the geographic jurisdiction of the court making the final order, then a court of competent jurisdiction shall mean the Nebraska Supreme Court or any federal court.

(3) An action seeking the declaration that a tax or penalty is unconstitutional shall be brought within the year that the tax or penalty is levied or assessed. A refund shall be provided only to a person who has instituted legal proceedings to declare the tax or penalty unconstitutional. ~~(1) If by judgment or final order of any court of competent jurisdiction in this state, in an action not pending on appeal or error, it has been or shall be adjudged and determined that any real or personal property tax, assessment, or penalty or any part thereof was unconstitutional for any reason other than the valuation of the property and such judgment or order has not been made in time to prevent the collection or payment of such tax, assessment, or penalty, then such tax, assessment, or penalty, whether expended or not, which has been collected pursuant to such unconstitutional tax, assessment, or penalty for the year such tax, assessment, or penalty is determined to be unconstitutional shall, without the necessity of filing a claim therefor, be repaid and refunded in the county where originally paid to the person paying such tax, assessment, or penalty. When the tax, assessment, or penalty so declared unconstitutional is applicable either throughout the state or in a political subdivision beyond the geographic jurisdiction of the court making such declaration of unconstitutionality, then for the purpose of this section, a judgment or final order shall mean a judgment or final order of the Supreme Court. If the tax, assessment, or penalty has not been distributed by the county treasurer, the refund shall be made as soon as practicable, otherwise the refund shall be made within two years after the final judgment is entered declaring such tax, assessment, or penalty as unconstitutional.~~

~~(2) The county assessor shall determine all such refunds due and certify them to the county board. The county board shall certify the refund to the county treasurer who shall pay the same from funds in his or her possession belonging to any political subdivision to~~

~~the extent that any political subdivision profited from the overpayment of taxes by the taxpayer, except that if the county treasurer does not have sufficient funds in his or her possession belonging to the political subdivision or if the governing body of the political subdivision certifies to the county treasurer that the payment of such refunds at that time would seriously interfere with its governmental functions, then the county treasurer shall register the refund as a claim against such political subdivision and issue the person entitled to the refund a receipt for the registration of the refund, which receipt may be applied upon the payment of any tax falling due after the second next succeeding annual levy is made on behalf of such political subdivision, at which time such registration certificate shall be charged against funds accruing to such political subdivision. It shall be the responsibility of the governing body of each political subdivision to determine the amount of the liability of such political subdivision for refunds and to make provision in its budget therefor. Multiple tax statements issued to a taxpayer may be combined into one claim.~~

~~(3) For purposes of this section, political subdivision shall include the State of Nebraska or any political subdivision thereof, and if the tax, assessment, or penalty was assessed against property valued by the state, county board and county assessor shall mean the Tax Commissioner. The procedure for refund provided for in this section shall be in addition to refund procedures otherwise authorized by law.~~

~~(4) The county treasurer shall mail the refunds or receipts for registered claims by first-class mail to the last-known address of such taxpayer entitled to the refund or registered claim. If a refund or registered claim is not claimed by June 1 of the year following the year of mailing, then the refund or receipt shall be canceled and the resultant amount credited to the various funds originally charged.~~

~~(5) The county treasurer shall not be responsible for seeking out taxpayers entitled to such refunds if the amount of the refund is two dollars or less. A taxpayer requesting a refund or registered claim either by mail or in person in any amount shall be~~

~~paid by the county treasurer.~~

Sec. 14. The following procedure shall apply when making a property tax refund:

(1) Within thirty days of the entry of a final nonappealable order or other action approving a refund, or, for property valued by the state, within thirty days of a recertification of value by the Tax Commissioner pursuant to section 77-1775 or 77-1775.01, the county assessor shall determine the amount of refund due the person entitled to the refund, certify that amount to the county treasurer, and send a copy of such certification to the person entitled to the refund. Within thirty days from the date the county assessor certifies the amount of the refund, the county treasurer shall notify each political subdivision of its respective share of the refund. Notification shall be by first-class mail, postage prepaid, to the last-known address of record of the political subdivision. The county treasurer shall pay the refund from funds in his or her possession belonging to any political subdivision which received any part of the tax or penalty being refunded. If sufficient funds are not available or the political subdivision within thirty days of the mailing of the notice by the county treasurer certifies to the county treasurer that a hardship would result and create a serious interference with its governmental functions if the refund of the tax or penalty is paid, the county treasurer shall register the refund or portion thereof which remains unpaid as a claim against such political subdivision and shall issue the person entitled to the refund a receipt for the registration of the claim. The certification by a political subdivision declaring a hardship shall be binding upon the county treasurer.

(2) The refund of a tax or penalty or the receipt for the registration of a claim made or issued pursuant to this section shall be satisfied in full as soon as practicable, and in no event later than three years from the date the final order or other action approving a refund is entered. The governing body of the political subdivision shall make provisions in its budget for the amount of any refund or claim to be satisfied pursuant to this section. If a receipt for the registration of a claim is given: (a) Such receipt shall be applied to satisfy any tax levied or assessed

by that political subdivision next falling due from the person holding the receipt after the second next succeeding levy is made on behalf of the political subdivision following the final order or other action approving the refund; and (b) to the extent the amount of such receipt exceeds the amount of such tax liability, the unsatisfied balance of the receipt shall be paid and satisfied within the three-year period prescribed in this subsection from a combination of a credit against taxes anticipated to be due to the political subdivision during such period and cash payment from any funds expected to accrue to the political subdivision pursuant to a written plan to be filed by the political subdivision with the county treasurer no later than thirty days after the claim against the political subdivision is first reduced by operation of a credit against taxes due to such political subdivision. Multiple refunds to the same person may be combined into one refund or credit. In the case of a refund of two dollars or less, the county treasurer shall apply the amount as a credit to any tax levied or assessed by the political subdivision next falling due but if no taxes are due, the amount shall be refunded in the manner prescribed in this section.

(4) When the refund involves property valued by the state, the Tax Commissioner shall be authorized to negotiate a settlement of the amount of the refund or claim due pursuant to this section on behalf of the political subdivision from which such refund or claim is due. Any political subdivision which does not agree with the settlement terms as negotiated may reject such terms, and the refund or claim due from the political subdivision then shall be satisfied as set forth in this section as if no such negotiation had occurred.

(5) In the event that the Legislature appropriates state funds to be disbursed for the purposes of satisfying all or any portion of any refund or claim, the Tax Commissioner shall order the disbursement of such refund amount directly to the person entitled to the refund in partial or total satisfaction of such person's claim.

3. Renumber the remaining sections accordingly.

Mr. Wehrbein offered the following amendment to the pending R. Johnson amendment:
AM2160

(Amendments to AM2056)

1. Insert the following new section:

"Sec. 6. That section 66-1301, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

66-1301. Sections 66-1301 to 66-1325 and section 10 of this act shall be known and may be cited as the Ethanol Authority and Development Act.

Sec. 10. (1) If at the end of any calendar quarter the amount remaining in the Ethanol Authority and Development Cash Fund is less than three million dollars and if total annual state production of ethanol exceeds seventy-five million gallons, there shall be levied an ethanol producer credit excise tax upon all wheat, corn, and grain sorghum sold through commercial channels in the State of Nebraska. The tax shall be one-half cent per bushel for corn and wheat and one-half cent per hundredweight for grain sorghum. The tax shall continue to be levied until the amount in the fund equals or exceeds ten million dollars. The tax shall then be suspended until the amount of the fund again falls to less than three million dollars, at which time the tax shall again be levied as provided in this section. The tax shall be in addition to any tax or fee imposed pursuant to sections 2-2311, 2-3622, 2-3627, and 2-4012. The tax shall be levied and imposed on the grower at the time of sale or delivery and shall be collected by the first purchaser. No wheat, corn, or grain sorghum shall be subject to the tax more than once.

(2) In the case of a pledge or mortgage of wheat, corn, or grain sorghum as security for a loan under the federal price support program, the ethanol producer credit excise tax shall be deducted from the proceeds of such loan at the time the loan is made.

(3) The ethanol producer credit excise tax shall be deducted whether such wheat, corn, or grain

sorghum is stored in this or any other state.

(4) The ethanol producer credit excise tax shall not apply to the sale of wheat, corn, or grain sorghum to the federal government for ultimate use or consumption by the people of the United States when the State of Nebraska is prohibited from imposing such tax by the Constitution of the United States and laws enacted pursuant thereto.

(5)(a) The purchaser, at the time of settlement, shall deduct the ethanol producer credit excise tax as provided in this section and shall maintain the necessary record of the ethanol producer credit excise tax for each purchase of wheat, corn, or grain sorghum on the grain settlement form or check stub showing payment to the grower for each purchase. Such records maintained by the purchaser shall provide the following information: (i) Name and address of the grower and seller; (ii) the date of the purchase; (iii) the number of bushels or hundredweights, as the case requires, of wheat, corn, and grain sorghum sold; and (iv) the amount of ethanol producer credit excise tax collected on each purchase. Such records shall be open for inspection and audit by authorized representatives of the board during normal business hours observed by the purchaser.

(b) The purchaser shall render and have on file with the board by the last day of each January, April, July, and October on forms prescribed by the board a statement of the number of bushels of wheat, corn, and grain sorghum purchased in Nebraska. At the time the statement is filed, the purchaser shall pay and remit to the board the tax as provided for in this section.

(6) Any person violating any of the provisions of this section shall be guilty of a Class III misdemeanor.".

2. On page 5, line 5, strike "Through December 31, 1997, each", show as stricken, and insert "Each".

RESOLUTIONS

LEGISLATIVE RESOLUTION 200. Introduced by Landis, 46.

WHEREAS, the strength and vitality of this nation's financial marketplace has depended in large part upon the separate regulation of state and federally chartered banks; and

WHEREAS, the dual banking system has fostered creativity and innovation at the state level which has often led to the development of banking products, services, and laws which ultimately benefit citizens nationwide; and

WHEREAS, these state-originated innovations include checking accounts, interstate banking, NOW accounts, expedited funds availability, truth-in-savings laws, credit card disclosure laws, and electronic funds transfers; and

WHEREAS, state legislatures and state banking regulators are best able to evaluate and respond to the needs and characteristics of local markets, businesses, and communities; and

WHEREAS, the dual banking system has ensured that states have the authority and flexibility to respond to specific local needs, changes in technology, and increased competition from both foreign businesses and nonbanking entities; and

WHEREAS, under this nation's dual banking system, the President of the United States, the Congress, and federal regulatory

officials have traditionally limited their direct regulation of financial institutions to those organized under federal law; and

WHEREAS, in recognition of the primacy of state legislatures and state bank regulators with respect to the regulation of state-chartered financial institutions, federal law has historically been drafted and interpreted so as to not intrude upon the regulatory authority of state legislatures and state bank regulators; and

WHEREAS, the Nebraska Legislature has always emphasized the need to maintain a safe, sound, and healthy banking industry; and

WHEREAS, the Nebraska Department of Banking and Finance has estimated that it regulates two hundred eighty state-chartered commercial banks having aggregate assets of approximately eight billion, four hundred-thirty million dollars; and

WHEREAS, the citizens, industries, and businesses of Nebraska, and of the entire nation, benefit from the dynamics of the dual banking system and its unique and complimentary system of state and federal banks and regulators, which system is similar to our system of government; and

WHEREAS, congressional proposals which hinder the dual banking system would limit these benefits.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SECOND LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Legislature affirms its continued support for and commitment to any proposals which would strengthen or continue the dual banking system.

2. That the Legislature expresses its opposition to any proposals which would weaken or eliminate the dual banking system.

3. That the Legislature urges the Nebraska congressional delegation and the rest of the United States Congress to prevent or defeat any such proposals.

4. That copies of this resolution be sent to the members of the Nebraska congressional delegation.

Laid over.

WHEREAS, pursuant to a resolution of the Board of Regents of the University of Nebraska dated December 1, 1964, authorizing an

WHEREAS, this particular use, most notably by Germans from Russia, is an event with deep cultural roots among that group; and

ATTORNEY GENERAL'S OPINION

Opinion No. 91049

DATE: May 30, 1991

SUBJECT: LB 614; Does Proposed Redistricting Plan Violate the Federal Voting Rights Act or Pertinent State and Federal Constitutional Provisions?

REQUESTED BY: Senator Emil Beyer
Nebraska State Legislature

WRITTEN BY: Don Stenberg, Attorney General
Dale A. Comer, Assistant Attorney General

LB 614 is a current redistricting bill proposing new legislative districts in the State of Nebraska. As amended by the Government, Military, and Veterans Affairs Committee of the Legislature, LB 614 would establish various legislative districts in conformance with the 1990 census, including Legislative District No. 8 with a total population of 31,647, Legislative District No. 11 with a total population of 31,598, and Legislative District No. 13 with a total population of 31,880. Each of those latter legislative districts would be located in Douglas County, and those legislative districts would have the following percentages of African American residents: District No. 8--13.10 percent, District No. 11--73.40 percent, and District No. 13--27.26 percent.

You are apparently concerned that the composition of District 11 might involve the practice of "packing" where protected minority residents are packed into one district so as to diminish their potential influence in other districts. Conversely, you are concerned that the composition of Districts 13 and 8 might involve "cracking" where the voting strength of minority residents is diluted by placing them in separate districts rather than in one particular district where their influence might be maximized. You have, therefore, requested our opinion as to whether either of these practices might violate the Voting Rights Act of 1965, the Federal Constitution, or the Nebraska Constitution. We assume that your question is posed with respect to Legislative Districts 8, 11, and 13 as established by LB 614.

Section 2 of the Federal Voting Rights Act of 1965, as amended in 1982, provides as follows:

> (a) No voting qualification or prerequisite to voting or standard, practice, or procedure shall be imposed or applied by any State or political subdivision in a manner which results in a denial or abridgement of the right of any citizen of the United States to vote on account of race or color, or in contravention of the guarantees set forth in section 4(f)(2), as provided in subsection (b).
>
> (b) A violation of subsection (a) is established if, based on the totality of the circumstances, it is shown that the political processes leading to nomination or election in the State or political subdivision are not equally open to participation by members of a class of citizens protected by subsection (a) in that its members have less opportunity than other members of the electorate to participate in the political process and to elect representatives of their choice. The extent to which members of a protected class

have been elected to office in the State or political subdivision is one circumstance which may be considered: Provided, That nothing in this section establishes a right to have members of a protected class elected in numbers equal to their proportion in the population.

Section 2 is codified at 42 U.S.C. § 1973. The United States Supreme Court had occasion to deal with Section 2 of the Voting Rights Act in Thornburg v. Gingles, 478 U.S. 30 (1986). That case establishes the criteria for proving a violation of Section 2.

In Thornburg, the Supreme Court indicated that Section 2 prohibits states from imposing any voting procedures which result in the denial or abridgement of the right to vote of any citizen who is a member of a protected class of racial or language minorities. Id. at 43. The essence of a Section 2 claim "is that a certain electoral law, practice or structure interacts with social or historical conditions to cause an inequity in the opportunities enjoyed by black and white voters to elect their preferred representatives." Id. at 47. Section 2 is violated when the "totality of circumstances" indicates that the political processes leading to nomination or election are not equally open to members of a protected class. Id. at 43. Whether the political processes are equally open depends upon a "searching practical evaluation" of the "past and present reality" and on a "functional" view of the political process. Id. at 45.

Thornburg and subsequent cases in this area have indicated that three factors must initially be established in a Section 2 action for that case to proceed. Thornburg v. Gingles, supra; Solomon v. Liberty County Florida, 899 F.2d 1012 (11th Cir. 1990) Jeffers v. Clinton, 730 F.Supp. 196 (E.D. Ark. 1989) Neal v. Coleburn, 689 F.Supp. 1426 (E.D. Va. 1988). First, the plaintiff minority must show that it is sufficiently large and geographically compact to constitute a majority in a single-member district. Thornburg, 478 U.S. at 50. Second, the minority group in question must be able to show that it is politically cohesive. Thornburg, 478 U.S. at 51. Third, the minority group must be able to show that the white majority votes sufficiently as a block to enable it, in the absence of special circumstances, to usually defeat the minority's preferred candidate. Thornburg, 478 U.S. at 51.

If this threshold showing is met, then there are a number of other factors which a court may consider in determining whether the "totality of circumstances" indicates that a violation of Section 2 of the Voting Rights Act has occurred. Those factors, set out in the Senate Report which accompanied the 1982 amendment to the Voting Rights Act, include:

{t}he history of voting-related discrimination in the State or political subdivision; the extent to which voting in the elections of

> the State or political subdivision is racially polarized; the extent to which the State or political subdivision has used voting practices or procedures that tend to enhance the opportunity for discrimination against the minority group, such as unusually large election districts, majority vote requirements, and prohibitions against bullet voting; the exclusion of members of the minority group from candidate slating processees; the extent to which minority group members bear the effects of past discrimination in areas such as education, employment, and health, which hinder their ability to participate effectively in the political process; the use of overt or subtle racial appeals in political campaigns; and the extent to which members of the minority group have been elected to public office in the jurisdiction. The Report notes also that evidence demonstrating that elected officials are unresponsive to the particularized needs of the members of the minority group and that the policy underlying the State's or the political subdivision's use of the contested practice or structure is tenuous may have probative value.

Thornburg, 478 U.S. at 44-45 (citations omitted). In sum, the process for determining whether a violation of Section 2 of the Voting Rights Act has occurred is a complex endeavor, and can be described as follows:

> If lines are drawn that limit the number of majority-black single-member districts, and reasonably compact and contiguous majority-black districts could have been drawn, and if racial cohesiveness in voting is so great that, as a practical matter, black voters' preferences for black candidates are frustrated by this system of apportionment, the outlines of a Section 2 theory are made out. Whether such a claim will succeed depends on the particular factual context, including all of the factors that Thornburg, Smith, and the legislative history of Section 2 say are relevant.

Jeffers v. Clinton, supra, 730 F.Supp. at 205.

In the present instance, we believe that "packing" a legislative district or "cracking" minority voters among several legislative districts would constitute a violation of the Voting Rights Act of 1965 if the facts surrounding such activities were to establish the threshold criteria and other factors set out in the Thornburg case and subsequent authorities. However, the factual determination required by those cases is clearly an intense, fact-driven determination.[1] We obviously do not have such detailed facts before us with respect to the proposed legislative districts in Omaha and the "past and present reality" of any discrimination in those areas. As a result, we cannot provide any definitive answer as to whether the proposed legislative

districts in LB 614 violate the Voting Rights Act of 1965. Such a determination would necessarily turn on a multitude of facts that we simply do not have available.

We would note, however, with respect to your concern regarding "packing" in District 11, that, in at least two instances, courts have held that 80 percent minorities in a particular district are not automatically unreasonable or cause for concern with respect to Section 2 of the Voting Rights Act. Latino Political Action Committee, Inc. v. City of Boston, 784 F.2d 409 (1st Cir. 1986) Rybicki v. State of Board of Elections, 574 F.Supp. 1147 (N.D. Ill. E. Div. 1983). On this basis, 73.4 percent minorities in District 11 would appear acceptable.

You have also asked whether the situation involving minority concentrations in proposed Districts 8, 11, or 13 violates the Federal Constitution. As a rule, discriminatory apportionment practices involve a violation of the Fourteenth and Fifteenth Amendments to the United States Constitution dealing with equal protection and the right of citizens to vote. To show a violation of either the Fourteenth or Fifteenth Amendments, it is necessary to establish that there was purposeful discrimination or racially motivated discriminatory intent. City of Mobile, Alabama v. Bolden, 446 U.S. 55 (1980) Whitfield v. Democratic Party of the State of Arkansas, 890 F.2d 1423 (8th Cir. 1989). We have no reason to believe that Legislative Districts 8, 11, and 13 in LB 614 were designed with racially motivated discriminatory intent. In any event, we are aware of no facts which would support such a showing, and, in the absence of such a factual determination, we cannot state whether the districts proposed by LB 614 violate the Federal Constitution.

Finally, you ask whether LB 614 violates our Nebraska Constitution. Article III, Sections 5 and 7 of the Nebraska Constitution deal with redistricting in Nebraska. The various Nebraska cases dealing with those provisions primarily concern numerical equality among legislative districts and the mechanics of drawing district boundaries. See Buller v. City of Omaha, 164 Neb. 435, 82 N.W.2d 578 (1957); Rogers v. Morgan, 127 Neb. 456, 256 N.W. 1 (1934). The proposed legislative districts at issue here have a very slight variance in total population, and we believe that they would comply with the requirements of numerical equality. Beyond those cases dealing with simple numerical equality, we have been unable to find any Nebraska cases which involve violations of the equal protection guarantees of our State Constitution in the context of racial discrimination and redistricting. However, there is at least some indication that such an equal protection violation under our State Constitution would involve purposeful discrimination as is the

case in the federal authorities cited above. State v. Bird Head, 204 Neb. 807, 285 N.W.2d 698 (1979). Absent such purposeful discrimination, there would be no violation of our State Constitution.

[1] For example, in Jeffers v. Clinton, 730 F.Supp. 196 (E.D. Ark. 1989), a case under Section 2, the court heard evidence for twelve days. Id. at 198. Similarly, in Garza v. County of Los Angles, 918 F.2d 763 (9th Cir. 1990), the district court held a three month bench trial. Id. at 766.

ATTORNEY GENERAL'S OPINION

Opinion No. 91050

DATE: May 31, 1991

SUBJECT: Constitutionality of Bill Appropriating Funds to Pay Commonwealth Depositors After Legally Amending the State Tort Claims Act to Permit Large Tort Claims to be Heard by the Legislature Rather than the State Claims Board.

REQUESTED BY: Senator Loran Schmit
Nebraska State Legislature

WRITTEN BY: Don Stenberg, Attorney General
John R. Thompson, Deputy Attorney General

In your May 21, 1991 letter you asked for clarification of certain aspects of Opinion No. 91042 to Senator Coordsen dated May 20, 1991. More specifically, you asked whether the Legislature could constitutionally appropriate money to pay certain large tort claims after finding that the State of Nebraska was liable for damages incurred by the claimants. Your question assumes that tort claims of $5 million or more could constitutionally be heard directly by the Legislature and that a process was enacted to do so.

We believe the answer to your question is yes. However, we also believe we should offer some further comments for your consideration.

If a majority of the Legislature wishes to pay additional funds to Commonwealth Depositors to reimburse them for their losses, it should do so in a manner that will be sustained by the courts. Otherwise the result will be additional unsuccessful litigation and disappointment. As we have previously stated, a constitutional amendment would be one way to constitutionally authorize additional payment.

If the Legislature pursues the tort claim process as you have proposed, you should be aware of the following legal issues which you will need to deal with concerning Tort Claim No. 91-310, which is the apparent subject of your proposed appropriation.

1. Under current state law, payment as you suggest in your question would be legal only to the extent that there is tort liability of the State of Nebraska which is not barred by the two-year statute of limitations, Neb.Rev.Stat. §81-8,227 (1990 Cum. Supp.). It would be important that the Legislature in its findings and deliberations make an adequate record to show the specific acts of negligence of the State of Nebraska employees, when these acts occurred, how these acts caused the loss, and a detailed computation of the damages caused by such negligence since the District Court of Lancaster County would still be required to review the legislative appropriation under Neb.Rev.Stat. §81-8,211 (1990 Cum. Supp.) and since a court challenge similar to the one in Haman v. Marsh, 237 Neb. 699, ___ N.W.2nd ___(1991), might also be initiated.

2. State liability for tort claims is limited to negligent or wrongful acts or omissions by employees of the state, Neb.Rev.Stat. §81-8,210(4) (1990 Cum. Supp.). Tort Claim No. 91-310 primarily alleges negligent acts or omissions of the Commonwealth receiver, who for the past four years has been Mr. Badami. Mr. Badami is not and has not been an employee of the state. If the Legislature is of the opinion that the state is liable for Mr. Badami's acts, it should make a factual record to support that determination.

We raise these issues not to stand in the way of any payments to Commonwealth depositors, but to suggest that if a majority of the Legislature sincerely wants to reimburse Commonwealth depositors in some additional amount, it is in the best interests of everyone concerned to find legal and constitutional procedures for doing so. In that context, we would again refer you to Opinion No. 91036 dated May 6, 1991 to Senator Chris Beutler with respect to amendments to LR 24CA which discusses some legal ways for accomplishing that purpose. We also suggest that should any such payment be made, there should be detailed procedures for payment and releases to insure that the interests of the depositors and the State of Nebraska are both adequately protected.

In conclusion, we express no legal opinion regarding the tort liability of the state in this case. That is a decision in the first instance for the State Claims Board, or under your proposal, for the Legislature to make. The Attorney General's office will legally defend such action (or nonaction) as the Board or the Legislature may take concerning this claim.

Sincerely,
DON STENBERG
Attorney General

1. Strike the original sections and all amendments thereto and insert the following new sections:

"Section 1. The Legislature finds that there are rivers and streams in Nebraska which, with their immediate environments, possess outstandingly remarkable scenic, recreational, geologic, fish and wildlife, historic, cultural, or other similar values and which should be preserved and protected for the benefit and enjoyment of present and future generations. The Legislature further finds that the Nebraska Natural Resources Commission is the most appropriate agency for providing such protection and that current Nebraska law does not provide the commission with sufficient capability to provide such protection. Current statutory authority needs to be expanded and additional authority needs to be provided to allow the appropriate protective measures.

Sec. 2. (1) The Nebraska Natural Resources Commission may designate as a protected stream all or a

portion of any river or stream which possesses one or more of the values recognized in section 1 of this act and for which the commission concludes that protection of those values is in the public interest. The commission shall make such designation by adopting a resolution specifying the upper and lower ends of the reach or reaches so designated, the reasons and purposes for the designation, and the use restrictions within the protected stream corridor necessary to protect such river or stream.

(2) The designation and the use restrictions shall have the full force and effect of law until changed by the commission or the Legislature.

(3) After the resolution has been adopted, the counties in which all or a part of a protected stream corridor is located shall enforce the use restrictions specified in the resolution. Any city or village which has zoning jurisdiction over all or a part of a protected stream corridor shall enforce the use restrictions specified in the resolution.

(4) For purposes of this section, protected stream corridor shall mean all of the portion of the river or stream and all land within one-half mile of each side of the designated reach of the river or stream as measured from the ordinary high-water mark.

Sec. 3. The Nebraska Natural Resources Commission, on its own motion or upon the request of any county presented in the form of a duly adopted resolution by the county, shall investigate all or any portion of a river or stream to determine if it possesses one or more of the values recognized in section 1 of this act.

Prior to adopting a resolution designating a protected stream pursuant to section 2 of this act, the commission shall hold a public hearing. Public notice of the hearing shall be given at least once each week for two consecutive weeks prior to the hearing date in a newspaper of general circulation.

Sec. 4. That section 2-1507, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

2-1507. In addition to the duties and powers otherwise conferred by law upon the Nebraska Natural Resources Commission, it shall have the following duties

and powers: (1) To offer such assistance as may be appropriate to the Water Management Board and to the supervisors or directors of any subdivision of government with responsibilities in the area of natural resources conservation, development, and use in the carrying out of any of their powers and programs; (2) to keep the supervisors or directors of each such subdivision informed of the activities and experience of all other such subdivisions and to facilitate cooperation and an interchange of advice and experience between such subdivisions; (3) to coordinate the programs of such subdivisions so far as this may be done by advice and consultation; (4) to secure the cooperation and assistance of the United States and any of its agencies, and of agencies of this state, in the work of such subdivisions; (5) to disseminate information throughout the state concerning the activities and programs of such subdivisions; (6) to plan, develop, and promote the implementation of a comprehensive program of resource development, conservation, and utilization for the soil and water resources of this state in cooperation with other local, state, and federal agencies and organizations; (7) when necessary for the proper administration of the functions of the department, to rent or lease space outside the State Capitol; ~~and~~ (8) to assist such local governmental organizations as villages, towns, cities, counties, and natural resources districts in securing, planning, and developing information on flood plains to be used in developing regulations and ordinances on proper use of these flood plains; and (9) to carry out sections 1 to 3 of this act relating to protected streams.

Sec. 5. That original section 2-1507, Reissue Revised Statutes of Nebraska, 1943, is repealed.".

CVIII-1 'The necessary revenue of the state and its governmental subdivisions shall be raised by taxation in such manner as the Legislature may direct. ~~Taxes shall be levied by valuation uniformly and proportionately upon all tangible property and franchises, except that: (1) The Legislature may provide for a different method of taxing motor vehicles and may also establish a separate class of motor vehicles consisting of those owned and held for resale by motor vehicle dealers which shall be taxed in the manner and to the extent provided by the Legislature and may also establish a separate class for trucks, trailers, semitrailers, truck-tractors, or combinations thereof, consisting of those owned by residents and nonresidents of this state, and operating in interstate commerce, and may provide reciprocal and proportionate taxation of such vehicles; PROVIDED, that such tax proceeds from motor vehicles taxed in each county shall be allocated to the state, counties, townships, cities, villages, and school districts of such county in the~~

RESOLUTION ON FINAL READING

LEGISLATIVE RESOLUTION 186CA.

A Resolution to propose amendments to the Constitution of Nebraska by amending Article VIII, sections 1 and 2, and by adding a new section 13 to Article VIII.

Mr. Lamb offered the following amendment:

AM2286

1. Strike the original sections and all amendments thereto and insert the following new sections:

"Section 1. The Legislature finds that there are rivers and streams in Nebraska which, with their immediate environments, possess outstandingly remarkable scenic, recreational, geologic, fish and wildlife, historic, cultural, or other similar values and which should be preserved and protected for the benefit and enjoyment of present and future generations. The Legislature further finds that the Nebraska Natural Resources Commission is the most appropriate agency for providing such protection and that current Nebraska law does not provide the commission with sufficient capability to provide such protection. Current statutory authority needs to be expanded and additional authority needs to be provided to allow the appropriate protective measures.

Sec. 2. (1) The Nebraska Natural Resources Commission may designate as a protected stream all or a portion of any river or stream which possesses one or more of the values recognized in section 1 of this act and for which the commission concludes that protection of those values is in the public interest. The commission shall make such designation by adopting a resolution specifying the upper and lower ends of the reach or reaches so designated, the reasons and purposes for the designation, and the use restrictions within the protected stream corridor necessary to protect such river or stream.

(2) The designation and the use restrictions shall have the full force and effect of law until changed by the commission or the Legislature.

(3) After the resolution has been adopted, the counties in which all or a part of a protected stream corridor is located shall enforce the use restrictions specified in the resolution. Any city or village which has zoning jurisdiction over all or a part of a protected stream corridor shall enforce the use restrictions specified in the resolution.

(4) For purposes of this section, protected stream corridor shall mean all of the portion of the river or stream and all land within one-half mile of

each side of the designated reach of the river or stream as measured from the ordinary high-water mark.

Sec. 3. The Nebraska Natural Resources Commission, on its own motion or upon the request of any county presented in the form of a duly adopted resolution by the county, shall investigate all or any portion of a river or stream to determine if it possesses one or more of the values recognized in section 1 of this act.

Prior to adopting a resolution designating a protected stream pursuant to section 2 of this act, the commission shall hold a public hearing. Public notice of the hearing shall be given at least once each week for two consecutive weeks prior to the hearing date in a newspaper of general circulation.

Sec. 4. That section 2-1507, Reissue Revised Statutes of Nebraska, 1943, be amended to read as follows:

2-1507. In addition to the duties and powers otherwise conferred by law upon the Nebraska Natural Resources Commission, it shall have the following duties and powers: (1) To offer such assistance as may be appropriate to the Water Management Board and to the supervisors or directors of any subdivision of government with responsibilities in the area of natural resources conservation, development, and use in the carrying out of any of their powers and programs; (2) to keep the supervisors or directors of each such subdivision informed of the activities and experience of all other such subdivisions and to facilitate cooperation and an interchange of advice and experience between such subdivisions; (3) to coordinate the programs of such subdivisions so far as this may be done by advice and consultation; (4) to secure the cooperation and assistance of the United States and any of its agencies, and of agencies of this state, in the work of such subdivisions; (5) to disseminate information throughout the state concerning the activities and programs of such subdivisions; (6) to plan, develop, and promote the implementation of a comprehensive program of resource development, conservation, and utilization for the soil and water resources of this state in cooperation with other local, state, and federal agencies and organizations; (7) when

necessary for the proper administration of the functions of the department, to rent or lease space outside the State Capitol; ~~and~~ (8) to assist such local governmental organizations as villages, towns, cities, counties, and natural resources districts in securing, planning, and developing information on flood plains to be used in developing regulations and ordinances on proper use of these flood plains; and (9) to carry out sections 1 to 3 of this act relating to protected streams.

Sec. 5. That original section 2-1507, Reissue Revised Statutes of Nebraska, 1943, is repealed.".

2. On page 1, strike beginning with "schools" in line 1 through line 5 and all amendments thereto and insert "rivers and streams; to amend section 2-1507, Reissue Revised Statutes of Nebraska, 1943; to state findings; to authorize the Nebraska Natural Resources Commission to designate protected streams; to require enforcement of use restrictions; to harmonize provisions; and to repeal the original section".

ATTORNEY GENERAL'S OPINION

Opinion No. 91051

DATE: June 4, 1991

SUBJECT: Legislative Resolution 24CA; Will Certain Proposed Constitutional Language Allow Payment of Industrial Savings Depositors Out of State Lottery Proceeds?

REQUESTED BY: Senator Loran Schmit
Nebraska State Legislature

WRITTEN BY: Don Stenberg, Attorney General
Dale A. Comer, Assistant Attorney General

Legislative Resolution 24CA would propose constitutional amendments to the voters of Nebraska with respect to the operation

of a state lottery. Under Section 1 of Legislative Resolution 24CA, the following language would be added to Article III, Section 24 of our state constitution:

> The Legislature may establish a lottery to be operated and regulated by the State of Nebraska. The proceeds of the lottery shall be appropriated by the Legislature for the costs of establishing and maintaining the lottery and for other purposes as directed by the Legislature. No lottery game shall be conducted as part of the lottery unless the type of game has been approved by a majority of the members of the Legislature.

Section 1 of Legislative Resolution 24CA would also add the following additional language to Article III of the Nebraska Constitution:

> If the Legislature establishes a lottery operated and regulated by the state pursuant to this Constitution, the Legislature may use the proceeds or a portion of the proceeds from such lottery to compensate depositors of industrial loan and investment companies for unreimbursed losses of guaranteed deposits held by industrial loan and investment companies which filed for bankruptcy or entered receivership after November 1, 1983, notwithstanding any other provision of this Constitution. The Legislature shall not be empowered to make appropriations to compensate such depositors pursuant to this provision after July 1, 1997.

Section 2 of Legislative Resolution 24CA apparently contemplates that these two proposed constitutional amendments shall be submitted to the citizens of this state separately, so as to allow the voters to make a decision independently on both provisions.

You have now requested our opinion concerning two questions involving Legislative Resolution 24CA. We received your opinion request at 2:00 p.m. on the afternoon of the 88th day of the current 90-day legislative session. Moreover, your request states, "since this issue will be up almost immediately, please respond as quickly as possible." Obviously, these time frames do not allow any deliberate consideration of the issues which you have raised. Nevertheless, we will endeavor to respond to your opinion request.

You first ask whether the language in Legislative Resolution 24CA which allows the spending of lottery funds "for other purposes as directed by the Legislature" would allow the Legislature to spend lottery money for purposes which would otherwise be prohibited by the constitutional provisions cited in Haman v. Marsh, 237 Neb. 699, ___ N.W.2d ___ (1991). In Haman, our state supreme court indicated that a previous plan for the repayment of depositors who lost funds when certain industrial savings institutions failed was

unconstitutional as a violation of Article III, Section 18 of the Nebraska Constitution prohibiting special legislation, and Article XIII, Section 3 of the Nebraska Constitution prohibiting lending the credit of the state.

In Nebraska, constitutional amendments added to our state constitution must be construed and harmonized with all other provisions of the constitution so as to give effect to every section and clause as well as to the whole instrument. Banner County v. State Board. of Equalization and Assessment, 226 Neb. 236, 411 N.W.2d 35 (1987). As a result, the initial portion of Legislative Resolution 24CA quoted above would be read in conjunction and in harmony with Article III, Section 18 and Article XIII, Section 3 of the Nebraska Constitution. That language would not suspend those constitutional provisions unless it specifically so provided in some fashion. The proposed language at issue allowing payment of lottery funds "for other purposes as directed by the Legislature" does not, standing alone, suspend the operation of Article III, Section 18 and Article XIII, Section 3. Therefore, if only the initial portion of Legislative Resolution 24CA were added to the Nebraska Constitution, those other constitutional provisions would remain in effect, and the Legislature could not spend lottery money for purposes prohibited in Haman.

You next ask if the Legislature would be specifically prohibited from paying money for Commonwealth purposes under the first portion of Legislative Resolution 24CA quoted above should the initial lottery proposal be enacted by the voters and should the provision dealing with Commonwealth fail. For the reasons discussed above, we believe that the initial portion of Legislative Resolution 24CA is insufficient to allow payment of depositors of industrial savings institutions from lottery proceeds. This would be even more true if the voters were to specifically reject the Commonwealth payment proposal in the second part of Legislative Resolution 24CA. Therefore, for depositors to be paid under Legislative Resolution 24CA, the citizens of Nebraska must pass that portion of the proposed constitutional amendments making provision for such payment.

Sincerely yours,
DON STENBERG

Opinion No. 91052

June 3, 1991

Senator Douglas A. Kristensen
District No. 37
State Capitol
Lincoln, NE 68509

Dear Senator Kristensen:

Because of the very short time remaining before adjournment of the Legislature, we have chosen to answer your request letter dated May 30, 1991, with this letter (unofficial) opinion, enclosing copies of certain previous official opinions which we think have bearing on your questions.

Your first question is: What is the nature and status of the Nebraska Railway Council as established by LB 783 of the 1991 session, as amended? Because section 12 there provides that it is a body politic and corporate and not a state agency, we believe the Council is not an agency of the state. Our courts have, in the past, talked of quasi-public entities. This is a term which covers a multitude of situations, and we believe that it is probably the proper terminology for the Council. The term "quasi-public entity", however does not necessarily mean that it is a part of the state.

Your second question is whether the language contained in section 12, together with other sections, suffices to shield the state from liability. We believe that it does, especially with the Beutler amendment (No. 2539). Your attention is directed to Opinion No. 277 dated April 4, 1980, having to do with distribution of gasoline tax revenues. It indicates that it is the activity rather than the name of an organization which determines public or private character and that Legislative intent is to be given great weight. The purpose of the Council is to facilitate the operation of a common carrier, and we believe it goes without saying that this would be a public purpose. This section deals with Article XIII, section 3 rather than Article XI, section 1, but the latter also turns on the question of public or private character. We also believe that the public nature of providing the services of a common carrier is easily distinguished from a private purpose such as was commented upon in Opinion No. 66, dated April 5, 1983, indicating that public funds could not be used for the erection of signs advertising specific private businesses. In any event,

we believe an appropriation to the Council would not be improper. See Opinion No. 89049, dated May 11, 1989, which is attached.

Your third and fourth questions deal with an agency which might be set up to contract with the Council to run a railroad. But LB 783 does not provide for such an agency. It only establishes the Nebraska Railway Council and the Division of Railroads.

Because there is no provision for the operating body, its form cannot be anticipated. It is speculative to presume municipalities or governmental subdivisions would be a part of it. For this reason, we feel that it would be premature to address the third and fourth questions at this time.

We hope that this very rushed response to your inquiry is of assistance to you.

Very truly yours,
DON STENBERG
Attorney General

Madam President, Mr. Speaker
and Members of the Legislature
State Capitol Building
Lincoln, NE 68509

Dear Madam President and Senators:

I have returned LB 843 without my signature and with my objections.

At my inauguration as Governor, I already had a high regard for the Legislature as an institution and for individual Senators. That respect has grown even more during the session as I have watched the Legislature work. Like any major issue, the budget which you have enacted reflects tremendous effort undertaken with the best interests of our citizens uppermost in mind, even though it does not mesh always with my own priorities which I presented to you in January.

The main defect in LB 843 and the other budget bills, collectively, stems not from these differences in priorities but from a clear sense of fiscal realities. The nature of the legislative process makes it difficult for Senators to reject fellow Senators' spending proposals in the face of strong and effective arguments as separate issues. A Governor's duty in the last hectic days of the session is to treat all the spending measures as a single package and make those reductions which are necessary to balance the budget. Accordingly, I have made line-item vetoes in LB 843 which total $3,362,752 in FY92 and $3,101,690 in FY93. These reductions in LB 843, together with other vetoes, are essential if we are to hold spending to a sustainable level. The economy and state general fund revenues are still highly uncertain. Every item added back into the budget increases the chances that we will spend ourselves into a special session for

mid-year budget cuts which are far more disruptive than a budget that is disciplined from the start.

The attached table lists the specific items in LB 843 which are part of my veto. It is not my purpose to chastise the Legislature for wanting to fund them or to assert that none has any merit. Instead, this list represents the outcome of an intense and comprehensive review of all the spending bills that have passed. Those items on this list and other lists pertaining to other bills are there because of a reassessment of their need, questions about their efficacy, a reluctance to expand state government in the current fiscal environment, or a decision that the program just did not rank sufficiently high as a priority.

Without a doubt, there are choices I made which will disappoint individual Senators and citizens. For that, I can only express my regret. As you consider these line-item reductions to the budget, I only request that you keep the total fiscal picture in mind and assign, as I do, the highest priority to fiscally responsible government.

Sincerely,
(Signed) E. Benjamin Nelson
Governor

Madam President, Mr. Speaker
and Members of the Legislature
State Capitol Building
Lincoln, NE 68509

Dear Madam President and Senators:

I am returning LB 845 with my signature but with line-item reductions. I have reduced the appropriation to the Legislative Council by the amount added on the legislative floor for legislative employees. The precedent of treating legislative employees differently from other State employees at a time when we are making across-the-board budget reductions and asking unions to live with less is poor public policy. In addition with a proposed reappropriation of nearly $2 million dollars to the Council this additional funding should not be necessary.

I ask your support in sustaining this veto of funds.

Sincerely,
(Signed) E. Benjamin Nelson

Madam President, Mr. Speaker

Dear Madam President and Senators:

I am signing LB 647 but returning LB 647A with line item reductions.

Nebraska students and their families are finding it increasingly difficulty to finance their educational pursuits. Students who choose to attend an independent college or university, whether because the school fits their needs better or because distances and obligations dictate that option, face a particularly difficult situation providing the higher levels of tuition. It is important to me that we continue to allow needy Nebraskans to have a choice regarding postsecondary education.

Resources available for the biennium, however, are severely limited. For that reason, I am vetoing $125,000 from the appropriation for FY 1991-92 and $375,000 from the amount in FY 1992-93. This will leave a $125,000 program for each year of the biennium. It will be possible for the Coordinating Commission to develop the mechanics for the program and begin providing scholarships to students for the fall of 1991.

Sincerely,
(Signed) E. Benjamin Nelson

Madam President, Mr. Speaker
and Members of the Legislature
State Capitol Building
Lincoln, NE 68509

Dear Madam President and Senators:

I am returning LB 652 with my signature, but with specific line-item reductions.

LB 652 has been referred to as the "trailer" bill, apparently since the appropriations it includes do not have the same priority as items in the mainline budget bills. For that reason, and because of our overall fiscal situation, I have eliminated most of the items included in LB 652. You have received a summary of my budget vetoes which includes the items in LB 652 that have been reduced or eliminated.

Among the items that have been retained are the regional fiberoptic network that will allow several schools in the Sandhills to access advanced subjects via two-way video. This will provide a valuable test of that technology. Also, I have not eliminated funding for the Rural Health Education Network (RHEN) at the University of Nebraska Medical Center. When combined with our previous investments in NEB*SAT, our ability to deliver education to health professionals will be greatly expanded. These investments in technology represent a wise use of our limited resources to improve the lives of many Nebraskans.

Aside from these limited areas of improvement, the magnitude of the reductions I have made to LB 652 are a good indicator of our need to control State expenses while the economy is recovering. I ask for your assistance in this effort.

Sincerely,

Madam President, Mr. Speaker
and Members of the Legislature
State Capitol Building
Lincoln, Nebraska 68509

Dear Madam President and Senators:

I am hereby returning LB 760 with my objections and line-item reductions. The appropriations contained in LB 760 had to be reduced in order to insure some funding will be available before FY 95/96 for necessary construction for the Department of Corrections. The bill would have created over $20.0 million of obligations on the Cigarette Tax Fund and on the State General Fund through FY

94/95, and would have implied a commitment beyond that of at least $17.1 million for the Medical Center's project.

I have therefore left only two projects in the bill: the Beadle project at the University of Nebraska--Lincoln and the Copeland Hall project at Kearney State College. The former project is extremely important to the University's research mission, and is largely funded by over $17.5 million of Federal Funds and over $2.5 million of private and internally reallocated University funds. The $6.5 million of State funds is critical to the successful completion of the project.

Included in the State appropriation for the George W. Beadle Center for Genetics and Biomaterials Research is a fulfillment of the non-federal match requirements, in the form of the Utility Extension and Greenhouses. Any additional funds which may become necessary to fulfill the non-federal match requirements or to complete any additional components of the project should come from private funds, local funds, or funds reallocated by the University from other sources. Within the total State, Federal, Local, Private, and University funds available for this project, there is included funding for the additional chilling capacity necessary for the project. Since the University has indicated additional boiler and generator capacity is not necessary, it is not included in the total funds available for this project, and it is expected that no request for such additional capacity will be forthcoming from the University in the foreseeable future.

The latter project at Kearney is necessary to meet the minimum increased space requirements necessitated by enrollment growth and accompanying increases in the number of faculty. It was an extremely difficult decision to not allow the Institute of Agriculture and Natural Resources' projects to remain in LB 760, but funds are simply not available. Since the planning funds for those projects totals only a little over $76,000, there is no objection to the University using alternative funding sources to complete the plans. The projects could then be reviewed in coming years when funds may become available for construction.

I ask your support in sustaining these reductions in an effort to attain an orderly approach to all the State's construction needs in the coming years.

Sincerely,
(Signed) E. Benjamin Nelson

Dear Madam President and Senators:

I am return LB 410 and LB 410A without my signature and with my objections.

LB 410 places in statute the position of a "deputy public counsel for child welfare services". The bill also indicates certain specific duties for that position, apparently in addition to the existing duties of Public Counsel.

Despite the best intentions of the sponsors of LB 410, this is not a wise course. If the Legislature is of the opinion that the Public Counsel needs additional staff or powers, then that question should be addressed broadly. LB 410, in my opinion, does not provide for prudent use of scare State resources.

Sincerely,

Madam President, Mr. Speaker
and Members of the Legislature
State Capitol
Lincoln, Nebraska 68509

Dear Madam President and Senators:

I am returning LB 433 and LB 433A without my signature and with my objection.

LB 433 expands eligibility for the Medicaid Program beyond current federal requirements. For example, the federal government requires us to include pregnant women and children with incomes less than 133% of the federal poverty level, and allows the states the option of including persons up to 185% of that level. LB 433 establishes the 185% eligibility point as the State minimum. The 185% level is also established for children up to age 18 while the federal requirement for this group is 100% of the poverty level. LB 433 also creates a new State mandate for case management services at a cost of several hundred thousand dollars annually.

We have gradually increased Medicaid eligibility in response to federal mandates for several years. Many additional groups of Nebraskans have been added and reimbursement levels to providers have been increased. Our overall State financial picture simply does not allow for adding new persons at this time. Despite pleas from the National Governors' Association and other groups, Congress continues to plan expansions of the Medicaid program.

It is imperative that we maintain control of those programs that have the greatest impact on our State Budget. Medicaid must be at the top of that list. Let's keep our options open so that we may structure Medicaid in a manner consistent with our fiscal situation.

Sincerely,
(Signed) E. Benjamin Nelson

Madam President, Mr. Speaker

State Capitol

Dear Madam President and Senators:

I am returning LB 724 and LB 724A without my signature and with my objections.

LB 724 creates in statutes, a position of a school nurse consultant within the Department of Health and LB 724A provides funding for that provision from the State General Fund.

My veto is based both on policy and fiscal considerations. Despite the best intentions of the sponsors of LB 724, the bill, in my opinion, does not provide for the most prudent use of currently available scarce state resources. In addition, statutory changes are not needed to undertake such an activity within the Department of Health provided an alternative funding source can be identified for the state nurse consultant position.

I urge you to sustain my veto.

Sincerely,
(Signed) E. Benjamin Nelson
Governor

ENROLLED RESOLUTION

LEGISLATIVE RESOLUTION 194. Introduced by Landis, 46.

WHEREAS, the business of insurance is currently regulated almost entirely by the states; and

WHEREAS, the various states, due to their size, economy, and generally dissimilar needs, require individualized regulation; and

WHEREAS, under the existing regulatory system Nebraska's Director of Insurance has responsibilities to regulate the activities of insurers licensed to transact business in this state; and

WHEREAS, the regulatory responsibilities of the director include issuing certificates of authority to transact business in this state, examining insurers for solvency, regulating unfair trade practices and unfair claims settlement practices, licensing and disciplining agents and brokers, and providing information and assistance to the public; and

WHEREAS, the federal McCarran-Ferguson Act leaves the regulation of the business of insurance to the states; and

WHEREAS, the system of state regulation of the insurance industry has proven to be responsive and effective in its protection of each state's residents; and

WHEREAS, organizations such as the National Conference of Insurance Legislators, the National Conference of State Legislatures, and the National Association of Insurance Commissioners work cooperatively with state legislatures and state insurance commissioners to address common needs and problems; and

WHEREAS, H.R. 9 and S. 430 which are being considered by the Congress would repeal essential provisions of the McCarran-Ferguson Act; and

WHEREAS, H.R. 9 and S. 430 would result in federal bureaucracies usurping much of the regulatory authority of the director and the policymaking authority of the Legislature.

PURPOSE: The Appropriations Committee of the Legislature during the 1991 Legislative session and in the process of developing its budget recommendation to the Legislature for a budget in the 1991-1993 biennium has determined that there are areas worthy of further examination in preparation for the development of revisions to the budget enacted by the Ninety-second Legislature, First Session, and for the development of future biennial budget recommendations. Such areas include, but are not limited to the following:

1. The policies governing the distribution of emergency aid to local governmental units from the Governor's Emergency Fund as a result of natural disasters and the funding of such appropriations;

2. Insuring state-owned facilities and equipment, self insurance, and the potential for umbrella coverages with high deductibles for catastrophic loss coverage;

3. The relative burden of costs for a commercial driver's license;

4. The distribution of transit aid to transit systems and what proportion state aid represents to the total funding of each transit system in conjunction with federal aid, fares, and other funding sources;

5. A cooperative review with the Clerk of the Legislature as to reports required from state agencies, boards, and commissions with the objective of ensuring the timely receipt of such reports;

6. The statutory provisions for authorization of expenditure of revenue bond surplus and the authorization of new revenue bond

issues by the University of Nebraska and the State Colleges in Nebraska; and

7. The impact of across-the-board budget reductions to the 1991-93 biennial budget as proposed by the Appropriations Committee of the Legislature and state agency plans to manage within those constraints in FY1992-93.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE NINETY-SECOND LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Appropriations Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

Patrick J. O'Donnell
Clerk of the Legislature
State Capitol
Lincoln, NE 68509

Dear Mr. O'Donnell:

I have returned LB 170 without my signature and with my objections.

The exclusion from the permit process places the state out of compliance with federal law and thus jeopardizes federal funds.

LB 170 allows overweight trucks to travel on the Interstate. Federal law 23 USCS 127 states that the maximum gross weight on the interstate SHALL be 20,000 lbs on one axle. Further, the federal law states that no federal funds will be authorized to any state out of compliance with the federal interstate weight law.

The other concern is one of safety. Without the information and guidance from the Department of Roads provided in the permitting process, overweight trucks would be traveling routes that might include bridges that would not sustain the weight or consistently travel the same roads causing additional stress when truck traffic might be better distributed by the Department.

Sincerely,
(Signed) E. Benjamin Nelson
Governor

Clerk of the Legislature

Dear Mr. O'Donnell:

Engrossed Legislative Bills LB 830 and 830A were received in my office on June 3, 1991.

I have signed these bills with the understanding that my approval does not commit the State to assume any additional funding responsibility in the 1993-95 biennium and beyond for the entitlement of services or case coordination that is to begin on July, 1993 or 1994.

Implementation of the provisions of LB 830 should identify alternate funding sources or reallocation of resources from the current appropriation to fund services to the new population group covered by the bill.

These bills were signed by me on June 7, 1991 and delivered to the Secretary of State.

Madam President, Mr. Speaker
and Members of the Legislature
State Capitol Bldg.
Lincoln, NE 68509

Dear Madam President and Senators:

I am returning LB 579 and LB 579A without my signature and with my objections.

LB 579 would create the State Election Board to oversee state election laws. While some provisions of the bill may be meritorious, an additional bureaucracy would be created that would be costly. Also, provisions of legislation such as this need to be looked at in conjunction with re-codification of the election laws.

In addition to appropriating funds for the State Election Board, LB 579A included funds for the special election had LR 186CA passed. If funds are needed for a special election, the appropriation authorized in LB 579A could not be used because this appropriation is conditioned upon the passage of LR 186CA. For this reason, I am also return LB 579A without my signature and with my objection.

Sincerely,

Patrick J. O'Donnell
Clerk of the Legislature

Dear Mr. O'Donnell:

Engrossed Legislative Bills 615, 616, 617, 618, and 619 were received in my office on June 5, 1991. These bills were signed by me on June 10, 1991, and delivered to the Secretary of State.

I have allowed legislation creating new boundaries for legislative districts, LB 614, to become law without my signature. In reviewing the new district boundaries for members of the Unicameral, a number of questions emerge with respect to the commonality of interest in several districts, particularly those in southwest Nebraska. I have also received a number of complaints from citizens about the configuration of the new districts.

Although there is some justification and sentiment for vetoing LB 614, based on the final legislative vote (37-10) it is unlikely that an improved plan would be developed were I to veto the bill and call the Legislature into special session. I have, therefore, allowed the bill to become law without my signature.

Sincerely,
(Signed) E. Benjamin Nelson

ATTORNEY GENERAL'S OPINION

Opinion No. 91052

DATE: June 5, 1991

SUBJECT: The status of Attorney General Opinion #20, 1983 and Attorney General Opinion #27, 1983 relating to the authority of the Nebraska Legislature to direct the sale of public school lands.

REQUESTED BY: Senator Cudaback

WRITTEN BY: Don Stenberg, Attorney General
David Edward Cygan,
Assistant Attorney General

You have requested that this office review two earlier Attorney General Opinions relating to the authority of the Nebraska Legislature to direct the sale of public school lands and their application to LB 223.

In Opinion No. 20 (#83020), which became official on February 9, 1983, the question of whether the Legislature could constitutionally direct and limit the sale or rental of School Trust Lands as proposed by certain sections of the then pending legislation was reviewed. The opinion responded in the negative, stating that, to the extent such sections would purport to assume direct control over the public school lands and remove the Board of Educational Lands and Funds' exclusive management and control thereof, said sections would be unconstitutional, null and void.

In Opinion No. 27 (#83027), which became official on February 18, 1983, the issue was whether existing constitutional provisions would allow the Legislature to direct that School Trust Lands be sold "under favorable conditions". The opinion responded in the negative, stating that management and control of Nebraska's School Trust Lands, "including the responsibility for deciding whether or not such lands should be sold," is vested exclusively in the Board of Educational Lands and Funds.

Both of these opinions heavily relied upon the case Belker v. Board of Educational Lands and Funds, 184 Neb. 620, 171 N.W.2d 156 (1969) aff'd on rehearing, 185 Neb. 270, 175 N.W.2d 63 (1970). Belker was a case brought against the State seeking to enjoin the enforcement of two state statutes (Neb.Rev.State. §§72-257 and 72-258 (Rev.Supp. 1967)) as void and unconstitutional. Both statutes directed the Board of Educational Lands and Funds to sell at public auction all lands now owned or hereafter acquired by the State for

educational purposes at the expiration of the present leases. In reviewing the constitutionality of the statute, four of the judges were of the opinion that the statute was unconstitutional as challenged. Three of the judges were of the opinion that it was constitutional. Pursuant to art. V, §2 of the Constitution of Nebraska, no legislative statutes shall be held unconstitutional except by a concurrence of five judges. Thus, although the majority of the court found the act unconstitutional, the requisite number of five judges reaching such a finding was not met. Therefore, the decision of the court was that the statutes were constitutional.

The court's decision in Belker expressly states:

> The central issue in this case, and the only real issue, is whether the Legislature is authorized to direct the sale of all school lands. It is our opinion that the constitutional provision which vests the general management of all school lands and funds and the Board of Educational Lands and Funds 'under the direction of the Legislature' authorized the Legislature to direct the sale of school lands.

Any portion of Opinion 83027 which may be construed to stand for the proposition that the Legislature cannot constitutionally direct the sale of public school lands is incorrect. Therefore, it is within the authority of the Legislature to direct the sale of public school lands under such conditions as the Legislature shall provide. It must be noted, however, the general management of the lands is vested in the Board of Educational Lands and Funds. As noted in Attorney General Opinion #83020, the Legislature may not assume direct control over educational lands. The power of the Legislature to direct the sale of educational lands is not without limits. In directing the sale of trust property, the Legislature may not require the sale in a manner which would cause the Board to violate the fiduciary duties which bind the management of educational lands by the Board. Article VII, §8 of the Constitution of the State of Nebraska states that,

> All funds belonging to the State for educational purposes, the interest and income whereof only are to be used, shall be deemed trust funds . . . notwithstanding any other provision in the Constitution, such funds shall be invested as the Legislature may by statute provide.

Consequently, the State as trustee of the lands and of the income therefrom, is required to administer the trust estate under the rules of law applicable to trustees acting in a fiduciary capacity. Probst v. Board of Educational Lands and Funds, 156 Neb. 226, 55 N.W.2d 653 (1952); See also State ex rel. Ebke v. Board of Educational Lands and Funds, 159 Neb. 79, 65 N.W.2d 392 (1954), and Banks v. State, 181 Neb. 106, 147 N.W.2d 132 (1966).

While LB 223 may be constitutional to the extent that it permits the Legislature to direct the sales of school lands, section 1 of LB 223 is violative of the fiduciary duty placed upon the Board by Article VII, §6 of the Nebraska Constitution. Section 1 of LB 223 directs that the Board of Educational Lands and Funds shall enter into "contracts for the sale" of all Educational Lands over which the Board has general management and control upon the expiration of any leases existing on the effective date of this act. Art. VII, §6 of the Nebraska Constitution provides that no lands now owned or hereafter acquired by the State for educational purposes shall be sold except at public auction under such conditions as the Legislature shall provide. Therefore, sales of these lands by contract as provided by §1 of LB 223 is unconstitutional. The specific procedures for the sale of trust lands already being in the statutes, we cannot give an opinion concerning whether they meet constitutional fiduciary requirements.

Sincerely yours,
DON STENBERG

MESSAGES FROM THE GOVERNOR

June 6, 1991

Madam President, Mr. Speaker
and Members of the Legislature
State Capitol
Lincoln, NE 68509

Dear Madam President and Senators:

I have returned LB 91 with my signature and LB 91A with my signature, but with line item reductions for Fiscal Year 92/93.

Now that the Legislature has completed its decisions on the State Budget for the next biennium, it has presented me with a document that is not balanced. A number of factors have made it necessary for me to reduce the second year's funding in LB 91A by $8,000,000. These factors include:

a. Net receipts for the current fiscal year have fallen over fourteen million dollars behind projections;

b. The Legislature did not adopt my recommendation for funding LB 829, resulting in a deficit position for that bill alone of four million dollars;
c. The Legislature overrode my vetoes in an amount exceeding $2,500,000 for the next biennium; and
d. The Legislature did not adopt my funding strategy for continuing teacher salary enhancement.

To elaborate on the final point, when I presented my Budget Recommendation to the Legislature in January it included a proposal to fund the costs of continuing teacher salary payments out of the revenues of LB 1059. That proposal was rejected by the Legislature; in fact, specific language was included to prevent that funding option. If the State is to continue the teacher salary enhancements in the future, it may be necessary to examine funding sources again.

The reduction of funding for the second year of the biennium for LB 91A is necessary for us to meet mandatory reserve requirements. The reduction of $8 million is the minimum necessary to balance the budget.

Sincerely,
(Signed) E. Benjamin Nelson
Governor
