

directly affected and benefited from the amendment chose to do so. But that is neither here nor there. It is just unfortunate that that occurred.

SPEAKER BAACK: Senator Schmit.

SENATOR SCHMIT: Well, Mr. President and members, I am sorry, once again, this proves the wisdom of listening to the debate because it wasn't until Senator Wesely explained that his integrity that kept him from voting on that amendment allowed it to pass that it caught my attention, and I wish I...I ought to read the transcript, I guess, to find just what it was all about. I just want to say that I do not know, I will probably support this amendment, but I really do not know what is going to happen when we place in the statute language which has been certified as unconstitutional. It looks, again, like the more we go around and around, the deeper we dig ourselves into the hole, and once again we are going to have to come back to some sort of a situation where we recognize that this Legislature needs to become more familiar with every single aspect of what we are doing. We are voting on amendments here, which none of us know the impact of, which no one can tell us the impact of because it changes with each additional impact. The amendment we just adopted changes the entire face, of course, of 829. It is an expression of exasperation by many of us because of the lack of the successful vote on Senator Hall's amendment this morning. If we attach this amendment to the bill, I would guess that the Revisor's Office are going to have real work, but I really don't know how much longer we need to continue to circle wagons here before we recognize that we are not going anywhere. And we are not going to go anywhere, and I would expect that the only kind of bill that can get 25 votes at this time is not going to be signed by the Governor. And I repeat once again that I think when it looks like...it looks like this bill is going to be a typical committee-type bill, which will be totally unworkable, and will draw the Governor's veto. And it looks like then after the sine die party, we will be back in here again doing that which is our responsibility, this time, hopefully, in a more sane and sober manner.

SPEAKER BAACK: Thank you, Senator Schmit. Senator Crosby.

SENATOR CROSBY: Thank you, Mr. Speaker and members. I've sat here all day and listened to all of you, and I have done my voting and tried to appreciate what each one of you is trying to
