

only 43 years old, a mere kid. I have said stronger things to this young coward's face, so he ought not try to bully a youngster like Fred Conley, he ought to deal with a mature man, 50 plus, such as myself. He had the opportunity to do that. So, if he wants to take it to an alley level and make physical challenges, he had the opportunity to kick my rear end, but he is a coward. And these are the types of people that the First National Bank deals with. These are the types of people that the Mayor of Omaha and his flunkies, such as Paul Welda, and David Nability, insiders of the Republican Party, tried to foist on our community. When it comes to saying that thieves and fraud workers should be in a community, the Republican Party, the First National Bank, the World-Herald tolerate those people only when they're in our community. Look at the catalog, Larry King, who took under Franklin, lionized by the Republican Party, sang the "National Anthem" for them, projected as a role model, and he was a thief. One called Archie Godfrey, who came from Omaha to Lincoln under a cloud, hitched himself onto Thone, like a flea on a dog, and was...managed to wangle a contract for advertising on the buses of the City of Lincoln. He defrauded them out of some money, so now he has hightailed it back to Omaha, but he is a "respected", and I put that in quotes, representative of the "Repelican" Party, because he is a Negro, and they will project him as a spokesperson and a representation for our community, a role model, and he is as dishonest as Larry King, just wasn't in a position to steal as much money. A fella named George Rushing, George Rushing, loved by certain people in the white financial community of Omaha, helped do some things that took under the black bank in Omaha, and now he's disappeared, virtually off the face of the earth, because he was found to have been involved in some illegal loans and other deals, so another thief. And he is a Negro, but he was praised and loved by the white community, and held up as an example and a role model, because the only ones he was to damage was our community. Then we come to another Negro, named Glenn Freeman, who, when a Republican took over the County Attorneys office in Douglas County, was given a job. That man lost his job, Glenn Freeman lost his. He filed a lawsuit saying that since he lost his job he has lost standing in the community, and he's been unemployed. But he's done such good flunky work for the "Repelican" Party, they should give him a job. He has done the...carried water for them, said that my...Senator Chambers' prestige is on the line in this contest, as he called it, between Paul Bryant, the drug dealer, and Fred Conley, the responsible public official for ten years. If, indeed, my
