LB 171 removes certain statutorily defined fees for the Secretary of State and replaces the specific dollar with the establishment of such fees so that the total of each fee does not exceed the actual cost of administering such services.

Since current fees cover the costs of administering the Secretary of State's programs, it is not anticipated that any fees will be changed at this time. Therefore, neither increases nor decreases in revenues or expenditures are anticipated. In the future, the Secretary of State will be able to adjust fees according to the administrative costs incurred in performing duties.

No fiscal impact.

#### Explanation of Estimate:

This bill removes the statutory fees associated with issuing and renewing notary public commissions, debt management licenses, and truth and deception examiner's licenses and instead provides that the respective fees shall be set forth in rules and regulations not to exceed the actual costs of administering the services.

As current fees cover the costs of administering these programs, we would promulgate the regulations with the fees as currently set, resulting in no fiscal impact to the Secretary of State.
