Any Fiscal Notes received from state agencies and political subdivisions are attached following the Legislative Fiscal Analyst Estimate.

LB 139 requires the Department of Labor's website to include, but not be limited to the following information with respect to each registered contractor:

- Whether the contractor carries workers' compensation insurance in accordance with the Nebraska Workers' Compensation Act;
- Whether the contractor is self-insured in accordance with the Nebraska Workers' Compensation Act; or
- Whether the contractor is not required to carry and does not carry workers' compensation insurance pursuant to the Nebraska Workers' Compensation Act.

The Department of Labor estimates a cost of \$1,000 or less to make required changes to their website. This cost can be absorbed with currently budgeted resources.

LB 139 requires the following questions to be answered in the Contractor Registration Database:

- 1. If workers compensation insurance is carried;
- 2. If the contractor is self-insured; and
- 3. Whether the contractor is not required to carry and does not carry workers compensation insurance.

Currently the database can be found on NDOL website and lists the contractor name, contact information, registration information, option number, number of employees, and work's compensation status.

The operative date is 3 months after enactment.

The Department estimates no impact on General Fund revenues.

It is estimated that there will be no costs to the Department to implement the bill.
