Explanation of Estimate:

LB 533 would place requirements on a specialty pharmacy. A pharmacy benefit manager or health carrier that requires dispensing of a clinician-administered drug through a specialty pharmacy is to establish and disclose a process which allows the health care provider or pharmacy to appeal and have exceptions to the use of a specialist pharmacy as provided in the bill.

Further, it provides that a pharmacy benefit manager or health carrier shall not require a specialty pharmacy to dispense a clinician-administered drug directly to a covered person with the intent that the covered person will transport such drug to a health care provider for administration.

LB 533 has no fiscal impact to the Department of Administrative Services.
