## City of Bellevue Affordable Housing Report

**June 2023**

**City of Bellevue Planning Department  
Tammi Palm, Planning Manager**

The purpose of this report is to fulfill the reporting requirements of LB 866, which adopted the Municipal Density and Missing Middle Housing Act.

Per Nebraska Revised Statute §19-5504:

**(a) An overview of the city's current residential zoning requirements:**

RE Residential Estates

The Residential Estates District is established for the purpose of allowing low density residential uses on larger parcels of land that are compatible with adjacent urban growth. The RE Classification is used only for suburban single family homes. The RE zoning district requires a minimum lot size of one acre.

RS-120 Single Family Residential

This district is intended to permit single family residential developments and other compatible uses on relatively ample sized lots. The minimum lot size of the RS-120 zoning district is 12,000 square feet.

RS-84 Single Family Residential

This district is intended to permit single family residential developments and other compatible uses on medium sized lots. RS-84 requires a minimum lot size of 8,400 square feet.

RS-72 Single Family Residential

This district is intended to permit single family residential developments and other compatible uses on medium sized lots. The minimum lot area is 7,200 square feet.

### RD-60 Duplex Residential

This district is intended to permit single family and two-family residential developments and other compatible uses on small sized lots. RD-60 requires a minimum lot area of 6,000 square feet. For a two-family dwelling unit 12,000 square feet of lot area is required.

### RG-50 General Residential

This district is intended to permit single family and two-family residential developments and other compatible uses on smaller sized lots. This zoning district will allow residential buildings with not more than 4 dwelling units. 5,000 square feet of lot area per dwelling unit is required.

### RG-28 General Residential

This district is intended to permit low rise, medium density development that will be compatible when located near and among lower density types of housing, including single family and two family on small lots. The RG-28 district allows multi family dwellings, at a rate of 2,800 square feet of lot are per unit. Single family dwellings are allowed with a minimum of 5,000 square feet of lot area. Two family dwellings are permitted with 10,000 square feet of lot area.

### RG-20 General Residential

This district is intended to permit moderately high density development and uses that are typical and compatible in the operation of apartment houses. This zoning designation requires 2,000 square feet of lot area per multi family dwelling unit. Single family and two-family dwellings are allowed with a minimum of 5,000 square feet of lot area per unit.

### RG-8 General Residential

This district is intended to permit very high density development, multi story apartment development and other uses that are typical and compatible in the operation of apartment houses. Multi family dwellings are allowed at a rate of 800 square feet of lot area per unit, while single family and two-family dwellings are permitted at 5,000 square feet of lot area per unit.

### BGM Metropolitan General Business

This zoning district is unique to the Mission Avenue Corridor and the city's Olde Towne District. This district allows both commercial and residential uses. Residential uses are allowed at a minimum density of 600 square feet of lot area per unit.

### **(b) The percentage of areas in the city zoned for residential use which permit the construction of multifamily housing and middle housing:**

Attached as Exhibit "A" is a map showing the various residential zoning designations within the city limits which allow for multi family housing and middle housing as a permitted use. Using

Sarpy County GIS data, 17.4% of Bellevue’s city limits has current zoning which allows for multi family and middle housing as a permitted use.

**(c) A breakdown of new residential construction in the city over the previous five years, including the percentage of such units that were single-family housing, multifamily housing, and middle housing:**

The city currently utilizes BluePrince software for permitting purposes, which is the source of this data.

From 2017-2022, the following permit data was collected:

- 1,045 single family residential permits
- 1 duplex permit
- 17 three- and four-family building permits
- 45 multi family residential building (five or more units) permits
  - 823 units were constructed in these multi family residential buildings

These numbers compare to the following from 2016-2020:

- 936 single family residential permits
- 4 duplex permits
- 4 three- and four-family building permits
- 37 multi family residential permits (five or more units)
  - 702 units constructed withing these buildings

**(d) A breakdown of residential units annexed by the city over the previous five years, including the percentage of such units that were single family housing, multifamily housing and middle housing:**

Attached as Exhibit “B” is a breakdown of the Sanitary and Improvement Districts (SIDs) and unincorporated lots the city has annexed over the past five years.

During this time, 3,999 units have been annexed. Single family units accounted for 2,962 or 74.1% of the units, while 792 multi family units and 245 middle housing units were annexed. Multi family and middle housing units were 25.9% of those annexed.

These numbers compare to a breakdown of 75% of single family residential, and 24.7% multi family and middle housing units previously annexed between the years of 2016-2020.

**(e) An estimate of the per-unit cost of housing in the city:**

Per the City of Bellevue Affordable Housing Action Plan adopted in December 2022, the city maintains an estimated median owner-occupied housing value of \$169,200, representing an increase of 2% from the 2020 estimated median value of \$165,900, and a 22.7% increase from the 2010 estimated median value of \$137,800. The estimated median gross rent for Bellevue is

\$1,045. This represents an increase of 3.4% from the 2020 median rent of \$1,010 and a 38% increase from the 2010 estimated median rent of \$757.

**(f) Whether such zoning codes, ordinances, and regulations provide for the density bonuses, or other concession or incentives which encourage residential density, and the frequency with which such bonuses, concessions, or incentives are utilized:**

The City of Bellevue’s Zoning Ordinance allows for a Planned Subdivision (-PS) overlay district. This overlay is frequently utilized with most of our multi family zoning districts and districts which permit the construction of middle housing. It is regularly appended to our RD-60, RG-50, RG-20, RG-28, and RG-8 zoning districts. The intent of the -PS district is to encourage the creative design of new living areas, as distinguished from standard subdivisions. The -PS district is designed to be specifically appended to residential districts so as to provide for modifications in the platting of lots and the siting of buildings.

The -PS overlay allows developers flexibility in items such as setbacks, landscaping, and parking requirements so as to maximize the use of the property. The “absolute” minimum space limits are as follows: minimum front yard – 20 feet, minimum side yard – 0 feet, and minimum rear yard – 15 feet. This compares to a typical front yard requirement of 35 feet, rear yard of 25 feet, and side yard requirement of 5 feet. The Planned Subdivision District allows for multiple buildings on one lot, allowing further flexibility in density.

**(g) Whether such zoning codes, ordinances, and regulations allow the construction of accessory dwelling units:**

While our current zoning ordinance does not specifically define accessory dwelling units, guest houses not rented or otherwise conducted as a business, are allowed in our agricultural and residential zoning districts as permitted accessory uses. These zoning districts include AG Agricultural District, RA Residential Agricultural District, RE Residential Estates, RS-120 Single Family Residential, RS-84 Single Family Residential, RS-72 Single Family Residential, RD-60 Duplex Residential, RG-50 General Residential, RG-28 General Residential, RG-20 General Residential, and RG-8 General Residential.

The language permitting guest houses as an accessory use in our agricultural and residential zoning districts dates to our original Zoning Ordinance approved May 3, 1965.

The city will begin updating its Comprehensive Plan Fall 2023, which will likely result in text amendments to our residential regulations once complete.

**(h) What incentives the city applies to encourage the development of affordable housing, including both direct incentive and regulatory relief:**

The city has been very supportive of the community development law as it pertains to blighted and substandard designations, as well as Tax Increment Financing (TIF). When feasible to do so under statutory requirements, the city has approved these requests/applications.

The city has committed to support the hiring of a Housing Development Coordinator through the Bellevue Housing Authority/Housing Foundation for Sarpy County. This newly created role is consistent with the recommendation of our recently completed Affordable Housing Action Plan.

The City of Bellevue regularly writes letters on behalf of developers seeking Nebraska Investment Finance Authority (NIFA) support.

**(i) A demographic analysis of the city with trends and estimates of the housing need classified by housing type and price range:**

Unless noted otherwise, information from this section was taken from the 2022 Bellevue, Nebraska Affordable Housing Action Plan – 2027/2032, and the American Community Survey (ACS) 2022 data. This is the most current data available for this report.

Bellevue’s population is 66,918, with a median age of 34.8 years. This represents an increase from the 2020 median age of 34.8 years. The “19 and under” and “35 to 54” age cohorts were the largest population cohorts in Bellevue.

	<u>Year</u>	<u>Population</u>	<u>Change</u>	<u>Total</u> <u>Percent</u>
	2000	44,382	--	--
	2010	50,137	+5,755	+12.9%

Bellevue, Nebraska Affordable Housing Action Plan – 2027/2032.

In 2022, an estimated 77,947 persons work in Sarpy County in a non-farm place of employment. The largest concentration of workers is employed in the Retail Trade, Transportation and Warehousing and Construction sectors, with an estimated 34.8% or 27,168 total employees maintaining employment in these three sectors.

The Center of Economic Studies through the United States Census estimates 14,534 persons were employed in Bellevue in 2019. An estimated 11,084 persons traveled from outside the county for employment. Additionally, 23,170 persons reside in Bellevue but are employed elsewhere.

The most recent unemployment data from the United States Bureau of Labor Statistics is 2.20% for the city:

***Estimates of Housing Need:***

In 2022, Hanna:Keelan Associates, P.C. was hired by the city to complete an Affordable Housing Action Plan. With guidance from city staff and a steering committee, Hanna:Keelan completed the study in December 2022. This study provides valuable information for the City of Bellevue regarding affordable housing and the need that is there.

Currently, an estimated 26,035 households reside in Bellevue, consisting of an estimated 17,652 owner and 8,383 renter households. Bellevue has experienced a steady increase in the percentage of owner households in the community since the 2000 Census.

In 2022, the city contained an estimated 26,976 housing units, consisting of approximately 18,234 owner and 8,742 rental units. Of these, approximately 941 were vacant, resulting in an overall estimated housing vacancy rate of 3.5%.

A number of households throughout the City of Bellevue are considered to be “cost burdened” and/or have various “housing problems,” as defined by the Department of Housing and Urban Development. In 2022, an estimated 2,292 owner households in Bellevue, or 13% of all owner households, were cost burdened or have housing problems.

The total estimated housing unit “target” demand for Bellevue, from 2022 to 2027 includes 1,912 housing units, to include 1,098 owner and 814 rental units, at an estimated development cost of \$529.6, Million. From 2022 to 2032, a total of 3,248 housing units, including 1,800 owner and 1,448 rental units, at an estimated development cost of \$986 million should be constructed in Bellevue.

An estimated 15 to 20 percent of the total housing unit target demand, for both 2027 and 2032, should focus on purchase-rehab-resale and/or re-rent housing activities. This involves local entities purchasing existing housing that is in a deteriorating or dilapidated condition, utilizing local resources to rehabilitate the housing unit up to local development standards and codes and, finally, placing the rehabilitated unit on the market to be purchased or rented. Aggressive housing rehabilitation efforts in Bellevue could create housing opportunities at a more affordable cost, with minimal risk to both developers and prospective property owners.

Of the 2027 housing demand of 1,912 total housing units, an estimated 82 units (32 owner, 50 rental) should be targeted in downtown Bellevue to support the creation of housing near the

Bellevue Central Business District and community services. By 2032, an estimated 58 owner and 92 rental housing units should be developed in the downtown, a total of 150 housing units.

A total of 1,195 housing units (636 owner, 559 rental) should be part of a local workforce housing initiative in Bellevue by 2027. By 2032, the workforce housing unit demand includes 2,054 housing units (1,044 owner, 1,010 rental).

**TABLE 4.1  
HOUSING UNIT “TARGET” DEMAND  
(MEDIUM POPULATION PROJECTIONS)  
CITY OF BELLEVUE & EXTRA-TERRITORIAL JURISDICTION, NEBRASKA  
2027/2032**

	<u>Owner</u>	<u>Rental</u>	<u>Total Housing Unit “Target” Demand*</u>	<u>Est. Required Housing Unit “Target” Demand Budget (Millions)</u>
2027:	1,098 / 630	814 / -	1,912 / 630	\$529.6 / \$248.8
2032:	1,800 / 1,068	1,448 / -	3,248 / 1,068	\$986.1 / \$443.2

**\*Housing Unit “Target” Demand, based on:**

- Expected New Households.
- Cost-Burdened Households.
- Replacement of Occupied “Deteriorated to Dilapidated” Housing Units.
- Owner & Rental Housing Vacancy Deficiency.
- Secure Current Commuter Labor Force.
- Off-Campus Student Housing Demand.
- Off-Base Housing Demand.
- “Pent Up” Housing Demand.
- Seasonal/Vacation Housing Demand.
- Five- & 10-Year Housing Development Capacity.

**Housing Unit Target Demand includes both new construction and Purchase-Rehab-Resale or Re-Rent (an estimated 15% to 20% of the Total Housing Demand).**

**\*\*Estimated Bellevue Downtown Housing Unit Demand (2027/2032):  
82 / 150 Total Units (32 / 58 Owner, 50 / 92 Rental).**

**\*\*Estimated Bellevue Workforce Housing Unit Demand (2027/2032):  
1,195 / 2,054 Total Units (636 / 1,044 Owner, 559 / 1,010 Rental).**

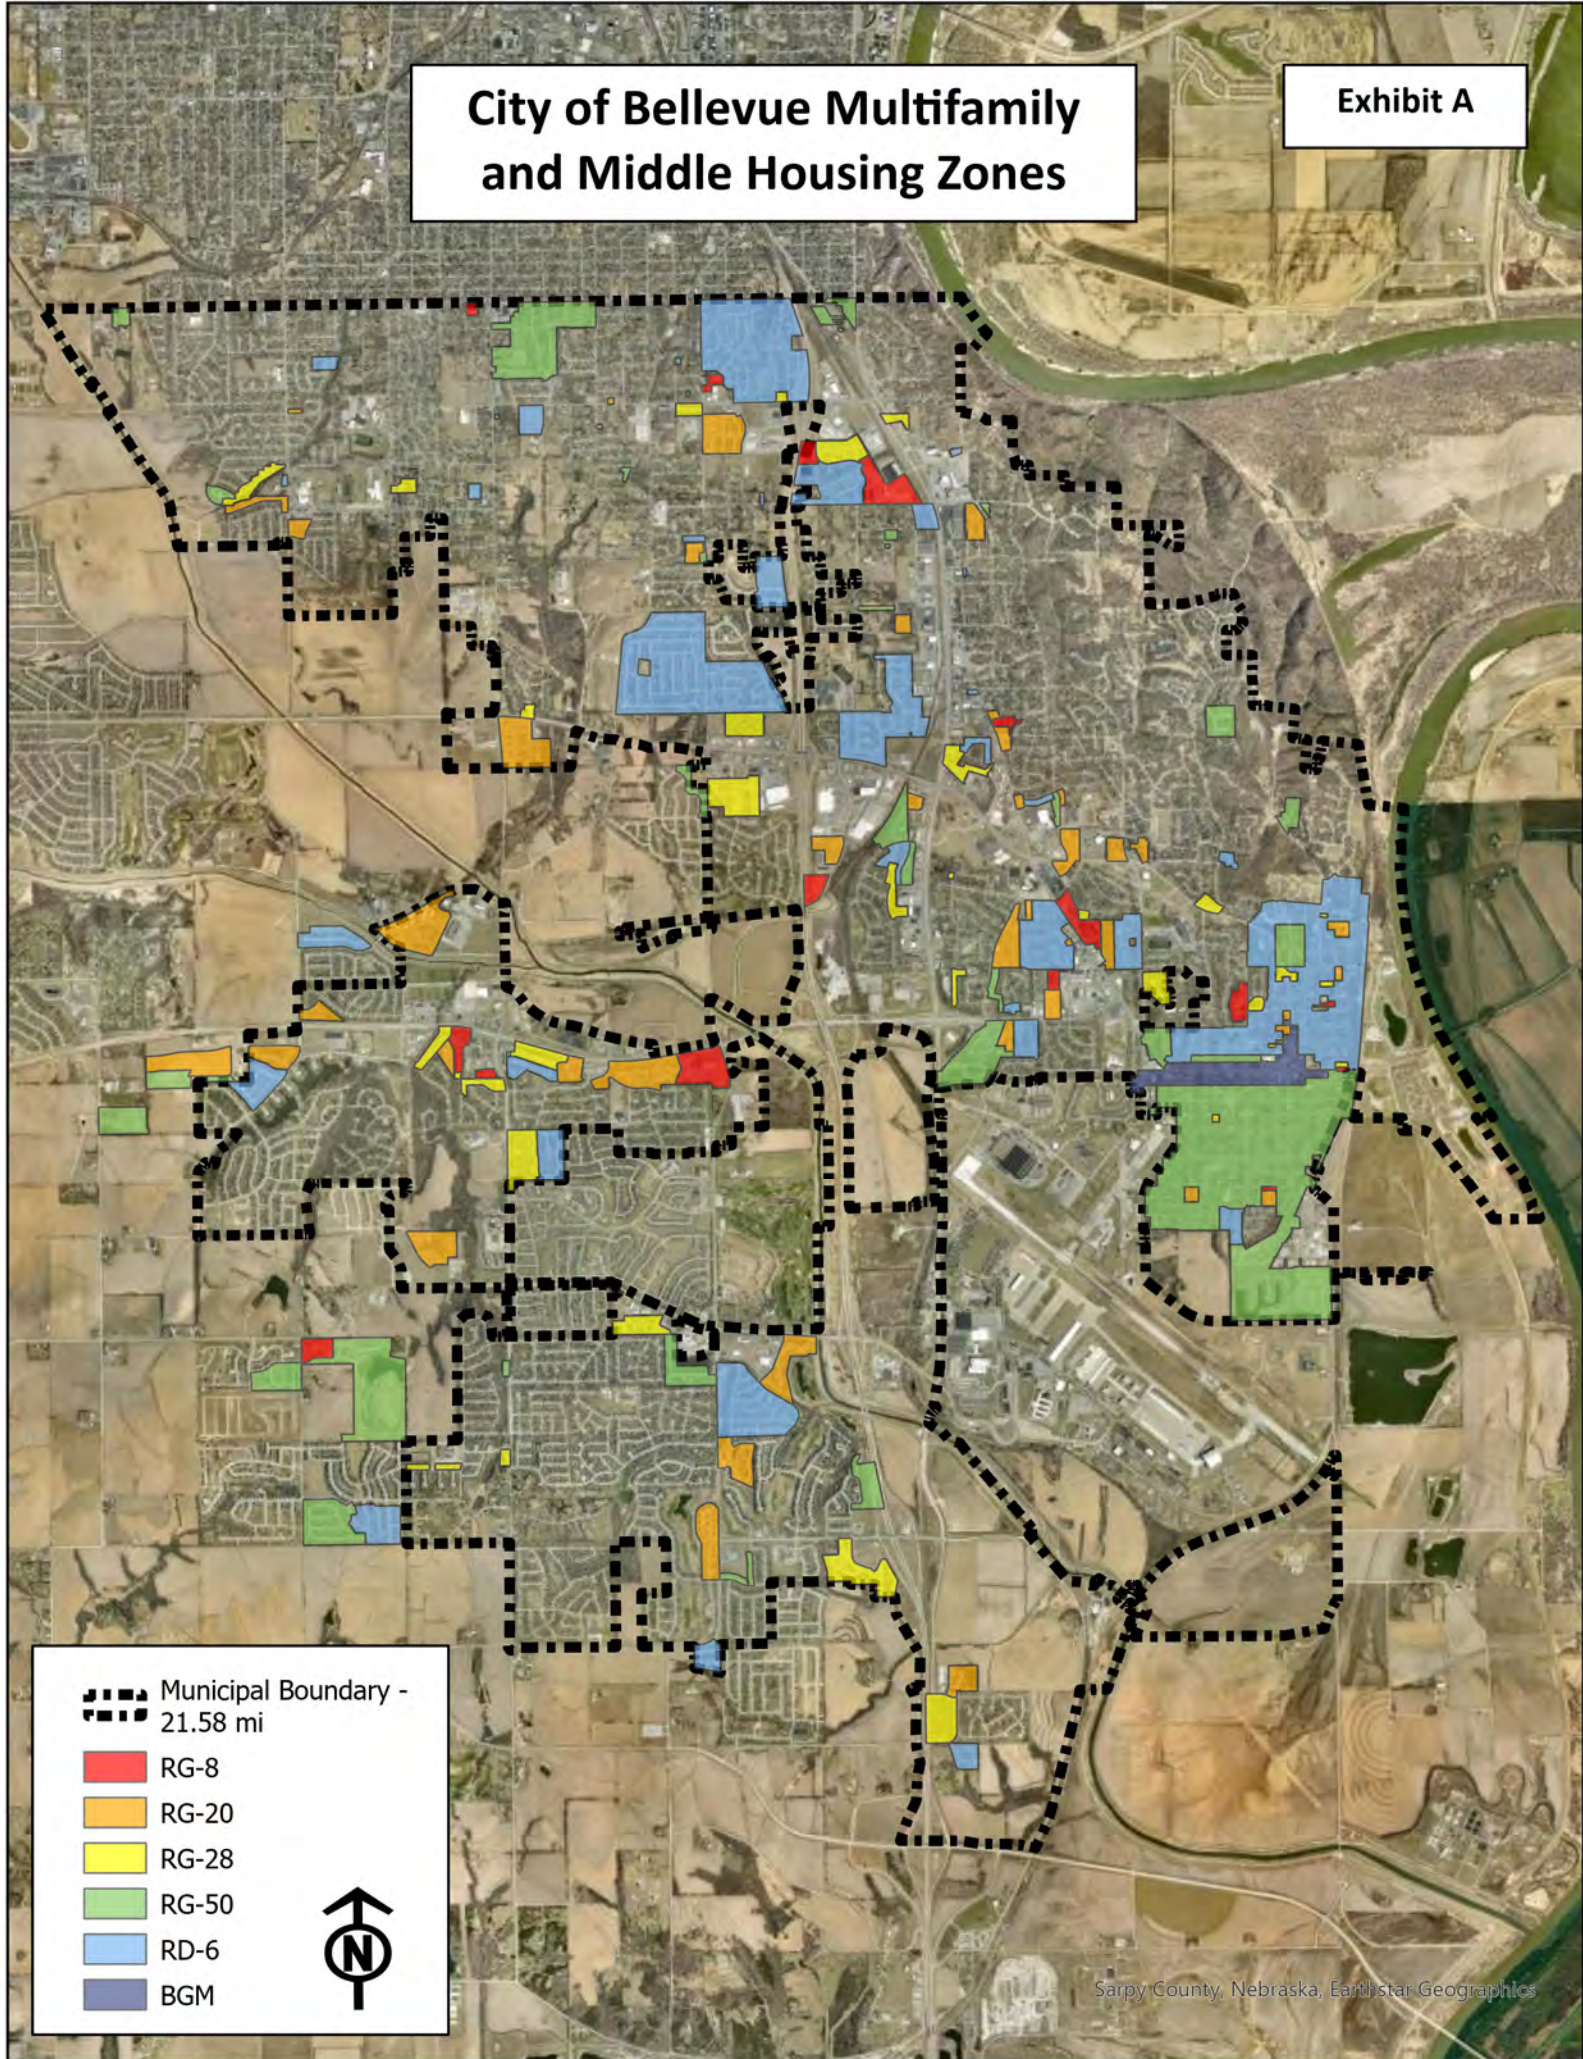

**(i) Efforts to adopt an affordable housing action plan as required under section 5 of this act:**

Hanna:Keelan Associates, P.C worked with the city in 2022 to complete our Affordable Housing Action Plan. The Plan was adopted in December 2022.
