EXECUTIVE BOARD POLICY

Executive Board Referral

A. As a general practice, the Executive Board will refer interim study resolutions to the appropriate committees based upon subject matter jurisdiction.

B. Resolutions that call for the creation of a select committee will be reviewed by the Executive Board. Depending upon the availability of staff resources, subject matter jurisdiction, and legislator interest, the Executive Board may establish a select committee to undertake the study.

C. The Executive Board shall retain its traditional prerogatives to consider and refer study proposals arising from extraordinary circumstances after the deadlines.

Committee Action

Legislative rules (Rule 4, Section 3(c)) require study resolutions be prioritized by the chairperson of the committee to which they are referred, and a report on those priorities shall be filed with the Clerk. This prioritization will in no way limit the committee's traditional prerogative to conduct hearings and oversee matters that are within their subject matter jurisdiction. Each committee may file with the Clerk, his or her committee's study plan for the highest prioritized interim studies referenced to such committee.

Rule 4, Section 3(g) of the Rules of the Nebraska Unicameral Legislature requires that on or before December 1 of each year, each standing and select interim committee file a report on the disposition of the study resolutions referred to them.

(The following referral list reflects the committee prioritization of the resolutions referred to them.)

INTERIM STUDY RESOLUTIONS

LEGISLATIVE RESOLUTION 85. Introduced by Pahls, 31; Christensen, 44; Gloor, 35; Langemeier, 23; Pankonin, 2; Pirsch, 4; Utter, 33; McCoy, 39.

PURPOSE: The purpose of this resolution is to study how the insurance laws of this state should be amended by the Legislature to respond to the provisions of the federal Patient Protection and Affordable Care Act (Public Law 111-148), as amended by the federal Health Care and Education Reconciliation Act of 2010 (Public Law 111-152), regarding establishment of health insurance exchanges by the states. The study committee should review the development and final provisions of the legislative proposals for exchange implementation resulting from the activities by the State of Nebraska pursuant to its federal State Planning and Establishment Grant, as managed by the Department of Insurance, with the cooperation of and input from other affected state agencies. In order to carry out the purpose of this resolution, the study committee should seek the assistance of the Department of Insurance and should consider the input of interested persons as the committee deems necessary and beneficial.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED SECOND LEGISLATURE OF NEBRASKA, FIRST SESSION:

1. That the Banking, Commerce and Insurance Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature.

LEGISLATIVE RESOLUTION 138. Introduced by Nordquist, 7; Campbell, 25; Conrad, 46; Cook, 13; Council, 11; Gloor, 35; Howard, 9; McGill, 26; Mello, 5.

PURPOSE: The purpose of this resolution is to find a solution to the exit of insurers from the health insurance marketplace for stand-alone health insurance policies for children.

Children can no longer be denied health insurance based on their health status, nor can insurers refuse to pay for treatment because of a preexisting condition as a result of the passage of the federal Patient Protection and Affordable Care Act, Public Law 111-148, as amended by the federal Health Care and Education Reconciliation Act of 2010, Public Law 111-152. However, insurers in the individual market no longer offer new stand-alone or child-only policies in the State of Nebraska.

The Secretary of the United States Department of Health and Human Services has clarified a variety of policy options available to states under the new federal health care law to overcome the collapse of the health insurance market for stand-alone policies for children. The study committee should review these and other options to find a solution to this issue.
NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE
ONE HUNDRED SECOND LEGISLATURE OF NEBRASKA, FIRST
SESSION:
1. That a committee of the Legislature shall be designated to conduct an
interim study to carry out the purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report
of its findings, together with its recommendations, to the Legislative
Council or Legislature.

Nordquist, 7; Pankonin, 2; Sullivan, 41; Utter, 33.

PURPOSE: The purpose of this resolution is to study what impediments
exist in state statute to attracting national agricultural and business
conventions and trade shows to facilities in Nebraska. Such examination of
statute may include, but shall not be limited to, a review of the Motor
Vehicle Industry Regulation Act.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE
ONE HUNDRED SECOND LEGISLATURE OF NEBRASKA, FIRST
SESSION:
1. That the Transportation and Telecommunications Committee of the
Legislature shall be designated to conduct an interim study to carry out the
purposes of this resolution.
2. That the committee shall upon the conclusion of its study make a report
of its findings, together with its recommendations, to the Legislative
Council or Legislature.

LEGISLATIVE RESOLUTION 197. Introduced by Nordquist, 7.

PURPOSE: The purpose of this resolution is to study issues related to the
potential implementation of an all-payer claims database in Nebraska. An
all-payer claims database can collect and provide information on inpatient,
outpatient, pharmacy, and dental services for commercially insured, publicly
insured, and self-insured populations. It is the public policy goal of an
all-payer claims database to provide greater transparency regarding the cost
and quality of medical services in order to empower consumers to make
well-informed health care decisions. The committees shall conduct a study
that includes, but is not limited to, the following topics:
(1) An evaluation of which payers should be required to submit price and
quality information and what types of claims should be collected to allow
consumers, medical providers, researchers, and policymakers to effectively
and efficiently compare costs and the quality of care;
(2) An examination of data collection and storage processes to maintain
security, privacy, and confidentiality in compliance with all state and federal
privacy laws;
(3) An evaluation of the available technologies to collect claims data and
to reproduce that data in a timely manner and user-friendly format; and
(4) A consideration of options for sustainable funding of an all-payer claims database.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED SECOND LEGISLATURE OF NEBRASKA, FIRST SESSION:
1. That the Health and Human Services Committee and the Banking, Commerce and Insurance Committee of the Legislature shall be designated to conduct a joint interim study to carry out the purposes of this resolution.

LEGISLATIVE RESOLUTION 202. Introduced by Nordquist, 7; Campbell, 25; Council, 11; Gloor, 35; Howard, 9; McGill, 26; Mello, 5.

PURPOSE: The purpose of this resolution is to study public assistance programs with income-based eligibility criteria in Nebraska and the program rules that contribute or detract from asset building and economic stability for participating families. In some assistance programs, a small increase in income leads to the abrupt termination or substantial reduction in public assistance. This leaves families in a more precarious financial situation despite an increase in income due to the loss of public assistance. The committee shall conduct a study that assesses options for removing public assistance program policy barriers to asset building and increased work participation.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED SECOND LEGISLATURE OF NEBRASKA, FIRST SESSION:
1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

The committee specifically intends to explore the following areas:
1) The current method of code adoption and amendment by political subdivisions, the ability or difficulty of code adoption at the local level, and statutory harmonization of local procedures of code adoption, amending procedures, and enforcement;
(2) Other states' methods or policies on code adoption;

1. That the Health and Human Services Committee of the Legislature shall be designated to conduct an interim study to carry out the purposes of this resolution.

2. That the committee shall upon the conclusion of its study make a report of its findings, together with its recommendations, to the Legislative Council or Legislature on or before December 31, 2012.

PURPOSE: To study issues related to the development of a comprehensive approach to reducing the environmental and health risks posed by the use or disposal of selected consumer products and maximizing the opportunities for residents to recycle these products at the end of their useful lives. Local governments and solid waste agencies are receiving growing requests from citizens for recycling alternatives for consumer products but face challenges in increasing fees or taxes to fund these services. In addition, many Nebraska residents do not have access to convenient and no-cost alternatives to landfill disposal for selected consumer products. For example, only thirty Nebraska communities sponsored electronic waste collection events in 2009-2010. State grant funds that have historically provided funding for community services such as these efforts have been reduced by the Legislature.

Alternative funding approaches are available. They include advanced disposal fees paid by consumers at the time they purchase products or extended producer responsibility initiatives that call on companies that make a product to have a responsibility for their goods at the "end of life." The study shall focus on examining the various strategies to maximize the diversion of consumer products from landfill disposal, examining available financing options, identifying consumer products of concern, and determining the advantages of establishing an overall strategy and financing policy structure for selected consumer products in Nebraska.

The Natural Resources Committee of the Legislature shall convene an advisory group comprised of individuals from Nebraska businesses, nonprofit organizations, and government to provide technical expertise and advice relevant to the study. Topics to be studied shall include, but not be limited to, the following:

(1) Examine existing strategies and financing mechanisms utilized in North America which maximize the amount of recycling for selected consumer products. This includes evaluating voluntary versus state-required diversion programs;

(2) Identify the advantages and disadvantages of various strategies and financing mechanisms. This shall include possible costs and benefits associated with each option;
(3) Recommend a strategy, financing mechanism, and process for
designating consumer products for legislative action;

(4) Recommend methods to identify and monitor progress toward
maximizing the recycling of selected consumer products; and

(5) Identify potential priority products for future legislative consideration.

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE
ONE HUNDRED SECOND LEGISLATURE OF NEBRASKA, FIRST
SESSION:

1. That the Natural Resources Committee of the Legislature shall be
designated to conduct an interim study to carry out the purposes of this
resolution.

2. That the committee shall upon the conclusion of its study make a report
of its findings, together with its recommendations, to the Legislative
Council or Legislature.

PURPOSE: The purpose of this resolution is to study the impact of recidivism rates of persons convicted of driving under the influence. The committee shall:

(1) Review current procedures and studies that detail the rate of recidivism of persons convicted of driving under the influence;

The utility is the pass-through organization, is paid a fee for the service, and is not responsible for unpaid bills on the energy efficiency project. The committee should look at examples of this practice working in Nebraska and other states and examine ways to make it available to all Nebraskans. In order to carry out the purpose of the resolution, the committee should seek and consider the input of interested persons and organizations, including energy efficiency businesses, public power providers, and others.

LEGISLATIVE RESOLUTION 282. Introduced by Campbell, 25; Heidemann, 1; Krist, 10.

PURPOSE: The purpose of this resolution is to provide for the review, assessment, and recommendations relating to the implementation of the Nebraska Health Care Funding Act. The issues addressed by the study shall include, but not be limited to:
(1) The current distribution of funding under the Nebraska Health Care Funding Act, including the statutory requirements and the appropriations set by the Legislature;
(2) The outcome and priority of funding in fulfilling the purpose of the Nebraska Health Care Funding Act stated in section 71-7606, which is to provide for the use of dedicated revenue for health-care-related expenditures, including compliance with the requirement that any funds appropriated or distributed under the act shall not be considered ongoing entitlements or obligations on the part of the State of Nebraska and shall not be used to replace existing funding for existing programs;
(3) Statutory language identifying the tobacco settlement fund and intergovernmental transfer fund as trust funds notwithstanding that neither is a trust fund. Trust funds are assets held in trust, the use of which is governed by the conditions of the trust. Neither the tobacco settlement fund nor the intergovernmental transfer fund is governed by the conditions of a trust, and the use of both funds is strictly the prerogative of the Legislature; and
(4) Whether sustainability should be the policy governing allocations from the Nebraska Health Care Cash Fund. The latest report by the Nebraska Investment Council filed on September 22, 2010, indicates, based on current appropriations, that outflows will exceed inflows in every year in the next decade. Some projections estimate the fund will be depleted by 2037 or 2038. Hewitt, Ennis, Knupp, a consultant contracted by the Nebraska Investment Council, reported in March 2011 that if the current level of annual commitments is not reduced, "spending levels of high and very high will likely result in declining portfolio, under the current aggressive asset allocation. If spending can be kept low, portfolio will likely grow."

NOW, THEREFORE, BE IT RESOLVED BY THE MEMBERS OF THE ONE HUNDRED SECOND LEGISLATURE OF NEBRASKA, FIRST SESSION:
1. That the Appropriations Committee and the Health and Human Services Committee of the Legislature shall be designated to conduct a joint interim study to carry out the purposes of this resolution.

**LEGISLATIVE RESOLUTION 315.** Introduced by Christensen, 44.

PURPOSE: The purpose of this interim study is to examine simulcast horseracing in Nebraska, which was introduced in 1987. It will compare the vitality, profits, distribution of earnings, and participation in horseracing prior to the introduction of simulcast horseracing in Nebraska and the effects of simulcast horseracing on the horseracing industry since its introduction. The study shall address at least the following questions:

1. Has the introduction of simulcast horseracing benefited the Nebraska horseracing industry in general?
2. What was the original reason for the introduction of simulcast horseracing in 1987? Was it to preserve live horseracing?
3. How many live races were run before simulcast horseracing was introduced and how many are run now?
4. How many Nebraska-bred horses were racing in Nebraska before simulcast horseracing and how many Nebraska-bred horses are racing now?
5. What was the gross wagering on horseracing in Nebraska before simulcast horseracing was introduced and what is it now?
6. Where do the profits from simulcast horseracing go and what is the breakdown of funds to each category?
7. What benefits have live Nebraska horseracing and Nebraska-bred horses gained from simulcast horseracing?
8. If the horseracing industry wants to cut most of the racetrack enclosures down to one day per year of live racing, how does this strengthen live horseracing in Nebraska and Nebraska breeders?
9. What entities benefit the most monetarily from simulcast horseracing: state government, instate breeders and trainers, racetrack enclosures, or others?

LEGISLATIVE RESOLUTION 317. Introduced by Heidemann, 1.

PURPOSE: The formulas for distribution of funding to the federally qualified health centers (FQHC) were written a decade ago. The recent census figures show a change in demographics not anticipated when the formulas were written, and client numbers have increased significantly during this past decade. Also, the number of FQHCs has expanded since the formulas were developed, and there is the possibility of more being added in the future. For these reasons, the formula for distribution of the funding to the FQHCs needs to be reviewed and revised to ensure that the funding is distributed in the most fair and equitable manner.

This interim study will examine the funding formulas and recommend changes to the 2012 Legislature. Input and guidance will be sought from the FQHCs and the communities they serve.
