INTRODUCTION

The 2026 edition of School Districts At-A-Glance provides the Nebraska Legislature with a consistent profile of each of the state's 245 public school districts that operated during the 2024-25 school year. Following the Exeter-Milligan–Friend consolidation effective July 1, 2025, 244 districts operate as of publication.

The Legislative Research Office produces the report as a starting point for policy examination, giving newly elected and returning senators essential district-level statistics in a reliable format. School Districts At-A-Glance is part of a rotating series of At-A-Glance publications produced by the Legislative Research Office.

Each district profile organizes data into five categories, drawn from multiple sources to assemble a complete picture of the district. **Community** covers population, households, broadband access, and the number of schools, together with the counties, educational service unit, legislative districts, and State Board of Education districts that the school district overlaps. **Households with Students in Public School** reports the income, poverty, employment, and language characteristics of families with children enrolled in public school. **Public School Students and Teachers** covers enrollment and student demographics alongside teacher staffing, salary, and experience. **Performance** shows attendance and graduation rates, the school quality and student success classification (AQuESTT), ACT results, and proficiency on the NSCAS assessment in English, mathematics, and science. **Financials** details receipts, expenditures, per-pupil cost, levies and valuation — including the composition of adjusted valuation by property type — and the components of state aid under the Tax Equity and Educational Opportunities Support Act (TEEOSA). Each profile also includes a map of the district, its associated counties, and the communities within it. The Statewide profile presents the same measures for all districts combined as a basis for comparison. Measures based on small student counts are suppressed to protect student privacy and appear as an asterisk; profiles for the smallest districts will therefore contain a substantial number of suppressed values.

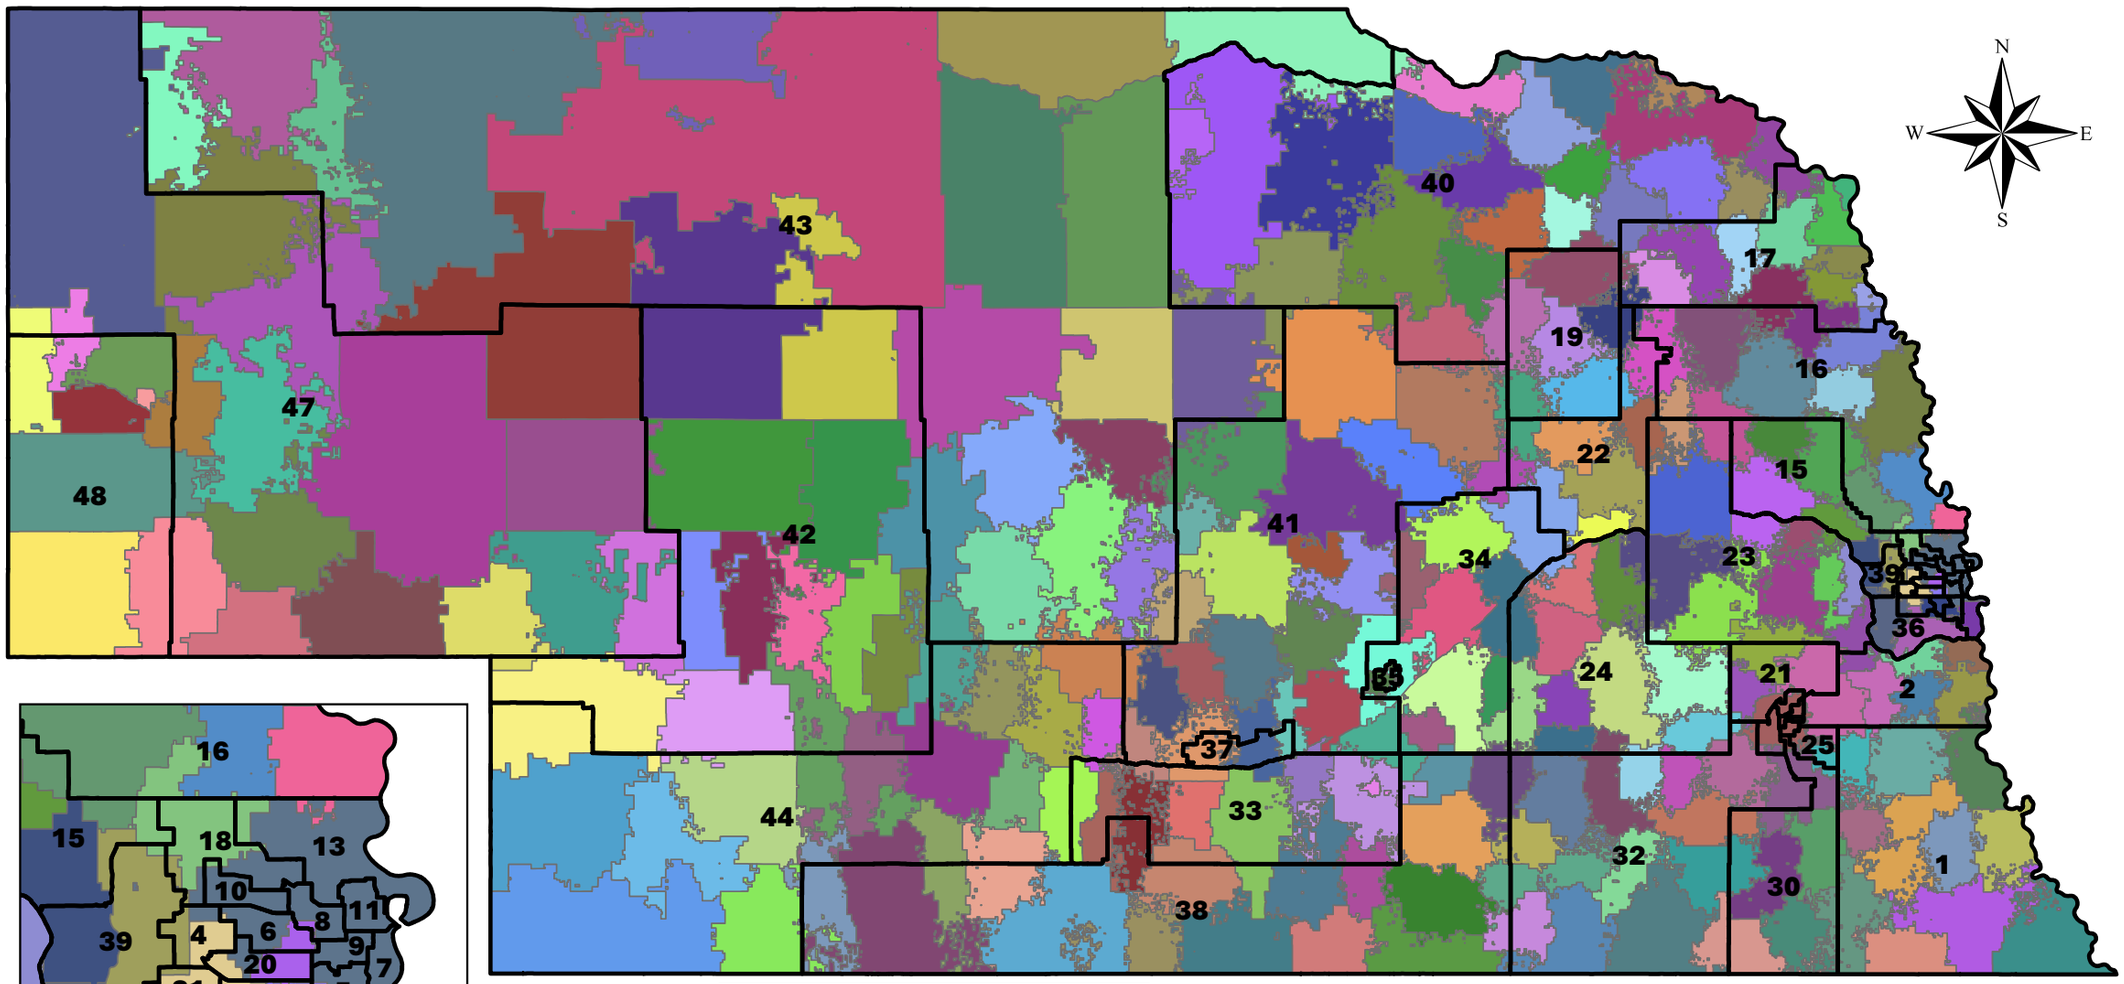

The report opens with statewide reference materials: maps pairing public school districts with legislative districts and with counties, a TEEOSA Component Chart keyed to its governing statutes, a chart of statewide school district revenue sources, and a table of the reports the Nebraska Department of Education is required to submit to the Legislature. The figures throughout reflect the most current data available as of May 2026 — chiefly the 2024-2025 school year for enrollment, staffing, and performance; 2023-2024 through 2025-2026 records for finance, state aid, and valuation; and the Census Bureau's American Community Survey estimates from 2020-2024 and National Center for Education Statistics estimates from 2019-2023 for community and household measures. Because these sources are released on different schedules, the reporting period varies by measure, and the figures are best read as a snapshot assembled from each source's most recent reporting rather than a single point in time.

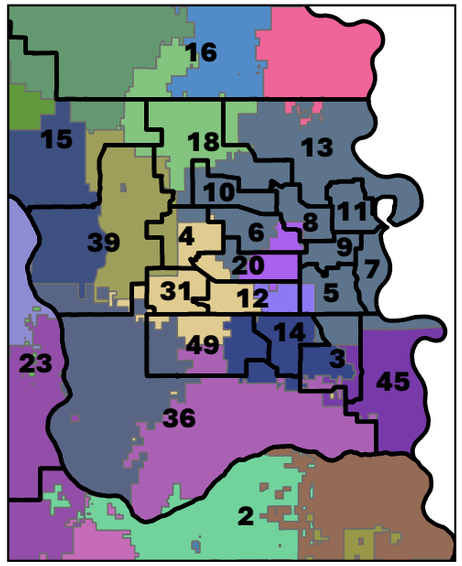

To help locate and interpret the data, four indexes at the back of the report list school districts by county, educational service unit, legislative district, and State Board of Education district. The Glossary defines each measure and identifies its source and year, with links to the underlying data, and the Sources page lists every dataset in full.

The goal of the Legislative Research Office is to continually improve each iteration of the At-A-Glance reports. We welcome your feedback on this research product and will consider it in the next edition. We welcome the opportunity to hear how School Districts At-A-Glance can be made even more useful for the purpose of policy debate and lawmaking. Please contact the Legislative Research Office in Room 1201 or at 402-471-2221 / lrd2@leg.ne.gov with any questions or if additional research is needed.

Total Revenue by Source

Revenue Source Composition

Local State Federal County Non-Revenue

Note: The 2024-25 shift from local to state share primarily reflects LB34 (2024), which frontloaded the school district property tax credit onto property tax statements beginning December 2024. Amounts previously claimed by taxpayers as an income tax credit are now paid by the state through counties and recorded as state receipts in district Annual Financial Reports.

Community	Total Population	n/a	Number of all people inside the district.	ACS 2020-2024	U.S. Census Bureau	https://www.census.gov/programs-surveys/acs.html
Community	Total Households	n/a	Number of all households inside the district. A household includes all the people who occupy a housing unit. (People not living in households are classified as living in group quarters.) A housing unit is a house, an apartment, a mobile home, a group of rooms, or a single room that is occupied (or if vacant, is intended for occupancy) as separate living quarters. Separate living quarters are those in which the occupants live separately from any other people in the building and which have direct access from the outside of the building or through a common hall. The occupants may be a single family, one person living alone, two or more families living together, or any other group of related or unrelated people who share living arrangements.	ACS 2020-2024	U.S. Census Bureau	https://www.census.gov/programs-surveys/acs.html
Community	Households with Broadband	Households with a broadband Internet subscription	Number of all households with broadband internet inside the district. These data are used by a variety of government agencies, local communities, and other data users. The Federal Communications Commission (FCC) use these statistics to measure the nationwide development of broadband access, as well as the successful deployment of the next generation of broadband technology. These data also allow the FCC to develop measures to increase access to broadband technology and decrease barriers. State and local governments can use these data to evaluate access to broadband in their communities, and institute policies and programs to increase access for areas with less connectivity. Businesses and non-profits can use these statistics to analyze computer and internet usage in their communities.	ACS 2020-2024	U.S. Census Bureau	https://www.census.gov/programs-surveys/acs.html

Financials	Yield Local Effort Rate	Yield from local effort rate – (local property resources)	Adjusted Valuation divided by 100 multiplied by the Local Effort Rate of $1.00. Each district's adjusted valuation for use in 2025-2026 state aid calculations is provided by the Property Tax Administrator (certified October 2024). Real property was adjusted to 96% of actual value and agricultural land was adjusted to 72% of actual value. Financials	Net Option Funding	n/a	For each district, the students opting out are subtracted from the students opting in at each grade level (K-12). The positive net number of students is then multiplied by 100% of the statewide average Basic Funding per formula student ($11,581.49 for 2025/26). Per Neb. Rev. Stat. § 79-1006, a Net Option Reduction of $1,500 will be calculated per the positive net number of option students and subtracted from the total Net Option Funding.	2025/26 STATE AID CALCULATED BY SYSTEM	Nebraska Department of Education	https://www.education.ne.gov/fos/state-aid/
Financials	2.23% Income Tax Rebate	Allocated income tax funds (measure of local income)	The Allocated Income Tax Funds provide a mechanism through which the income tax base of the local system is included in the Resources of the Local System. Therefore, the distribution of Equalization Aid responds to the income tax base as well as the potential property tax base of the Local System. Two and twenty-three hundredths percent of the Nebraska income tax liability of residents of the Local System is provided to the Local System as Allocated Income Tax Funds. The income tax liability information is provided by the Department of Revenue based on data submitted on Nebraska income tax forms (the Nebraska Income Tax Form requests each filer to indicate the high school district in which they reside).	2025/26 STATE AID CALCULATED BY SYSTEM	Nebraska Department of Education	https://www.education.ne.gov/fos/state-aid/

For school fiscal years 2023-24 and 2024-25, one hundred percent of foundation aid was included as a formula resource. For school fiscal year 2025-26 and each school fiscal year thereafter, sixty percent of foundation aid is included as a formula resource.	2025/26 STATE AID CALCULATED BY SYSTEM	Nebraska Department of Education	https://www.education.ne.gov/fos/state-aid/

Financials	Apportionment (TSF)	State Apportionment (Temporary School Fund)	Each Nebraska School District receives a share of the Temporary School Fund based on the 2024 census of children ages five to eighteen who live in the district. The actual 2024/25 Apportionment of $119,860,481.19 among a state total census of 380,897 resulted in an apportionment factor of $314.68 per child.	2024/25 Apportionment Payment	Nebraska Department of Education	https://www.education.ne.gov/fos/apportionment/
Financials	Unadjusted Taxable Valuation	Valuation (Unadjusted System Value)	The amount the school district may levy upon for property tax purposes. Assessed valuation is certified by the county assessor to school districts and all other political subdivisions. Unadjusted value is the same as taxable valuation, by property class, as certified by the assessor. The “total unadjusted” value represents the amount the school district may levy upon for property tax purposes.	2025 School Adjusted Values by School System, for use in 2026-2027 state aid calculations	Nebraska Department of Revenue	https://revenue.nebraska.gov/PAD/research-statistical-reports/school-adjusted-value

Financials	General	General Levy	Tax for the General Fund. The General Fund may finance all facets of services rendered by the school district, inclusive of operation and maintenance. General Fund revenues are classified according to source while its expenditures are classified according to specific functions. The General Fund must be maintained by all operating school districts in the State. General Fund expenditures are limited by the TEEOSA.	2024/2025 STATISTICAL INFORMATION FOR PUBLIC SCHOOL DISTRICTS	Nebraska Department of Education	https://www.education.ne.gov/fos/statistical-information-for-public-school-districts-levy-and-valuation-information/
Financials	Bond	Bond Levy	Tax for the Bond Fund. The Bond Fund must be used to record tax receipts and the payment of bond principal and interest, and other related costs (i.e. investment interest, etc.). If the fund balance is not sufficient to meet interest or bond retirement payments from the Bond Fund, the General Fund may be used for these payments. Revenue from a levy to retire bonds in any school district is retained in a separate fund by the county treasurer, the financial institution serving as a fiscal agent or the school district. Funds may be disbursed upon appropriate demand. Proceeds from a bond issue must be deposited into the Special Building Fund to be expended on the actual building project.	2024/2025 STATISTICAL INFORMATION FOR PUBLIC SCHOOL DISTRICTS	Nebraska Department of Education	https://www.education.ne.gov/fos/statistical-information-for-public-school-districts-levy-and-valuation-information/
Financials	Building	Special Building Levy (Sink Levy)	Tax for the Special Building Fund. A Special Building Fund must be established when a school district decides to acquire or improve sites and/or to erect, alter, or improve buildings. The sale of bonds, the sale of property, donations or tax receipts will be the primary sources of revenue for the Special Building Fund. Regardless of the source of money to be used for building construction and related costs, all income for this purpose must be accountable through this fund. General Fund expenditures for the purpose of this fund are not allowable. Special Building Fund accounting provides a more effective means of identifying those expenditures associated with construction activities and provides a complete and consolidated record of all costs of the building program at the conclusion of a project(s). If more than one Special Building Fund activity is active at the same time, separate accounts for each project may be established within the single Special Building Fund. The tax levy for this fund is restricted. The Board of Education of school districts may approve a budget with a levy limitation of $0.14 per one hundred dollars of valuation (Neb. Rev. Stat. § 79-10,120); or a tax levy not to exceed $0.175 per one hundred dollars of valuation may be established for this fund in any class of school district by a vote of the people for a term of not to exceed ten years (Neb. Rev. Stat. § 79-1098).	2024/2025 STATISTICAL INFORMATION FOR PUBLIC SCHOOL DISTRICTS	Nebraska Department of Education	https://www.education.ne.gov/fos/statistical-information-for-public-school-districts-levy-and-valuation-information/

Financials	Qualified	Qualified Capital Purpose Undertaking Levy	Tax for the Qualified Capital Purpose Undertaking Fund. A Qualified Capital Purpose Undertaking Fund (QCPUF) may be established for a specific abatement project to address an actual or potential environmental hazard, accessibility barrier, life safety code violation, life safety hazard, or mold which exists within one or more existing school buildings or the school grounds of existing school buildings controlled by the school district. Such determination must not include abatement projects related to the acquisition of new property, the construction of a new building, the expansion of an existing building, or the remodeling of an existing building for purposes other than the abatement of environmental hazards, accessibility barriers, life safety code violations, life safety hazards, or mold. The period of years for such levy may not exceed ten years and the levy for such project when combined with all other levies pursuant to Neb. Rev. Stat. § § 79-10,110.02 and 79-10,110 may not exceed $0.03 per one hundred dollars of taxable valuation. General Fund expenditures for the purpose of these funds are not allowable. If taxable valuation is lower than the taxable valuation in the year when the district last issued QCPUF bonds and the $0.03 maximum levy is insufficient to meet the combined annual principal and interest, the district can exceed the $0.03 maximum levy for the difference to meet that year's principal and interest obligations.	2024/2025 STATISTICAL INFORMATION FOR PUBLIC SCHOOL DISTRICTS	Nebraska Department of Education	https://www.education.ne.gov/fos/statistical-information-for-public-school-districts-levy-and-valuation-information/

- **Asterisk Symbol**
  - Indicates that the data is suppressed or unavailable.
- **Adjustment Amount**
  - For purposes of state aid, § 79-1016 requires the adjusted value be calculated such that: 1) all real property other than agricultural land and horticultural land is adjusted to 96% of actual value; 2) all agricultural and horticultural land is adjusted to 72% of actual value and land that receives special valuation is adjusted to 72% of the special value of the land for its agricultural and horticultural purposes only; and 3) personal property is at 100% of depreciated net book value as defined by statute
- **Average Teacher Salary**
  - The average salary includes the salaries of teachers if the district holds the contract of at least 150 days, the teacher is teaching in only one school district, the teacher is serving exclusively as a teacher and, the teacher's district average basic salary (adjusted to 1.00 Full-Time-Equivalency) is > 0 and < 100,000.
- **Bond Levy**
  - Exclusion: Bonded indebtedness. (Principal and interest only.) Does not include the repayment of principal, premium, or interest on general obligation bonds issued for insurance premium costs and the payment of all costs and expenses associated with membership in a risk management pool that are effective after April 2, 2008.
- **Community Achievement Plan Aid**
  - Only applies to school districts in a Learning Community
- **County and ESU Receipts**
  - ESU Receipts do not record grant funds which flow through the ESU to the school district; those should be recorded under the appropriate State or Federal Receipt function.
- **English Language Learners**
  - Data is suppressed if there are fewer than 10 students who are ELL
  - Factored into TEEOSA into a district's need calculation
- **Federal Receipts**
  - Many school districts participate in categorical programs that are funded in part or totally through the receipt of federal funds. Most such programs are administered directly through the Department of Education and require an application and some form of expenditure report. A separate and specific function number identifies those federal programs that are administered directly through the Department of Education.
- **Formula Needs**
  - System Formula Need may be adjusted by Formula Needs Stabilization: Needs Stabilization keeps the school year formula need between 100% and 112% of the previous year's end recalculated formula need, except the formula need for districts receiving a student growth adjustment is not decreased.
- **Free/Reduced Lunch**
  - Community eligibility provision
    - If 40 percent or more of students qualify then an entire district may elect its students to receive free/reduced lunch. Students then do not submit an application for free/reduced lunch and thus it becomes unknown what the true percentage is of those who are qualified for free/reduced lunch.
  - Data is suppressed for groups with fewer than 10 students to protect confidential information about individual students as required by federal law.
- **General Levy**
  - There is no minimum or maximum increase on the property tax request in the General Fund but if the total district levy is more than the previous year, additional information is required to be included in the Property Resolution. However, the $1.05 levy limit does place a maximum on the levy that a school can ask for in property tax for the combination of the General, Special Building and for non-bond expenditures in the Qualified Purpose Undertaking Fund.
- **Graduation Rate**
  - This rate is based on the standards published by the US Department of Education. Nebraska Department of Education lags the Cohort Four-Year Graduation Rate. The lag for graduation rates allows states to use the previous year's graduation data so that summer school graduates are included in the graduation rate calculation for reporting Adequate Yearly Progress (AYP).

NOTES

- **Instruction**
  - If proration of expenditures is not possible for department chairpersons who also teach, include department chairpersons who also teach in instruction. ESU: Quiz Bowl, Expulsion Programs, & Drivers' Ed Program.
- **Net Option Funding**
  - The total for the district cannot be less than zero. Since option students are included in the ADM counts of students used to determine a Local System's Needs, the inclusion of the amount as a Resource prevents a Local System which generates Equalization Aid from receiving both Equalization Aid and Net Option Funding based on the impact the students have on Needs.
- **NSCAS ACT**
  - Data is suppressed for groups with fewer than 10 students to protect confidential information about individual students as required by federal law.
- **Number of Schools (Buildings)**
  - The number of schools does not necessarily correlate to the number of school buildings. More than one school (elementary, secondary, etc.) could be housed in the same building.
  - There are a minimum of two schools for each district even if they are in one building. These schools may share a principal.
- **Qualified Capital Purpose Undertaking Levy**
  - School districts have a maximum of 3¢ for projects initiated after April 19, 2016. Projects in place prior to that date can have a levy up to 5.2¢. This levy is part of the $1.05 statutory maximum levy, unless the 3¢ is levied to retire bond principal and interest.
- **School Adjusted Values**
  - Only for the purposes for TEEOSA.
- **School Reorganization**
  - May 2024 - South Central Nebraska Unified 5 dissolution. Now = Sandy Creek & Lawrence-Nelson.
  - July 2025 - Exeter-Milligan & Friend consolidation.
- **Special Building Levy (Sink Levy)**
  - School districts have a maximum levy in the Special Building Fund of 14¢ or 17.5¢ with a vote of their patrons. These maximum levies fall under the $1.05 statutory maximum levy.
- **Special Education Enrollment**
  - Data is suppressed for groups with fewer than 10 students to protect confidential information about individual students as required by federal law.
- **State Aid**
  - The values for Total State Aid Calculated and State Aid (TEEOSA) would be the same number if not for adjustments.
- **Student to Teacher Ratio**
  - The unduplicated count of teachers assigned to hold the following positions: Teacher, Head Teacher, Special Education Teacher-Core Academic Subjects/Grading, Special Education Teacher-Core Academic Subjects/Alternate Standards and Special Education Teacher-Collaborating/Co-Teaching.
- **Total Levy**
  - The statutory maximum levy is $1.05 plus exclusions. Exclusions are specific amounts that are outside of the levy limitation. The sum of the levies in each taxing fund (excluding principal and interest in the Bond Fund and Qualified Capital Purpose Undertaking Fund) may not exceed $1.05 plus exclusions. These exclusions are: Voluntary Termination Agreements, Special Building Fund Projects Started prior to April 1, 1996, Judgments Not Covered by Liability Insurance, Lease-Purchase Contracts (Approved Prior to July 1, 1998), Bonded Indebtedness Approved According to Law and Secured by a Levy on Property. When these exclusions are used, the total levy may be greater than $1.05. A local system may also have held an election to exceed the levy limitation. The ballot from the election will state the maximum levy and the duration of the levy.
- **Unadjusted Taxable Valuation**
  - School district budgets are subject to a levy limitation. The levy limitation places a ceiling on the property tax rate that may be assessed against the taxable valuation in a school district.
