Index Explanation

This index is a topical index for the Revised Statutes of Nebraska. The index is divided alphabetically into index headings.

A capitalized, bold-face entry is an index heading. There are three types of index headings:

1. Topic headings;
2. Named acts found in the statutes; and
3. Cross references to other index headings.

Every topic heading or named act heading is listed in the index under at least one and often many other topic headings. The topical framework for the index headings is the Topic Headings Outline that follows this explanation.

Topic headings and named act headings usually have a “See generally” entry immediately following the index heading. This entry is a topic heading in the topic headings outline which the given entry is under. The intent is to give the index user an idea of where the entry fits into the subject-matter scheme and where to look in the index for related information.
