legislative district than the Governor has. So I think this is an attempt to put in a piece of poor government generally. I think it is a bad precedent. I think it is a bad bill and I think this bill should stop right here.

SPEAKER MARVEL: Senator Newell, do you want to speak to the bill as a whole?

SENATOR NEWELL: No, thank you.

SPEAKER MARVEL: Okay, the motion before the House is the advancement of LB 30 as amended. All those in favor of advancement of the bill vote aye, opposed no. Have you all voted? The motion is the advancement of the bill. Record.

CLERK: 25 ayes, 5 nays on the motion to advance the bill, Mr. President.

SPEAKER MARVEL: The motion is carried. The bill is advanced. The next bill, LB 130.

CLERK: Mr. President, LB 130 was offered by the Administrative Rules and Regulations Committee and signed by its members. (Read title.) The bill was first read on January 13 of this year. It was referred to the Administrative Rules for public hearing. There are committee amendments pending by that committee, Mr. President.

SPEAKER MARVEL: Senator Johnson.

SENATOR V. JOHNSON: (mike not activated)...of the body, LB 130 is a relatively straightforward bill that was proposed by the Administrative Rules and Regulations Review Committee and following public hearing was advanced to the floor with committee amendments. The bill itself is one that would authorize the Revisor of Regulations who is an official of the Legislature, the Revisor of Regulations to commence a codification system for the Administrative Rules and Regulations to develop an indexing system and ultimately to put the Administrative Rules and Regulations on a computer. I have on my desk, I just asked Chris Quinn who is our revisor, to give me a sample of what our Administrative Rules and Regulations look like so I could show them and I have on my desk three books. One is part of the Public Welfare rules and regulations. Another are banking regulations. A third are agriculture regulations. These are all state regulations and there are some thirty to thirty-five of these books that are the regulations of the various

state agencies that are covered by the Administrative Procedures Act. There is no straightforward simple system of getting into the regulations and that is one reason why the Administrative Rules and Regulations Review Committee decided to establish over a period of time a codification indexing and computerization system. Now the amendments, what the amendments do are these: The committee amendments to this bill specifically say that the computerization system shall not begin until we have completed the codification so that will defer computerization for probably two years. In addition the amendments do deal with something which some of you may feel strongly about and I want to talk about this for a second. Right now the state provides free distribution of the rules to every county law library. There are seventy-six county law libraries in this state and they get these regulations at no cost to the counties, however, most of these county law libraries have no librarian or even a librarian assistant or anybody that comes in and as a result as these rules and regulations are updated, which is almost weekly, the revisions and changes and amendments don't get put into the books and it means that very quickly the system gets out of whack and is not usable. So the Administrative Rules and Regulations Committee decided that we would amend the statute so that we don't just summarily distribute at no cost to the county law libraries the rules and regulations. We will make the distribution to a county law library only after the law library requests it. If it requests it, that would indicate they have got somebody there who at least can tend to the sets and we are then willing to send it out at no cost and if they don't request it, then we are not going to send it out. Now we have no idea what the ultimate savings will be, probably not a lot of money, it costs about \$4,500 a year to send out these sets and the updates but chances are that sum will decline significantly because of we don't think all the county law libraries will want to use the rules and regulations. But the committee amendments essentially defer the computerization process and in addition, alter to some extent the free distribution of the rules and regulations to the county law libraries and I would move the amendments at this time.

SPEAKER MARVEL: The motion is the adoption of the committee amendments to LB 130. All those in favor vote aye, opposed no. Okay, record the vote.

CLERK: 29 ayes, 0 nays on adoption of committee amendments, Mr. President.

SPEAKER MARVEL: The motion is carried. The committee

amendments are adopted. Now, Senator Johnson, what would you like to do with the bill?

SENATOR V. JOHNSON: I would like to move the bill, Mr. Speaker. In explaining the amendments, I have virtually explained the bill. The only additional factor of the bill that I didn't explain was that we specifically by the bill would say that the revisor of regulations is not an agency within the meaning of the Administrative Procedures Act so that the revisor of regulations may commence the recodification process without going through a public hearing every time there is a recodification done. Our Attorney General has given us an opinion that without this type of a change the revisor of regulations may literally be compelled to hold public hearings every time she changes some numbering system in the regulations itself and it seemed to us that that was silly and a waste of time, publication costs and the like, but by and large the bill does, as I have indicated earlier, it authorizes the revisor to begin the codification process, the indexing process and ultimately a computerization process for our administrative rules and regulations. It directs administrative agencies to get the codification process in order within the next two years and it makes the revisor of regulations at least not directly subject to the requirements of the Administrative Procedures Act. At this time I would move the advancement of this bill.

SPEAKER MARVEL: The motion is to advance LB 130 as amended to E & R for review. All those in favor vote aye, opposed vote no. Record the vote.

CLERK: 32 ayes, 0 nays on the motion to advance the bill, Mr. President.

SPEAKER MARVEL: The motion is carried. The bill is advanced. The next bill, LB 27.

CLERK: Mr. President, LB 27 was offered by Senator Shirley Marsh. (Read title.) It was first read on January 8, referred to the Miscellaneous Subjects Committee for public hearing. It was advanced to General File. I have no amendments pending, Mr. President.

SPEAKER MARVEL: The Chair recognizes Senator Marsh.

SENATOR MARSH: Thank you, Mr. Speaker. This is the very shortest bill I have ever offered in the Legislature. It is two lines and one word long simply stating that the white-tailed deer, *Odocoileus virginianus*, is hereby adopted as the official state mammal. I wish all of you could have
