CLERK: 27 ayes, 12 nays, Mr. President, on the motion to indefinitely postpone the bill.

SPEAKER MARVEL: The motion is carried. The bill is indefinitely postponed.

CLERK: Mr. President, Senator Nichol would like to print amendments to LB 242.

A new study resolution, LR 86 (read).

Mr. President, a new A bill, LB 95A. (Read title.)

SPEAKER MARVEL: Okay, the next bill, LB 400.

CLERK: Mr. President, LB 400 (read title). The bill was read on January 20, referred to the Public Works Committee for hearing. The bill was advanced to General File. There are committee amendments pending by the Public Works Committee, Mr. President.

SPEAKER MARVEL: Senator Lamb.

SENATOR LAMB: Mr. President, members of the Legislature, LB 400, I would like to explain the bill. LB 400 is a bill which is designed to use excess power which is available in the State of Nebraska, excess power which is now shipped to other states to be used by and sold to other utilities in other areas. This bill would make this power available to irrigators in the State of Nebraska at the same price that's been used in other states. Now a number of utilities have had a number of meetings in regard to this bill. Much of the concern about the bill stems from the fact that they think their particular utility or their class of utilities may be harmed by the bill, that they may be picking up more than their share of the cost. Repeatedly from the first introduction of this bill, I have assured the people that this is not the intent of the bill. We are building in all of the safeguards possible so that does not happen. The only thing that is to happen is to make the excess power available to these users in the State of Nebraska at the same price it is being used in other states by other utilities. The most recent meeting in regard to this bill was yesterday morning when a number of utility persons met to discuss the bill. Their suggestion was that the bill be held over until next year to give them time to work out the contractual arrangements in regard to the bill. My first inclination is not to go along with their thinking because I think the bill is necessary and could be passed on the floor of this Legislature. However, these people

to solve this dilemma, we've got bills to read on General File and we've got at least, three, four, five motions. How long is that going to take, Pat, the total of that category?

CLERK: Well, Senator, the A bills will probably take no more than five or ten minutes and the motions, depending on the amount of debate, somewhere between half an hour to an hour.

SPEAKER MARVEL: Okay, I would like to proceed with those General File items under General File, #4, and the three, four five items that you mentioned. Meanwhile I am going to try to see if I can't work out of this dilemma. So I would like to have you proceed and I will come back within an hour with some kind of comments.

PRESIDENT: Since there is no other motion before the House the Speaker has set his agenda and we will proceed then with agenda item #4 on General File, Mr. Clerk. We will take up General File, A bills, commencing with LB 95A.

CLERK: Mr. President, LB 95A offered by Senator Cullan, (Read.)

PRESIDENT: The Chair recognizes Senator Cullan on 95A.

SENATOR CULLAN: Move the advancement of LB 95A.

PRESIDENT: Any discussion? Senator Warner, did you wish to discuss any of these? Your light is on. 95A, alright, proceed then. Any further discussion? The question then is the advancement of LB 95A to E & R initial. All those in favor vote aye, opposed nay. Motion is to advance 95A. This is on General File, going to E & R initial. Record the vote.

CLERK: Mr. President, with respect to 556, the bill was introduced by the Speaker at the request of the Governor. (Read.) The bill was read on March 30 of this year. It was referred to the Appropriations Committee for hearing. The bill was advanced to General File. There are committee amendments pending by the Appropriations Committee, Mr. President.

SENATOR CLARK: Senator Warner, on the committee amendments.

SENATOR WARNER: Mr. President and members of the Legislature, LB 556 is the bill that reflects the increased premiums when the health insurance that is provided for state employees, other than higher education, when those new bids were opened and those dollar amounts will be explained. The committee amendment that is offered merely, well, back up. The amendment was offered at the committee hearing requesting that the legislation require that coverage for abortion be made available at the employee's expense and the presentation was based upon the testimony by those who appeared that the prohibition or the requirement for this, for an abortion to be paid for by the individual employee had been suggested when the legislation that prohibited state funds was being considered and enacted and they wanted some assurance that, in fact, that would occur. If you look on page 1877 of the Journal there is a letter which I requested of the Attorney General requiring two things relative to the amendment, first, whether or not whether it would be constitutional and I think you can summarize the response on that, that if the original legislation prohibiting it is constitutional then this is probably constitutional or if LB 125 is not constitutional then neither would this be either. So that seems to be a draw. The other request for an opinion, however, was whether or not we would jeopardize by the adoption of this amendment the coverage that the state might have for its employees under the new bid and it would be my understanding from the Attorney General's letter that if the amendment is adopted, that then it would be expected that the state would find someone who would provide that coverage for those who wanted it and provided they could find some company of some kind that would provide this kind of coverage then the conditions would be met and
