substantive, there are some things that are not?

SENATOR CLARK: Senator Haberman.

SENATOR HABERMAN: He didn't ask me a question.

SENATOR CLARK: He wanted to know if you wanted to summarize all of them. Is there any further debate? If not, we are back on the original motion. All those that support the Haberman motion will vote aye, opposed vote nay.

CLERK: Senator Clark voting no.

SENATOR CLARK: Have you all voted? Record the vote.

CLERK: 7 ayes, 15 nays, Mr. President.

SENATOR CLARK: Motion lost. We are on LB 268 (sic).

CLERK: Mr. President, LR 268 offered by Senator Chambers it is on page 1403 of the Journal.

SENATOR CLARK: Senator Chambers.

SENATOR CHAMBERS: Mr. Chairman, this is a resolution designed to take a vote on whether or not the rules in the Legislature should be applied fairly, equitably and without discrimination across the board to every member of the Legislature. I think you all remember the issue that spawned the resolution. It involved me and the Lt. Governor and he made a ruling out of peak perhaps, but nevertheless his ruling was wrong. There was a motion that the rules in title to be taken up and he just said that he was not going to do it, that is the end of that. I have had other occasions when things are done with reference to me that are different than what would be done with reference to the other senators. We had many demonstrations of that during the last eight or ten days and to refresh your memory I was going to offer some amendments relative to the death penalty relative to another bill. Senator Pirsch stood up and said it was "blackmail". Senator Higgins stood up and said she would never give me another vote on another issue. Everybodys jaws were tight, everybody was fuming as though it was the worst thing to happen in the world. Senator DeCamp tried to explain to some of them that the rules allowed this and that is all that it is and maybe you ought to consider what you are saying because we do have some days left and similar things are going to be done by others. Sure enough, the very next morning we were embroiled in discussion of issues that were similar to the kind that I had dealt with the night before. So, the purpose of this resolution is to obtain a vote on whether or not the Legislature feels that the rules which it has adopted, should be applied by

whoever sits in the chair, across the board, without discrimination to every member of the Legislature. If you have any questions about the resolution ask me and I'll answer them.

SENATOR CLARK: The question before the House is the adoption of the Chambers resolution. All those in favor vote aye, opposed vote nay.

CLERK: Senator Clark voting yes.

SENATOR CLARK: Have you all voted on the Chambers motion, on the resolution? Once more, have you all voted on adoption of the resolution. Senator Dworak.

SENATOR DWORAK: Mr. President, I would like to request a Call of the House and a roll call vote please.

SENATOR CLARK: He has the. . . record the vote.

CLERK: 25 ayes, 0 nays, Mr. President, on the adoption of the resolution.

SENATOR CLARK: The resolution is adopted. LB 269 (sic).

CLERK: Mr. President, 269 offered by Senator Burrows is found on page 1407 of the Journal.

SENATOR CLARK: Senator Burrows.

SENATOR BURROWS: Mr. Chairman and members of the Legislature, this resolution deals with the interest rates and it is very similar to the resolution we passed the last two years in making recommendations that the federal government, the President, the Congress and the Federal Reserve Board make every move in bringing down the interest rates which is probably one of the most important moves that could be made by the federal government today. We have a home building industry that has been practically shut down for a year and a half, we have agriculture with hundreds of farmers going out of business and one of the fastest rates of bankruptcy in small business across the nation and the resulting unemployment that is climbing, I think it is time the federal government react to the situation and either force the Federal Reserve to move to lower the federal rediscount rates or redo the federal system. Now we are recommending that they take appropriate action to reduce interest rates nationally in the resolution. I think it is imperative that the Legislature speak out and let it be known that Nebraska is not satisfied with the national monetary policy. I introduced this resolution when President Carter was still in office, after he had appointed Mr. Volker to Chairman of the Federal Reserve Board, I feel
