things going for you. Number one, the fact that the industry itself is willing to put some money into it. Now if at this time when we have been guaranteed that the 2 million will be there provided by the industry, is going to be a signal to our people at the federal level that we have lost our interest, we are pulling back. The second thing she said you have got going for you, that under the present attempt to put some state money into it is going to be of great help for me if you expect me to do something for you. I think it is unwise at this point to say we are not going to put that in and I think that it is something that is positive that will be used if we expect to get any federal funds. I do oppose your amendment, Senator Koch, at this time.

SPEAKER MARVEL: If there is no objection we will stop here and come back after one-thirty and wind up the discussion because we are not going to get it done before noon.
